result. This was succeeded by a reaction to S<sup>2</sup><sub>2</sub>/c, at which there were sellers, as the market closed steady. The extremely small stocks in sight hinder sales, although a very general opinion pre-vailed among local operators that present prices are at least 5 or 6c higher than is other-wise warranted by the situation. Heavy liquidation in cats, superinduced by heavy estimates for to-morrow, caused a de-cline of lc in prices. Several brokers from the corn pit turned in and raided the market tend-ing material assistance to the bears. Hutchinson was the heaviest seller. The May deal opened at 5<sup>1</sup>/<sub>2</sub>/c, or 3/<sub>2</sub> lower, declining to 4<sup>1</sup>/<sub>2</sub>/c, and floctuating between that price and 44/<sub>2</sub>/c for a time. Then the raid hegan, and the market went off to 47/<sub>2</sub>/c, and some was sold as low as 43/<sub>2</sub>/c. It afterward recovered to 44/<sub>2</sub>/c, but another decline occurred, carrying the price form to 44/<sub>2</sub>/c. The market closed at 49/<sub>2</sub>/c bid. Mess Pork-A fairly active trade was re-ported, and prices ruled irregularly within a moderate range. Opening sales were made at 5673/<sub>2</sub>/c decline, but fair buying tended to strengthen the market, and prices rallied 12/<sub>2</sub>/<sub>2</sub> [bc. Latter prices settled back 73/<sub>2</sub>/0.0. Toward the close prices rallied 15/0173/<sub>2</sub>/c, and closed comparatively steady. Lard-A fairly active business was reported. Early sales were made at as slight decline, but later prices improved 5073/<sub>2</sub>/c, and closed steady at outside figures. Short Rib Sides-The trading was fair. Prices Were Sustained-Electric and Philadelphia Gas Make Further Gains.

Stock trading was of comparatively small dimensions yesterday, only 198 shares changing hands. There was a liberal supply of buying argers, but no special effort was made to place them, nor was there any pressure to sell. It as noticed that some of last week's sellers were among the bidders. While prices throughout, with one or two ex-

ceptions, were well sustained, Philadelphia Gas and Electric, which bore the brunt of last weell's raid, were decidedly stronger, both scoring material gains and closing at the best prices of the day. rices of the day.

Wall street was the conference of railroad Presidents. The impression prevails that a favorable result will be arrived at. Confidence is gradually returning and money lenders are more isclined to do business. The reappear-ance of time money places brokers in a position where they can recommend buying on margin, and commission houses are therefore ready now to buy stocks for their customers. The market to day was a dill and sluggish one, the ceneral disposition being to await the outcome of the Presidents' meeting before doing anything in the market, and narrowness also marked the dealings from the same cause. The demand was very light, the shorts having covered to a large customer to the market was lacking, while

the market, and narrowness also marked the dealings from the same cause. The demand was very light, the shorts having covered to a large extent during the final days of last week, and that support to the market was lacking, while London and all classes of operators were wait-ing. The London figures, however, were materially higher, and our market opened from ½ to 1 per cent better, in sympathy with it, but the lack of demand after the first buying movement had been satisfied, which raised prices from ½ to ½ per cent over the opening, and there was a sagging movement which lasted throughout the greater portion of the day, whing out most of the advances over Sat-arday's final figures. whig out most of the advances over Sat-arday's final figures. There were a few specially strong spots, how-ever, among which Missouri Pacific, Wheel-ing and Lake Eric preferred and a few others were prominent. The great feature of the day was the sharp advance in silver certificates from 105 to 110 on the prospect that there will be purchased the \$13,000,000 silver in the coun-iry together with the possible utilization of the fractional silver, besides the prospect of other legislation which is considered favorable by the silver men. The advance was not all held, but it closed at near the top. Another sharp advance was made by La Clede gas which was started by the decision of the Su-preme Court of Missouri, in favor of the com-pany, which allows it to charge \$1 25 per 1,000 instead of 90 cents as fixed by the city council last year. The roads in the Central Traffic Association will sell them on the 24th, 25th, 31st and January 1. The usual time allowed for these excursion tickets is np to January 2, and at the meeting of the Central Traffic Association, General Passen-EMIL G. STUCKY, Druggist, ger Agent Clark, of the Lake Erie, moved that it be extended to January 5. He said he knew that the trunk line roads would fix such a limit, 1701 and 2401 Penn ave., and Corner Wylie and Fulton st., PITTSEURG, PA. my15-51-TT88u

and as his line was out of Pittsburg he did not want to appear stingy. At his request the agents agreed to extend the time. Mr. Clark said yesterday that the Central ELECTRIC BELT Traffic people could never agree on the days of sale and the limit of the excursion tickets. He strongly favors the liberality of the trunk lines, and thinks the other roads

FOR WEAKAGE should adopt the same policy. The rate is the same in both associations, about a fare and a third. The Lake Erie this year has placed a large picture of an owl with a porous plas-ter on his stomach on the posters to call attention to holiday excursion rates. Mr. Clark says the scarcity of money is affecting the passenger traffic, and, while the local travel is good, the through business amounts to scarcely anything. ABOOK FOR THE MILLION FREE
