Run of Cattle Lighter and Quality Lower This Week Than Last at East Liberty Yards.

Good Bees Stronger, and Common Stock Weak and Lower.

GOOD SHEEP FIRM—HOGS DROOPING

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, Dec. 17, 1890.

There were close to 100 loads of cattle this week last week on the markets at East Liberty. The total on sale this week was about 140 loads. A large proportion of the offerings was common and low grade stock, which had to begin for buyers.

The average quality of this week's receipts was lower than usual. The most liberal estimate did not place the offerings of good grade above 20 per cent of the total. Light, tidy butcher cattle weighing from 1,100 to 1,200 lbs were in very scarce supply, and for the reason of their scarcity, markets were strong at a shade better prices than last week.

BRITISH DRYGOODS REVIEW.

Market Quiet With Light Sales, But Hopes of Early Improvement. MANCHESTER, Dec. 17.—The Guardian, in its commercial article says: "The market is quiet. There has been moderate progress, and the average sales have been moderate. The closing of the year has decreased the volume of business. The eastern sections are not yet quiet by the rise in exchange in consequence of the prospect of extensive purchases of silver by the United States. India merchants are hopeful of improvement, and some are inquiring more freely. Prices are steady. There is a better inquiry for exports. The sales are light. The home demand is slow. There is a moderate amount of severe wool, little belief that prices will be maintained. Summer mostly firm. Shirtings are steady. There is a little inquiry for heavy goods. Heavy goods are well sold, as are also most of the light goods. There is a moderate amount of high red printing cloths and other finishing goods in a better position, and prices are steady. The inquiry for heavy goods is small, but there is little pressure to sell."

A Flurry in Corn in the Afternoon Booms the Grain Market, Which Otherwise Would Have Been Dull—Wheat Feels the Influence.

CHICAGO—There was a slight improvement in the tone of the wheat market when trading commenced. First sales were at \$1 for the May delivery, with some trading also at \$1.05.

The market was quiet until about 12 o'clock, when a slight improvement was observed in the corn market, which was due to a rumor that the Government was to purchase 100,000 bushels of corn for the army.

THEY SHODD WOOD.

People Kept Indoors by the Weather Put in the Time Thinking.

A GOOD DAY FOR CONCLUSIONS.

Fair Trading in Local Securities, but Values Soft Like the Weather.

THE NEWS AND GOSSIP OF THE CITY

Business people remained indoors yesterday except when the spur of necessity compelled them to brave the rain and maintain their rivers into which the gutters were converted. Street traffic was cut down to the minimum and nearly all kinds of outdoor employment were suspended. Snow shoveling was the only industry that was pursued with much vigor.

Some people may think—indeed some so expressed themselves—that yesterday was a "lost day" so far as business was concerned. This is a mistake. While little was done in the way of buying and selling there was a good deal of thinking—"lawing wood," as people, sometimes say—for future use.

That it was not a "lost day" is shown by the following relation of a prominent real estate broker. Said he: "Some of the largest and most important deals of the week have been engaged to do such days as this. People remained at home and thought. Free from interruption they could see things in a new light. It was comparatively easy to reach conclusions. Many a time has the real estate broker been made to see 'Well, I didn't feel like that' when he returned at home and talked over that offer of yours with my wife. We finally concluded that the property was not worth the price which was offered. It is an interesting fact that the conclusion reached by the wife is usually the correct one. It is a fact that the wife is usually the correct one. It is a fact that the wife is usually the correct one.

NEW YORK, Dec. 17.—The stock market today was very dull and exceedingly narrow, but remained firm to strong, with the exception of a short time in the forenoon, when there was an attempt to break down the market. The market was selling stocks. The market at present is again overbought, and any attempt of the bears to cover causes a quick advance in prices.

Snow Blockade Proves Adverse to General Produce Trade.

POULTRY PLENTY, DEMAND GOOD.

The Supply of Grain and Hay Exceeds Demand, and Prices

STILL IN FAVOR OF THE PURCHASER

The snow blockade has put a quietus on trade in this line. Farmers and consumers are both in a state of inactivity. There is no change in price. Country butter and fresh eggs are firm at quotations. Potatoes are coming in more freely, but markets are firm, with an upward tendency. Cabbage is also tending in the same direction. Poultry and game are in good supply, and prices are steady. There is little fear of a glut in poultry. Such a thing has not occurred in many years. Christmas times. There is more probability of a shortage than a glut in the view of commission men.

WORLD'S NEWS.

THE AUSTRALIAN SYSTEM.

How the Application of the Australian Ballot System Would

STOP COSTLY ELECTION CONTESTS.

Fights for Office That Have Drawn Largely on County Funds.

The beauties of the Australian system of voting and its successful application in the interest of honest elections were shown conclusively in an article in this paper some weeks ago. There seems to be no other method feasible, so long as some have a rod held over them by employers, unless all employers can be persuaded to treat employees in the manner prescribed by the Golden Rule, or a breed of voters can be propagated who, knowing their duty, dare maintain it, a pretty difficult requirement when a man has a family to sustain and no bank account on which to lean. The old time style of voting in Kentucky had merit in that the voters were required to express their choice viva voce. Any elector could thus constitute himself a committee to keep tab on voters, and if the result were not correct could denounce the elector. But this method required more courage than the average needy man is supposed to possess, and he could be worked in advance to vote as wanted or stay away from the polls.

HEAVY EXPENSE TO TAXPAYERS. There is an argument independent of the necessity of maintaining the purity of the ballot, and it will be living if the average voter who makes his living outside of politics is in favor of it. But this method even if it is not administered by its own party, cannot appreciate its force. Scarcely a year passes that there are not one or more election contests, and some of them are expensive to taxpayers. Some of them are like a dozen years ago the contest between Joseph A. Butler and Edward Matthews for the aldermanship of the Seventh ward lasted 30 days, causing some \$1,500, and the net result had the city to foot, and Judge Bailey cast Colonel Stone's fees down to \$3 sitting, a small sum. The contest between W. J. Brennan, Councilman and Donkey for the aldermanship of the Twenty-fourth ward, cost the city between \$1,400 and \$1,500. Here two cases cost the city \$3,000, and every one in the last ten years who has cause for contest pushed it the sum total would have been a heavy draft on the treasury.

THESE CASES OF THE SIOGERS. There are at present three election cases on the stocks, two in this city and one in Allegheny, and under the late ruling of the courts they may be made much more expensive than the Brennan-Donkey contests. It has been decided that the evidence shown by the election papers, poll lists, etc., is not sufficient, but that in the case of any vote being challenged the voter himself must be examined and witness fees and cost of subpoenas amount to \$2 in each case. Apply this to the Stanton-Wyman contest, and what do we have? A vote in this case \$500 votes challenging. The cost of taking the testimony of each put at \$2 makes \$9,000, and with incidental and commissioner's fees will aggregate \$10,000, and the cost of the case must pay if the case is pushed to the bitter end.

WILL TEST THE TERRITORY.

A Butler Company Purchases 45,000 Acres for Oil and Gas. SPECIAL TELEGRAM TO THE DISPATCH. TALLAHASSEE, TENN., Dec. 17.—The Butler Land and Mining Company, of Butler, Pa., has leased 45,000 acres of land in the State of Tennessee, and has begun adjoining this town. By the middle of next month it will have its machinery here and commence boring for oil and gas, and developing the mineral resources in this vicinity. The company is sanguine that from the general topography and geological formation of this country that oil and gas can be obtained by going down for it, and if it succeed it will be the means of bringing more manufactures into this locality.

BITS OF RAILROAD NEWS.

The Louisville and Nashville Absorbs the Kentucky Central Railroad. NEW YORK, Dec. 17.—It is officially announced that the Louisville and Nashville has purchased control of the Kentucky Central Railroad. The Missouri Pacific directors have ratified the President's agreement, and S. H. Clark, with the President, will represent the company on the Advisory Board. The directors of the Chicago Junction Railroad and the Union Stock Yards Company have declared a semi-annual dividend of 3 per cent on preferred stock and a quarterly dividend of 2 1/2 per cent on common.
