THE PITTSBURG DISPATCH. TUESDAY, DECEMBER 2. 1890.

COULD CURE BY TOUCH.

James Baily was arrested in Alabama only three months ago for obtaining money from the colored people upon the pretense that he was high priest of the queen of heaven and could cure an ill by a touch. Mrs. Sullivan, of Springfield, O., became exceedingly devout, sat up at night and read her Bible, talked and thought of nothing

markable series of impositions upon the credulity of the colored people, where one but religion, and finally constructed an altar in her house, upon which she prepared to man after another proclaimed himself as the Christ, promised miracles, drew crowds sacrifice her 6-month-old babe. She stripped it naked, placed it upon the altar and of excited men and women from their labors, reached for a knife, when the opportune en trauce of other persons saved its life. and created consternation in those portions of the South where their performances were In October the newspapers told the fear-ul story of that religious-crazed son carried on. In one case a man nearly white, who gave his name as Bell, went among the and daughter in Michigan who determined negroes who lived along the Savannah river that their bedridden mother needed to be and proclaimed himself as the returned

baptized, and poured water over her until she died. Mrs. Woodworth, who was recrying out that those who hoped to be saved must give up everything and follow sponsible for the Oakland exodus, moved her tent to St. Louis and for weeks kept up Hundreds believed him, left the cotton a scene of religious frenzy, scores failing unconscious each evening, seeing visions, fields, the sawmills, and the turpentine stills, and followed Bell, obeying his lightest

receiving communications from the dead, and being cured of physical evils. and being cured of physical evils. None of these events—and scores of like characters might be added—bears testimony against true and reasonable religion, but they plainly show what human belief can be led to, and the harm that can be done by unscrupulous or misguided men and women.

the same planet on the last day of the year. Neither of these is sufficiently close to attract particular attention. The second conjunction is with Uranus on the 8th, but, as we can seldom see the planet, this meeting also has but little significance. Venus is too close to the sun when her turn comes, and Mercury can be included in the same remark. and, if the evenings are bright and clear, there will be a very pretty picture. Al-though the celestial bodies are not very close

together, their positions in relation to each other afford a fine tableau. The full moon in December is high in northern declination, so that for two or three nights we shall have its round, smiling face throughout the night. It was only a lew weeks ago that in the midst of the peculiar tint of yellow green so brilliant in the western sky soon after the sun had touched the horizon Venus could be seen shining serene and bright, but gradually it Shinn. faded from view, as getting nearer and nearer the sun it was absorbed by the more

powerful light. Almost the entire year Venus has proved the chief attraction of the evening planets. We have watched it emerge from the glare of the sunlight, chal-lenge Jupiter, and, coming out triumphant most brilliant gem in the celestial vault. | to the public.

in their rooms, on Sixth avenue. The Pres-ident, Mrs. W. A. Herron, occupied the chair. The Secretary and Superintendent of the association, Mrs. S. E. Lippincott, read the reports of the work done during the past year, showing an increase in the number of applicants for charity, an extension of the field of work and the successful accomplishment of their labor in relieving want and distress. The donations of money and the contributions of food and clothing were December 15 and 16, however, there will be a conjunction with Jupiter and with Mars, port of the charitable. The reports of the association proper, the temporary home and of the disposal of the fresh air fund were all

approved. The old officers were re-elected as follows: Mrs. Herron, President; Mrs. Theo. Ewing, Mrs. L. M. Harding and Mrs. William Thaw, Vice Presidents; Mrs. S. E. Lippincott, Secretary and Superintendent, and Miss A. L. Wilmarth, Asssistant Superintendent, a new office. The present Board of Managers was re-elected, and Mrs. Lawrence Dilworth was chosen to fill the place made wacant by the death of Mrs. W. P. The anniversary meeting of the associa-

tion will be held next Sabbath evening at 7:45 o'clock in Eev. E. Belfour's First Ea-glish Evangelical Lutheran Church, on Grant street, near Sixth avenue. The addresses will be made by Rev. John H. Prugh and Rev. E. Belfour. The reports of from the contest, reign unrivaled as the the association will then be read and given

as sure to produce frequent periods of elation and as many corresponding periods of depression as the sun is sure to rise and These phenomena of business life have

grown immensely with the growth of modern methods of doing business, modern appliances, which induce rapid trans-actions, the craze of competition and specuditions, and the concentration of money power which enables a few individuals to absolutely control the ebb and flow of trade

Inde to the statement that it is a word of pre-lude to the statement that it is new practical economy is rapidly producing a new school of theoretical economists that are, with amazing rapidity, revolutionizing the economical thought of the world. Even

Judges Collier and Slagle made each an hour and a half overtime, in the Common Pleas, yesterday, listening to the contention between the Braddock and Turtle Creek Electric Railway Company and the borough anybody knew that there was such an institution as a home office or a chartered of Braddock. This is the "home protection" company that knocked out all competitors, association. Nobody knew, but one or two thought there was a headquarters in Manone hot night last summer, and there has been considerable bad blood in the borough

since, and the fact that a rival company has since obtained right of way on another street, has not been an emollient. The borough claims the power to super-vise the putting up of the poles and fix the location thereof, at least in the case of three

ATTACHED THE OFFICE FURNITURE of them, and the B. & T. E. R. R. Co. de-nies the jurisdiction of the Street Commit-tee in the premises. The committee insists that three certain poles must be placed diagto secure his fees, and the stockholders en-vied him his good fortune in having a first tee in the premises. The committee insists that three certain poles must be placed diag-onally, as it is contended that if they are not they will injure some business property. The company claims that the zigzag placing of the poles will interfere with the working

sacrificed that they sent for the Sheriff, at Chattanooga, and it required all his power

to compel Patterson and Brown to leave the neighborhood, that quiet might be restored.

COLORED PEOPLE DUPED.

A year later, in 1889, occurred that re-

When Bell was finally sent to his proper an insane asylum-Edward James, a colored Justice of the Peace in the same neighborhood, announced himself as the Messiah and proceeded to put forward claims us extravagant as those of Bell. He re-peated the declaration of Bell that the end of the world was coming August 16, preached that money was no longer of any se in the world, and prevented the employers of labor in that section from obtaining needed help. James was finally arrested and sent to the State Insane Asylum at Milledgeville. Yet another negro appeared in Cherokee county with the same pretensions; another in Camden, and a woman in Brunswick attempted the performance of miracles. In each of these cases the excite- soon decay. The color of the gum, if you ment was short-lived, but fanatical ignorance was provided in sufficient portions to make trouble while it lasted.

THE SCHWEINFURTH CRAZE.

A very marked example of imposition upon the one side and blind credulty upon the other, the basis being a claim of the visible Christhood in the flesh, is furnished in the career of George J. Sweinturth, at Rockford, Ill. In the cases above cited the claimants were obscure and ignorant men, while the dupes were of the lowliest amone the freedmen, who were guided only by their emotions and had no help from culture and education, either in themselves or in the community around them. Vastly different was the Rock ord delusion, springing up in the most intelligent section of the West, at the behest of the wife of a Congregational minister, who preached that in her own person were the attributes of the risen Lord. It is some 16 years since Mrs. Dora Beck-man advanced this claim, and her followers were at first few in number, but they were strong in faith, and they located their church at Bryan, near Rockford, and went zeal-ously to work. Mr. Beckman, not believing in the new doctrine, was torn by conflicting doctrines until finally he found relief in insanity and an asylum. Among the converts finally came Schwein-

furth, a young Methodist minister of pleas-ing address and appearance and of some mental power. He was soon installed as Bishop and sent forth upon mission labor. After a time, as in the case of Ann Lee, the founder of Shakerism, Mrs. Beekman's elaim of immortal life was disproved by her death, and the shrewd Bishop stepped into the breach, declaring that the divine spirit | had passed from their former leader to himselt. The claim was allowed, and to-day he is worshiped by hundreds, not merely as the Christ returned to the flesh, but as the maker and ruler of the earth as well.

These claims, made in the open light of the nineteenth century and allowed by people who have the means of finding the truth by a little investigation, show that men are about what they always have been, and furnish an excuse for the wonderful spiritnal impostors of the past. The various per-formances of the Faith Curists might also be cited in illustration of the same point.

MANY SIMILAR INSTANCES.

The impositions and vagaries above mentioned have been the performances of a class, and to enumerate all the religious fanaticisms and delusions of individuals recorded In America even in the last two years would demand an unreasonable expansion of pace. One noted instance was that of Mrs. Pauline King, the colored woman of Oakridge Park, 111, who advertised that, as she fasted 40 days, she would publicly turn water into wine, as had been done at the murriage feast at Cans of Galilee. When mairiage feast at Cans of Galilee. When the people had gathered on the appointed day she had a jar filled with water from a

THE CHIEF'S CASE AGAIN.

Evidence of the Prosecution Against Rob ert Jones Heard Yesterday Morning-A Large Slice of Testimony Ruled Out-More to Come To-Morrow.

The adjourned hearing in the case of Chief Jones, of Allegheny, charged by William Winn with certain irregularities, was called up yesterday and after several witnesses were examined the defense rested and the case was postponed until to-morrow

Ex-Chief of Police Kirschler stated that numerous reports were made of boxes being out of order and false runs being made; that the box which gave the most trouble was No. 224, the one the Chief is charged with having pulled. Turnkey Hamilton testified that he sent the wagon to box 224 anumber of times, but it always proved a false run. He says he complained to Chief Jones but got no satisfaction.

Controller James Brown produced the original voucher for \$200, dated December 1, 1889, made out to William Winn, and signed by Robert Jones that the work had been done.

Officer William McKelvey, of the police force, formerly drove the patrol wagon, and said he had answered numerous false runs. but did not know the reason.

City Clerk White was called, but Mayor Wyman ruled out the testimony wanted from him, and the hearing adjourned. of operating.
