Tone of cereal markets is stronger in accordance with a firmer feeling in the West. Corn and oats are particularly firm. Auvices from the Northwest indicate stronger prices in flour. The freight rates from Minneapolis to Chicago have added 10c per barriel to cost of delivering flour here since January I. Stock of flour in hands of our job-bers has been very much reduced the past month, particularly bakers' flour. When the time comes to replenish, which cannot now be far away, higher prices must be paid by the jobber.

few Chicago cattle sold as high as 525. The in-creased cost at Chicago left margins very par-row, if Indeed they were not more than obliter-ated. There were 522 head of sheep and iambs on sale. Sheep sold from 4% to 5% c, and lambs from 5.90c to 7% c, the latter price being obtained for a few bunches of fancy. The number of hogs on the market was 416 head, and average retail price was 40 per B. There were 80 loads of cattle on the market at East Liberty this morning, against 70 loads last Monday and 80 loads the previous week. A large proportion of this week's offerings were from Ohio and Indiana. There were few from Chicago. Quality of this week's offerings was below late average. The day for holiday cattle is over, and this fact accounts for reduc-tion in average quality. There were no strict-ly prime beeves on the market. There were a few loads close to prime, weighing about 1,600 pounds, for which 55 15 was asced, but buyers were not inclined to may above \$5 00, and this was the highest price paid, so far as could be traced. CHICAGO - The speculative markets on 'Change to-day averaged strong and closed higher than on Saturday. The closing quotation for May wheat was 95%,c. compared with 960 on Saturday. Cora was quoted at 35% 30% on Saturday. Provisions acted strong on the smaller receipts and higher price of hogs, and the expectations that the recent immense slaughter of the innocents is over.
On the curb previous to the commencement of the regular business there was an accession of strength in both wheat and cora, which had its source in the weather bulletin for the month ref. 22.600 bushels. MINNEAPOLIS—The demand for wheat was good to-day, with rather light arrivals for the two days, including Sunday, the number of fresh arrivals being 301 cars. Demand was sharpest that came from millers here and out-side, the bulk of it going to the home mills. Reports from the country showed a fair move-ment from farm granaries for the time of the year. A few small lots of spot wheat were sold to local elevators, but they were not actively in the market for stocks, as the cash wheat was too near the May futures for them. A fair number of cars needing handling were taken for that purpose during the day. Under its recently reorga the People's Saving Bank has taken a long stride ahead. Deposits have increased not withstanding the late stringency, and there is the results carving bank whose increased not-withstanding the late stringency, and there is a keen, intelligent interest in enlarging the business of the bank whose results are becom-ing visible in a very gratifying way. A novel and useful device just adopted is the securing business of the bank whose results are becom-ing visible in a very gratifying way. A novel and useful device just adouted is the securing of a number of small portable safes, or "aux-fiary banks," which the patrons of the People's can procure at the Fourth avenue count-. These are made of nickle-plated brass, with combination locks, are highly ornamental and convenient, and money once deposited in them must stay there until it is brought to the People's Savings Bank, where the keys are held. To people who are back-ward about bringing small deposits, or who spend their mouey before they reach the bank. spena their mode; before they reach the bank, the contrivance will be useful-perhaps the founding of fature fortunes. The idea of the People's is to concult the wants of the people-after whom the bank is named-and a very good idea it is. . . .
