THE PITTSBURG DISPATCH, THURSDAY, DECEMBER 18, 1890.

NEW ADVERTISEMENTS

ELLS OF WILDWOOD computation of the Products of the Entire Field.

JVER 11,000 BARRELS PER DAY.

The Progress of the Organization of the Independents.

REPORTS FROM THE VARIOUS CENTERS

ISPECIAL TELEGRAN TO THE DISPATCH.] WILDWOOD, Dec. 17 .- As Wildwood is and has been the center of attraction of all the pools from McKean county to Old Kentucky since the field was opened up last March, THE DISPATCH scouts took the trouble to obtain as nearly as possible a correct gauge of all the wells com-pleted since the advect of the Whitesell farm wells, together with the but are not in order now and making no oil. This leaves 73 wells making 11,480 barrels, or an average of a little over 157 barrels to the well,

There may be a few scattered wells omitted, none of which are producers of importance. It now looks as if the Bowman gasser will be converted into a producer. The owners have gotten tankage up and the first 24 hours 216 120

low well on Cow run, which will make 25 or 30 barrels per day. Joseph Heydrick cased Monday on the PREPARED TO RESIST Joseph Hevdrick eased Monday on the Friend Cochran farm, near Eureka. This well will show if the Belmont field goes down the Ohio river. The Staniford well, on Middle Island, which was reported last Saturday as doing 400 barrels, is only 900 feet deep, with a little show of ail. The Independent Movement.

That the independent movement. That the independent producers are deter-mined to do something for themselves there is no question. They are quietly taking the initiative steps to formulate a combination of their interests, which will ultimately place them in a position not only to produce, but manufacture and market, their product. They are moving in their product.

They are moving in the right they are moving in the right direction, and all that is necessary to success is energy and perseverence. A large number of the leading operators from different sec-tions held another mysterious meeting in Pittaburg last night, but what was done or their nan of action was not given for public their plan of action was not given for publi-cation. H. McC.

The Best in the World.

rect gauge of all the wells com-pleted since the advect of the Whitesell farm wells, together with the wells now drilling and rig up and building. The gauges show what the wells are now doing 11,450 barrels a day. The report shows there have been 93 wells finished. Twenty of this number are dry or gas, while a tew are small producers, bet of gauges in the World. J. B. Loughran, ez-Mayor of North Des Moines, Ia., and the Locust street manufactur-er of steam engines and boilers, said: "I had a severe attack of la grippe. I used Cham-berlain's Cough Remedy, and spplied Chamberlain's Pain Balu to my breast. These remedies were just the thing in my case. My child had croup some years ago, and we used Chamberlain's Cough Remedy with perfect success; since then we have and we used Chamberlain's Cough Remedy with perfect success; since then we have never been without these medicines in our house. I had a cousin who was a printer and was employed in this city, where they were printing circulars for Chamberlain. He had a deep-seated cold and a terrible cough, and while setting up the copy he made up his mind to buy a bottle. It cured his cough, and that was the first time I ever knew anything of Chamberlain's remedies

Inscough, and that was the first time I ever knew anything of Chamberlain's remedies. I have been strongly in their favor ever since. My own experience and that of my family convinces me that these remedies are the best in the world. That may be strong language, but that is what I think." ThSu

Musette and Celestina

Automatic paper roller organs are musical instruments somewhat similar to music boxes, but whose music sounds like that of the organ, and its tunes may be changed from time to time by supplying new rollers. All varieties of these novel instruments will be found among the well-selected Christmas stock of Geo. Kappel's, 77 Fifth avenue, at exceedingly reasonable prices. ThSu

Surprise, delight and educate your family. Get a piano or organ; select none other than a Krautch & Bach, Stultz & Bauer, James M. Starr, McCammon, or Ives & Pond piano, a "Miller" or "Needham" organ. Sole general agency held by Lechner & Schoenberger, 69 Fifth avenue. Store open until 9 P. M. TTSu

Croup Has Lost Its Terrors. Mr. John H. Cullom, editor of the Gar-land News, Garland, Tex., writes as follows: "I wish to add my testimonial to the efficacy of Chamberlain's Cough Remedy for croup. That dread monster has lost its terrors for us since be began using the remedy. It never fails to give speedy relief in the worst cases of croup, and we always keep a bottle in the house and recommend its use to our friends whose little ones are so liable to be attacked with croup during the winter months." ThSu

C. H. Tisdale & Co. will commence their C. H. Tisdale & Co. will commence their sale of antique oriental rugs and carpets to-day, at 75 Fourth avenue. Sales at 10:30 A. M. and 3 P. M. This is the finest collec-tion of oriental rugs ever exhibited in Pitts-burg, and it is also the largest, consisting of over 400 pieces, ranging in size from small mats to the largest carpets. These are goods which make beautiful gifts for the holidays as well as ornaments for any house. The Henry Auction Company are the auction-eers, and the sale is without reserve.

An Advance in Gas Rates Causes Indignation at Braddock AND COAL IS IN BIG DEMAND.

> Several Hundred Consumers Will Now Discard the Fuel.

> A STRONG PEELING AGAINST METERS

The natural gas question, since the first noment that the gas was put into the homes of Braddock for household tuei, has been one made up of almost an endless round of groans, importunities and threatening queries from the anxious patrons of the var-

ious natural gas companies doing business in that region, and the entire western part of the State. The 2,000 or 3,000 private consumers of the fuel furnished by the Philadelphia Gas Company at Braddock have not been behindhand in offering their condemnations upon this company for the continuous shortage of the fuel furnished to them in variable doses within the past three or four years, and recently a decided sensation was created in that town when the report reached there that the Philadelphia Company would soon raise its present prices over 100 per cent, the same as it has been doing elsewhere, and for the same quantity of warmth; that has always, on an average, been meted out, to them in homeopathic

CONSUMERS RETURN TO COAL. The number of consumers in that busy manufacturing town fell off then at a lively rate, all the families hitherto using natural

rate, all the families hitherto using natural gas going back to the use of the old reliable black diamonds. The coal trade began to pick up in the vicinity with a briskness in proportion to the failing off in natural gas patrons, and continued during the cold weather of two months ago. Then came the weeks of changeable, in-clement, muddy weather, and the roads in that neighborhood became so heavy that coal could not be hauled from the mines, although hundreds of bushels had been mined and were awaiting delivery. Those families who had dispensed with the gas were in a quandary, and wood and every-

A Suggestion!

were in a quandary, and wood and every-thing else that was available as fuel had to be utilized, which state of affairs continued until the present cold spell. Now, however, hun-dreds of coal wagons are again plying their vection

Croup Has Lost Its Terrors.

dreds of coal wagons are again plying their vocation. Bobert B. Cogan, Superintendent at sta-tion "O" of the Philadelphis Gas Company. at Braddock, said: "The situation stands simply thus: The supply has been variable at times, as you perhaps are well aware. You may have also particularly noticed with thousands of the patrons of this company, that in the evenings and on Sundays the supply is un-usually great, and a pressure more than is usually great, and a pressure more than is desirable is on at these times. "The cause is very plain. The large man-nfactories in Braddock and vicinity, and the minor ones in the city, which are fur nished fuel by the Philadelphia Company,

TWO COUNTERS of \$4 Boys' Overcoats, consisting of fine all-wool cape and plain Overcoats, in beavers, cassimeres, cheviots, etc.

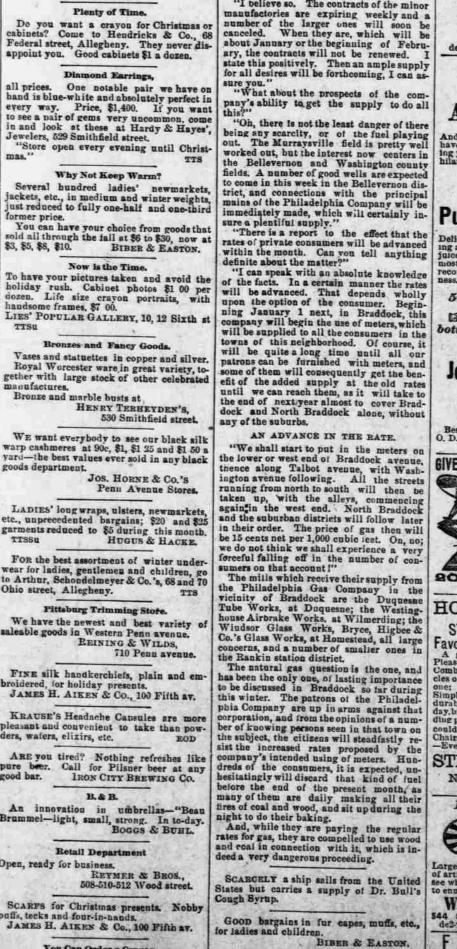

nished luci by the Philadelphia Company, utilize the greater portion of the supply, and consequently detract from the con-sumer's supply. The variation in the pres-sure, as I stated before, is due to this cause. As soon as the mills which run single turns close down for the day, about 5 or 6 o'clock, and shut off their gas supply, an increase in the pressure is felt in all the houses, though probably very slight.
