TIEWERS' REPORT-

(TIEWERS' REPORT-

The Record for the Past Twelve Months Bright, but Prospects Now Uncertain.

DECEMBER, 1890, A BAD MONTH.

Fallure and Clearing House Figures for the Year, as Given by the Bradstreet and Dun Agencies.

A LARGE VOLUME OF BUSINESS IN 1890.

The Week's Trade Reports From the Various Cities Are Fairly Satisfactory.

SPECIAL TELEGRAM TO THE DISPATCH! NEW YORK, Jan. 2.-Special telegrams to Bradstreet's report a quiet week, so far as the distribution of general merchandise is concerned, as was expected during that particular week. Stock taking is still a conspicuous feature. The weather has been generally unfavorable, and reports are reprived of a waiting attitude on the part of buyers and sellers.

At Boston there has been a freer move ment in all lines, that city proving an exception to the general rule. Even wool is gaid to be stronger, both at Boston and Philadelphia. Rubber is up 13c per pound. owing to Brazilian speculation, and leather is recovering, with splits 2c higher. Butter, eggs and potatoes are all firmer and higher

Wheat is firmer and has advanced one cent in spite of the unprecedented increase of nearly 1,000,000 bushels in available stocks for the week ending December 27, and larger stocks affoat for Europe and at United Kingdom ports.

Wheat and Flour Exports Smaller. Hogs, too, are higher at Western markets on a more active demand. Iron is as weak as heretofore and coal prices are unchanged. Exports of wheat and flour from both coasts of the United States for the past week equal 1,031,000 bushels, against 1,431,263 bushels last week and 1,898,054 bushels in the like week of 1889-90.

The bank clearings for 1890 at 37 cities in the United States, as reported in Bradstreet's, aggregate \$59,585,636,458, or 6.7 per cent more than in 1889, 21 per cent more than in 1888 and 16 per ceut more than in 1887. At New York City the aggregate of bank clearings for 1890 was \$37,458,607,608, or 63 per cent of the whole, showing a gain for the metropolis over its total in 1889 of 4.3 per cent, or 20 per cent over1888 and 12 per cent over 1887; the relatively more rapid growth of bank clearings at other cities is shown by he fact that at 36 cities, exclusive of New York, the aggregate for 1890 was \$22,127,-028,850, or 11.4 per cent more than in 1889, 22.3 per cent more than in 1888 and 25 per

cent in excess of the total in 1887. An Interrupted Financial Market. Business in Wall street was light during the interrupted week, but prices tended to advance and both activity and strength were shown at the close of the week. Money is easier, without being in specially active demand. Rates on call have ranged from 3 to 8 per cent, and on time 6 to 6½. Cold weather has stimulated an advance in the

anthracite carriers' shares. The total number of failures in the United States in 1890 was 10,673 or 9 per cent less than were reported to Bradstreet's in 1889, and only a little in excess of the total of 1883, prior to the panic year, 1884. Gross assets and liabilities in 1890 are about equal to those in 1883, but are 30 per cent and 24.7 per cent heavier respectively than in 1889. The most conspicuons failures last year were among private bankers and State banks, of which there were 32, with nearly \$19,000,000 gross liabilities. Next in order came 25 textile len and cotton) manufacturers, with nearly \$7,500,000 liabilities, lumber dealers being third in order (14) with mearly \$8,000,000 liabilities.

December Was a Bad Month. There were 194 failures in the country in 1890, 44 of them in December, with liabilities in each instance of \$100,000 or more-an unusually large number, their total

liabilities being nearly \$72,000,000. Drygoods generally are quiet. The only exception is found in clearing-out sales by obbers, prior to the semi-annual inventories. rices are unchanged in the regular way. Wool opens the new year in good shape, following the December improvement. Stocks are lighter than a year ago, and prices are firm. The general tone is one o Cotton is 1/1c higher on bullish Liverpool advices, which indicate a lack of confidence in maximum estimates, in spite

B. G. Dun & Co.'s weekly review says: The new year opens with so much of un-certainty that there is a natural disposition to dwell upon the crowding records of the year just closed, which show an extraordimary volume of business, in many lines surpassing all precedent. Iron, cotton, leather, oot and shoe and meat production were larger than in any previous year. Large Volume of Business.

Thus, 2,219,312 cattle were slaughtered at Chicago, against 1,763,310 in 1889, a gain of 25 per cent, and 5,733,082 hogs, against 4,-211,767 in 1889, a gain of 36 per cent. At Soston, 3,535,211 cases of boots and shoes were shipped, against 3,399,980, a gain of 4 per cent. The clearing house exchanges show that the volume of all business in 1890 exceeded that of any previous year by at least 10 per cent, though in part this in-crease was due to the higher range of prices during the greater part of the year.

The advance in prices of all commodities,

compared with a year ago, is 66 per cent, and the average has been about 5.5 per cent higher for eight months. But this unpre-cedented volume of business has not been altogether successful, and the recorded fail ures have been to number and in amount of liabilities larger than in any previous year since 1884.

What the Failure Figures Show. Though in number only a trifle greater than in 1889, the average of liabilities wa \$17,406 for the year, against \$13,672 the year before. Moreover, the average of liabilities for the last quarter was greater than in any other fourth quarter on record, namely

\$26,784, against \$14,907 in 1889. The reports from other cities are almost uniformly confident in tone, and indicate a good volume and a fair condition of trade for the season, but are liable to be colored by the retrospect of a generally prosperous year. The South rejoices in great crops and wonderful manufacturing growth, and for the moment notes less financial pressure, good holiday trade and bright hopes. St. Louis has weather more favorable for distribution, and money at 7 to 8 per cent. Kansas City notes strong demand for money, and receipts of 14,000 cattle; 15,000 hogs, and St. Joseph reports a large increase in the year's trade and care in credits result-

Trade in Western Cities.

At Milwaukee and St. Paul unseasonable weather has affected trade for the week, but very satisfactory reports are made for the post year, and money is easier. At Chi-cago, though money is close, confidence rapidly revives and collections are easy. The year's trade exceeds by 6 per cent that of 1889 in general merchandise, drygoods and shorts, somewhat more in clothing, 20 per cent in furniture and 38 per cent in some other lines, while the increase in prod-ucts of factories is \$25,000,000.

At Cleveland jubbers are surprised at the fullness of collections, but 25 iron furunces at Curry University, Sixth street. Day and in the Mahoning region are about to close. At Cincinnati holiday trade was satisfactory

and money is less close

pig iron, weaker finished products and a reduction in price of coke to furnaces from \$2 15 to \$1 95, though Shenaugo furnaces

A Better Feeling in the East. The Eastern reports show easier money markets and a more hopeful feeling. At Philadelphia the grocery business has been satisfactory, with good collections. At Boston conditions are deemed favorable; wool is fairly active, with unsold stocks in the country reported. try reported at 27,000,000 pounds, against 30,000,000 a year ago, and a better respect for woolen goods. Domestic hides are firm, and leather and boots active.

The iron industry does not improve, as the closing of many furnaces indicate. Copper and tin open the new year lower.

per and tin open the new year lower. There is a dealer tone in the anthracite coal

It is evident that prospects are thought brighter in the cotton and woolen industries, for the record shows that a number of new mills are being erected, and while the great majority of domestic woolen goods is seiling at as low prices as a year ago, and some even a shade lower.

The Volume of Sales Improves, and the market for dressgoods and worsted have been improved both in volume and, to some extent, in prices. The cotton market has advanced an eighth, with sales of 465, 000 bales, although both receipts and exports for the week exceed those of a year ago. Other speculative markets have been comparatively dull, but wheat has advanced half a cent, and oats 1½ cents, with corn half a cent lower, coffee an eighth lower, oil half a cent higher, and lard 20 lower, oil half a cent higher, and lard 20 cents per 100 pounds higher. The closeness of money and the uncertainty as to the future have promoted healthy inactivity in most kinds of speculation, and the exports of wheat at the current prices begin to approach those of corresponding weeks last

The stock market has been dull, rather than weak, though prices close much below those a year ago, averaging for the 60 most active stocks, \$55 49 per share, against \$64 63 January 2, 1890.

The Shortness of Crops a Factor.

The most significant fact in this business is that new issues of securities listed during the year in the deducting for the replace-ment of older securities, have amounted to \$230,174,810 bonds, and \$189,630,751 stocks, exceeding a business of \$134,000,000 for the

previous year. The prospect for traffic is affected unfavorably by the shortness of crops, which some roads begin to feel seriously, but favorably by the better understanding between managers, which promises more satisfactory rates.

The monetary situation has not extended during the week, though the Treasury has put out \$800,000 more than it has taken in. Exports at this point continue to exceed those of a year ago, swelling the excess of exports over imports, and the rate of foreign exchange has again fallen to \$4 83, indi-cating that gold imports may not be distant.

THE WEEK OF PRAYER

To Be Observed by the Young Men's Christian Association

The week of prayer will be observed by the Young Men's Christian Association next week by a union prayer meeting from 12 to 12:30 each day. Following is the programme: Monday, "Confession and Thanksgiving," Rev. Henry C. Applegarth, Jr., leader; Tuesday, "The Church Universal," Rev. Richard S. Holmes, D. D., leader; Wednesday, "Families, Schools and Colleges," Rev. George W. Izer, D. D., leader; Thursday, "Home Missions," Rev. George Hodges, leader; Friday, "Foreign Missions," Rev. E. S. Kirkpatrick, leader; Saturday, "Sabbath School," Rev. Will-iam J. Reid, D. D., leader. The meeting will be held in the associa-

tion building, corner of Seventh street and Penn avenue. Everybody is invited to attend the meetings.

A Series of Gospel Meetings. A series of Tuesday and Thursday evening addresses by G. H. McCandless on the "Coming of the Lord," and connected truths, will begin Tuesday evening at 8 consummated between the Augusta Oil Company, of Pittaburg, and E. O. Emerson o'clock in the hall over the City Deposit Bank, corner of Penn and Collins avenues, East End. There will be gospel preaching

to-morrow evening in the same hall. Dr. McGeary Furnishes an Affidavit.

Dr. J. H. McGeary, of Homestead, yesterday sent an affidavit to the Department of Charities, to the effect that he had been treating Mary Ann Probert for pneumonia, and also that her son had not driven her out of the house.

German Ministers' Meeting.

The German Lutheran Synod of Pittsburg held its monthly meeting at the Duquesne vesterday. Some unimportant changes in the constitution were made.

A New Year's Rise In Petroleum

THE M'DEVIT A WELL OF PROMISE

Prices the Cause of Their Joy.

New Life Is Infused Into the Old Murrinsville District.

MPORTANT SALE OF OIL PROPERTY

The advance in the market to-day caused the producers to wear a happy smile. It was the general subject of conversation mong oil men, and the prevailing opinion was that the new year had opened under the most auspicious circumstances and that a new era of prosperity was about to dawn upon the trade. There was no particular eason assigned to the appreciation other than that of the principle of supply and demand. That higher prices are likely to prevail is almost certain unless the mad rush of the festive drill should develop untold rivers of

The New McDevitt Well.

WILDWOOD-The situation on the south west line of the Wildwood field practically west line of the Wildwood field practically remains unchanged. The big gushers have declined but very little from yesterday, and the chances are that as soon as the pipe line can take care of the oil and the gushers be drilled deeper the production will be considerably augmented. A pipe line official's estimate of the production yesterday was 15,000 barrels, while more conservative per-sons conversant with the field thought that 3.500 was a fair estimate.

The McDevitt well, on the Guyton farm, is reported as doing ten barrels an hour, with the sand penetrated but a little way in. There is a diversity of opinion among oil men concerning the possibilities of this well. The owners are sanguine that when drilled deeper it will make a record as great as the Kress and Harbush gushers. The character of the rock would certainly give character of the rock would certainly give some credence to the claim, as it is of a superior quality, and as good as that found in the big wells on the southwest line. Others are equally as certain that the McDevitt may possibly, when drilled deeper, increase its production for a brief period, and will soon blow itself out; in other words, the well has been scheduled as an east edger, and before this theory can be disposed, the well must make a record to the contrary.

contrary.

No Improvements Yet Visible. HARMONY-Intelligence from the Duffy well to-day is to the effect that the well was still drilling in the sand, with no improve-ment. Should this venture come in a duster, it will give the Harmony annex of the One Hundred-foot district a black optic.

New Life at Murrinsville. Some new life has been injused into the old defunct Murrinsville pool by the recent strike of a 12-barrel well by Messrs. Snee & McKelvey, a half mile southwest

Snee & McKelvey, a half mile southwest on the Morgan farm from the first well drilled in the field. This well apparently has opened some small territory. The same parties are drilling three more wells in this locality, one of which is located on the Mrs. E. F. Murrin farm, 800 feet east from the Thompson gasser, and should get in some time next week. Some interest is attached to a wildcat well drilling one and one-half miles south of developments on the Seaton miles south of developments on the Seator farm, which will most likely be in to orrow or not later than the first of the

WESTVIEW—The boile at the Breene drilling well exploded last night about 6 o'clock, with terrific force; but fortunately no one was injured. The tool dresser had just left the boiler and was entering the scrick, where the driller was at work, when the explosion occurred. The boiler was & old one and had been in use for some time, and high pressure is assigned as the cause of the explosion.

A Big Sale of Oil Property. and W. P. Black, of Titusville. The party of the first part sold the representatives from the Queen City a part of their possessions in the Coraopolis field, consisting of 160 acres of a lesse, with nine producing wells, hav-ing a production of about 150 barrels a day, consideration is between \$65,000 and

\$75,000. The Orion Oil Company's well, which came in yesterday on the Logan farm at 50 barrels, s holding up well.

No Change at Mansfield. MANSFIELD-No change is to be noted in the McCurdy pool, and it will be several days before there are any new wells due here. Mellon & Co., on the Palmer No. 1, 1,000 feet north of the old McCurdy, got a dose of salt water in the 100-foot, which they are now shutting off with 41/4 casing. The Kanawha Oil Company, on the Lenton, will, if everything works well, be the next well due. The Riddle well has got casing in again, and the well is now drilling at

1,300 feet. Tidball No. 1 has received the

A Very Good Well. Ackerly & Samuel have got in their Charles Green well, which is showing up for an A No. 1 producer. H. Mc.

VIEWERS' REPORT—
On the opening of Hays street, from Euclid street to Negley avenue.
To the Select and Common Councils of the city of Pittsburg:
The undersigned, Viewers of Street Improvements in the city of Pittsburg, appointed by the Court of Common Pleas of Allegheny county, and authorized by an ordinance passed on the 27th day of October, A. D., 1890, a copy of which is hereto attached, to appraise the damages sustained in the opening of Hays street, from Euclid street to Negley avenue, in the city of Pittsburg, and make an assessment therefor under the provisions of and in accordance with an Act of Assembly of the Commonwealth of Pennsylvania, entitled, "An act relating to streets and sewers in cities of the second class," approved the 16th day of May, A. D. 1889, respectfully report:

That, having been first duly sworn and qualified according to law, they proceeded in the manner and according to the directions of said act to discharge the duties of their appointment; and having given the notices required by said act, they viewed the premises and heard all the allegations and evidence of the several parties claiming damages, and after full consideration thereof find that no owner of property has sustained any damage by reason of said improvement; that, after ascertaning the whole amount of costs, they made an lant be made and prepared a statement, as required by said act, and having given to the owner of each lot ten days' notice of the time and place of meeting, they met on the 29th day of December, A. D. 1890, at the office of the Board of Viewers, in the city of Pittsburg, heard all complaints and evidence, and, after full consideration thereof, present the following report, showing the amount each property holder is entitled to pay as the proportion of said cost: and Fishing Tools, Corner Twenty-first Street, and A. V. R. R. Telephone No. 1222.
