 The oil market opened yesterday a triffe stronger than the previous close, but during the afternoon it was sold down by Oil City, and closed at the lowest point. The opening was 67%, highest 67%, lowest and closing, 67%, with 9, 180 10, 372 9, 166 8, 739 9, 400 The exhibit shows there have been fewer failures this year than there were in 1889, fewer than in 1886, and about the same as in 1888 and 1887. This should inspire confidence, by im-pressing upon the public that there is nothing extraordinary in the situation to excite alarm. Reckless trading, resulting in undue expansion and inflation of credits, has not been a feature of business during the year now drawing to a close.

While the general list was quiet and dull, and while there were frequent changes in the temper of the specalation, the tone in the main, especially in the afternoon, was strong, and among the active stocks material advances were scored. The market is again chiefly under the influence of the monetary situation, and money brokers claim that it will be useless to look for any amount of time money until after January 1, as institutions are not willing to enter into any new engagements toward the close of the year. To-day the sellers of yesterday were running in their shorts, frightened first by the attitude of London, which showed a disposition to buy stocks, and later by the suddenness with which

prices were advanced upon them late in the day. The movement toward higher figures at that time was sharp and decisive, and most of the improvement recorded for the day was es-

Flour Situation.

Pittsburg jobbers are carrying large stocks of

flour, and competition is so sharp that there is not a little cutting on prices. In the North-

Continued Activity in the Grain Pit-Troubles in the Northwest-Wheat and Provisions Decline-Corn and Oats

#### Hold Advance Ground.

CHICAGO-There was a good deal of activity the seven trading pits to-day and there was a ieneral recovery in prices at the opening. Corp. and outs retained some of the improvement, but wheat and provisions closed lower to-day than they did yesterday. A decrease in the amount of wheat affoat for Europe and Enghand, according to Reerbolum, gave it a good start at 1 a day and on the closing price of the stay before

The bullish items of the morning and the action of Hutchinson's brokers caused wheat to advance to \$1 02. It hung at that point a few seconds, surged back to \$1 01% and made another upward heave to \$1 02%, with a sale or two at 51 02% . The bulls realized very freely on this advance, and after 3% had come off the price from that cause the financial bugaboo mood working, and before its effects had rused the price of May wheat had declined to El Cola. The Keystone Bank of Philadelphia us reporten to be in financial straits, and a unk at West Superior, the National Bank of minutee, was reported commercially defunct. A dispatch from Duluth said that the West rior bank was a small concern which had on sagging for six weeks or more, dropped

been sagging for six weeks of more, dropped below par, and this evidence of weakness was the octasion of the principal break in whear. The December delivery made a wider straidle than before, and after standing at \$2,6 discount it gradually widened to 1956 per iorshel under May. This heavy difference be-tween the finance pamed is, of course, a great discouragement to those who expect wheat to sell at higher prices and have a wish to buy. Although abe prices of May wheat recovered to \$1 615, it sold off again and closed at \$1 005. The trains in corn was governed in a great measure by Hintchinson's operations and he was a buyer for the most part. The general crowd was inclined to take the bear wide, but were careful about pressing their offerings. There was only one occasion upon which the price sold as low as at the close of the preced-ing day, and that was immediately the open-tur, and an advance of 5c over this price took place in the course of the induct. The fluctuations were to a moderate extent in syntaktive with the course of the wheat s were to a moderate extent in with the course of the wheat

The very meager stock of contract corn is, of course, prolithitory of any raiding tactics, even with the December delivery selling 4c below May. The price of May was irregular from Sige to back on the distance of the disc, with a sale or two at 54%. The tendency was toward hower prices heat the end, and there was a reaction to 53% c, with buyers at that at the

use. Gais were fairly active, stronger and higher, Onis were fairly active, stronger and higher, but outside prices were not maintained until the close, when last sales showed a net gain of \$200 kc. The feature of the trading was the persistent buying of May by a large operator. Pork-Rather an active business was trans-acted. NEW YORK, Dec. 2.-Business in drygoods was without new development, demand contin-tinuing quiet, though expectant. There was no change and no details of transactions of spe-cial interest. Agents were urged to make prompt stipments of good orders because of expected advance in freights, and were very busy with such details. There was a continued good tone to the market. There was an important auction sale of winter satinets by order of Mackinto-h, Greene & Co., comprising 2,000 cases of the value of about \$255,000. There was a large representative gathering and the bid-ding was fairly spirited, though the prices realized averaged low, standard goods going off about 7 to 10 per cent from agent's prices, which was probably as good as could have been expected. #### Investors Take Notice.

On Wednesday, December 3, at 2 P. M., that very desirable piece of property, cor-ner of Third street and Penn avenue, will be offered at public auction. Those looking for a good investment should keep this in view, as the improvements should keep to be in Motion.

Bank clearings continue to show a healthy condition of general trade. They footed up yesterday \$2,575,071 SL. The balances were \$357,103 83. There was no perceptible change in the monetary situation. The usual conservative policy was observed in extending accom-

ed at that time. The market at the opening was still irregular, but most stocks showed right and are giving themselves no further trouble about the matter. It may be well enough to repeat what has been written more than once, that there is a fine opening in Wilkinsburg for a good hotel. On January 12 the stockholders of the Mosame advance over last evening's figures, but the short sellers were inclined to continue the tastics of yesterday, and the early trading resulted in lowering prices small fractions.

nongahela Incline Plane Company will vote for or against an increase of capital stock. A valuable business property at Third and Penn avenues will be put under the hammer at

solted in lowering prices small fractions. This, however, was soon stopped when the buying orders from the other side were exe-cided, and everything on the active list moved up materially, with Lackawanna, Burlington, Rock Island and New England to the van. Upon the cessation of the buying for foreign accounts, however, there was another recession, in which the bears brought special pressure to bear upon the Northern Pacific, and the pre-forced retired about 3 per cent before the at-tack culminated. The remainder of the hst sympathized closely with this drop, and prices were generally brought below those of the opening again. The concessions, however, brought in buying orders, and the list wasagain started upon the up tack shortly after noon, and in St. Paul, Lackawanna, Union Pacific and Atchison were specially active and strong. Three permits were taken out yesterday, the nost important involving \$4,680. Reading and Louisville were also prominent in the late rise, but the general list and the unlisted stocks were ouite duil. Stock trading was again active yesterday, about up to the average since the flurry set in. Central of New Jersey. and there was a reaction in prices-an up turn -affecting nearly everything on the active list. The gains were small, it is true, but quite sufficient to show the prevalence of a better feeling and to indicate returning confidence in specu-lative circles. The only things that showed

weakness were Pipeage and Switch and Signal. In most cases the close was at the best figures of the day. Sales at the first call were 30 shares Philadel-phia Gas at 15% and 62 Electric at 20. On ac-count, etc., 10 shares Electric sold at 15%, 50 Chartiers Gas at 18, and 40 Electric at 20. At second call 50 Electric went at 20. At third call 150 shares Philadelphia Gas brought 15%. 5 Electric 20, and 100 Luster 20%. Total sales were 462 shares. weakness were Pipeage and Switch and Signal. & N. W. pl.... C. C. & I. C.
