Not to be behind their neighbors who manufacture reapers and mowers, the makers of threshing machines and engines are now considering the matter of forming a combination on their own products.

CAPITAL

Threshing Ma

TWENTY MIL

Mahoning Valley

OHIO RIVER R

duced

Said to be

A meeting was recently held in Chicago, and although the proceedings were guarded with secrecy, it has leaked out that the proposed consolidation was the subject considered. The consolidated company is reported as having a capital of \$20,000,000, and it will include as stockholders about a score of the largest manufacturers in the United States.

plied:

The Minnesota Engine and Thresher Company, represented by H. C. Fogel, is said to be at the head of the enterprise, and the other companies in the deal are: C. Aultman & Co., of Canton, O.; Aultman, Taylor & Co., of Mansfield, O.; Russell & Co., Massillon; Orrville Machine Works, Orrville; Advance Thresher Company, Battle Creek, Mich.; Walter A. Wood, Hoosie Falls, N. Y.; Kingsland & Douglas, St. Louis; Garr, Scott & Co., Richmond, Ind.; Marion & Huber Manufacturing Company, Marion, O.; C. & G. Cooper, Mt. Vernon, O.; Eagle Machine Company, Indianapolis; Springfield Engine and Thresher Company, Stillwater, Minn.; Nichols, Shepard & Co., Battle Creek, Mich.; Harrison Machine Works, Belleville, Ill.; Robinson & Co., Richmond, Ind.; Robert Thorpe & Co., Three Rivers, Mich., and Rumley & Co., La Porte, Ind.

TO BE READY IN THE SPRING.

A call was made on a number of local dealers in agricultural implements yesterday, but all of them were either ignorant of the fact that the consolidation is being effected, or they did not care to talk about it. However, John Hall, Jr., of John Hall, Jr., & Co., 521 Liberty avenue, said he ex-pected the deal to be completed by the time the spring trade opened up. "It is not the idea," said he, "to place

the entire industry under the managemen: or control of one concern, but to manage the business in the same manner as the glass industry is managed by the United States mpany, or like any of the other industries that are in their respective com-

"I was expecting this deal last year, and I am not surprised to see it coming now. Of course it will not amount to much, but I suppose if the people want a combination they must have it. The principal object is to prevent the cutting of prices, but each firm will continue to run out their own agents and sell their own machines just the same as they have always done and there will be just as much competition as there ever was.

HOW BUSINESS WILL BE DONE.

"The business will be conducted after the fashion laid down by the harrow syndicate. Two years ago a combination was formed on harrows, and the minimum price was fixed at \$9. Well, we paid \$9 for every harrow we bought, but at the end of every quarter with some of the firms, at least, we could get a rebate of 10 or 15 per cent. was only one way of cutting prices, and the same will be done by the thresher combina-tion, as I believe it is by all other combina-

John Hall, Jr., & Co. are the local repre-sentatives of Russell & Co. Mr. Hall did not know who were the leaders in the deal.

A number of statements have appeared in print of late, to the effect that the plate glass industry of this section was in rather bad shape, while the outlook for the trade was not promising. Mr. James A. Chambers, President of the big plate glass works a plan. This time a number of young fel-

at Butler, was seen yesterday, and when asked what he knew of the situation he re-"So far as we are concerned, business excellent, and the future prospects are good. Every year about this time there is a little

lull in trade, owing to the fact that dealers are taking stock, but it is only temporary. We are running full force, and anticipate no immediate depression." When asked about the big Chambers &

McKee glass interests at Jeannette, Mr. Chambers said: "Why, business is on the boom up there all the time. We have all we can attend to. The town now numbers fully 7,000 inhabitants, and outside firms have never been solicited to locate there, as the plants already established can make good use of all the facilities. How about the natural gas supply? It is holding out strong. Our works are located within one mile of the Grapeville field, and thus far we have had no trouble whatever."

"What is your opinion of the natural gas supply, taken as a whole?" "Well, I must say that I differ with many people whose opinions are entitled to great respect, but I think that within a year it will be greatly reduced. I mean by this, that mills and establishments that use enormous quantities of it will be forced to

adopt some other fuel within the period ned. I do not wish to be unde as predicting a failure of the gas, for I am thoroughly convinced that the low pressure supply for domestic use and for the smaller manufacturing concerns will be abundant for years and years to come. The old fields are good yet, and then there are hundreds

and thousands of acres of territory that have never been developed at all. But I am satisfied that all of our big establishments will have to abandon it."

will have to abandon it." Mr. Chambers has had a broad experi-ence in the introduction of natural gas into this city, as well as developing territory. He was a prime mover in the formation of the big Chartiers Valley Gas Company, and is at present the President of the same, which is lessed to the Philadelphia Company, and, consequently, his opinions on the much-discussed subject carry weight with them.

Industrial Notes THE Continental Tube Works started up again yesterday.

A TWO-WEEKS' shut-down began yesterday at Jones, Cavitt & Co.'s. W. B. LUPTON is at the head of a new chemical roofing company that was chartered yesterday.

THE mills of Oliver Bros. & Co., on the Southside, resumed operations yesterday again by the use of coal.

THE matter of coal rates to points in Illinois will be discussed at the next meeting of the Railroad Coal Exchange. GEORGE WESTINGHOUSE, JR., denies that he is connected with the tobacco firm that was chartered at Wheeling yesterday.

LIMA oil is now to be used as fuel in other mills. Furnaces are being fitted up at the Frankstown Mills, and experiments are being made by other ade by other co

name will be done by the thresher combina-tion, as I believe it is by all other combina-tions. In my opinion combinations do not amount to abything." John Hall, Jr., & Co. are the local repre-sentatives of Russell & Co. Mr. Hall did new Exchange building. THE delegates are home from the convention ibrary of the Federation of Labor. As predi ... d in these columns Hugh Carney, of the Amalga-mated Association, was elected to succeed Wm. Martin as First Vice President. symp AUCTION. ever Watches, Diamonds, Jewelry and Silver Some have the idea it is altogether : mechanical instrument. They have not seen it. Store for rent and s, etc. Call and spend a half hour at Mellor & fixtures for sale. Hoene's, and listen to the delicious music

The little city of Jeannette is bound not to be behind the times. It has had a genuine jail delivery. There is nothing new in this fact, for Jeannette has been in the same fix before, but not on so extensive and novel lows visited the jail and held a high old carnival with the jailer.

At last the latter became so imbued with a spirit of peace and goodwill, and also with spirits poured from a bottle, that he opened the cell doors and allowed the four prisoners therein to escape. The boys held a mock court and assisted in bouncing the prisoners.

This little episode occurred early Sunday morning. In the city there are a number f young men who call their rendervous the Belvidere Club. The Belvideres are among the best citizens of the city, and believe in justice. Frank McKelvy, Ad Winters, Joseph Diebold and John Krous visited the jail on Clay avenue, and had a jolly good time with the policeman found there.

WERE IN A MERCIFUL MOOD. It is said that ere many minutes had passed, all, including the policeman, were

pretty well "tanked-up" (tanked-up is the proper expression, Jeannette people say). In the cells, peering through the square grated openings in the doors, were four unfortunates who had been incarcerated on different charges. They longed for freedom, and the boys thought it would be a square

shake to give it to them. The policeman, too, pitied suffering hu-manity and at last let down the bars, opened the doors and the boys in tragic tones com-manded the prisoners to come forth. A court was immediately formed and the prisoners tried. One said he had been drunk, whereupon he was told to go, and, as he did not "git" fast enough, was bounced out the door. Another may may asked what out the door. Another man was asked what he had done and answered "nothing."

"Ten days," roared the judge, which scared the fellow so that he immediately sneaked out of the door.

After the prisoners were gone, the boys tried the police whistle, examined the cells and at last adjourned and went hom :. A VERY HEAVY POLICE FORCE.

All this happened in a city which claims to have the heaviest police force in the United States. This may be doubted, but it is stated on authority that the three men constituting the department together tip the scales at 687 pounds.

scales at 687 pounds. This new method of disposing of prisoners has been the talk of Jeannette. The jail on Clay avenue is a building built for the pur-pose, with cells having wooden doors. A shor time ago a man could not be found when he was wanted in the morning. Be-fore the fact of his escape had become known, one of his friends had put up \$10 for his re-lease. When the cell was found empty, the

lease. When the cell was found empty, the \$10 was demanded and refunded. The policeman giving the four prisoners their liberty, it is understood, is looking for a job, and the police department is also looking for a man weighing over 200 pounds, who will not tamper with justice

and prison bars. THE WONDERFUL #OLIANS

NO CHANGE TO BE MADE.

The Report That Carnegie Bros. & Co.'s Men Wanted a New Scale is Denied.

Quite a stir was created in industrial circles yesterday by the statement that the scale now in force at the Edgar Thomson Steel Works, at Braddock, would expire, and the men were preparing a new one to present to the firm, providing that the turns should be eight hours in length instead of 12.

An official of Carnegie Bros. & Co. was seen yesterday in regard to the matter, and "There is no truth in the statement that the scale at our works is to be changed Our men are perfectly satisfied with the present one. They are making at least 25 per cent more than the men at any other mill make, and if they were not satisfied a change could not be made January 1. The agreement calls for a 30 days' notice from either side, and the men have given us no

SOME RAILROAD CHANGES.

A Well Established Rule on the Pennsylvania Lines Broken.

John McGuire, for many years yardman ter of the Pittsburg and Lake Erie Railroad. has been appointed general vardmaster a Conway, on the Pittsburg, Fort Wayne and Chicago Railway, Vice W. P. Shotwell promoted. This is a rare occurrence, as it is a well established rule on the Pennsylvania lines to promote from the ranks. Mr. Shotwell has been promoted to the position of assistant train master of the eastern division, with headquarters in Allegheny, ther change has recently been made on the Pennsylvania line. M. A. Pitcairn, postmaster at the Union depot, has resigned and has been succeeded by Robert Porter, his assistant, who will have full charge of the company's mail service in the local dissrict.

NEW ROAD TO ORTO

A Parallel for the Ohio River Road to Rich Coal and Fire Clay Lands.

The Pittsburg, Ohio Valley and Cincinnati Railway is now being constructed by the Pennsylvania Company, between Marietta and Bellaire, O., the latter being the eastern terminus where the road will connect with the Cleveland and Pittsburg railroad, The road will pass along the north bank of the Ohio river, through the counties of Bel-mont, Washington and Monroe.

The territory is rich with coal, fire clay and building stone, and is well settled. The road will parallel the Ohio River railroad which occupies the south bank of the river.

WANT LOWER FREIGHT RATES.

Mahoning and Shenango Furnace Men Will Kick To-Day.

The Mahoning and Shenango Iron Manufacturers' Association will meet the freight agents of Pittsburg to-day at the Monongahela House to ask for reduction of rates into the valleys. Since pig iron has dropped from \$18 00 to \$14 50 per ton the furnace men have not been making a new dollar for an old one. Their coke contracts have been made up to January 1, but after that date they will demand a heavy reduction or they will shut down. Coke for \$1 35 to \$1 50 would suit Iron City Brewing Co.'s beer. them very well.
