Has the Price Been Unnaturally Depressed, and This is All Because of the

MANIPULATIONS OF MONOPOLY.

The Statement and Arguments Advanced by One of the Most Prominent and Well-Posted Operators.

THE PLACE TO APPEAL FOR RELIEF.

Latest Special Reports From the Various Field Points of Interest.

A prominent operator, well posted upon petroleum subjects, made the following statement to a DISPATCH representative. He disputes the statement that the statistical position of oil is weak, and says:

Statistics show that the average price of refined oil for export was a fraction greater in 1890 than during the same period of 1889. Statistics also show that the aggregate amount paid for crude oil during the first ten months' period of 1890 was \$3,000,000 less than was paid during the same period of 1889. It would thus appear that even granting the statements to be true that the exports of refined oil for the period named "did not bring

Company obtained a large portion of the oil territory of the Lima field are now in operation in the Pennsylvania field; viz., to depress values of crude oil and acquire the producing territory of the weak and disheartened producer. ritary of the weak and disheartened producer. What this system of oppression may lead to cannot be foretold. The producers have been deluded often enough to convince them that their interests are not safe entrusted to the one buyer. They now need no further proof of this, and yet they are idly trusting while they are daily growing more powerless to help themselves by marketing their own oil. They can, however, appeal to the courts, to logislation, and to the press to redress their wrongs. When bad men conspire the good should combine. Let us have a combination.

A PAYING PRODUCER.

A Survey of the Developments of the Past Few Days.

SPECIAL TELEGRAM TO THE DISPATCH ! BELMONT, November 21.-The Davis farm well, owned by Mandeville, Kerr & Co., located six miles north and one mile east on an 180 line from the Brown well, came in Saturday and has since been flowing on the ground. Tankage is being put up to-day and by to-morrow a gauge of the well can be had. While the well is not likely to figure in the category of gushers, there is no question but what it will be made a paying producer, and has opened considerable prospective territory. The Forsythe well, on the Gutherie farm, located 2% miles northeast from the Brown well, which is about midway between the Davis farm well and the Brown, is on top the sand and is being worked for a mystery. The Waverley well, five miles atheast from the Eureka development, has been treated to a liberal shot and is now

ard, located 250 feet east and up the river from Steward's No. 1, is due to-morrow. The well on the 215-acre Ruttencutter is on top the sand, and showing for a well, while No. 1, on the 25-acre Ruttencutter, was shot Monday with 30 quarts of glycerine, which raised its production to 30 barrels a day. Ackerley & Sammel's No. 1, Rufus Greene, came in yesterday, and is good for 60 barrels

The St. Mary's well is producing 30 bar-rels a day, and still drilling. There are five new rigs up in this vicinity. Fred Boden & Aiken's No. 2 at Cairo, Ritchey, is in and dry; it is located 1,500 feet south from their No. 2, which is producing four barrels per day.

AN INTERESTING WELL.

A Difference of Opinion Which Has Led to Some Wagers.

"SPECIAL TELEGRAM TO THE DISPATCE" MANSFIELD, November 21.-The Mellon & Co. well on the Scott farm, for the past week has attracted no little attention, and its possibilities discussed with much interest. Opinion among producers as to the caliber of the venture has been about 'alf and 'ali, and in some instances they have backed their opinions by putting up collateral, while a number of boxes of cigars and new hats are wagered on the result. At 10 o'clock to-day the well was eight feet in the sand, and making occasional flows at the rate of 75 barrels a day. The drill was bouncing on a hard shell when the reporter left the well, but the owners thought they would find another pay when this was

drilled through. The formation in this well differs from the McCurdy, as the oil was found in the top of the first pay of the latter well. At 8 o'clock to-night Mr. Smith, the contractor, who drilled the McCurdy, telephoned Mr. Spark, one of the owners of the Scott well, from Mansfield, that the drill had broken through the shell, found another pay and that the well was making 35 barrels an hour. If this report is true, it is safe to predict that Mansfield will yet assume important pro-portions in the production of the Southwest

THE SIGNS OF DRAINAGE.

Even With Agitation There is a Decided De-

crease in the Flow. SPECIAL TELEGRAM TO THE DISPATCH. WILDWOOD, November 21 .- As previously reported by THE DISPATCH, the southwest line of this famous field is commencing to show drainage. Its staying qualities, however, have been remarkable and but few pools can show a record as good. The Governor Pattison was agitated to-day, and to-night is only making 31 inches an drilled awhile to-day, which increased its production from 10 barrels an hour to 20 barrels an hour. There is no particular shange at the Smith Farm Oil Company's No. 4, while a small shot in their No. 3 today raised the production for awhile to 40 barrels an hour. The Barnsdall & Co. Zigenhein is making from 20 to 24 inches an hour, while Byrn & Steele No. 3 Simpson has declined to 350 barrels a day. Harbush No. 8 is producing 20 inches an hour

A REDEEMING FEATURE.

A Well at Chartiers From Which Considerable is Expected.

PECIAL TELEGRAM TO THE DISPATCE. CHARTIERS, November 21 .- Chartiers today partially redeemed its reputation in the bringing in of Fisher's well, on the Gutherie, located 300 feet southwest of their Sciennille. The pay was tapped about noon, when the well began flowing, and by practical operators it is claimed the venture

will be made as good a producer as the The boiler was moved out this afternoon and to-morrow the drill will again be set in notion. This is one more step toward Jack's

Produced Nearly 50,000 Barrels. SPECIAL TELEGRAM TO THE DISPATOR. BUTLER, November 21.-The Jefferson

Center Oil Company's No. 1, on the Kornrumpf farm will be seven weeks old Monday, and is still making 47 barrels an hour. The well has produced between 47,000 and 50,000 barrels of oil. The same company's No. 2, on the Sennee farm, completed a few days ago, is no good, notwithstanding the report that it was a big well. There are five other wells drilling in this pool, one of which, located on the Byreley farm, and owned by Mr. Hardman, will be due tomorrow. The result is looked for with some interest.

Regarded as an Important Strike. "SPECIAL TELEGRAM TO THE DISPATOR.1 TAYLORSFIELD, November 21.-The well on the Ramsey farm came in yesterday, and will make a nice producer. This is re garded as an important strike in the terri-

Not Very Much Gas There. The gas well on the Lee estate, near Hulton station, Allegheny Valley Railroad, referred to in yesterday's DISPATCH, has but very little gas, and what there is was found in the stray, above the Speechley sand.

BIG STRIKE PROBABLE.

Six Thousand Alabama Miners May Go Ou on December 1.

INPECIAL TELEGRAM TO THE DISPATCH. BIRMINGHAM, ALA., November 21 .refined oil for the period named "did not bring a balance of \$2,00,000 in 1890 as in 1889, there was taken from the producers of oil over \$3,00,000 to make up this deficiency, leaving a balance of \$2,00,000 taken from the producers to swell the profits of the self-styled benefactor, the Standard Oil Company.

The price now paid for crude oil is 40 per cent less than the price paid during either of the periods named of 1880 and 1890, and yet the refined market for export is above the average market for reflued oil for either of the said periods. There is thus taken from the producers of oil about \$1,000,000 per month more than curring 1880 and 1880, and yet the market value of reflued oil are not been reduced, the stocks of crude oil are not being increased, and no legitimate cause exists for the depreciation in the walue of crude oil. Where does this wealth no to but to enrich the one buyer of the crude oil and to render their power over the business more absolute to subordinate all intenses to their control?

The same methods by which the Standard Company obtained a large portion of the cil territory of the Lina field are now in operation. Six thousand coal miners, nine-tenths of all

NEW ADVERTISEMENTS. A LITTLE BABY'S SKIN

Scalp Covered With Sores. Wonderfully Rapid Cure by the

I have used your CUTICURA REMEDIES in two cases where it proved to be successful. The first was in the case of a boy a year and a hair old. His face and body were in a terribic condition, the former being completely covered with sores. I took him to the Massena Suiphar Springs, but he did not improve any. I was then advised to try the CUTICURA REMEDIES, which I did. He took one and one half bottles of CUTICURA RESOLVENT, when his skin was as smooth as could be, and is to-day. I used CUTICURA on his sores, and the CUTICURA SOAP in washing him. He is now five years of age, and all right. The other case was a disease of the scalp, which was cured by washing with the CUTICURA SOAP and rubbing in the CUTICURA, one bottle of CUTICURA RESOLVENT being used. It is surprising how rapidly a child will improve under this treatment.

JOHN R. BERO, Hogansburgh, N. Y.

Itching and Burning Skin

I have been afflicted since last March with a skin disease the doctors called eczema. My face was covered with scabs and sores, and the litching and burning were almost unbearable. Seeing your CUTICURA REMEDIES so highly recommended concluded to give them atrial, using the CUTICURA and CUTICURA SOAP externally and RESOLVENT internally for four months. I call myself cured, in gratitude for which I make this public statement, MRS. C. A. FREDERICK, Broad Brook, Conn.

Why Suffer One Moment

From torturing and disfiguring skin diseases, when a single application of the CUTICURA RAMEDIES will in the great majority of cases, afford instant relief in the most agnonizing of itching, burning, scaly, crusted, pimply, and blotchy skin, scalp and blood diseases with loss of hair, and point to a speedy, permanent, and economical cure, when the best physicians and all other remedies fail.

Sold everywhere. Price, CUTICUEA, 50c: SOAP, 25c: RESOLVENT, \$1. Prepared by the POTTER DRUG AND CHEMICAL COMPORATION, Boston, 43"Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations and 100 testimontals. BABY'S Skin and Scalp purified and beau-
