Local Baseball Magnates to Meet To-Day-Genera

Eporting News of Interest.

Everybody who has attended trotting meetings during these last 15 or 20 years knows "Knap" McCarthy, Until a year ago no prominent meeting was complete the programme of which did not contain the name of W. H. McCarthy, although few people knew him by his initials. "Knap" was everything and meant everything in the way of a name. And many a tough argument "Knap" has won behind a pacer or a trotter no Homewood and Exposition tracks and even on the old Friendship Park track. He always had something "good," and never left Pittsburg without taking some of its money with him. Well, "Knap" McCarthy arrived in town vesterday, accompanied by Mrs. McCarthy, and they will be the guests of Adam Fuchs until

to-morrow, when they leave for Minneapolis. As is generally known, "Knap" abandoned the ng business for that of the runners more than a year ago, and, according to what he said yesterday, he is doing well. He is training the horses of Mr. Withers' stable. During a conversation vesterday he said:

I am engaged for next year by Mr. Withers, and I really prefer the runners to the trotters. There is more money among the runners. For instance a good supper can make as much money in one race as a good trotter can in a season. Last season our stable won \$61,000, and that is quite a nice sum of money. Next season we will have scarcely anything but 2-year-

son we will have scarcely anything but 2-yearolds, at least, we will have 13 out of 17 horses.
That means that we don't know what we will
de. Some of our yearlings are exceedingly
promising, but we have not the least idea what
they will do in a race next year."
Speaking of horses outside of his own stable
he said: There is nothing wrong with Salvator. I saw him two days before he was shipped
to California, and he was as bright as a new
dollar then, and as social as a hound's tooth.
He has arrived in California all right, and he is
the greatest race horse in America. Tenny

He has arrived in California all right, and he is the greatest race horse in America. Tenny may be the next best, but Firenzi can give him an argument; indeed, I would not like to say which is the better of the pair. Whenever they meet, both fit and well, in a race of a mile and a quarter it will be difficult to name the winner. They are both great horses,"

"Knap" talked pleasantly about his Pittsburg experience, and remarked that in Dallas Mr. Cormick has a wonderful pacer that will no doubt improve. More than once "Knap" remarked that he had no idea of returning to the trotters. He says that next season will be the greatest ever, known in this country for the ronners. He further stated that winter speculation on the Brooklyn and Suburban handicaps will be extremely great, and that several statics have some "dark" once for the events.

"Knap" never looked better in his life, and he looks years younger than when last in Pittsburg with his trotting stable.

PROMISING COLT FOR PITTSBURG.

Captain S. Keys Buys a Son of Red Wilkes for \$3,500.

Captain Samuel Keys, the veteran horseman of this city, has purchased from B. J. Treacy, of Lexington, a most promising S-year-old colt, for the good figure of \$3,500.

The youngster is a pretty bay and is named Redding. He is a son of that famous sire Red Withes, and his dam is Lady Dennison by John Dillard. Red Wilkes is the sire of Prince Wilkes, 244%, and of between 20 and 30 other horses in the 230 class. Good judges, and there are none better than the Captain himself, think Redding is one of the most promising coles seen for a long time. The colt is certainly well bred.

THE WORLD'S FAIR LABOR CONGRESS

DETROIT, Dec. 11 .- The proceedings of the American Federation of Labor were opened this morning by the reading of a telegram from Birmingham, Ala., sayingthat the Executive Roard there had been released on bail, and adding that in that city there was no freedom of speech for organized labor. Chairman Gompers appointed a committee to formulate the views of the Federation on the subject of the eighthour day. It was decided to elect officers to-morrow. Immediately atter the election the convention will select the next place of

meeting. Delegate Morgan offered a resolution, which set forth that occasion was taken during the Philadelphia Centennial by employers to flood Europe with advertisements that there was plenty of work in this country when there were thousands of idle men, and that the country was in turn flooded with unneeded labor. The resolu-tion asked action by the Federation to head off such possible immigration during the Chicago World's Fair. It was concurred

No Freedom of Speech in Alabama. Morgan's resolution, asking the Federation to support woman's suffrage, was re-ported favorably. The convention resolved to extend sympathy to the Alabama coal ners in the strike, whose Executive Board was jailed in Birmingham, and it was resolved to spare no pains to extend aid and encouragement to them. Those who took part in the incarceration of the committee were denounced.

A resolution looking to more discreet use of the boycott was passed. The request of the striking picture-trame and molding-workers of Cleveland, also the boycott of certain brewers and others, was reported favorably and referred to the Executive ceived here this afternoon that there was a disposition to not admit Youngstown to the league. If not admitted a league will be organized including Youngstown and five other cities that will furnish good football. hour day forward, and was concurred in by the convention. Pecuniary aid to the striking Beaver Falls, Pa., saw makers, was asked for and referred.

A World's Fair Resolution Introduced. A resolution, which was referred, asked that the Chicago World's Fair be open on Sunday, since Sunday was the only day on which an opportunity was offered to the wage-workers to attend.

It was decided by the convention to instruct delegates to bring their influence on all electrical wage-workers within their jurisdiction to form unions. A grievance was read from a Southern machinists' union regarding proposed affiliation, and one of the delegates arose to denounce a section of their constitution, which confined admission to white men. A resolution excluding such locals as draw the color or race lines, and to organize the machinists in a national body who do not inject the race clause in the con stitution, was offered and finally, after con siderable debate pro and con, a respectful request was added to the resolution asking the Southern unions to strike the color line clause from their constitutions, and the whole was referred to the Executive Couneil for action on that basis.

In Behalf of Retail Clerks. A motion was made pledging the dele-gates present to lend their aid in their respective localities to the formation of labor unions of retail clerks, with a view to their affiliation with the Retail Clerks' United Protective Association of America. The pledge also included that of devoted attenclosing for retail clerks. Referred to Com-

Delegate Sweeney's resolution providing for the appointment of a legislative committee. was reported adversely by the Committee on Organization. After considerable discussion the matter was recommitted, with instruc-tions for favorable consideration to report at the next convention.

A Contest on the Constitution.

The raport of the Committee on Constitu-tion was begun. They reported that it had care uily gone over the constitution and revised it. The revised version of the first four sections was carefully read, re-read, amended, and, after a great deal of discus-sion, a motion to adopt was lost, the poll vote standing 1,232 to 641, while a twothirds vote is required to carry. The remainder of the report was then recommitted

o the committee.

The sentiment of the convention did not seem to the dommittee on President's report to be sufficiently strong in favor of the holding of a World's Labor Congress at Chicago in 1893, and they would not recommend such an undertaking at present, but the Executive Committee would be instructed to-day to keep up a correspondence with a view to a possible congress.

FIGHTING AMONG THEMSELVES.

Skirmish Takes Place Between Hostile Indians and Chief Two Strikes.

PINE RIDGE AGENCY, Dec. 11 .- This morning it is learned from scouts sent to the Bad Lands that when they first entered the camp the Indians were in for killing them. This precipitated a row, in which TwoStrikes and his followers, who are desirous of coming to the agency, defended the scouts.

The time since the council, held at the agency last week, has been spent by the Indians in counciling and quarreling among themselves as to whether they should surrender or not, and this difference of opinion resulted in a final row yes erday, when guns entered suit against Joseph Taylor, of Mulberry and an attempt was made alley, for cruelty and neglect of his three children. Alderman Warner committed the defendant to jail for want of a \$100 bail.

Two Strikers' nephew and Nursing Bear. The riot ended in a division of the camp, the greater number joining Two Strikes, and declaring their intention to come to the agency, while 30 or 40 lodges, under the leadership of Short Bull and Kicking Bear, pulled for the interior of the Bad Lands,

and declared their determination to fight. TWELVE FAMILIES BURNED OUT.
