OUR ROTTEN ROADS.

They Clog City Industries and Impede Country Traffic.

SOCIAL INTERCOURSE STOPPED,

And Rural Matrons Must Hibernate for the Entire Winter.

LEGISLATORS WILL SEEK A REMEDY

The sub-committee of the State Road Commission will meet at Harrisburg on Tuesday, December 9, 1890, for the purpose of preparing the draft of an act of Assembly for the improvement of public roads and highways in Pennsylvania. This bill will be presented to the Legislature at its forthcoming session in the winter.

The sub-committee appointed by the commission for this work is composed of Messrs. John G. Foight, Chairman, Manor Dale, Westmoreland county; Cyrus Gordon, Clearfield, Clearfield county; H. Stanley Goodwin, Bethlehem, Northampton county; H. K. Sloan, Indiana, Indiana county; A. D. Harlan (ex officio), West Chester, Chester county; Charles F. Ettla, Philadelphia, Secretary.

This will be the final session of the Road Commissioners. The general commission will not be called together to hear the report of the sub-committee, but that report will be made out in two copies, one for the Governor and the other for presentation to the Legislature. With each will be messaged a copy of the proposed law.

OLD FACES MISSED.

It is unfortunate for the cause of road improvement that two members of the Road Commission, who were members of the House of Representatives at the time of their appointment, will not be among the new members of the Legislature when it assembles in January. They were defeated in the recent election. John G. Foight, of Manor Dale, Westmoreland county, and John E. Faulkner, of Bradford county, are the two unlucky gentlemen. Mr. Foight is chairman of the sub-committee which is to meet next month to frame a law, and had made quite a study of the subject. Being a farmer himself, he was able to bring to bear on the matter an experience with country roads stretching over many years. Mr. Faulkner, of Bradford county, was also full of practical knowledge on the question of road building.

The remaining House members on the Road Commission are Dr. W. H. McCullough, of Allegheny county; John L. Shillito, of York county, and J. T. Griffith, of McKean county. They were all re-elected to the Legislature. The Senators on the commission are A. D. Harlan, Chairman, and Hannibal K. Sloan, of Indiana county. The Governor's appointees were David McCargo, of the A. V. R. R., of Pittsburg; Mr. Gordon, of Clearfield county; Superintendent H. S. Goodwin, of the Lehigh Valley Railroad, and Mr. Downing, of Chester county.

THE NEW LAW.

All of these gentlemen have, at the various meetings during a year, contributed ideas and plans for the draft of a law. These were always referred to the sub-committee, which at its meeting will digest everything of this character. Although for the start of some permanent road improvement law it is not thought best by the commission to introduce a bill making startling innovations, yet it is desired to have its provisions based on good law and common sense engineering principles. Therefore, no suggestion to that end has been thrown away.

Complaints are coming to the members of the Commission from all parts of the State about the horrible condition of the roads, even this early in the season. The rain of a month ago stirred up the mud to such an extent that wagon wheels were not long in reaching a hub depth in many places. Commissioner McCargo, of this city, has received a letter from a well-known farmer near Parnassus, in Westmoreland county, explaining the peculiar method by which road repairs are attended to by supervisors in one of the townships of that neighborhood. He will forward the letter to the Secretary of the Commission. Secretary Ettla has carried on a tremendous lot of correspondence with farmers all over Pennsylvania as to the conditions of roads and the latest methods to improve them. He is engaged at present in tabulating the replies for use by the Commission.

INDUSTRIES ARE SUFFERING.

On several of the railroads centering in Pittsburg the effect of bad country roads has been noticed already this year. The amount of freight received at the stations all along the line has diminished because "the roads are getting bad" and teaming becomes more difficult. A reporter of THE DISPATCH, waiting for connections at a small country railroad station, quite recently, was told by the ticket agent that he was receiving on an average of three wagon loads of freight per day less from the interior than during the previous winter.

"Farmers are waiting to see if the roads will dry up," he said.

If that average of three wagon loads per day at a single station would be kept up all along that line, it would mean a big difference in the railroad freight business of good-road seasons and bad-road spells.

Oil drillers from every section of Allegheny, Butler and Washington counties send in reports of clogged operations on account of the early embargo of mud this year. The roads have been so miry the last four or five weeks that they have difficulty hauling their lumber from the railroads to the rigs. Teams are nearly always doubled now, and in the more hilly sections they are tripled.

SOME SOCIAL INCONVENIENCES.

The farmers' wives have begun their last round of calls prior to hibernating for the winter. "The roads are getting so bad," they explain, and at every house they are bidden farewell until spring. Their forced seclusion is only made bearable by one luxury, and that is a couple of dozen "hanks" of Germantown yarn and a case of Pittsburg-made knitting needles. Bad roads always cause an overproduction of home-made mittens and socks.

The country churches are beginning to thin out in attendance, and, as the pastors' salaries get lower and lower, they, too, will cuss "the bad roads of Pennsylvania."

On the whole, the clamor for that sub-committee to frame a pretty stiff law on December 9 is general all over the State.

NO BRIBERY IN IT.

What Mr. Mellon Knows of a Kansas City Municipal Sensation.

Mr. Thomas Mellon, President of Mellon & Son's Bank, yesterday made the following statement to a DISPATCH reporter: "I see by the Kansas City papers that an investigation committee has been appointed by the Council to investigate the charges of boodle contained in an incline plane pamphlet published in that city. I intend to make a full statement of all I know about it, if called upon to do so, but have not been notified of it yet. If called upon I would go out there, in case my health permitted, but just at present I could not do that. I could send my sworn statement, however, of all I know.

"No money was used or paid to any of the councilmen, because I would not permit it. But the story is too long to enter upon in detail, and I do not care to make any statement if not called upon officially, or by those having the right to require it. Besides, I may yet be called on, and therefore would prefer delaying any statement which might seem premature."

THE OIL SITUATION.

LOW PRICES AND BAD ROADS ARE HAVING AN EFFECT.

Many Indications, However, Point to a Better Market in the Near Future—The Latest Reports From the Various Fields.

The past week has to some extent been favorable to the producers and bull element of the trade. There has nothing of importance transpired in this section of the field, and the present indications are encouraging for a better market. The inflated reports from the 100-foot district during the week had a tendency to produce a depression, but in no instance have the wild rumors materialized into a reality. Guckert & Steele's No. 5 Humphrey so far has turned out a burbear, while the Jacob Dambach well has been overestimated, both as to production and its importance upon new developments. The Rough Run well is scarcely heard of any more, while the Jefferson Center Oil Company's No. 2 dry hole on the Konrumpf tract and Hartman & Son's duster on the Byrely farm, both of which are located in the Saxonburg field near the former company's big well, has somewhat dimmed the future prospects of this pool presented with the advent of the famous gusher. The low price of oil, together with the deplorable condition of the roads, is to a considerable extent curtailing operations. The production is also declining, and, upon the whole, Butler county will in all probability present a bullish report on the first of the month.

From an impartial view, as Wildwood now appears, it would but be natural to conclude that this pool had reached its zenith. To this conclusion there is one objection offered and that is the possibility of a further extension to the southwest of prolific territory. As previously noted in THE DISPATCH, the big wells in this section are steadily declining, and within the last 48 hours have a decided drop-off. Guffy & Queene and the Forest Oil Company No. 2, Roiseboise 30 acres, is from 14 to 16 feet in the sand, and when drilling produces 4½ inches, or about 11 barrels an hour. Jennings & Co. No. 3 Kretzer, at 20 feet in the sand, found a small showing of oil, and shut down to move out the boiler, and to-morrow the well will be drilled in. The Kanawha Oil Company's Vogel farm well is drilling in the sand between 80 and 90 feet, with no further improvement from our last report; it is showing for from 10 to a 25-barrel w 1. The Keifer well is said to be in the sand, with light showing of gas and oil, and is again shut down. Amm, Jennings & Co. did not get their No. 5 Harbush in Saturday, as was expected, but will do so Monday. Patterson and the Forest will also get the first pay to-morrow in their Young No. 2.

The Mellon well, on the Scott farm, at Mansfield, will not have a demoralizing effect upon the markets, unless it improves greatly with deeper drilling. The well is about 12 feet deeper in the sand from where the first oil was struck, and is making about 100 barrels a day. The McCurdy is still doing 400 barrels a day. The Fisher well, in the Bridgeville field, is not showing up very well. There is a light show of black oil in the hole, and at present indications for a well are not first class. The Hickman well, in the same locality has been tubed, and will be pumped; the venture looks like a 20 or 30-barrel well. The experiment well belonging to Guffy & Queene, located 2¾ miles north of Shapsburg, is reported in the sand, but the information on this point is meager and not safe to gamble on. The proprietors just at this critical stage of the game are not seeking newspaper notoriety, and propose to know first what they have got before the snap is given away. The impression left, however, in discussing the new venture with those who are connected with it is that it is thought the third sand is no good. This fact to other operators seems to convey altogether a different story. H. Mc.

G. A. R. MEMORIAL ON SUNDAY.

Col. J. B. Clark Post of Allegheny Remembers Deceased Comrades.

The annual memorial service of Col. J. B. Clark Post 162 G. A. R., of Allegheny, was held yesterday afternoon in Carnegie Hall. It was in memory of the three comrades of the post who died during the year, Joseph Donaldson, of Company I., Sixty-seventh Pennsylvania Volunteers; Thomas S. Dabney, Acting Assistant Paymaster U. S. N., and Henry Bothwell, Company G, One Hundred and Twenty-third Pennsylvania Volunteers. Every seat in the house was occupied and many crowded the aisles and doorways. There were in attendance Patterson Post No. 88, Lysle Post 128 and the ladies' organizations connected with these bodies. A squad of picked men in uniform from Nevin Camp 33, Sons of Veterans, acted as ushers. A choir of 12 voices led the music and Professor R. Mayer presided at the organ. Three vacant chairs draped in mourning occupied a place on the rostrum.

The ceremony was according to the ritual of the Grand Army, and after a chant by the choir Commander Irwin opened the post. The records of the dead were read by Adjutant John S. Nichol. The floral tributes were offered by Past Commanders Scott, Caldwell and Burchfield, in brief addresses eulogistic of their deceased comrades. Chaplain Munroe and the choir conducted a responsive service and Rev. W. J. Robinson, D. D., delivered a most earnest and fervent prayer. An address was made by Rev. J. S. Hutson, of the post, who delivered a very strong lesson on the beauty of love of country and self-sacrifice. After the hymn, "Jesus, Lover of My Soul," the services were closed by the Commander.

A Board of Trade Man Refuses to Testify in a Railroad Case.

CHICAGO, November 23.—Charles Counselman, a Board of Trade man, was brought before Judge Blodgett to-day to show cause for failing to answer questions before the Federal grand jury, as to whether the Rock Island and the Burlington have been illegally cutting rates.

He refused to testify on the grounds that it might incriminate him. The Court will decide Monday.

Fatal Crossing Accident.

KALAMAZOO, MICH., November 23.—Danny Crane and Bert Green, two boys 14 years old, were crossing the Michigan Central tracks at noon, two miles east of here, with a horse and a buggy, when a North Shore limited struck the rig, and the boys and the horse were instantly killed.

CATARRH

Is a constitutional and not a local disease, and therefore it cannot be cured by local applications. It requires a constitutional remedy like Hood's Sarsaparilla, which, working through the blood, eradicates the impurity which causes and promotes the disease, and effects a permanent cure. Thousands of people testify to the success of Hood's Sarsaparilla as a remedy for catarrh when other preparations had failed. Hood's Sarsaparilla also builds up the whole system, and makes you feel renewed in health and strength. All who suffer from catarrh or debility should certainly give Hood's Sarsaparilla a fair trial.

A Perfect Cure.

"I have been taking Hood's Sarsaparilla for the past four years at intervals. I was troubled with catarrh, and the medicine effected a perfect cure. I take it now whenever I feel debilitated, and it always gives me immediate strength, regulates the bowels and gives an excellent appetite." LEVI CAMPBELL, Parkersburg, W. Va.

Closing Out Auction Sale

Of diamonds, watches, jewelry, clocks, bronzes, silver and silver plated ware, etc.

Finding that I cannot give the necessary amount of attention to two stores, I have decided to dispose of my Smithfield street store and afterward give my entire attention to the store at 36 Fifth avenue. Both establishments have large and complete stocks of goods usually carried in first-class jewelry establishments. The consolidation of the two stocks would be too large for one store, in consequence I have decided to close out my stock at 533 Smithfield street, at auction, and have secured the services of Colonel J. M. Rutherford, of Philadelphia, as salesman. My stock is composed of over $75,000 worth of strictly first-class watches, diamonds, jewelry, silverware, clocks, bronzes, etc. This stock must be closed out as quickly as possible. All goods are guaranteed. I am not retiring from business. After disposing of my Smithfield street store, I will be located at 36 Fifth avenue. Sales begin Monday, November 24, at 10 A. M., 2:30 and 7:30 P. M., and will continue daily until entire stock and fixtures are disposed of, at M. G. Cohen's, Diamond Expert and Jeweler, 533 Smithfield street.

NEW ADVERTISEMENTS.

Thanksgiving Day,

In the morning, between 8 and 9 o'clock, at our store, we shall have the pleasure of
GIVING AWAY TO THE DESERVING POOR
OF THE TWO CITIES
SIX HUNDRED TURKEYS!
All you have to do to participate in this distribution is to make early application for tickets to the officers of the Pittsburg Association for the Improvement of the Poor, the Dorcas Society, and the Ladies' Relief Society of Allegheny. We take this means of distribution in order that the most needy and deserving families may secure the gift.
WE ALSO INAUGURATE
To-Morrow! To-Morrow!
A grand Thanksgiving Sale of Overcoats for Men and Boys. Many a man will give thanks on Thanksgiving morning if he has one of these coats on his back, especially if its cold. Thousands of garments, from the finest to the cheapest, are offered you at prices that cannot fail to make you thankful.
KERSEYS, MELTONS, DIAGONALS,
CHINCHILLAS, TWEEDS, BEAVERS,
CHEVIOTS, WORSTEDS AND FRIEZES,
And scores of other materials which we cannot name for want of space.

When slovens get tidy they polish the bottoms of the pans."—When

SERVANTS
are given SAPOLIO they are never tired of cleaning up.

Two servants in two neighboring houses dwelt,
But differently their daily labor felt;
Jaded and weary of her life was one,
Always at work, and yet 'twas never done.
The other walked out nightly with her beau,
But then she cleaned house with SAPOLIO.
