VERY POOR CEMENT COMING BACK AT MR. MELLON.

Said to Have Been Used in Constructing Monongahela Dam No. 7.

EVIDENCE FOR COMMONWEALTH.

The Testimony in Rebuttal Will be Beard This Morning.

AEGUMENTS TO BE MADE NEXT TUESDAY

The evidence yesterday in the case of the condemnation of Dam No. 7, was given for the Commonwealth and was to show that the lock is not so valuable as when just Letter and Paper Mail for November Exbuilt. The Commonwealth also tried to show that it was not well constructed and that cement used was of a poor quality. Evidence in rebuttal was heard and more

will follow to-day. Engineer Harlow, who had charge of the construction of lock and dam No. 7, testified that the cost of building the lock was about | gain of 75.350 over last year and drop letters the same to-day as when it was built. There were some items, however, on the bill of costs that the witness thought were too high. C. J. McDonald, the contractor who built lock and dam No. 7, said the work could be

done to-day for the same money as in 1884. The witness did not think that age improved a dam. The witness did not think the settling of the wall affected it to any extent.

Contractor Archibald stated that he made an examination of the lock four years ago and plumbed the wall, and he found that there was certain bulging and leaning out, He also found certain cracks of an inch and two inches, but they did not amount to much. The witness thought, however, that they would depreciate the value of the lock and dam about 25 per cent.

SAID TO BE IN BAD CONDITION.

Reese Lindsey, contractor on the stonework, examined the walls of Lock No. 7 about three weeks ago and found them in a very bad condition. In his opinion the exfor masonry work was of an inferior character. J. W. Arras, who is engaged in Govern-

ment work under Colonel Merrill, examined the walls of the docks and discovered cracks and bulging out. The wall was mostly damaged at the lower end. He did not think, however, that the wall was

creatly impaired. Edwin F. Smith testified that he had exwitness' impression was that the wall had insufficient width of foundation. Mr. Smith said he took some sounding and found little or no foundation. He also ex-amined the cement and found it bad, an an-elysis of the amined the cement and found it bad, an an-alysis of the cement showed it to be more of a hydraulic lime than hydraulic cement. The tail wall on the land side will have to be rebuilt, and it would take about \$7,500 to make the lock as good as it was when built. The dam is a double sloped one built in the old style. The witness examined the abutment wall on the other side of the river and found it in pretty good shape, but he thought the dam was not only \$10; ladies' black henrietta suits, waist quite long enough, and should have been about 75 leet longer. The statement that my mechanical structure improves with age was a new theory to the witness. His experience was that it deteriorated and dams vere no exception to the rule. The witness did not think the dam would cost any more to-day than it did in 1884. All these prices from 30 to 40 per cent below competition.

BUFFALO CEMENT CONDEMNED.

had been condemned.

William Martin, civil engineer at the

Davis Island dam, stated that he had some superience with Buffalo cement and found that it swells. On cross-examination, Mr. Martin admitted that the cement he used tle flashes are good. At this point the Commonwealth rested,

and Mr. Shiras called Colonel T. P. Roberts in rebuttal. Colonel Roberts stated that he had used Buffalo cement on some bridge work on the Allegheny river; also

some Pittsburg and Western Railroad and has known the cement to be extensively used,

gations. A reporter called at the residence of Mr. Mellon and he said that he had not heard of the charges, but it any were made they came from those who wanted attention

directed from those who wanted attention directed from the real charges. Mr. Mellon says he will go to Kansas City in the spring, if his health permits, to see that the matter is thoroughly investigated. He will probably appear before the grand jury, when in that eity, to press his charges in the inclined plane bribery case.

INCREASED POSTAL WORK.

ceeds That of One Year Ago. The letter and paper mail handled in the postoffice in the past month shows a large increase over that of November of last year.

There were 2,502,550 letters distributed and only 2,434,750 last year, an increase of 67,-800. Letters in transit distributed show a a gain of 7,550. Second class mail showed a gain of 20,104

pounds and a gain of 28,706 pounds distributed.
