NEW YORK STOCKS.

Bonds Sympathize With Country Produce-Jobbing Prices. Weather was all that could be desired for the Share Market.

NEW YORE, November 24.-The stock market to-day was very active, and while inclined to weakness at first became decidedly strong later in the day, and almost everything traded in among the active stocks is materially higher than on Saturday. As yet the monetary situa-tion in Wall street is not quite satisfactory, as there is no time money in sight, and brokers are still very cautious about buying stocks on margins, to carry which they must be depend-ent upon call loans. This phase of the situation gives the bears encouragement, in the face of the recent developments, and keeps them aggressive to a marked degree. Confi-dence in a general improvement, however, con-

tinues strong, especially in the stocks which have best withstood the late severe depression, such as Missouri Pacific, Union Pacific, St. Paul, Wheeling and Lake Erie, and some

quantities of Western cold storage ergs are going to the consumer as freshly gathered country stock.

Dressed turkeys were quiet to-day at 16c per pound, and are expected to go higher before the Thanksgiving board is spread. Fresh home eggs are scarcely to be had.
