About the only definite item yet arranged in the programme for the inauguration of Governor Pattison, is that there will be a grand display of fireworks in the evening. The committee appointed by the Legislature to look after the matter has opened head-quarters at the Bolton Hotel. If the weather is favorable the services at the in-auguration will be conducted on a platform, to be erected in front of the Capitol on State street. If unfavorable, they will be held in the hall of the House of Representatives All State and municipal dignitaries will be invited, and provided with seats on the platiorm.

The Inaugeration and Ball.

The oath of office will be administered to Mr. Pattison by Justice Silas M. Clark, of the Supreme Court, and the prayer will be delivered by Bishop Cyrus D. Foss, of the M. E. Church. Thus the new Governor's tastes are suited in the two principle requisites, viz.: a Democrat will swear him and a Methodist preacher will pray him in. The inaugural address by the Executive will be in accord with his policy, plain and

The inaugural ball will take place in Armory Hall, on Second street. The military part of the procession in davlight will v serve as an escort to the Governor and the line of Democratic clubs which will follow. It will consist of the Eighth Regiment, N. G. P., and the Governor's Troop of Cavalry. Colonel F. Asbury Ames, of Harrisburg, has been appointed Chief Marshal. All civic organizations desiring to participate in the ceremonies incident to the inauguration of Governor-elect Pattison on Tuesday, January 20, will report not later than Saturday, January 17, the name of the organization and name and address of marshal: also the date of organization of club or

society. No organization will be p m tted to parade unless it numbers 25. Organizations of a smaller number will be consolidated under the direction of the Chief Marshal. Each organization will report whether ac-companied by a band. All communications relative to the maugural to be addressed to Senator H. D. Green, Bolton House, Harrisburg.

History Will Repeat Itself.

The Governor will come over to Harris-burg from Philadelphia on Monday atternoon, the 19th inst. Until the next morning he and his family will be the guests of Governor Beaver at the Executive Mansion on Front street, as Governor Beaver and his family were the guests of Mr. Pattison ou a Monday eight under similar circum-stances four years. At that time neither suspected what the whirligig of time would de in the interim, Nor will they try to ex-plain it to one another on this occasion.

One of the curious leatures about the bill introduced in the Senate this last week by Mr. Robinson, calling for a popular vote on the subject of holding a Constitutional con-vention, is the fact that it specifies that the delegates to such a convention must be elected at the same election next fall, which will vote on the question of holding a con-vention. By some this is held to be an excellent feature of the bill. Of course, if the voters should decide against a convention, the delegates would be without office, and to the extent that these candidates for dele gates would be interested in their own election would their canvassing be done in favor of a convention. This will have the result of getting a pretty full expression of opinion on the subject, where otherwise there might

be a very light vote polled. The Democratic State Committee will meet at the Bolton House in this city on the day after the Governor's inauguration. They will elect a chairman and secretary. L. E. STOFIEL.
