

OUR BILLIARD PLAYER RETURNS. Mr. Dodds Comes Home and Talks about the Recent State Tournament.

William Dodds, the local billiard player, who represented this city in the recent State tournament in Philadelphia, returned home yesterday. When seen by a reporter at his billiard room he talked quite interestingly about the tournament. He said: "The tournament was a big success and I had a very good time while there. During the first few days I was very sick and that accounts for my poor showing in the early part of the tournament. The rumors that the effect that the table bothered me and that I was off my stroke was all nonsense. I was sick and the way I played in the latter part of the tournament proves it. I felt right when I met McLaughlin Monday night and defeated him in a splendid game."

WHAT PITTSBURGERS SAY OF IT. Director O'Sell Receives a Letter From Manager Burnham Explaining a Few Matters.

Referring to the various players in the tournament, Mr. Dodds said: "I would not like to see the best player in the city. Cline is a fine player, and so is Burris. The latter is quite young and has a great future before him. Levy and Rhoades were out-died by Cline, who, of course, is a good player, but I am not inclined to say whom I think is the best."

A TALK WITH BILLIARDIST DODDS. Mr. Dodds and Mr. Smith Talk to the General Sporting News of the Day.

The project to organize a National Cricket League is gaining in favor. Not only are leading cricketers in the East and West endorsing the idea, but all the prominent cricketers in Pittsburgh are enthusiastic about it. During a conversation yesterday, Secretary Dawson, of the Allegheny Athletic Association, said:

"Pittsburghers are sure to be in favor of a national league, because if any city can stand one we can. We are the central point, and we'll have Exposition Park for our grounds. The project is a good one by all means."

Alex. Macpherson, one of our leading cricketers, was also enthusiastic regarding the proposed league. He said: "I think the idea is a good one and I am certain that it will be a go. It will boom cricket, and if a league is formed I think we can get together a team here that will keep the best of them guessing. I also think that it would be a good idea to have all the leading cricketers represented at a meeting in this city, and decide what action to take."

Mr. O'Sell, who is centrally here and it would be easier for representatives, generally speaking, to meet here. We will have lots of cricket here next year, and for that reason I would like to see a national league formed."

THE PROPOSED CRICKET. The prevailing opinion at present is in favor of the following cities: Boston, New York, Philadelphia, Baltimore, Pittsburgh and Chicago. It is thought that these cities would make a good circuit. A special dispatch to this paper from Philadelphia gives the following prominent opinion on the matter:

"E. W. Clark, Jr., when asked for his views on the proposed league, said that he thought the plan should be carried into effect. He believed that this city should not be represented by more than one team, in order to avoid a feeling of jealousy, and thought the plan should be carried into effect. He believed that this city should not be represented by more than one team, in order to avoid a feeling of jealousy, and thought the plan should be carried into effect."

Mr. Clark thought the distance between the cities would not prove an unsurmountable obstacle, as each of the local clubs might be assisted for the expenses of its own team, receiving in return a proportionate per centage of the gate receipts taken in this city. Mr. Clark also favored the arousing of a wider interest than that created by the Halifax cup games."

William Brookline, of the Germantown, also spoke in favor of the proposition, remarking that Detroit might be included. He thought that Philadelphia should only be represented by one team and that each club should be responsible for the expenses of its own play. Samuel Welsh, third, of the Allegheny club, thought that the new scheme should be carried by all the active cricketers of the city."

CAPTAIN WOOD FAVORS IT. A. M. Wood, the Belmont captain, thought that the local championship competition has for some time been between Philadelphia cricketers, and that the plan adopted to widen the field of competition. At present the Halifax cup series led club authorities to the United States, while players for these games, resting against to place mediocre elevens in the field against the strong teams of other cities. He cited the recent visit of the Allegheny team, which left this city with flying colors, whereas, before its coming insufficient interest had been taken in its visit, and teams equal to its strength had not been prepared. "The new scheme would make outside matches of due importance. The interest of the Belmont club, said: "The proposed new league will undoubtedly prove a success. Being very similar to the present one, it will tend to create enthusiasm hitherto unknown here, both among players and spectators."

OTHER PROMINENT OPINIONS. Newbold King, of the Merion, believed that an association of cities would be one of the best things that had ever been proposed. He believed that this city could possibly be adopted. He believed that it would be much better to have each city represented by one team than that each city should be pooled.

F. H. Bohlen, the winner of the Childs Bunting Cup, believed that if the plan could be carried into effect it would give the game the greatest impetus it has ever known. He thought the present time was well chosen for its adoption.

Captain John P. Green, the President of the Belmont Cricket Club, on having the plan explained, remarked that the scheme was a good one, quite practicable, and at the same time a move in the direction of the central club plan. He thought it would be advisable to invite both Detroit and Chicago to join the league.

C. S. Farnum, the captain of the Merion Club, and Murray King, its President, have both spoken in favor of the plan as outlined, and A. H. Harris, secretary of the Philadelphia Club, also commends it as worthy of consideration.

From New York comes the excellent suggestion that the games under such an association should be played in ties. Under what is known as the Bagwell-Wilde system, this would be entirely practicable, that is to say, adding Detroit to the Association, let it play Chicago in the preliminary round. Then the winner plays Pittsburgh. In the Eastern schedule Philadelphia plays Baltimore. Boston plays New York, and the winner of these ties meets the Western winner for the championship.

McNeill will be Matched. NEW YORK, Dec. 17.—The announcement yesterday in regard to Jack McNeill's plans and intentions caused a stir in the sporting world, and the members of the fraternity were eager to learn whether the match between him and Andy Bowen, which was broken off when the representatives of the Audubon Athletic Club had almost completed arrangements for the battle, would be ratified, now that the champion has thrown down the gauntlet to any of the cricketers in his class. It is understood that the Knickerbocker Athletic Club, of Hoboken, will give a guaranteed purse of \$5,000 for a 25-overs battle between McNeill and Andy Bowen, but it is extremely doubtful if the champion accepts this offer, as there are at least three other athletic organizations which will raise the Hoboken club's figures for such a certain attraction as a contest between these cricks.

Ed. Nikirk and Abe Smith, the latter of Homestead, met at this office last evening and signed articles of agreement to run a foot race of 150 yards at Exposition Park, on January 3, for \$150 a side. Each party put up a forfeit of \$50, and \$50 each will be put up on December 27. The final deposit is to be made good the day before the race, and the referee and pistol firing will be extremely important. The sporting editor of this paper is final stakeholder.
