dicate have bought land, as it could be had, from Schenley Park to Brown station, and propose to leave Glenwood and its circuitous river bend out in the cold by elevating the north end of the bridge so as to cross the flatimere and Ohlo Raifroad tracks 75 feet above grade at Brown Station, and then cross the Blown farm to Greenfield arenne by easy grade. There are 20,000 people at Homestead and the purchase by the Carnegies of the city farm, with its 300 acres, means the extension of their works and the addition of 20,000 more to the present population. It is eight miles from the Court 4 as to Howestead by the shortest line of travel, and a reduce this distance the brains of four corporations are now at work, namely, the Pittsburg, Virginia and Charleston Raifroad, Balti a a and Ohlo Raifroad, Second; Ava. un Electric Railway and the syndicate known as the Short Cut. A gentlumn not connected with either interest said esteruay: dicate have bought land, as it could be had

"The Baltimore and Objoand Second Avenue Electric have evidently gone together to bridge the river and tap Homestead, but it does not make any difference. The Short Cut road has the advantage, and will compel the Second avenue fine to get out of the pool or have its ifazolwood and Gienwood business taken away from it. A man that would ride over the Secd avenue line would immediately make up s mind that it could have no rival for its trade is mind that it could have no rival for its trade in either of the prosperous suburbs of Hazelbood or Glenwood. That question has been
elved. The Short Cut Railway is surveyed

DOMESTIC MARKETS.

OFFICE OF PITTSBURG DISPATCH. MONDAY, Jan. 12

Country Produce-Jobbing Prices. Choice creamery butter is in good demand, but country butter is very slow. Since the new construction of the cleo law by Pennsylvania Supreme Court, retailers are generally taking out licenses from the Government for the sale of butter imitations. The result has been that country butter, which has been depressed for some months, is even more in the background of late. Fresh nearby eggs are scarce and firm. Fresh Western stock is active at 28c, while Southern eggs are slow at considerably lower figures. Southern eggs coming to our markets are by no means as satisfactory as those from the West. Cheese has been stiffer since the opening of the year, for the reason that retailers, who permitted stocks to run down before stock-taking time, are now buying more freely. Late statistics show there are 60,000 less boxes of cheese on hand in the United States than a year ago. Against this falling off in this coun try stands the fact that there are 60,000 more try stands the fact that there are 60,000 more buxes of American cheese in London markets than there were a year ago. Onlons are advancing, and commission men look for a \$6 market before the week is gone.

Strong Last Week's Prices for Good Cattle, but Common

The Receipts of Prime Beeves Very Light Since the Holidays.

OFFICE OF PITTSBURG DISPATCH. MONDAY, Jan. 12. At Herr's Island.

There was a light run of cattle and de mand was stronger, particularly for common grades, which cost fully 25 per cwt. more in Chicago than those on sale a week ago. Following was range of markets as reported from sales: Good to prime heavy weights, \$5 50 to \$5 85; good to choice medium weights, \$5 00 to \$5 25; common to fair do, \$4 50 to \$4 75; selected lightweights, \$4 75 to \$4 85; common to fair do, \$4 25 to \$4 50; mixed thin and rough heavy steers, \$3 25 to \$3 75; bulls and dry cows, \$2 75 to \$3 50. Fresh cows were quoted at \$25 to \$35

At Wood's Run and East Liberty.

At the Wood's Run yards there were 128 head of cattle on sale from Chicago and Ohio. The best on sale weighed a little above 1,400 pounds

above prices.

The number of sheep and lambs on the martet was 516 head. In the offerings were a few bunches of extra lambs weighing above 100 fbs, which sold readily at \$7 10 per cwt. The range for sheep was \$5 25 to \$5 75, and lambs \$6 00 to \$7 10. There were 442 hogs on sale, which sold at \$3 90 to \$4 10.

At East Liberty there were 90 loads of cattle

At East Liberty there were 90 loads of cattle on the market this morning against 80 loads last Monday and 70 the week before. Quality of offerings was below par, as it has been since the promium beeves of holiday times were on sale. The proportion of good beeves in to-day's offerings was nousually small. There were few exports and few tidy light butcher beeves, such as our home trade demands. Markets opened strong at last week's prices for good cattle and weak for common grades. weak for common grades. Prices Somewhat Better.

Some dealers report better prices than last have readily gone above this figure had there been any on sale. There were close to 60 loads of hogs on sale, and markets were slow with \$3 85 as top price. Philadelphias were quoted at \$3 80 to \$3 85, and Yorkers at \$3 60 to \$3 70. While quality of offerings in this line has been improving of late, markets have been weaker, and to-day the point touched was \$25 below the highest point reached last week. The run of sheep and lambs at East Liberty this morning was the largest for a number of weeks past. The total was 15 loads, against 9 loads last week and 7 the previous week. As a result of the larger run, prices dropped 25c per cwt., and markets were slow, with outside price of sheep \$1/20 and lambs \$6/20. Only a few extras reached these top figures.

Effect of the Government Crop Report of the Grain Pits-Bullish Advices From Abroad-Shorts Cover-

Ing on the Break.

CHICAGO—Wheat opened very strong compared with the weakness prevailing at the close of Saturday's session. In the mean time the Government crop report had been received, making the total of the wheat harvested in 1890 399,000,000 measured bushels. The first sales of May wheat were made at 88c, as arraint 962,003(2c) as Saturday. The as against 96% 696% on Saturday. The foreign markets were firm and that, with the advance at the opening. The price of May wheat touched a figure only 1/4c above the lowest point reached during the crisis of the late monetary stringency. It sold at one time to-day at 96%c, or 2c lower than the highest, at which sales had been made near the opening. The news was more bullish than bearish. The corn crowd were evidently impressed with a belief in the Government figures being an argument for higher prices, to judge from the starting figures, the May delivery opening at from 55% to 55%, against 55% at the close on Saturday. The opening prices could be obtained at any other time during the day. The fluctuations followed the course of the wheat market, and closing transactions were near the lowest prices of the session.

The longs sold os session.

The longs sold osts, and as they were numerous there was a reaction that carried the market down to 46c for May. Swartz-Dupee and Counselman-Day led the selling, while Hutchinson was the principal buyer. The Government report was very bullish, as it showed the smallest crop ever reported by the bureau. May opened at 46½c, sold to 46½c, and declined to 46c under the influence of the selling noted above. The market then recovered to 46½c, but finally closed at the lowest point of the day—16c, indicating a ½c decline as compared with Saturday's closing.

The provision market was active and weak under receipts of hogs estimated to number 50,000 to 55,000 head. There were some outside buying orders near the start which were freely supplied by the manufacturers of the product. Baxter was a prominent seller at one period of the session, and Fowler-Sterling were also working the selling side diligently. Charley Wright was reported to have dispossessed himself of a considerable line of long product. Cudaby was supposed to be covering his shorts on the break.

crowd gathered in the Stock Exchange this morning and at the sound of the gavel a scene of the wildest excitement ensued, large orders having been placed in the market to buy, while the shorts fairly climbed over each other to recoup their contracts. The stock had closed Saturday at 70% and the first sale recorded this morning was at 74, while higher quotations were made on different sides of the crowd at the same time. The demand was so great, however, that 81% was reached before this demand was satisfied, and the price then reacted to 78, where it was maintained for the rest of the day.
