been in Europe at the time of the election. Mr. Lauterbach resigned as Vice President, but will continue as counsel to the com-pany. His place was filled by the election of Mr. Houston as Vice President and Gen-eral Manager, and George J. Gould was elected President. It is understood that the active management of the company will devolve, as heretofore, upon Mr. Houston. The negotiations that have resulted in those changes were conducted by John Bloodgood.

REASON FOR THE CHANGES. The principal reason for making the changes is said to have been the new relations which Jay Gould and his associates have assumed in relation to the Union Pacific Railway

Company, the western terminus of which will soon be identical with that of the Northern Pacific on Puget Sound. It is currently reported that the Gould party have acquired an interest of several thousand shares in the property. The stock, which broke badly on Tuesday, recovered all of

the loss it sustained on that day. It is believed that the Chicago banks will follow the example of the Boston and Philadelphia Clearing Houses in the matte of issuing certificates. Six or seven banks in Boston have applied to the Clearing House Loan Committee and have received certificates to the amount of \$1,300,000. This will unquestionably enable that center

to transact its business without leaning heavily on New York, as it has had to do during the last day or two.
