As to Steel Rails.

In this column of THE DISPATCH yesterday,

figures were made to convey a wrong impres-sion. The reduction in cost of making steel

rails is \$1 50 per ton and not \$7 50 as the types were made to say. The labor that enters into

than a year ago and materials are essentially the same. The common laborer is now paid \$2.50 per day, sgainst \$1.35 a year ago, and skilled labor has declined, until the reduction

in cost of manufacturing steel rails is as above

Drygoods.

NEW YORK, Dec. 3.—Demand for drygoods continued moderate, and in some articles there was very little doing. There were no new feat-ures, but the market maintained the usual

ures, but the market maintained the usual firmness and indisposition on the part of agents to purchase goods.

High-Priced Eggs a Temptation and a Snare to Peddlers.

RAIN ADVERSE TO PRODUCE TRADE

Corn Higher, and the General Tone of

Cereals is Improved. LUMBER ACTIVE AND PRICES FIRM

OFFICE OF PITTSBURG DISPATCH, & Country Produce-Jobbing Prices. Weather was about as miserable as it could be, and transactions in produce lines were very light. Supply of strictly fresh nearby eggs is

far below demand, and prices are still moving upward. With an eye to the main chance, a city expressman bought up a quantity of cold storage eggs yesterday and conveyed them ground by the Monongahela wharfboat with a view to selling out his stock as eggs fresh from the farms of the Ohio Valley. The trick might enable him to derive an extra 6c per dezen on his stock, but it is only a question of time when his stock, but it is only a question of time when such trickery is exposed and the trickster finds his proper level. The grape season, which has tarried unusually long this year, is now over. Potatoes are drifting upward. Fancy stock readily commands outside quotations. The same is true of fancy apples.

Wheat Active, but Loses Ground Under Heavy Carrying Charges-Corn Follows Suit-Oats About Steady-Provisions Show a Stronger Front.

CHICAGO-The heavy carrying charges were found too much of a load for the buils to stag-ger under to-day, and this was the cause of a radical drop in the price of wheat. Outside news was mainly in favor of better prices, but sellers at the olds offered in their favor were too many for the larmers' friends, who, after a valiant attempt to lift the burden of 9c preminim for May wheat were forced to drop it. and in the end it looked as if their hearts as well as their backs had broken under the early strain. Wheat declined 25% and corn 5%.
The wheat market opened strong, but with-

The wheat market opened strong, but without being specially active. The opening quotation for May was \$1 00%, which was \$20 over the previous afternoon's closing quotation, and at the price named there was not enough to supply the demand. There was consequently an advance, which proceeded until \$1 60% was being paid. There was a reaction of \$20 from the price last quoted, and for a considerable time thereafter \$1 00 and \$1 00% were maintained as the trading prices.

to trading prices.
Under the influence of heavy purchases the rices advanced to \$1.01% and the December-livery narrowed down to a discount of \$5%.

of nearly 3/10, and was around its lowest point at the close of the session. It was not until wheat became so very weak that the price of corn finally worked back to around 53/3/20. Hutchinson sold a little early in the session, but later he allowed the market to take its natural course, which was mildly downward as already remarked. There was a drop of over le from the highest price of the day, 3/20 being the closing quotation, which is 3/20 under the price it rested at yesterday.

Out were traded in moderately and prices advanced 3/20 soon after the opening owing to the strength in corn. The advance bronelt out good selling by a large operator who has bought for several days past. The weakness and decline in wheat and corn also had a depressing effect and values receded 3/2. At the decline trading was moderate and the market closed quiet at about inside figures.

Pork—in the feeling was somewhat stronger. Later, prices gradually reacted 20/20/3/20, and the feeling was somewhat unsettled. I hard—Quite an active trade was reported, and the feeling was somewhat unsettled. Prices ruled 23/20/30 shortly after the opening. Later, prices receded fully 5/20/3/20 and the market closed rather easy.

below average, but while this week shows improvement in quality of receipts, markets are infl, and the entire situation favors buyers."

Offerings of sheep and lambs on Monday serie about 20 imais, and the total for the week, of far, about 25 loads. Choice steek is still carce, demand exceeding supply. For the siter, markets were strong at last week's riges, but common grades go slow and prices are largely steady. There is no trouble finding myers for all choice sheep and lambs, but they grades go begging for customers. There is probably never been a season when high multiy of live stock has been so important as one present. The good is in demand, but the bonneo is dull and slow.

world is about stepping out of what might be termed its infantile condition into that of early manhood by the aid of steam and electricity and the multitudinous applications of them to the bettering of the conditions of the people. New conditions are arising every year, and grander opportunities are developing. The wave of industrial activity can not be checked. The crowded people of all lands find an opportunity to better their condition in new places, and this new incentive will bring more revolutions of a peace ul sort than were ever carried out by the sword. In fact, the agencies now at work to renovate and re-organize and and rehabilitate are moving forward at a

pace that will overtake the sleeping lag-gards. Mightler forces than armies and navies represent are coming up, and their tread is heard in every laboratory and study and de-signing room and workshop in this land. Whatever mischief may be caused by scheming speculators or grasping money-lenders is only temporary. The interests of wealth producers are paramount, and will assert th ducers are paramount, and will assert them-selves as they have done, especially within the last few years. Everything points to permanency in business, to greater care in its man-agement and to surer, if not greater, profits. The power of the wrecker is becoming less and less. It will soon be impossible to make a panic unless it can be so skillfully worked as to effect all the interests of the country at once, and those who may try this road to ruin will find it a hard one to travel.

Business News and Gossip. Land on Neville Island is held at over \$2,000 an acre, with very little of it in the market. Southern lumber is growing in popularity in this market, and receipts are increasing to meet

the demand.

If plans materialize, building at Glenwood and Hazelwood next year will be on a large scale. Several blocks are on the slate, including a hotel.

The demand for building sites on the Perrys-

ville road show little or no abatement. Most of the purchases are for improvement.

It was stated restricted that the provement of the purchases are for improvement. It was stated yesterday that the superstruct-ure of the Neville Island bridge will be completed within ten days, when work on the ap-proaches will begin.

Several real estate brokers said yesterday that sales this year have been larger than in any equal period since the business was organ-ized. The prospect is favorable for a good win-ter trade.

HOME MONEY.

The Situation Comfortable and Unchanged—
A Plethora of Large Bills.

There was no particular stress in the local money market yesterday, the conditions being practically the same as previously noted. Business calls were promptly met, and bankers were more sisposed to look kindly upon outsiders. Still, the lines between regular and Missony Paging.

were more speed to look kindly upon outsiders. Still, the lines between regular and casual dostomers were pretty tightly drawn.

It is the prevailing opinion of fluanciers that the situation will relax early in the new year, if not before, as the banks are steadily gaining strength from the excess of deposits over with drawals. The Clearing House report was favorable, exchanges footing up \$2,592,519 29, and balances \$33,1072 29.

Yesterday and the day before an unusually large number of big bills were paid into the Clearing House, denominations ranging from \$10,000 to \$500. This indicates a scarcity of small notes, due to checking by country banks. Money on call at New York yesterday was casy, ranging from 3 to 6 per cent, last loan 36, closed offered at 3. Prime mercantile paper, \$1,400. Sterling exchange quiet and weak at \$1.80\% for 60-day bills and \$4.85 for demand. The Oil Market Creeps Along the Same Old Way. The oil crowd did very little in the way of business yesterday. They failed to draw in-

spiration from the stock market, and got through the day in the usual listless fashion. It the cost of a ton of steel rails costs \$1 50 less through the day in the usual issuess hashoo. It is quite clear that there is too much of the commodity for the trace at the command of the Exchange.

The market opened at 67, at which there were a few sales. It then dropped to 69% for want of support, and closed at that figure. Oil City, as on the previous day, was the weakest spot in the line and sold at every converting in the line, and sold at every opportunity.

There was no change in refined. The average runs were 83.147; average shipments 102.255—quite an increase: average charters 77,183. Clearings were 41,000 barrels.

Railroad bonds were quite duil, and ont of a total day's business of \$235,000, Western Union 5s contributed \$150,000, while there were fewer issues dealt in and small changes were the rule. Prices generally yielded, however, and Cedar Falls and Minneapolis 1sts are down 2 at 70; Ft. Wayne 1sts 2, at 141½. Government bonds have been entirely neglected. Petroleum opened steady; options fell ½c, then recovered ½c, and closed duil. The sales were the smallest on record, the total transactions being only \$3,000 barrels. Pennsylvanta oil—Spot, opening 68c; highest, 69c; lowest, 69c; closing, 60½c, Lima oil—No sales. The Post says: It was distinctly what is called a "room traders' market," for stocks to-day, that is, the buying and selling was distinctly by that class of speculators who trade on the floor of the Stock Exchange on their own account, and govern their operations almost entirely by what they see others doing, or trying to do, instead of by any rule or judgment of what may be the real value of the stocks in which they trade. They follow each other, and so it often happens that in this circular process the prices of stocks go down or up without any apparent happens that in this circular process the prices of stocks go down or up without any apparent reason on either the financial or railroad situa-

l of rye, 1 of barley, 1 of mait, 1 of corn, 2 of flour. By Pittsburg, Cincinnati and St. Louis, 2 cars of wheat, 2 of oats, 2 of corn, 1 of hay. By Pittsburg and Lake Eric, 1 car of feed, 1 of flour, 3 of corn. The tone of cereal markets shows improvement. Corn is higher and firm at the advance. Oats and choice grades of hay are steady. Millfeed is firm. Wheat and flour are quiet. But for tightness of money, we would now have a boom in cereals.

Prices are for carload jobs on track:
