number of important improvements will be the outcome. Considerable property on Liberty, Ponu and, no doubt, other streets that is regarded as dead stock, because of shaded titles, could be made available for sale or improvement by submit-ting it to the careful scrutney of an expert title searcher. As these properties are hadly needed to facilitate the business of the city, and to permit of the introduction of outside capital and enterprise, now practically ex-cluded for want of accommodations, they should be improved by their present owners or allowed to pass into more energetic hands. STILL ON THE RUN.

Considerable Doing in Local Stocks, but Values Again Let Go.

There was a fair volume of business trans. cted at the local stock calls yesterday, but it was at the expense of values. Nearly everything was weak and lower. The principal sufferers were Philadelphia Gas, Electric, Pipeage, Central Traction, Chartiers Gas and Airbrake, each of which touched a lower point than any previously reached this year. Electric railied trific at the last call, but the others closed at

There was no apparent cause for the weakness in either the railroad or the business world, but many are inclined to look upon it as the natural consequence of the too rapid rise of the past ten days.

Of course the day was the first of the month and there was a scarcity of funds to loan ow-ing to the disbursements for interest being made by the banks and rates of call loans were high during most of the day, reaching 14 per cent at one time. There was also another failure announced, but it was not of sufficient importance to have had any influence upon the DOMESTIC MARKETS.
