## DEAD MINERS FOUND

The Bodies of Eight Men Buried Alive in March Discovered.

THE CORPSES NOT RECOGNIZABLE.

The War Waged Against the Coke Dealers Extends This Way.

MINOR NEWS FROM THREE STATES

SEPECIAL TELEGRAM TO THE DISPATCH. WILKESBARRE, Dec. 31.-No little excitement was caused here to-day when it became known that the chamber in which the eight men supposed to have been lost in the South Wilkesbarre shaft in March last had been penetrated and the decomposed remains of the eight men recovered. During these nine months, while the bodies of the unfortunate men were being incinerated, their families and triends have suffered agonies by the suspense which had been repeatedly made worse by the many false rumors which buoved the hope that they would at least be allowed the poor consolation of

placing their loved remains at rest.

The revelations disclosed by to-day's discovery crushes even this hope. Fragments of remains only can be recovered, and identification can only be made by means of certain articles of clothing. Tho body of Frank Cull, which has been taken out, was identified by a brace which he wore upon his leg. Another is supposed to be James O'Donnel, recognized by his garments, while two others may be Jamison and Thomas O'Dennel, as there are no marks or means of distinguishing them. Four others are still covered by the debris, and by to-morrow night may be found by the men who are working with renewed vigor and the hopes of recovering their comrades. remains only can be recovered, and identification

THE WAR AGAINST COKE DEALERS. The Contest by Furnace Men Seems to Have Extended This Way.

SPECIAL TELEGRAM TO THE DISPATOR. SCOTTDALE, Dec. 31.-The lessening of or ders by furnacemen and other consumers of the Connellsville coke, because of prices, and other obvious reasons, is having a depressing effect on the coke markets. The prevailing car famine is cited as one of the disturbing factors, but the main cause is that given above. The H. C. Frick Coke Company gave notice to-day that they would bank for an indefinite period 1,100 ovens in the region next Mouday and Tuesday. Twenty-five per cent of the whole number of ovens were blown out a short time ago, and coupled with the numerous shutdowns noted above, will have a damaging effect on the business of the entire region. Nearly 1,500 more men will be thrown out of employment. factors, but the main cause is that given above nployment. Seldom in the history of this region have

Seidom in the history of this region have there been so many idle men as now. The men are drifting hither and thither in search of employment. The miners not involved in the shut-down are all bearing a share of the bur-cen and are dividing their work equally with their fellow-workmen who were less fortunate. By this division of work they can scarcely make living wares.

make living wages.
Last week the Frick Company agreed to a reduction of 25 cents on the ton, but this has not soothed the wants of the furnacemen, for they desire a further reduction of 25 cents. By the movement of the Frick Company to-day, it was made plain that the operators prefer banking their plants rather than agree to a second reduction.

GOULD'S FINANCIAL POWER.

Within 25 Years He Could Become Dictate of the United States.

Yenowine's News. ]

Jay Gould's annual income of late has been not less than \$12,000,000. He has actual control over systems of railroad to the value of \$225,000,000. At the rate he has been accumulating wealth of late, he is liable to own or at least control every railroad of import nnce in the United States in ten years. In 25 years, at the same rate of acquisition, t be able to assume the dictatorship of the Government.

It is now known that the recent flurry Wall street, which caused trepidation throughout the financial world, was started by a little scheme of his to reduce the price of railroad stocks so that he could buy enough of them to gain control of more great trunk lines. What matter that it cost English speculators in American stocks over \$100,000,000. What next? No wonder that so many sensible men in the land begin to fear that the conflict between capital and labor may become irrepressible, and that, too, at no distant day. The almighty dollar is becoming almightier mighty fast.

MEETING A PASSENGER CUT.

St. Louis People May Ride to Chicago for \$1 75 Less Than Usual.

CHICAGO, Dec. 31.-Chairman Finley. of the Western Passenger Association, to-day authorized the Chicago and Alton, the Wabash and the Illinois Central rail-roads to make a rate of \$5 75 from St. Louis to Chicago, to meet the scalpers' rates over the Jacksonville Southeastern and the Atchison. This is a reduction of \$1 75 from

the regular rate.

The reduction applies in one direction only, as there is no evidence that the rate from Chicago to St. Louis has been manipulated. This releases the Atchison from any responsibility for the irregularity.

Why He Felt Better. New York Sun. 2

"Are you happier since your second mar riage?" he asked of his friend as they rode down town on a Broadway car. "Oh, much happier."

"Exactly, the same as with my first, but there is this difference—I feel more set-tled." "Then it was a case of love?"

"In your mind?"
"Yes, and all other ways. It was never quite clear in my first venture who ran the house, but in this case everything is plain sailing, and no occasion for dispute."
"She knuckled, eh?" "Oh, no. She's boss,"

THE DUCHESS IN HARD LUCK. She Must Pay Debts in New York at the Rate

of \$50,000 Yearly. NEW YORK, Dec. 31 .- The Duchess Marlborough will have to curtail her expenses in future by \$50,000 a year, the Supreme

in future by \$50,000 a year, the Supreme Court having decided that that sum must now be applied to the payment of three judgments aggregating nearly \$700,000, which were recovered against her recently.

A suit was begun by John Jaffray, who holds the judgments, to ascertain how much her ladyship required for her maintenance. The Duchess answered that her net income did not exceed \$135,000, and all of it was necessary. William A. Duer was selected referee, and he finds that her gross annual income is \$140,000, and her net income \$130,000. The referee further finds that she will have a reasonable allowance after deducting \$50,000 a year. This report has been approved.

FIGHTING THE HARVESTER TRUST. Missouri Farmers Will Build Their Own

vester Company, of Chicago.

A movement is new on foot to establish a binder factory in this State, the necessary capital to be raised by subscription, and the plant to be run on a co-operative basis.

Three Fountains of Beer.

Spare Moments. An ocean of beer flows from the three fountains of England, Germany and America. England sends forth a stream of 900,000,000 gallons, Germany 900,000,000, and the United States 700,000,000 gallons. The Atlantic and Pacific are never drained. but this ocean of 2,500,000,000 gallons of beer is annually drained into human stomachs, crazing the brains, corrupting the hearts and ruining the souls of millions, all by the consent and under the indersement of Christian Governments.

Only Half Enough Assets. ROCHESTER, Dec. 31.-Harvey G. Thomas, a dealer in household furnishing goods, made an assignment this morning. The liabilities are estimated at between \$12,000 and \$15,000, and the actual assets will not be more than \$6,000 or \$7,000.

HUNTING HIS MOTHER.

Charles Williams Says Mrs. Probert Stole Away While He Was Asleep. Mr. Charles J. Williams, of Munhall, son of Mrs. Mary A. Probert, who secured a ticket to Maynard, O., from the Department of Charities by saying her son had put her out of the house, by saying her son had put her out of the house, denies the story entirely. Mr. Williams says that his mother, who is a very old woman, has been ill for three weeks and under a doctor's care. She spoke of going to Homestead, and he told her not to go, as she was not in condition to leave the house. While he was asleep she left home, came to Pittsburg, got her ticket and left the city.

Mr. Williams does not know who her friends can be in Maynard, and is making every effort to have his mother located and returned to her home with him.

Dishonored Drafts. When the stomach dishonors the drafts made upon it by the rest of the system, it is necessarily because its fund of strength is very low. Toned with Hostetter's Stomach Butters, it soon begins to pay out vigor in the shape of pure rich blood containing the elements of muscle, bone and brain. As a sequence of the new vigor afforded the stomach, the bowels perform their functions regularly and the liver works like clockwork. Malaria has no effect upon the system thus reinforced.
