dated Pirte Ridge Agency, S. D., January 2.

Numbers 2 and 3 school buildings and the Episcopal Church, all located on White Clay creek, a distance from the agency, were burned by hostile Indians. Isaac Miller, a white man and former irregular employe on the beef herd, was killed by hostile Indians yesterday, ten miles north of the agency. About 2,000 men, women and children are camped near the mouth of Grass creek, 15 miles northeast of the agency, who are hostile and recuse to come into the agency, as requested by the military, are committing all kinds of cepredations, and living off our agency beef herd. Little Wound, Big Road, Red Cloud and their people are among them, and it is reported they want to come into the agency, but Two Strike, Short Bull, Kicking Bear and their people object, and say they will kilt the first one that starts to the agency. Report has it that Red Cloud is desirous of coming to his home.

the Legislators Who Dezire No Bad Feeling Stirred Up.

THE TICKET OF THE SLATZ COMMITTEE

HARRISBURG, Jan. 3 .- At 11 o'clock tonight all the candidates for Speaker of the House of Representatives, except Mr. Brooks, of Philadelphia, held a conference. The object was to effect some sort of a combination by which the country members can elect the Speaker. There were present C. C. Thompson, of Warren county; Jesse N. Baker, of Delaware county; S. E. Stewart, of Allegheny county; William Finley, of Washington county; W. &E. Burdick, of McKean county, and Theodore Capp, of Lebanon county. At this writing (midnight), the conference is still in session, Probably half the members of the lower branch of the Legislature are now in the

After a busy day's work, the friends of Mr. Thompson, and of Mr. Baker, too, give out that there are 65 votes among country members which are certain to be cast against Mr. Brooks. Only 62 are necessary to elect. The farmer element, therefore, has three more than enough to make the speaker. To-

of course, the question which is occasioning most debate in the conference now in
session is, "Who shall withdraw?" Thompson has the largest following next to Brooks.

As only 60 and it was found that all six of the country
candidates had an aggregate of 70 odd votes. Baker comes pext. One of these two men must be the person to be pitted in the caucus ngainst Brooks. Stewart, of Allegbeny county, Burdick, Finley and Capp will have to give way, because their respective backing is weakest. The latest indications are that the combination will be formed. There is an entire absence of ill-feeling

or bitterness between the six country candidates. Those who will have to withdraw will do so in the best of spirit. They will hold no spite, but every man seems determined to take off his coat and help-defeat Brooks. It is on this feeling of determination that the strongest hope is based for electing a Speaker from the agricultural districts. There is no danger of any of the disappointed candidates deserting the combination, if made, and going to Brooks. A Selection for Merit Only.

One of the prettiest features of the contest thus far has been the freedom with which it has been carried on. There has been absolutely no interference. With over 100 new members in the House, there is a marked sentiment to select the presiding officer purely on his merits. To train that many new members to proper parliamentary uses, the best kind of a Speaker will be

Even very little attention was paid to the common report that Senator Quay was quietly backing Brooks' candidacy. It had very little weight. Now, with this free and untrammeled spirit you may imagine the drawn countenances that greeted W. H. Andrews, the Republican State Chairman, when he unexpectedly walked into the Lochiel Hotel this evening. He came from Philadelphia and his arrival was a surprise

People jumped to the conclusion that he had been sent by Senator Quay to influence the election. This first impression left anything but a kindly feeling for Mr. Andrews. The country members are in no

mood to brook interference.

Speculating on Andrews' Visit. But there seems to be some misapprehension about Andrews' visit. He came from Philadelphia on the same train with a party of Quaker City politicians, who are helping Brooks, but he did not ride in the same car with them. He took a private room at the hotel, but carefully avoided going near Mr. Brooks' headquarters. However, he met about all the country candidates in an informal manner. One of these candidates afterward stated that Mr. Andrews had orders to keep his hands off. Mr. Taggart, who is managing Thompson's canvass, told Andrews plumply that the contest was progressing pleasantly and harmoniously, and they would rather not have any interference. Andrews said he would not bother them. On the whole, it is quite a mystery just why the State Chair-

nan came to Harrisburg. The Allegheny county delegation is represented here by Hon. James L. Graham, Dr. W. H. McCullough and S. E. Stewart. It is the general belief that the Allegheny county delegation is hopelessly divided on the Speakership and that the members will vote just as they please. It is impossible to bind them for the home candidate, Stewart, the whole vote from Allegheny county.

Brooks will get a few and the balance will go to the caudidate who will be the best for Pittsburg's interest.

Brooks Boomers on Hand.

After waiting patiently for two days, Mr. and it is equally Impossible to give Brooks the whole vote from Allegheny county. Brooks will get a few and the balance will go to the caudidate who will be the best for

Brooks experienced his first little boom this afternoon. There arrived on the 4:30 train David Martin, William R. Leeds, County Commissioner Theodore B. Stulb, James Jeffries, Magistrate Durham and John A. Glenn, all of Philadelphia. They all came over here to help Brooks. Only one of the party, Mr. Leeds, is a member of the Legislature, but the others are politicians. Mr. Leeds was arrayed against Senator Quay in the Gubernatorial campaign, but to-night he said to reporters: "I think Mr. Brooks will be elected. He has more votes to start with than any other candidate." Jeffries, Magistrate Durham and John A.

didate."

As Brooks is generally regarded as Senator Quay's candidate, Leeds' utterances cause some comment. Yet he is only one of the Philadelphia delegation, which formally pledged itself some time ago to vote for Brooks, so that no particular significance attaches to his opinion now.

Later this evening I asked Mr. Brooks how this miniature boom lelt. He said:

"I feel greatly encouraged. I will win in this fight. My Philadelphia friends are here to help me, of course, but I am gaining myself." myself."
"But suppose the field combines against

"Well, I could weather such a combina-tion," replied Mr. Brooks, "if any such combination is formed. The entire number of votes hoped for in the union could not be controlled, and I would be sure to get some of them, and you know I need only 29

"Do you except anything from Allegheny

county?"
"I have many friends in the Allegheny county delegation, and if the members of it vote individually, and not as a unit, I will get several votes from Pittsburg and Allegheny. I know I cannot get all."
Yet, afterfall this is said, Mr. Brooks is

still unable to show any progress in his can-vass. He still has Philadelphia, but Phila-delphia only. The arrival of the Phila-delphia politicians is, perhaps, more to strengthen his hold on the Philadelphia members when they come than to secure him outside votes. Some people have said that the Philadelphia members were not so anxious to stick by Brooks after all, and it is probably this story that brought the lead-

WASHINGTON, Jan. 3 .- An impressive religious ceremony took place in the chapel of the Georgetown Convent of the Visitation this morning, the occasion being the taking of the white veil by Miss Mary Abell daughter of the late A. S. Abeil, of Baltimore. The chapel was elaborately decorated, the altar dressed with Calla lilies and the grating which separates the sanctuary from the cloister was draped in asparagus and garlanded with ropes of white roses. The entire chapel was hung with laurel garlands, giving a most pleasing effect to the rich interior. The ceremonies, which lasted about two hours, were conducted by Cardinal Gibbons, assisted by Bishop Curtis, of the Wilmington diocese, and Rev. Albert Frank, the spiritual adviser of Miss Abell, who will hereafter be known as "Sister Mary Joseph." The ceremonies were followed by a breakfast, at which Cardinal Gibbons presided.

A PECULIAR CHURCH FIGHT IN PRO-GRESS IN MICHIGAN.

BELAIRE, MICH., Jan. 3.-The church fight in the Saint's Church came to an end to-day, after a most extraordinary trial. The trouble started Tuesday, when three deacons threw Rev. L. B. Hayes out of the church for refusing sing or pray or speak. They said he was a backslider, and when they laid hands on him they dashed him to the ground

no good. The trial ended this afternoon, and the Justice declared all three deacons guilty, and fined each \$46. They will appeal to the Circuit Court.

THE GOVERNMENT APPEALS.

The First Action of the Kind Since the Passage of the McKinley Bill.

CHICAGO, Jan. 3.-For the first time since the McKinley bill passed, the United States has appealed from the decision of the Board of General Appraisers at New York. The appeal was filed in the United States Circuit Court here to-day by Federal Dis-

trict Attorney Milchrist.
The Appraisers decided that no mistake was made in an invoice for \$750 on cork imported by A. Magnus. The latter claimed that an invoice for \$600 was correct, and it was subsequently decided that there was a manifest clerical error, and that the smaller amount was correct. The Secretary of the Treasury refused to acquiesce to the de-cision, and instructed the filing of the pres-

The New Tariff Law Hasn't Yet Seriously Affected the Trade With Europe.

REPORTS FROM CONSULS

And Very Significant Figures From the Bureau of Customs.

JARRETT SAYS IT HURTS ENGLAND

Decline From Scotland. SEVERAL DISCOVER ACTUAL INCREASE

And Consul Brown's Figures Show a Big

Some weeks ago a DISPATCH representative abroad sent out a series of inquiries to the United States consuls at the more important cities of Europe in regard to the McKinley tariff law. Following are some of the answers, and they throw a great deal of light upon the question of the effect the new law is having:

Consul General John C. New, at London, finds that there is no falling off in the exports from his district. His Vice Consul, George C. Hitt, writes as follows:

am directed by Consul General New to owledge-receipt of your letter and to say that the records of this office do not falling off in the decimal. falling off in the declared exports to .ted States since the passage of the Me .nley bill.

Consul General Adam E. King, who represents our Government so ably in France, expressed bimself as follows:

Taking everything into consideration, there seems to have been no appreciable falling off in exports to America from this consular district since the McKinley bill has gone into effect. I cannot say what is the general feeling in business circles in France, but do not see how there can be any great dissatisfaction in view of the fact that this country has neglect view of the fact that this country has perhaps ess to fear from the measure than any oth Do you suppose fashionable women will go without Parisian finery, or our clubmen and without Parisian linery, or our chomen and lover: of good living without their French wines imply because they have to pay a little more for them? Evidently not. Besides that, the French, from their artistic temperament, are able to manufacture a great many articles which we cannot or do not produce in America, and I presume that so long as we have money enough we will continue to buy these thing no matter what the tariff may be.

A Decline From Scotland. L. W. Brown, United States Consul at

on him they dashed him to the ground with great force, cutting his face. Hayes swore out a warrant against them for assault and battery, and the case was tried before Justice Kibby. The trial was attended by all church members for miles around.

Before the last session of court the brethren and susters knelt on the floor and prayed loud and earnestly that the heart of the magistrate might be touched. During the progress of the trial the crowd of ten started salvation songs, and the law had to wait. The sisters brought their sewing along with them and listened to the proceedings, stopping their work only to join in the songs.

Justice Kibby warned the deacons who led the devotional exercises to stop, but this did

must still be reduced by taking into account the fact of the rush of business just pre the time when the new law came into force and the natural luli which would follow. How much deduction should be made on this ac-count is, of course, largely guess work, but it could hardly be less than 5 per cent and it might

could hardly be less than 5 per cent and it might reach 8 per cent.

Taking everything into account and by a careful study of the official figures (which I have found very interesting, having been wondering in my own mind what the results of the law had really been at this Consulate), I think it is fair to fix the actual failing off at 16 per cent. This figure is surely quite high enough.

Trial Shipments Being Made. A portion of the community here regards the litimate effect of the measure as hurtful, and sure to lessen the volume of trade between this country and the United States. On the other hand, I should say that fully a dozen firms, who have not been doing business in the United States, have sent out, as it were, trial United States, have sent out, as it were, trial shipments and some of them expect to do a considerable business there. As illustrating this fact, since commencing this letter, a firm which has never before expected through this consulate, has declared three invoices. These new firms, it is needless to say, take a view quite the opposite of that first mentioned.

There are a number of large sugar refining firms in this district, as I understand, expecting to do a large business with the United States when the sugar schedule of the law comes into operation. Should their expectations be realized, it is my judgment that the volume of trade between this district and the United States will not be lessened on account of the new law, but if not realized, there will be a considerable decline.

Alexander J. Reid, United States Consul

t Dublin, takes a more cheerful view of the situation. He says: There has been no dimention in exports from this port to the United States since the Mo-Kinley bill became a law. So far as shipments from this port are concerned, I believe exporters generally are of the opinion that there will be little, if any, failing off in the export trade between here and the States in consequence of the McKinley bill.

Jarrett Says It Hurts. John Jarrett, the well-known Pittsburger, who is the United States Cousul at Bir-mingham, does not hesitate to say plainly what he knows to be the case. He writes:

mingham, does not hesitate to say plainly what he knows to be the case. He writes:
Your favor is received and in reply I will say. There is an appreciable falling off in exports to the United States from this section—buttons and small arms and bicycles chiefly. In buttons no business of any account is now being done. The general feeling in business circles here is that the measure is extremely hurtful to the business of this section with the United States.

Consul General J. M. Crawford, at St. Petersburg, sends the following:
The McKinley bill has been followed by no appreciable falling off in the exports to America from this district. In October and November they were less than in the corresponding months of 1889, but these losses were more than offset by the increase in exports in August and Sentember over the corresponding months in 1882, it am informed that the unprecedented with exports far more than the McKinley bill. The general effect here in business circles is kindly and wholesome. Exporters tell me that they will do as much and as profusible business under this bill as they had done before its adoption. The high protective tariff in force for many years in Russin, and with ageneral betterment of all the prime industries of the country, has probably had its effect in causing Russian exporters to look with reasonable consideration into the merits of this bill.

The Cork We Use.

The Cork We Use. tto J. Sprague, United States Consul

Horatio J. Sprague, United States Consult at Gibraltar, writes:

In raply to your communication, I beg to report that the exports from Gibraltar to the United States are, with the exception of corkwood, quite insignificant, since the Rock itself produces nothing to export on account of its limited extent, but considerable corkwood has lately been shipped from here to New York, obtained from the cork woods situated at a distance between 10 and 20 miles from Gibraltar, in Spanish territory, and brought here on mule and donkey backs. The article of corkwood, according to the McKinley bill, continues as heretofore, duty free on entry in the United States, while manufactured cork has
