Cuticura Remedies.

I have used your CUTICURA REMEDIES in two cases where it proved to be successful. The first was in the case of a boy a year and a half old. His face and body were in a terrible condition. He look lim to the Massena Sulphur Springs, but he fid not improve airs. I was then advised to try the CUTICURA REMEDIES. which I did. He took one and one half bottles of CUTICURA REMOUVENT, when his skin was as smooth as could be, and is other, I used CUTICURA SOAF in washing him. He is now fro years of age, and all right. The other case was a disease of the scalp, which was circle by washing with the CUTICURA SOAF and rubbing in the CUTICURA, one bettle of CUTICURA RESOLVEST being with the CUTICURA SOAF and rubbing in the CUTICURA, in bottle of CUTICURA RESOLVEST being used. It is surprising how rapidly a child will improve ander this treatment.

JOHN R. BERO, Hogansburgh, N. Y.

I have been afflicted since last March with a skin disease the doctors called eczema. My face was covered with scabs and sores, and the itching and barning were aimost unbestable. Seeing your CUTICURA KUMEDIES so highly recommended, concluded to give them a triat, using the CUTICURA and CUTICURA SOAV externally and HESOLVEST internally for four months, I call myself circle, in graffinde for which I mase this public statements MRS. C. A. FREDERICK, Broad Brook, Conn.

### A MINISTER JAILED.

The Rev. Peter Roberts Will Spend the Next Three Months in Prison.

SPECIAL TELEGRAM TO THE DISPATCE.! SCRANTON, November 22.-The Rev. Peter Roberts, whose reputation has been extended through his being the defendant in a breach of promise suit brought against him by Miss Anna Husaboe, and against whom the jury rendered a verdict of \$3,000 damages, was surrendered by his bail to-day, and will to-morrow spend his first Sunday in the county jail. The reverend betrayer of Miss Husaboe's affections is a poor man, and it would have distressed him had he made arrangements to meet the amount of the judgment. He can secure his liberty after three months under the insolvent laws. It is charged that the Rev. Mr. Roberts has an-

other object than poverty in offering himself for imprisonment. Bad as was the evidence against him, his old congregation asserts its faith in his incence, and he will now command the sympathy of the friends who have so faithfully defended him. By many he will be heralded as a martyr. His surrender was attended with the greatest secreey, and court officials aided him in seeking to keep it from

the newspapers.
Roberts has been appointed editor of the Blade, a small weekly publication, and will continue to edit it in his prison cell.

### MILITIA MAY TURN OUT.

Possibility of the National Guard Attending Gov.-Elect Pattison's Inauguration.

SEPECIAL TELEGRAM TO THE DISPATCE. HARRISBURG, November 22 .- Governo Beaver stated to-day that he had requested Adjutant General Hastings to call on Governor-elect Pattison and inform him that the head of the retiring administration was anxno creditor could gain any advantage over | lous to extend any courtesy to his successor that might suggest itself to the latter. In his interview with his Adjutant General, Governor Beave: mentioned the propriety of having the National Guard participate in the inauguration of the incoming Chief Magistrate of the State, especially in view of the great interest Mr. Pattison had manifested in the success of the militia while he was Governor of the Commonwealth. The appearance of the militia at that time will depend on the action of Mr. Pattison.

Governor Beaver says he was opposed to having a military display when he was inaugurated. There was reason, he said, in the argument that the weather was too cold n January to justify the calling out of the National Guard, but the troops were much better prepared to resist the rigors of winter now than they were when he was inducted into office, all having since then having been provided with warm overcoats.

Entirely New Pullman Dining Cars on the Pennsylvania Lines West of Pittsburg. The management of the Pennsylvania lines west of Pittsburg are determined to be abreast of the times in all that pertains to the welfare and comfort of their patrons, and, therefore, beside affording them rapid transit in modernized coaches and the best abilities so much that there is no cause for Pullman sleeping cars, new dining cars are

placed at their disposal.

The old "diners" are abandoned and entirely new dining cars, embodying the latest improvements, equipped with every con-venience, finished in exquisite taste and fully up to the incomparable standard of excellence constantly maintained by the famous Pullman Company, are now running upon the morning express trains westward from Pittsburg, over both "The Panhandle Route" and "The Ft. Wayne Route," re-No more brief stops for indifferent meals. You can "fare sumptuously every day," at your leisure and in comfort, while rolling across the country at 40 miles an hour, upon

since the State was apportioned in 1885. It will take 93 to elect, and of these John J. Ingalls has somewhere in the neighborhood of 75. Thirty-eight votes in the Senate belong to him, and these, with the 13 new members and 24 old ones, make up the sum total of his strength. The Democrats on joint ballot have 11 votes, all told. The balance is Farmers' Illiance, composed of men who were formerly Republicans or Democrats, but who are neither just now. They form a solid and purely inde

INGALLS' CHANCES ARE SLIM. It does not matter much who the Democrats vote for, but the compliment will probably go to Glick or Blair. The Republicans, of course, will vote for Ingalis, but the Farmers' Alliance has not yet decided upon a candidate. Personally I am a Democrat. I would like to see Ingalls elected, but my reasons are purely pergails elected, but my reasons are purely per-sonal. I don't think he can possibly secure the Democratic vote. The seven Democrats will never vote for a Republican unless they are so situated that they have to decide be-tween two Republicans. That situation may come up if Canfield gets the nomination, and they would vote for Canfield because he is a free trader. Ingalis has chaptes, but they are slim.

TANNER ROLLING IN WEALTH. Corporal Tanner has cause to bless the day when President Harrison called for resignation as Commissioner of Pensions. A group of gentlemen were discussing Tanner's remarkable career a few days ago, and all of them seemed to have a different opinion as to his financial, political and business status since he made way for General Raum. One of the group said he knew exactly Mr. Tanner's circumstances, because the Corporal had told him all about them himself, and according to his statement the ex-Commissioner is in the way of becoming a rich man in a few years.

Immediately after leaving the Pension Office, Tanner opened a bureau for the prosecution of pension claims, and business flowed in upon him so fast from his old comrades that his office was soon flooded with cases. They have now been so arranged that the Corporal gives them no per-sonal attention, but turns them all over to clerks, and his books show that his income this year will not fall short of \$50,000. In addition to this, Tanner is under engagement to deliver 100 lectures for about \$100 each, with his expenses paid.

OTHER SOURCES OF WEALTH. As if this were not enough, he recently signed a contract to become editor of the new soldier paper in Brooklyn at an annual salary of \$5,000. Tanner will do little real work upon the paper, as it is his name that is being paid for and not his services. All this comes to the man who, when he was removed from office a little over a year ago, did not know which way to turn to make

dergoing the fire of investigation, and judg-ing by the character of the charges against him and the source whence they arise, the chances are more than even that ere the flowers bloom in the spring General Raum will follow the feetsteps of Tanner down the ing, and find himself again a private citizen.

T. J. Morley May Lead the Next Washington Birthday Parade.

The General Parade Committee having charge of the next annual parade for the American Mechanics met last night in the Moorhead building. About the only business of importance transacted was the nominations for Chief Marshal for the day. The nominees for this position of honor were T. J. Morley, L. L. Davis and Heber McDowell. There was some discussion over the question of permitting the Allegheny division to have a candidate, but a motion confining the nominations to Southside candidates this year prevailed. The fight will be largely between Davis and Morley, with the chances very much in favor of the latter, owing to his long service

with the organization.

A committee was appointed for the purpose of preparing an invitation to be sent to every council in the United States requesting them to be present and participate in the parade. Communications were read showing that many of the councils in the country within 200 miles of the city are preparing to come for that day. Washington No. 1, of Chicago, the first council instituted in Illinois, will be present, and many of the councils from other points.

Mike Powellia, an Italian, was arrested near Neville street yesterday afternoon by Officer David Griffith and locked up in the Fourteenth ward station on a charge of being implicated in a number of small robberies and incendiary fires that have occurred about Bellefield within the past few weeks. He had two large bags thrown over his shoulder, which, when searched at the station house, were found to contain an overcoat, three vests, a number of pairs of pants, boots, several suits of underclothing and four horse blankets. The stable of Major William J. Moorhead, at Bellefield, was robbed and set on fire early yesterday morning, but the fire was discovered and extinguished before any great damage was done. William Jones, the conchman employed by Mr. Moorhead, identified his overcoat and two horse blankets which were taken from

the stable. The residence of Audrew Ruch, on Winthrop street, pear Craig, was entered last night, and the following articles were taken: Eight coats, four vests, three hats and two pairs of pants. The goods were found yes-terday at the mouth of the Junction tunuel. The stable of Michael Cooney, dairyman, at the foot of Neville street, which cor tained 20 head of cows, was set on fire early yesterday morning, but was discovered be-fore it had gained a headway by one of Mr. Cooney's employes, and was extinguished with slight damage.

NEW YORK, November 22.-The first triennial meeting of the National Council of the Women of the United States will be held at Albaugh's opera House, Washing-The Noise of the Terrible Crash Heard a ton, from February 15 to 18 inclusive. This organization is the outcome of the great International Council of Women held at Washington in 1888, at which papers were read by 100 women, representing seven different countries. At that time two permanent organizations were formed, the Inter-national Council of Women, of which Milecente Garrett Fawcett, of England, was elected President, and the National Council of Women of the United States. The latter organization receives into auxiliaryship all National organizations of interested in the advancement of women's work in philanthropy, reform and social

### IT'S SCOPE IS WIDENED.

famerous Changes Made in the Constitution of the Non-Partisan W. C. T. U.

The Executive Committee of the Non-Partisan W. C. T. U. concluded their work here yesterday afternoon and adjourned finally. The entire afternoon was spent in a revision of the constitution and by-laws, and a number of changes were made throughout it.

The most important, perhaps, was that in which the object of the organization was made more liberal in its platform. Heretofore the "sole object" of the Union has been temperance reform, but at the meet-ing yesterday the word "sole" was stricken out and temperance reform can and will hereafter be only one of the objects of the work. Sabbath ob-servance, the social evil and kindred questions can hereafter be discussed with pro-priety, and even that of politics, the question that split the W. C. T. U., might be again held in the conventions of the organi-

The constitution was also modified to allow future discussion on the question of God in the National Constitution. Another change called for the Presidents of State unions to act as advisories of the Executive Committee. All these questions had more or less bearing on the convention just closed. The constitution is subject to amendment, or may be eliminated in part at the next convention.

The bills and every expense of the late

# convention, in all about \$600, for entertainment of every kind, was liquidated by the fund raised by the county organization.

### Who Will Continue the Business the Same as Formerly.

ASSETS PLACED AT \$6,053,000,

And Officials Say That the Storm Will Soon Blow Over.

## THE MAGNITUDE OF THE ENTERPRISE

ISPECIAL TELEGRAM TO THE DISPATCE 1 CHICAGO, November 22.-The United States Rolling Stock Company, one of the largest concerns of the kind in the world, is embarrassed. The assets, as scheduled by Cyrus D. Roys, the Vice President, are \$6,053,000, and liabilities \$3,816,000. The existing monetary stringency and the inability of the concern to collect outstanding ac-

counts from various railroads are given as the immediate cause of the collapse. At a late hour this afternoon Cyrus D. Roys, a stockholder and director of the stock company, appeared before Judge Blodgett in the Federal Court, and on behalf of all the stockholders, made application for the appointment of a receiver, so as to protect all the creditors. The application set forth the feet of the inability of the company to collect a large portion of its outstanding accounts, and alleged if the concern's affairs were placed in the hands of a competent receiver, so that another, the present storm would soon be over, and the company would eventually

regain its former credit. A RECEIVER FOR THE COMPANY. Judge Blodgett appointed as receiver A. Hegewisch, who has been President of the company for the past 19 years, and placed his bonds at \$500,000. The Court also ordered that the business be continued as heretofore without interruption. W. P. Rand signed Mr. Hegewisch's bond. The appointment of Mr. Hegewisch as receiver is made upon the unanimous request of all the interested parties. He is familiar with the details of the business and had the con-

fidence of the creditors.

The stock of the company is held principally in England. Mr. Hegewisch and Mr. Roys are said to be the only stockbolders in this country. The managers deny that the company is insolvent, and say they intend to continue business as formerly. The company has 2,200 men in its employ. Its works are located at Hegewisch, Ill.; Decatur, Ala.; Anniston, Ala., and Urbann, O. These works will continue the past management. The capital stock of the company is \$4,000,000. Of this \$500,000 has never been sold or issued. The company maintains that its assets exceed the

alarm among the creditors.

The company scheduled its liabilities as follows: Six per cent debentures, unsecured, \$870,000; 5 per cent debentures, secured by \$51,000,000 car trust bonds as collateral, \$570,000; 6 per cent bonds, secured by first mortgage upon its Hegewisch works, \$25,000; 5 per cent consolidated bonds, secured by first mortgage upon all shops and property of the company, except that at Hegewisch, and by second mortgage upon the latter, \$1,000,000; bills payable, maturing from time to time within 90 days, for supplies and current expenses, \$500,000; bank ioans, \$266,000; miscellaneous accounts, \$60,000; total liabilities, \$3,816,000.

VICE PRESIDENT ROYS' STATEMENT OF THE COMPANY'S TROUBLE, Plenty of Assets, But Nothing But Paper Pay Off Every Bollar.

SPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, November 22.-The New York offices of the United States Rolling Stock Company are in the Mills building. The directors had a meeting to-day and decided to ask for the appointment of a receiver for the property of the company in New York. The company has other offices in Ohio, Alabama and Illinois. Later in the day Vice President Cyrus D. Roys made

a statement. He said:

a statement. He said:

In the depressed condition of the money market we were unable to get money to any great extent from the various railroads for which we have been building cars, but have been compelled to take seven, eight and nine months' paper in some instances, and in no case less than 60 or 90-day paper. Then we have \$220 men on the payrolls who must be kept constantly employed, and are kept constantly employed, and the payrolls together with material and supplies, make an accreate monthly cash supplies, make an accregate monthly cash ment by us of about \$700,000. There is a limit to this nort of thing when we eccive paper and pay out cash. Notwit receive paper and pay out cash. Notwithstanding this, our condition was so good that the President believed we would come through all right, and until last Friday, in the 19 years in which we have been in business, we have never asked for renewal of our paper, nor would we now ask renewals if even one-quarter of the amount due us was paid. If we had to-day all that is past due to us in cash we would discount

that is past due to us in cash we would discount every obligation we have in the world and have \$20,000 good, hard dollars to bank to our credit, and this in to manner tonethes our properties, realor personal. We have all this left. It is not a case of insolvency in the popular souse of insolvency in the legal sense, of course, it is, because a man may have \$20,000, cool of the best possible assets, and if a note for \$700 should become due which he did not have the readj money to meet, his assets would out no figure. In the legal sense he would be insolvent, and this step is taken to tide over to that period when the money market will be easy enough to enable thoses who are indebted to us to pay up, and when that is done every

CRY CABLE TO THE DISPATCE. 1

LONDON, November 22 .- It is just a fortnight ago that rumors of the Barings' troubles first startled London. The name which was in every man's mouth was successfully kept out of the English newspapers for more than a week. When at length it was printed, the so-called arrangement was very poor and did not show the real with the Bank of England had been made. The word "liquidation" was then indignantly repudiated, but to-day it they will be still more appreciated when is used in an official announcement to the seen in a good light. public, which was given to understand that s new firm of Baring & Co., Limited, would

WASHINGTON, November 22 .- The momentous question as to the right of the statue of Lafayette to occupy a place in the same park with that of General Jackson has again been settled. The commission consisting of the Secretary of War, the Librarian of Congress and the Architect of the

Capitol, spent several months selecting a site for the new statue that is now on its way to this country, a gift to America from the French Republic. It was at first arranged to have it placed in the White House lot, between the great fountain and foot pavement, but somebody objected to this, and Lafayette was moved over into the park bearing his name, di-rectly across the street. Although the gen-erally accepted name of this place is Lafay-ette Park, it is officially called Jackson Square, because in the center there is a great bronze statue on a stone pedestal of the good old Democrat riding a fiery horse, which stands on his hind legs and paws the

Terrific Explosion.

DANBURY, CONN., November 22 .- Two oil tanks of 2,000 and 3,000 gallons respectively, located near the works of the Danbury Lime Kiln, two miles from here, exploded at midnight last night, making a terrific noise, shaking the buildings and awakening half the inhabitants of the city. James Cunningham, night watchman, aged 21, was blown into pieces. His shat-tered and headless trunk was found this morning 400 feet from the scene of the ex-plosion. The works were budly wrecked. The explosion was caused by the ignition of gas from the tanks from a lantern.

EMIL HAGER, slight bruises.
VITO MORO, aged 30, arms broken.
CHARLES TIGHE, injured about the head. THE WOUNDED REMOVED.

The injured, with the exception of Mc-Clintock and Tighe, who were taken home, were removed to St. Francis Hospital. When the wall fell the noise made by the crash was heard a long distance. Police Sergeant Bucklee, who lives opposite the building, hastened to a neighboring drug store and telephoned to police headquarters. Chief Murphy at once telephoned to the hospitals and ambulances were sent to the cene. The reserves from the First and Secand precincts were sent out.

The wounded men were quickly taken out of the debris, although the work of rescuing them was particularly perilous, as other parts of the wall were tottering in the high wind and looked as if they might fall at any moment. The body of Barrett, the man who was killed, was found on the second floor, pinned under a heavy beam, which lay across his neck. Chief of Police Murphy, Chief Engineer Fanier, of the fire department; Building Inspector James C. Clarke, Fire Commissioner Brown and other officials aided in directing the work of rescuing the wounded. THE CONTRACTOR FRANTIC.

Michael Brenan, the contractor who was recting the building, was almost frantic. When the crash came the men who were working in other portions of the building were terribly trightened, and fell over each

other in their haste to escape.

Rumors of the wildest character were cir-culated immediately after the accident. One was that 15 men had been killed. Another, which seemed to have some foundation, was that several children who were playing near the wall had been killed. Both rumors proved to be unfounded.

The street was practically closed to traffic for the remainder of the day. The demol-ished portion makes a break about 96 feet long, in the shape of a half moon. A small section of the front wall, which was de-

Conference Committee to Settle World's Fair Differences BETWEEN RIVAL COMMISSIONS.

### Money Fremiums Will Probably be Awarded for Live Stock.

WHAT SHALL THE LADY MANAGERS DO? CHICAGO, November 22 .- The World's Fair Commission took a most important step to-day looking toward harmony and the prevention of the promised deadlock between the commission and the local lirectory. Upon the motion of Judge Lindsay, the whole question of the establishment of a bureau and the abolition of standing committees was referred to the special Conference Committee of Eight. It This convention will probably be the was this committee which yesterday draw up the paper on the powers of the local and national bodies, which threatened to bring

the whole question of jurisdiction before Congress or the Attorney General.

Another important matter was the de cision of the question whether or not money awards should be granted to exhibitors. The live stock men were demanding substantial awards in cash, and threatening ot to make an exhibit unless their demands were complied with.

AWARDS FOR LIVE STOCK. Commissioner Russell, of Nevada, introluced a resolution that the local directory be asked to appropriate \$200,000 for live stock premiums. This was carried, and immediately thereafter the report of a joint Committee on Awards was introduced. This report did not favor money premiums but that medals and certificates should be granted. The report concluded with the following succinct statement.

following succinct statement.

First—There shall be awards.
Second—The awards shall be granted upon specific points of excellence or advancement, formulated in words by a board of judges or examiners, who shall be competent experts, and the evidence of these awards shall be parchment certificates accompanied by bronze medals.

In the opinion of the joint committee it is eminently fitting that the Government should eminently fitting that the Government should furnish these certificates and medals, especial-ly in the case of foreign exhibits, but there does not appear to be any provision made therefor in the existing appropriations of Con-

gress.

HOW ABOUT THE LADIES? This report was laid over for consideration. The medals were disposed of, only to usher in a more complicated matter, and that was: "What are the lady managers here for?" This query came about through the request of Commissioner Furnas, Chairman of a ommittee which had been appointed to confer with the ladies. Mr. Furnas had no idea of what he should tell the ladies, no had any other of the wise 106 commissioners to whom the matter was submitted. For 15 minutes the gentleman floundered about in a sea of uncertainty, and then ungaliantly swam ashore on a motion to lay the whole matter on the table. The ladies were left to settle the matter to suit themselves. The Judiciary Committee reported that it
