EYRAUD AFFEALS FROM THE DEATH SENTENCE

THY CABLE TO THE DISPATCE. KILKENNY, Dec. 21 .- It is midnight, but on the principal streets the campaign which closes with the voting to-morrow is still in tull progress. Some of the leaders, to be sure, have slipped away to snatch a few hours' rest before the final desperate struggle, but the mob apparently intends to make sure of being present at the opening of the polls by remaining up all night.

Many a stout stick has been cut and carefully tested, and though they are mainly intended for purposes of self-defense, it will be surprising indeed if there are not some broken beads in the next 24 hours. Every precaution is being taken to prevent serious trouble. The police force has been increased, and the military ordered to be in

readiness for an emergency. Parnell Contesting Every Inch.

It was expected that the priests would have everything their own way to-day and do great damage to Parnell, but that energetic individual held meetings at their church doors, and presented his side of the case with much vigor. Both sides were early in the field. Mr. Michael Davitt invaded the Parnellite strongholds of Goran and Gorestbridge, and, contrary to expectation, met with a most cordial reception. The McCarthyites held altogether 36 meetmes, and they mort to-night that everything is in a most satisfactory condition.

Mr. Paruell and Mr. Scully, the Paruell-

re condidate for Parliament, left here at noon to-day and drove in a closed carriage to Clare. They were accompanied by a long procession of cars filted with Parnell's Parnellites found a meeting proceeding op- pie who will not consent to be Germanized on John Pope Hennessey. When Mr. Parnell reached the crowd a priest-Father Walshaddressing Mr. Parnell, said: "These are chanel grounds. You must not speak here."

The Crowd Remained With Him. A local farmer here interposed, saving that the ground did not belong to the chapel, that it was Keogh's field, and that Parnell had perfect right to speak there. Mr. Parnell invited Father Walsh to hear both sides. Arrangements had been made to hold the meeting in that field, he said. and it must proceed.

Father Walsh then requested everybedy on his side to leave with him, and some few persons followed the priest and Sir Thomas ismonde, who was also present. A meeting was then organized and Mr. Parnell made

No!"] He could not ook an assemblage of his countrymen in

the face if he did not speak the truth. After some further remarks, Mr. Parnell concluded his speech, and leaving Clare, accompanied by Mr. Scully, drove six miles to Johnswell, where another meeting was held. While Mr. Scully was addressing this meeting Mr. Timothy Harrington arrived and was received by the crowd with much enthusiasm. Being called upon for a speech, Mr. Harrington addressed the meeting. In the course of his remarks he said that his colleagues in America had been led astray by messages from this side of the

Mr. Parnell next spoke. He reminded the electors that they had to deal with English statescraft, which was watching to seize every point of vantage ground that Trishmen surrendered. It was not a big heard of guardians for which Ireland contended; it was a Parliament that would fully satisfy the aspirations of the people. To achieve this the people must stand by their leader and not leave Ireland to the neapable persons who were trying to step

into his shoes. His concents had elected an amiable man, a quiet, good hearted soul. McCarthy was the sort of man to ornament a quiet and early tea party. [Laughter.] His opponents had also elected eight other men to take care of their leader; so he might be

proud to Find That it Took Nine Men. to fill his chair when his enemies had suc-

ceeded in dragging him out. He knew evidence which will knock out the Williams, or Welsh claimants, and place themselves next TO VOTE AND PREACH everyone of these men, and from the depths of his heart he could say that if he thought be could leave the destinies of Ireland safely in their guardianship he would cheerfully and willingly step down and aside. But he knew such a thing was impossible, and it would be a coward's part to leave his country to be torn asunder by 20 factions conending for power and place. The men opposing him were not elected to sit in judgment upon him. They had no authority through the voice of the people. Until Ireland gave him his dismissal he would regard himself as the commanding officer, arrying the national banner through the ranks of the foe. [Cheers.]

He believed Kilkenny would decide for hem. If not, he would not be downhearted, but would still hold aloft the flag until every constituency in Ireland had had an opportunity of declaring its judgment in a clear voice. [Cheers.] Mr. Parnell returned to Kilkenny this evening.

Harrington Talks Concerning America Mr. Harrington, the returned delegate, in on interview, holds that the majority of the Irish in America are for Parnell, although he says most of the leading politicians are against him. He says he thinks that Mr. Parnell will not retire even if his candidate is defeated at Kilkenny. The result of the election is to-night in

more doubt than ever. It the town of Kil-kenny itself could settle it Parnell would andoubtedly score a victory, but the result depends entirely upon the rural vote, where the priests have almost absolute influence. For that reason the general belief is that Mr. Parnell's candidate will be defeated. If he wins it will be a remarkable triumph,

CONTROL OF THE FAIR.

A BIG ASSOCIATION OF NEARLY FOUR THOUSAND EXHIBITORS

Who Propose to Run Things to Suit Themselves at the Chicago Exposition or Ruin It-Plans of This Novel Organization as

PHILADELPHIA, Dec. 21 .- Benjamin L. Allen, of Boston, President of the American Association of Exhibitors, is in this city. He has had a long consultation with Hugh Coyle, the manager of John Forepaugh's theater, and says he proposes to have a hand in the management of the World's Fair. One year ago, during the International Exposition in Boston, the American Association of Exhibitors was organized on a permanent basis. The members include the manufacturers of 1,000 commodities produced in this country, and their object is to country, and their object is to control the great expositions of the future, beginning with the World's Fair. As one of the most active members said to-day:

"Just think what our organization means. In Chicago we will number nearly 4.000 the exhibitors, banded together with fronclad regulations. Now, suppose the directors, President Palmer and the rest of them, say the fair shall not be open on Sunday. Well, in case we think differently, we will order the doors open every day in the week. If General Palmer and his men refuse, up go our thousands of exhibits into boxes, and back they go to our factories and warerooms. If we disagree with the directors about the price of admission, or anything else, in fact, we will close up the fair by removing our exhibits. The exhibits make the fair; take away our exhibits and who will come to Chicago just to look at General Palmer and his friends?"

This same member of the American Association of Exhibitions said further that he and his fellows believed that the high offices already given were procured by political power, and that the exhibitors were absolutely determined that the World's Fair should not be governed by the whims of a political ring. While the country has been disgusted by local quarrels over the site or by conflicts between the various boards of directors, Mr. Allen has been traveling all over the country adding members to the association and getting them to adopt ironclad rules, which will govern the fair. "It has been very amusing." Said the same member, "to see the politicians in New York and Washington and Chicago discussing the proposed fair, fighting about prices and dates, and hours and admission fees, while President Allen and the association have quietly decided almost all the points. Foliticians drove the Fair from New York, where it should be held, and we are determined that it shall not be altogether ruined by the ringsters.

"If the latter go monkeying with the buzz saw they'll get their fingers cut. Somehow control the great expositions of the future,

termined that it shall not be altogether ruined by the ringsters.

"If the latter go monkeying with the buzz saw they'll get their fingers cut. Alien replied that he was too bray to go West again, but that he'd be glad to see President Palmer if the latter cared to call upon him is Boston, A day or two ago Mr. Palmer wired Mr. Allen that he would start for Boston as soon as he could conveniently. You see they are beginning to recognize our strength."

NEW YORK, Dec. 21,-Twenty-one patients are undergoing the lymph treatment at the Monteflore Home for Chronic Invalids, at One Hundred and Thirty-eighth street and the oulevard. The operations at the Home, which began last Tuesday, have been conducted by Dr. Simon Baruch, the visiting physician, assisted by Dr. Max Rosenthal, the resident physician. Eight patients, six of whom were suffering with phthisis in its incipient and secondary stages, were inoculated with injections of one milligramme each on Tuesday. The nost favorable result noticed among the Mon tefiore patients is that the cough is not so troublesome. The patients all speak of their greater comfort, and they breathe much more freely.

The largest dose on record in New York was given at Bellevue to-day in a lupus case. It was the second inoculation. Dr. Pope said that the patient received an injection of nine milligrammes. The other lupus patients received five milligrammes each. The lymph is nearly exhausted at St. Mark's, and Dr. Weber is worried. As far as can be learned, there are now 116 patients in the various institutions receiving the Koch treatment. There was one reinoculation at the Polyclinic Hospital, and both the patients there are doing well.

The question voted on by the congregation, the Rev. BIG LOSS ON SUGAR.

Expert Brown Says it Will Amount to

\$70,000,000 a Year. WASHINGTON, Dec. 21.-Henry A. Brown, o assachusetts, the noted sugar tariff expert. has been in Washington for several days con-ferring with leading officials and members of Congress about the great cut in duty on suga to go into effect next April under the new tariff law and its effects on the revenues of the coun-try. Mr. Brown insists that the loss of revenue from making sugar almost duty free, to-gether with the bounty to be paid to sugar producers in this country, will amount to \$70,-000,006 a year. He is clearly of the opinion that it will be found advisable, and that it will be the duty of Congress to restore fully three-fourths of the present or old duty on sugar and discontinue or repeal the bounty feature of the new law.

of the new law.

He has no doubt that the rapid increase in production of sugar in this country will very soon cheapen permanently the price of that article to American consumers, and that powerful factor in treating with sugar producing constries for reciprocity. Ex-Mayor Pendleton, Who Was Driver From Fort Worth, Tex.,

RUNS HIS DESTROYERS TO EARTH

ISPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, Dec. 21 .- The victim of on the fraudulent divorce mills in this city has run to earth the proprietors of the mill. He is no less a person than William S. Pendleton, who, when he bought his divorce, was Mayor of Ft. Worth, Texas. The men who sold him the divorce were W Durvee Hughes, who says he is the brotherin-law of Landaulet Williams, once ex-Attorney General of the United States, whom General Grant wanted to appoin Chief Justice of the United States Suprem Court, and Patrick H. Campbell, both at-

torneys practising in this city. It was not many years ago that Hugher and Campbell were infpartnership and they occupied a dingy little office at 320 Broadway. From the facts which are presented to-day, it would appear that the Superior Court of Cook county, Ills., occupied the dingy little office with them, or if it did not the men who did, assumed the functions of that court, imprinted its seal with a counter feited die and forged the name of Clerk P. McGrath, of that court, to a certificate appended to a document purporting to be a divorce for which Hughes & Campbell received \$265 The proof of the forgeries is unquestionable; the connection of Hughes with the procuring of the seal counterfeit is positive.

The Divorce That Ruined Pendleton When the sensation that attended the dis losure of the fact that the divorce Mayor Pendleton had was fraudulent was at its height, Hughes was interviewed by reporters and asserted positively that the firm of Hughes & campbell had not been engaged in any divorce suit and knew nothing about any divorce Pendleton might have. That statement ruined Pendleton financially and politically. Since then Campbell has written a letter to Pendleton to the same effect. The offer of Hughes and of Campbell to nay back the money they had received for the divorce don't exactly harmonize with either the letter or the interview.

Mayor Pendleton's divorce and re-marriage created much astonishment in the South, and the subsequent events, which include the discovery of the fraudulency of the divorce, made it necessary for him to resign his office as Mayor and leave the State. There was no supicion at first that the divorce which Pendleton had was not geouine. The exposure created a tremendous sensation. Mayor Pendleton protested that his divorce was genuine and that he had obtained it through his counsel, Hughes & Campbell, whose office was at 20 Broadway, New York. They had had the assistance of associate counsel in Chicago. Between the time of the granting of the illegal divorce and the publications proving it to be fraudulent the firm of Hughes & Campbell had dissolved partnership, each partner starting in business for himself.

A Dispatch That Capped the Climax. The following dispatch, dated New York, was printed in Ft. Worth last July:

"In an interview this afternoon with W. D. Hughes, of the late firm of Hughes & Camp bell, lawyers, 320 Broadway, he stated to Gazette correspondent that while his firm had acted as counsel for Mayor Pendleton, of Ft. worth in certain business matters relating to law for the firm of which Pendleton was a member, neither the firm nor Mr. Campbell nor himself inclivinually had, so far as he knaw, acted as attorney for Mr. Pendleton in the proceeding claimed to have been had in Chicago, by which Pendleton secured a divorce from his wife."

He would probably have served out his term if he had not received positive evidence that the divorce was fraudulent, and then the pressure became too heavy and he resigned. Mrs. Pendle ton No. 1 began a suit for divorce at once. She got her divorce on October 4 last. In the mean-time Pendleton had been lost sight of. He time Fendieron had been lost sight of. H was now quietly at work to get revenge on th lawyers who had had his money and had co-him his reputation. His story of how he ge his divorce from Hughes & Campbell is as fo lows, part told by himself and part by h friends:

friends:

He read an advertisement in a New York paper stating that Hughes & Campbell, attorneys at law, could obtain divorces in all the States quickly. He wrote to them and told hem that he desired to get a divorce from his vife and asked what State it would be easy to get it in. It was plain incompatibility of temper that he alleged and nothing else. His wife was a good woman, but he could not get along with igainst her reputation. He asked whether the

firm could get a divorce for him on the group he named and how much it would cost. Negotiating for the Divorce. In reply, he got a letter to the effect that it would be an easy matter to get a divorce, and that it would cost him \$250, of which \$125 must be him \$250, of which \$125 must be paid at once and the rest when the divorce was obat once and the rost when the divorce was ob-tained. Altogether, Pendleton says half a dozen letters passed between them and then he sent on \$125 and instructed Hughes & Campbell to go ahead and get the divorce. In the latter partof July, 1889, he started for New York himself and called on the lawyers. He does not remember exactly the language they used, but it was to the effect that matters were in good shape and that the divorce would speedly be precured.

They led him to believe, he says, that the sui was going on here. He had no idea that it was at Chicago that they intended to bring the suit, or rather date the divorce papers. He called occasionally at their office and was assured that occasionally at their office and was assured that the suit was getting along finely and would end in his favor. Some time in August they asked him for \$40 on account. He says they told him it was to pay the expenses of advertising the notice. Being so far away from Texas, it was necessary to serve the notice of the suit on Pendicton by publication. He paid the money. In the latter part of August he received a letter from the firm telling him to call at the office at once; that there was some agreeable information there for him.

The Agreeable Information Imparted.

He did call the next day and they congrat lated him and handed to him two copies of a scree of divorce alleged to have been grante in Cook county, Ill. This was the first time he had heard that the suit had been brought in Illinois. Both copies were in regular form and were certified to by the clerk of Cook county. At least his name was signed to them, and I'endleton says he thought it was all right.

"Now, Mr. Pendleton," said Hughes, "you have two copies of the decree, one for yourself and one for your wife. Shall we send the one to your wife or will you take it and give it to her yourself?" "I will take it myself," said Pendleton, and he paid the \$100 due and went away. He returned to Toxas shortly afterward. His youngest child was very ill. The doctor said it could not live. He asked the doctor how long it would live, and the doctor told him that it would surely die in a few days. Pendleton though he would wait until after its death before he told his wife of the divorce. He resumed his residence in the house, occupying a separate room from his wife. The child, instead of dying in a few days, lived for ten months, and the telling about the divorce was put off day after day. In the mean time a party of Mugwumps put up a candidate for Mayor at a local election. The regular parties were looking about for a candidate and insisted on Pendleton taking the nomination. He was very popular Illinois. Both copies were in regular form and

He returned to Ft. Worth to settle his business affairs, intending to live down the talk about him.

Even these dispatches in the papers did not convince him that he had not a legal divorce, and he refused to believe that it was illegal until he read the interview that The Disparce reporter had with Hughes in this city. He did not oppose the suit of his wife and her divorce was granted to her. He had \$40,000 worth of real estate in Texas and he settled that on her and then came to New York. All the money he had left was a little over \$1,000. He remarried Addie Cullen at once and is now living with her here.

He has secured virtual confessions from both the lawyers, who are willing to refund the \$255. He has also found the man who made the Chicago court seal. Forging the seal of a Court of record is a penal offense. The lawyers have not been arrested, but likely will be to-morrow. THE PERILOUS ADVENTURE

Indians Sending Letters to Their Children in Eastern Schools. LAWRENCE, KAN., Dec. 21,-Several of the tudents at the Haskell Institute, the Indian thool here, have received letters from their Messian craze. One of the letters is from a Caddo chief to his daughter. It is dated Anadarka, and tells of the ghost dances. The chief tells his daughter not to ridicule the coming of the Mondrous manifestations the Indians have received from him regarding his appearance on earth again. He says that maybe some time her Indian instincts will assert themselves, and then she will come back to her neonle, join in the dance and make back to her people, join in the dance and make herself ready to receive the Messian. The old chief says the belief is confined mostly to the good Indians, and he regrets that the bad ones will not mend their ways and accept the Christ.

MET A DESERVED FATE. Chinese Assassins Executed for a Most Diabolical Crime. SAN FRANCISCO, Dec. 2L-Chinese advise report the execution of the sentences of the villagers, near Shanghai, China, for the cruel murder of 14 salt inspectors, and the burning of the bodies of the wounded and dead. Last March these salt inspectors made a raid on a village. They wore no uniform, and the villagers mistook them for pirates. The inspectors seized a pile of contraband salt, which they found by the side of a bouse, and while they found by the side of a bouse, and while removing it they were attacked by the villagers and overpowered. Nearly all were only stunned by the blows, but the villagers found that they had attacked Government officers, and fearful of severe punishment, decided to burn boats, and with it the bodies of the wour boats, and with it the bodies of the wounded inspectors, to remove all traces of their crime. So they carried the injured men to the boats and, despite their entreaties, set fire to and burned the whole. The chief criminal was sentenced to decapitation, but committed suicide before the day arrived, and according to law, his body was exhumed and the head struck off and exhibited as a warning to the public. Four others were strangled and four exiled after heavy fines.

nambulism. Officer David Smith left the Twentyeighth ward station at about 2 o'clock and was proceeding homeward along Carson street, when, at the Fifteenth street corner. he was suddenly startled by what, at first sight, appeared to be an apparition from another world. Officer Smith, however, is

gifted with considerable pluck, and he at nce advanced upon the supposed ghost. A pearer approach showed that the suspected Squre was that of a young girl, clad obly in a dainty, frilled night gown and slipper. The ind blew keenly at the Fifteenth treet corner; but the lightly-clad girl did not seem to regard the elements in the stightest degree, Officer Smith was, to say the least, astonished; but his presence of mind did not leave him. He advanced toward the girl, and saw by her staring,

signtless eyes that she was fast asleep. At this moment the sound of quick stens was heard, and two men came down the street at a rapid pace. Officer Smith recognized Max Reizenstein and another resident of the hill whose name he did not know. Reizenstein rushed wildly at the girl, cry-"Louise! Louise! why don't you waken?" But the somnambulist didn't appear to hear his words.

Story of the Somnambulist's Feat. The policeman then caught the girl gently by the shoulders, preventing her onward progress and requested the men to tell what hey knew about her. Reizenstein declared that they had noticed the girl, whose name he said was Louise Liebendorfer, passing in her nightgown along Virginia avenue, near the top of the Knoxville incline. Curiosity induced them to follow her, when, to their horror, they saw her step from the bluff-side to the ties of the incline and begin to descend the perilous slope. For a moment they feared that she would lose her balance and fall through the spaces any misadventure, they decided to run around by the steps and stop her at the incline depot. On the way they caught occasional glimpies of the fragile form, ciad in a fluttering night robe, and stepping from the to the with apparent case. As soon as sho recognized her surroundings she buried her face in Officer Smith's capacious bosom and begged in pitful tones to be taken home. I do not want to tell the young man's name, as his family are well known and respected on the Southside." Tired Out by Her Tramp. It was learned that the heroine of the adventure, Miss Louise Liebendorfer, was asleep at the time of this interview, having been almost tired out after her descent of the incline.

Max Reizenstem was next sought. He said: "It is quite true that Miss Liebendorter descended the incline last night. I and my friend Kimnell saw her nearly every inch of the way. kinnell saw her nearly every inch of the way. She was all in white, so it was easy to distinguish her on the ties. The watchman at the foot of the incline also noticed her, and followed her to Carson street. She went down the incline just like a cat, and very quickly, as if she performed feats like that every day of her life. I believe there is a love story back of this, and that a heart trouble has been preying on the girl's mind. I went to school with Louise Liebendorfer. She cannot be more than 20 years of

dorier. She cannot be more than 20 years of age."

All attempts to see Miss Liebendorfer were unavailing. She was said to be too tired, when awake, to see anybody.

One of the incline officials was last night interviewed with regard to the length and danger of the incline descent. He said: "The incline is, at the very least, 1,000 feet in length. It appears to me most extraordinary how any human pears to me most extraordinary how any human being could successfully descend it especially at the hour mentioned, which is the very darkest part of the night. At some places the incline rises to over 50 feet above the rocks. One false siep would have precipitated the girl upon the rocks beneath. Besides, at 2 A. M. a drizzling rain was falling, and the incline ties were already slippery with frest and snow. Providence alone could have guided Louise Liebendorfer in safety on her awful journey."
