Brokers in Real Estate Talk Interestingly About the Market.

DEMAND GOOD AND PRICES STRONG. Continued Activity in Speculative Circles

With a Turn for the Better. THE NEWS AND GOSSIP OF THE CITY

Persons interested in real estate should rend what the brokers say, as given below. They are in a position to speak intelligently on the subject and their opinions are entitled to great weight. It will be noticed that nlmost every speaker expresses bullish sentiments either outright or in a modified

George Schmidt-I have nothing but good to say of the market. There is no better or safer investment. Prices on the average are none too high, considering the growth of the city in population and business. To show my faith in what I say I will begin the erection of #0 brick houses in the Eureka place plan, Oakland, early next spring.

J. C. Reilly—The market is in good shape.

There are plenty of buyers for property in good ocalities. The prices are very stiff, Eaxter, Thompson & Co.-We have a good inquiry for improved properties in both city

and suburbs. There is no depression in prices nd no scarcity of home money seeking investnt in mortgages, amuel W. Black & Co.—Capitalists are put-Samuel W. Black & Co.—Capitalists are putting their mence in the unit leaf estate, which is a pretty good lead to follow. It shows they have confidence in the unit leaf. Of course, there are always people to lake advantage of any scare to depreciate what they want to buy, but as real estate is not easily affected by temporary disturbances, we have noticed no decline. The demand is quite as good as it has been for the past two or three years.

for all kinds of properties. Prices are strong and give forth no sign of depression. The in-quiry for houses shows no abatement. J. B. Larkin & Co.—We have not found any rouble in interesting people who want to pur-hase. Prices are strong and inquiries as minerous as ever for good properties. Real state is always a good investment and after all the only real security.

Alles & Builey-We have a good, steady in-

pairs for city and suburban property. Prices pre hrm, but considerably lower than in any other prominent city. Good investment prop-erty finds roady purchase, showing that money all right. Black & Burd—We find inquiry rather on the Black & Baird—We find inquiry rather on the increase. Prices are steady, with a tendency to advance in many cases. There is an enormous inquiry from outsiders for first-class business houses. We think the struggle for houses next spring will be something like that marrared in the Bible where seven women laid body of one man.

66 of one man. W. A. Herron & Sons say that they find the market for real estate good and steady. Many purchasers can be found who are willing to purchasers can be found who are willing to buy improved and unimproved property at fair prices. The market is no slower than before the stock trouble, and the demand for busi-ness houses and dwellings is fairly good, but there is no excessive demand beyond that caused by the natural growth of the city and above that of ordinary renting seasons for several years back.

we that of ordinary renting seasons for that years back.

H. Love—The market is all right. During past two weeks we have had the best businable more good-sized sales than in same length of thee for several months, find a number of persons who heretofore a been investmer in stocks and bonds are ctaking hold of realty. We have several perransactions under negotiation. We think re will be a good active winter business.

F. Himple & Co.—The inquiry for the betr class of dwellings and lots is better than it | dram up customers. the some time back. This is largely due to the fax of oil operators and manufacturers. We may the stock flurry will have a tendency to crease the inquiry for real estate as an invest-cut. The demand for choice residences of om \$6.00 to \$12,000 is in excess of the supply, o do not think prices have reached the top, by comparison we flad values here lower an in other cities with only a fraction of the

of the National Bank of Commerce in regard to Within-burg titles from the bank was published in this column. The buyers of real estate rum the bank have been quite uneasy on the subject notwithstanding the clear statement then made. The McDevitt case has recently been decided in accordance with the view of the matter taken by the cashier in the interview. The court held that McDevitt acquired a good title and his vendee would have to complote the purchase, there being no flaw; that the only question was between the bank and the Controller, and he was debarred by the statute of limitation from enforcing the five year clause in the law. This decision should be a good dessert for the Wilkinsburgers' Thanks-

Electric and Central Traction Show the Absence of Backbone,

There was a good attendance of brokers a each of the three stock calls yesterday, and considerable business was transacted. The increase of buying orders shows that investors think stocks are a purchase at present prices. Philadelphia Gas was stronger. The only particularly weak spots were Electric and Central Traction, each of which sold at a material concession. The rest of the list developed nothing

disturbances, we have noticed no decline. The demand is quite as good as it has been for the past two or three years.

New York, November 26 .- The stock mar ket to-day was less active than that of yesterday, but as no one expected any activity at all the little that was shown during the latter pertion of the day was somewhat of a surprise, as was also the undoubted strength displayed in all parts of the list, as the general impression had been that a declining tendency would pre-vail. The bulls, however, are calculating upon M1.Gould's return from Boston to inaugurate a movement. There was no need of waiting

Movements in Real Estate.

The Columbus Unit is looking for a downtown site upon which to erect a club house, their present quarters on Smithfield street being too shall. They propose to expend from \$80,000 to 550,000 in building and furnishing a permanent home. The club was organized about four years ago, and has a membership of about 200. Another transaction of importance to Witkinsbarg has just been cloved, the importance consisting not so much in the amount of memey involved as in establishing values in that bosough. W. E. Hennett & Co. sold another Penn avenue lot, being part of the Harner estate. The club was organized being the following orders appeared in the market and the course of prices was soon changed, and the early losses in the general list were quickly made up with fractions in addition. Union Pacific, St. Paul and Rock Island led in this movement throughout, and from the lowest points advances from 2 to 4 points were scored.

The improvement in the whole list, however, received a great impetus in the last hour by the announcement that Judge Cullen, in Brooklyn, had issued an injunction granting a stay of proceedings under the late judgment until the nearing to be held next Saturday. Upon this sugar, which had recovered a portion of its loss, made a sudden jump to 56, a gain of 8 percent from its lowest point, and checked the declining tendency which had appeared in the market upon realizations. Lackawanna led in this reaction and lost about 1½ percent, but in the final dealings everything jumped, and last prices are generally at or near the best of the day, the close being active and strong at the improvement, the commission brokers are compelled to restrict trading of their customs on account of the searcity of time money, there being none yet offered by any of the New York institutions. The final changes for the day are almost all in the direction of higher figures, and among the most important gains Sugar is up 3%, Book Island 3%, Jersey Central 2%, Union Pacific 24, St. Paul 2%, Louisville and Nashville 13%, Burlington 1½, Missouri Pacific 1½, Southern Pacific 1½ and Northwestern 1 percent.

The Post says: The renewal of the financial panic in Buenos Ayres and the consequent further damage to the prospects of the great mass of Argentine securities held in London and on the continent, did not seem to have much effect on the prices of American stocks in London this morning. The majority of early prices there before the opening of this market were a fraction lower than the closing here has night, but that was probably only the reflection of the decline in the afternoon here yesterday. The following table shows the prices of active stocks on the New York Stock Exchange yesterday. DOMESTIC MARKETS.

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, November 26, 1890.

Supply of Pottley Season, but demand kept pace with supply. One Liberty street commission merchant reported sales of nearly five tons of ponitry, and others did equally as well. The faith of farmers in Pittsburg's Thanksgiving tendencies is evidently large, and they were not disappointed in their calculations. It is doubtful if ever before as many Thanksgiving turkeys were sold in this market on the day before the festival. Potatoes and apples are in good demand at outside quotations. Price of the former has been advanced 10c per bushel, and another advance is likely to come before the week is out.

Sugars and coffees are a shade firmer. Som prophets of evil predict that the financial troubles of the Argentine Republic will weaken coffee, but there are no signs of this in sight. Canned goods are quiet, as is their custom at this season of the year. The activity does not until December 10 at the Cyclorama buildusually begin until after the holiday season is over. The volume of trade has not been lessened perceptibly by the late financial flurry. The January 1. only effect so far has been that collections are

SHEEP STEADY AND SWINE WEAKER

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, November 26, 1899. There were 105 loads of cattle on the market at East Liberty yards on Monday against 125 loads the previous Monday. Quality of this week's offerings was below late average. The kind our markets call for, namely, smooth, light butcher beeves, were in light supply and were sold at 20e per cwt. higher than last week. In the offerings were a few good Ohio cattle, weighing 1,500 to 1,550 pounds, which changed hands promptly at \$4 60 to \$4 80. Good feeders advanced very little for the reasons that were advanced last week. Good Ohio feeders, ranging from 1,000 to 1,100 pounds in weight, sold at \$3 25 to \$3 40. Stockers, from 700 to 800 pounds, ranged in price from \$2 25 to \$2 50.

The run of cows and calves was light, and last week's prices were more than maintained. Veals ranged in price from 5 to 6/4c, and a few Veals ranged in price from 5 to 0/2c, and a few extra fine fresh cows were sold at 550 a head, the best price obtained for some weeks past. Cattle market was the most satisfactory of the season. All offered were taken promptly at an advance of 10 to 20c per ewt. all along the line. Not for many months have the East Liberty yards been so early cleaned up as this week. Commission men are happy over the fact that pens are cleaned once again, and that this was done at the best prices obtained this fall.

Sheep and Swine. Sheep and Swine.

There were 14 loads of sheep and lambs on the market Monday and about a half dozen There were 14 loads of sheep and lambs on the market Monday and about a half dozen loads have been received since Monday. For all good grades market was firm at last week's prices, while there was little demand for common and low-grade stock, and on this grade concessions were of necessity made on prices of a week ago. In the 20 loads offered, not more than 5 loads were good. The bulk of offerings were from Ohlo. The range of markets was as follows: Prime to extra sheep, 5c to 5½c; fair to good, 4c to 4½c; common, 2½c to 3½c; lambs, common to good, 4c to 5½c; prime to extra, 6c to 0½c.

Total receipts of hogs for the week have been about 75 loads, and a large proportion were common. Not above 25 per cent were good cornfed stock. The outside price at which tops sold was \$4 05, and very few reached this figure. The range for Yorkers was \$3 60 to \$3 80 and Philadelphias \$3 90 to \$4 05. There were about seven loads on the market this morning. One of our leading packers was advised this morning by his Unicago buyer that receipts there to-day were 45,000 head, and top price about \$3 80.

RESURRECTIONISTS AT WORK. A Church in Trouble for Changing Its Cem-

etery Without a Permit. Chief Brown, of the Department of Public Safety, is after Trinity German Catholic Church. On the hillside above Kirkpatrick street, near Webster avenue, the church had n cemetery which has been sold to A. M. Entress, who will make a brickyard there. The site for the new brickyard is or rather was the resting place of 1,400 bodies. A new cemeterr has been purchased by the church on Lincoln avenue, near Wil-kinsburg, and almost 800 bodies have been removed. Some of the remains have been buried within the last year and a half and some of the scenes connected with the work of the resurrectionists is most revolting.

There are 50 bodies now awaiting reinter Yesterday morning the Bureau of Health heard of the work and notified Chief Brown that no permit had been taken out. The head of the Public Safety Department says there is a fine for the removal of every dead body without a permit, and he will make information against all parties concerned,
