THE WORLD AS IN A MIRROR.

A Record That Shows How Fast This Busy Universe Travels.

THE PROGRESS OF CIVILIZATION.

A Period Full of Occurrences That Will Interest Coming Generations.

REIGN OF PEACE AND PROSPERITY

The old year has passed and gone with its joys and sorrows, its good and its had deeds, and with its great events, and there have been many that have tended either to the weal or the woe of the human race. The record of events, when calmly reviewed, will show what a busy age this is-great things happen, they are a sensation for a tew days, and then give way to something of fresher interest. It is a world that lives in the present and the future, but a valuable lesson may be learned by turning over the pages of the past, for it is only then that people may realize how fast they are travel-

The year has been one of comparative prosperity in this country, though other naous have not fared so well. It has shown creat advance in the methods and applinces of civilization, and it has been full of sucprises. The compilation which follows gives a rapid glance of the occurences of 1800, so sub-divided that the reader can have no difficulty in finding any one event in which he may be specially interested.
