Jobbing Shoe Trade of Pittsburg Never Better Than Now.

GRAIN SHOES IN SHORT SUPPLY.

Bemand for the Best Harness Leather is Fully Sustained.

WESTERN EGGS GO FOR HOME STOCK

OFFICE OF THE PITTSBURG DISPATCH, TUESDAY, November 18, 1890. Boot and Shoe Trade.

The jobbing sace trade, of Pittsburg, was never in a healthier condition than right now. The advance in prices of 10c to 15c on all articles of loot wear, which was established some months ago, is fully sustained in some lines of goods. Jobbers are behind in meeting orders. The demand for grain leather goods is fur below supply. Eastern manufacturers of grain leather shoes refuse to duplicate orders, of late, without an advance of about 21/2c per pair over rates of a month ago. New Eugland manufacturers of shoes are working up to their full capacity, and products are going out as fast as they are ready for market. The upward movement is greatest in the line of cheap goods. Higher grades vary very the p goods. Higher graces vary very little from prices of a year ago. The advance in rubber goods from the jobber to the retailer the past year has been about II per cent. As the aide and leater market of late has been tending to lower prices, probabilities are that our footwear will be cheaper next year, but at this time there is a good demand for all lines of boots and shoes at the advance established last storiar.

Harness Leather.

One of our foremost manufacturers of horse equipments said yesterday: "Our business is in as healthy a condition as I have ever known it, and my knowledge of the trade in Pitisburg almost covers a half century. A few days ago almost covers a half century. A few days ago I placed an order with an Allegheny tanner for 30 sides of the best harness leather per month, for I4 mouths to come, at present prices. The high grade, of harness leather seldom vary in price, and, as this is the grade my custom calls for, I have no lears that prices will be any lower from now till 1882. The lower grades are up and down, and are an uncertain quantity. "The range of prices now from low to high grade harness leather is 22c to 38c per pound. Our best leather is made from hides imported from Germany.

Germany, single German hide cut up in my estabis-liment to-day weighed 55 pounds after it had been through the Allegheny vars and finished not harness leather. This was almost double he average weight of harness leather produced. Tricks of Trade.

There has been a great scarcity of fresh early eggs in our markets for a week or two

nearby eggs in our markets for a week or two past, and country peddlers have found a difficulty in meeting the wants of their customers. Necessity as the mother of invention. Two large wagons covered with heavy canvas which had all the signs of traveling over Western Peansylvania roads, were seen lately in front of one of our commission houses loading up with Western eggs. The 30 dozen cases were being empitied into the large chests of the country wagons, nartly filled with outs, and were no doubt, retailed out to retail grocers and families of the city and satisfies as treshly gathered country eggs. The jobbing prices of these eggs was 21c per dozen, and the price to the victims was 25c per dozen, and the price to the victims was 25c per dozen. An East End housekeeper said yesterday, that the peddler on whom she relied for butter and eggs, reports that it has been impossible to secure any fresh eggs on his beat of late. He had not caught on to the track of gathering fresh country hen from from the Plitsburg dealers who gather land supplies from as far West as Southern Dakora.

bere is a story of a preacher, who, after algaining for an organ for his Sunday school, ad pocketing a \$50 commission, said: "Tricks all trades but ours."
Evolently there are tricks in the egg trade.

A BIG BODY OF LAND AT GLENWOOD Upon Which to Erect a Roundhouse, Ma-

Pays \$200,000 for

chine Shops and Extensive Yards. THE BOSTON BUILDER MAKES A START

The Baltimore and Ohio Railroad, after protracted efforts to acquire land at Glenwood upon which to build a roundhouse, machine shops and other structures necessary to the transaction of its large and growing business at that place, has at lust accomplished its purpose, having just closed a deal for between 30 and 35 acres for \$200,-000. The negotiations have been under way for about a year ..

The land adjoins that previously owned by the company at Glenwood, containing the roundhouse and yards, and is well adapted to the uses to which it will be put. It formed part of the Blair estate, which is one of the most extensive in the Twentythird ward. The part purchased by the company fronts on both the railroad and the Monongahela river.

Work on the proposed improvements will be

gin next spring, if not sooner. The present roundhouse, which is totally inadequate to the demands of business, will not be torn down, but enlarged, as will also the machine shops. The yards will be extended and improved, so as to meet the requirements of traffic both now and for years to come. It is the intention of the company to make them as complete and

The price paid for the land, \$200,000, or about \$6,600 an acre, while more than an individual would have been willing to pay, is considered reasonable in view of its importance to the company, and in view, also, of the fact that railroads are nearly always compelled to pay

railroads are nearly always compelled to pay outside prices. The deal is one of the largest that has taken place in Pittsburg for a long time, and is of great importance to Glenwood and tributary districts.

No better evidence can be found of the rapid growth of business in Pittsburg than the fact that the railroads find themselves hampered for room. The Pennsylvania Railroad regrets that it did not secure more ground at East Liberty when it had the opportunity. The Baltimore and Ohio, wiser than its rival, has provided by its acquisition at Glenwood for the indefinite expansion of traffic over its lines, and thus, by anticipating a necessity sure to arise, put itself in a position to keep step with the material advancement of the city.

Advice to Land Owners

Pittsburg is so completely environed by eligible building locations, which are, or soon will be, within easy reach of the business quarter, that it is impossible to put up prices of real estate beyond a reasonable point and maintain them. On this subject a prominent

PHILADELPHIA—Flour dull. Wheat—Opbroker said yesterday:
"The increase in the value of property in some parts of the East End, and particularly along the Pennsylvania Railroad as far out as Wilkinsburg, is developing a good inquiry along the Fort Wayne and Panhandle rail-roads. This inquiry will broaden as means of roads. This inquiry will broaden as means of communication are improved, for location as well as prices favor the movement. If East End owners desire to maintain the supremacy of their district in the estimation of buyers, they must moderate their views and not toss values beyond the reach of all except the affinent. Buyers have such a variety of locations to select from that they cannot be coerced into never extraorant prices."

This is excellent advice and if owners act upon it they will not only advance their own interest by finding quicker sale for their property, but give a fresh impetus to real estate in general. The East End offers many and unsurpa-sed attractions to home-seekers, but there are those who are unable to pay extravagantly for the privilege of living there.

improvement of the city is the substitution of flagstone for brick sidewalks on all business streets. Storekeepers are willing to pay better rents for stores that have stone sidewalks than rents for stores that have stone sidewalks than for those which have brick. The latter become loose in the winter, squirt the water upon pedestrians, keep the show-windows dirty, and have a generally ragged and uninviting look. When property owners learn that brick sidewalks in front of a store are a drawback, they will put down the better sort. Fifth avenue extension from the Court House to Soho would be greatly improved by the reform above urged.

Business News and Gossip. It is rumored that the city has designs upon

several properties adjoining Highland Park, the enlargement of which is in contemplation. The Baltimore and Ohio Railroad deal at Gienwood will give that place a boost.
Owners of real estate in the East End should reflect upon what a broker says elsewhere in this column. It is good advice. Builders are doing all they can to head off the

tiquidation imparted a weak tone to the market, but this was offset by the general con-viction that things had touched bottom, and that a change for the better was in sight. Nearly all the leaders were lower in sympathy with the downward movement elsewhere, but there were no bad breaks and no ground lost that cannot easily be recovered. The greatest losses were austained by Philadelphia Gas, Electric and Central Traction, Pleasant Valley, Luster, and Manufacturers' Gas improved their standing. There were no other material changes. Sales at the first call were 60 shares of Phila delphia Gas at 234, 10 Chartiers at 25, 35 Electric at 26 and 10 at 284. Sales at second call were 170 Philadelphia Gas at 25, 20 Electric at 26 and 5 Pleasant Valley at 25, 8ales at third call were 10 Philadelphia Gas at 25, 8ales at third call were 10 Philadelphia Gas at 25% and 100 at 22%. Total sales, 485 shares.

HOME MONEY.

A Dearth of New Features Equivalent to Good News.

There was nothing new at the banks yesterday, which was really the best of news. If there had been anything wrong it would have reached the surface. Money was quoted at 627 per cent the usual rates, and regular customers obtained all they wanted, but outsiders were not so fortunate, as bankers were averse to extending their loans. Exchanges were \$2,782,042 29 and balances \$353,759 60. Money on call at New York yesterday was tight, ranging from 3 to 39 per cent, last loan \$, closing offered at 3. NEW YORK STOCKS.

Bears Get in Their Work on a Dull Market -Money Rates Much More Demoralized

Than Stocks-Bonds Better Than Either. NEW YORK, November 18.-The shrinkage in the volume of business at the Stock Ex-change, which was so marked yesterday, made further progress to-day, and the returning dull-ness indicating that no material demand for stocks existed, induced more selling by the ears, and the tone of the market was weaken than it has been since Saturday morning, reulting in many marked losses for the day. The bears were more aggressive than usual on

sulting in many marked losses for the day. The bears were more aggressive than usual on a market of the caliber displayed to-day, and there was a renewal of the old tactics, of which spreading reports reflecting upon the financial standing of prominent firms in the street was one of the favorites.

The monetary situation was one of the most influential factors, however, in restricting buying, and while money was much easier during the latter portion of the day its scarcity in the forenoon told severely against prices. It was reported that many banks to-day took out Clearing House certificates, and the criticisms of these banks and tenders who were industriously calling loans yesterday was most severe. The relief came too late to have any material influence upon the market. It was also reported that there is a hitch in the Gould Union Pacific deal. The report was followed by an attack upon Union Pacific stock.

The foreign situation offered little consolation this morning, and while early London prices were generally higher than our figures of last evening, a weak and declining market twas soon developed there, and the demand here, which comes principally from investors who pay for their securities outright there, was not a sufficient buying power in the market to withstand the onslaught of the bears. The latter attacked Jersey Central and Pacific Mail and the former dropped 6 per cent in a short time and the latter 5 per cent on very light trading.

One failure was announced in the forenoon

time and the latter 5 per cent in a short trading.

One failure was abnounced in the forenoon and one in the afternoon, and while they had much influence to lower prices, they acted as a further deterrent from buying, and in conjunction with the scarcity of money effectually quelled the resisting power of the market before noon. The attacks upon the stocks before mentioned were followed by pressure over all the whole list, while they yielded more or less the best prices of the forenoon, reaching as high as 4 per cent, with Lackawanna specially prominent in the drop.

There were rumors of further trouble among the roads west of the Mississippi, and this affected the Grangers to some extent; but those stocks were never very active, and their movements were comparatively small. The one

ments were comparatively small. The one strong point in the list was Distillers and Cat-tile Feeders' Company, which scored a gain of about 2 per cent and held most of it at the

Railroad bonds maintained about the same moderate volume of business, and to-day the market showed a materially better tone than vesterday, although the final changes to-night show many material losses. The sales of all issues reached \$2,142,600, ont of which Northern Pacific 55 contributed \$103,000. There was a wide and even distribution of the rest of the business, and the changes in quotations were not so marked as during the past few days. The active issues generally displayed considerable strength, but only Iron Mountain scored any marked advance, rising 24, to 87. The other changes are generally for losses. Northwestern Consols are 3% lower, at 135%; Omaha Consols 2, at 117; Erie seconds 2, at 91%, and Mobile and Ohio 4s 3, at 59.

The Post says: The money maket is in a much more denoralized and abnormal condition than the stock market. While the New York and Boston banks have aiready adopted the use of Clearing House certificates, and Philadelphia banks are about to do the same, thus relieving the strain for money in the daily settlements and enabling the banks to extend that much more aid to customers, if they desire to do so, money for call loans on stock collateral ran up to 5% of I per cent per day yesterday afternoon on the Stock Exchange. Whether this scarcity is to any extent due to the locking up of money by bear operators for effect on the stock market is difficult to say, but probably it is not. It is certain that the chief cause is the fact the banks do not offer their balances on the Stock Exchange amoney at 6 per cent, others who are obliged to bid for it on the Stock Exchange must pay the exorbitant rates. This, of course, compels many o

Territory wools are firm on a scoured basis of 60@63c for fine, 58@60c for fine medium, and 53@55c for medium. Texas, California and Oregon wools are steady and quiet. In pulled wools there has been steady trade and prices are sustained: 40@45c for best super: 35@38c for fair to good super, and 22@28c for extras. Foreign wools are firm, but quiet.

Trinidad's King of Coal. The citizens of Trinidad, Col., have hit upon a novel exhibit of their greatest in-dustry for the Colerado Mineral Palace. It consists of a statue of a king made of coal, seated on a pedastal of coke, elegantly finished in coal and gilt, fourteen feet in height. It is a marvelous conception and introduces every resource of southern Colorado-all located in and about Trinidad. The principal displays made in the pedestal are coal, coke, iron, silies, Trinidad cement, copper, building stone, silver, gold and other precious minerals. The exhibit is in the hands of an artist who is a veritable genius. "King Coal" will alone be worth a trip to see. At night the statue will be lighted brilliantly with 110 electric lights. The exhibit will represent a cost of several thousand dollars. For full information address the Triuidad Land and Improvement Co., Triuidad, Col.
