### AJAX ENGINES AND CORRY BOILERS.

We have made and sold the following "Ajax" engines in

Number of 8x12,.... 477 Number of 9x12, .... 530 Number of 10x12, .... 169

Number of 10½x12,... 76 Number of 11x12,.... 80

oil man's favorite and the best in the oil field, these figures are all that is necessary. We sold nearly 400 Corry boilers in the same time, making over 1,600 pieces as the year's output. The "Ajax" engine is the strongest, quickest and most economical engine ever built, and the Corry boiler is the largest, strongest, best constructed and most economical boiler in the field. We now have a large stock of all sizes of engines and boilers, together with engine and boiler parts and fittings in warehouse in Pittsburg, and can supply that vicinity and the southwest more promptly than any other manufacturer. My Pittsburg office is 421 and 422 Bissell Block, and after office hours you can find me at the Seventh Avenue Hotel. Offices and warehouses -Butler, Pa.; Pittsburg, Pa.,

Address, Pittsburg, Ps.

PROBING FOR FACTS.

THE FOREST OIL COMPANY AND GUFFY That Alleged Silver Pool as Mysterious a Quantity as Ever.

ITS EXISTENCE STILL IN DOUBT.

McKinley Defends the Committee Charged With Looking It Up.

A GENERAL SILVER INVESTIGATION WASHINGTON, Jan. 12 .- Representative Dockery, in the House to-day, rose to a 30 acres, about 600 feet from the old Govquestion of privilege and offered a resolution directing that the Committee on Rules report the resolution for an investigation of

the silver pool charges, referred to it some time ago, to the House for consideration. Mr. Dingley, of Maine, made the point that the resolution did not involve a ques-

tion of privilege.

Mr. Dockery held that inasmuch as the original resolution was on a question of privilege, it lost none of that privilege by reason of its reference to a committee.

He changed the phraseology of the pending resolution, so as to discharge the Committee on Rules from the further consideration of the resolution, and so as to bring it now before the House.

McKinley Defends the Committee. Mr. McKinley said that whether or not the Mr. McKinley said that whether or not the original resolution involved a matter of privilege had nothing to do with the pending question. It had been referred to the Committee on Rules, and that committee was now considering the matter. It was proper that he should say that the committee had not been able to make its report. He had not the hightest objection to the broadest investigation, but until the committee made its report a motion to recall the resolution was not a question of privilege.

question of privilege.

Mr. Heard, of Missouri, said that it was just to the Missouri delegation that the investigation be ordered, inasmuch as the newspaper stricle on which the resolution was based said that one member of that delegation was a remulsored the treat!

member of the "pool."
The Speaker said that he had ruled upon a The Speaker said that he had ruled upon a question somewhat similar to this (on a resolution presented by Mr. Oates, of Alabama, reciting various newspaper allegations) and had pointed out the inconvenience which would result to the business of the House, if a resolution reciting allegations not fortified by a member's personal belief, should be held to be one of the privileges. The Chair desired that in this case the matter should be disposed of by the House, and he, therefore, submitted the question as to whether or not the pending resolution was one of privilege.

Decided a Question of Privilege.

Decided a Question of Privilege. The House decided-yeas 148, nays 80-that

The House decided—yeas 148, nays 80—that the question was one of privilege.

Mr. McKinley said that when the resolution was referred to the Committee on Ruies, the committee supposed that it was referred to it for a purpose, not simply to ascertain whether there was such a publication as was alleged, but for the purpose of ascertaining whether there was any foundation to the accusation. No names had been mentioned, no member of the House had been mentioned, no member of the House had been made against any member.

The committee had gone to work to find out whether there was any hasts for the allegation. The mover of the resolution had disclaimed any personal knowledge of the matter. The two correspondents of the St. Louis Globe. Democ at had refused to make any statement, or even to say who was the author of the article on which the resolution was founded.

The committee had the intention to go to the bottom of the matter and to ascertain facts enough to justify a recommendation to the House. It had presumed that the House wanted to know whether the committee had information enough to justify an investigation. From the very first he had desired to have this matter opened up and thoroughly investigated.

Mr. Dockery—The gentleman has always expressed himself to that effect.

Setting the Committee Right. Mr. McKinley, continuing, said that he de-mired only that the action of the committee Bired only that the action of the committee
Bhould be sunderstood. There had been no
purpose from the beginning to suppress an investigation. God knew he invited investigation. Gentlemen must so conduct themselves
that they would be ever ready for an investigating committee. [Applause.] It was easy
to make charges in newspapers. It was an
easy thing to put a paragraph on the wires to
the effect that this was a corrupt and venal
bedy. That was done over and overagain. As
a member on this floor for 15 years, if he were
called upon to designate a member who could
be bribed or bought, he could not do so, for he knew no such men. All he wanted to do was

to set the committee right.

MMr. Dockery said he had no personal knowl-Mar. Dockery said he had no personal knowledge whatever that any member on this floor was connected with the silver pool prior to the passage of the silver bill. His reason for offering the resolution was that certain charges had been made by the correspondents of the Globe-Democrat—men of acknowledged creditability. The situation was this: The statement had been made by hir. Conger, and his statement would be corroborated by at least one other gentleman (Mr. Grosvenor), that the silver pool had existed, pending the passage of the silver hill. He (Mr. Dockery) had no interest in this matter further than the interest of every gentleman on the floor.

Charges Should Be Investigated.

Charges Should Be Investigated. The newspaper article reflected upon the in-

tegrity of the proceedings of the House; and the House owed it to itself to make this inwestigation. If the charges were false, that ought to be established to the country; if they ought to be established to the country; if they were true, the House and the country had the right to know the names of the Senators, and Representatives who prestituted their official positions to personal gain. If there were such, it the words of an eminent American, "Let no guilty man escape."

Mr. Bogers, of Arkansas, offered an amendment to the Dockery resolution, providing for the appointment of a special committee of five members to inquire into all the facts and circumstances connected with silver pools in

comstances connected with silver pools, in which Senators and Representatives are alleged to be interested; also as to the alle purchase and sale of silver prior to and sin the passage of the act of July 14, 1890, including the names of the persons purchasing or selling the same, and who are the owners of the 12, 000,000 ownces of silver bullion which the United

States is now asked to purchase Grosvenor Makes a Personal Statement. Mr. Grosvenor, of Ohio, said it was due to the Committee on Rules and himself that he should make a brief statement. Some days ago Mr. Dockery had come to him and asked him whether he had heard a statement made by Mr.

whether he had heard a statement made by Mr. Conger when he had taken his seat, after making the speech alluded to. He (Mr. Gossvenor) had raplied in the affirmative. Mr. Dockery had asked if Mr. Conger had made the direct charge that he had been solicited to enter a silver pool. He had replied that Mr. Conger had made a direct charge.

A day or two afterward Mr. McKinley had come to him and asked whether he had made such a statement to Mr. Dockery; and he had answered that he had. In reply to a further question by Mr. McKinley, he had stated that Mr. Conger had mentioned the name of no member of Congress. Mr. McKinley had asked him to appear before the Committee on Rules, and he had expressed his perfect willingness to do so. He came to the Capitol this morning for the purpose of doing so; but he arrived so late that the members of the committee had left, He thought that this statement was due to the Committee on Rules.

Mr. Rogers' amendment was agreed to, and the resolution as amended was agreed to.

THE WITCH OF PRAGUE.

A Silent Appeal for Hein. When your kidneys and bladder are inactive they are making a silent appeal for help, disregard it, but with Hostetter's Stoma disregard it, but with Hostetter's Stomach Bit-ters sately impel them to activity. STILL ANOTHER BIG WELL.

& QUEEN ARE IN LUCK.

Without a Doubt the Largest Well Ever Struck in the Wildwood Field-Over Three Hundred Barrels Gauged Within Two Hours-In the Other Fields.

SPECIAL TELEGRAM TO THE DISPATOR 1 WILDWOOD, Jan. 12.-Wildwood come to the front again with another big well on the southwest line. The new venture belongs to the Forest Oil Company and Guffy & Queen, and is located on the Rolsehous ernor Pattison well. There is no new territory developed by its advent, and the only particular significance attached to the strike is its large caliber. Unquestionably it is the largest well ever struck in the Wildwood field, and a two-hours' gauge showed a production of 310 barrels. This rate was being maintained to-night when THE DIS-

PATCH reporter left the well. The pipe line boys have got a hustle on and taken care of the oil.

W. E. Griffith & Co. brought in their No. 3, Herr, to-day. They reached the top of the pay Saturday night, but did not drill in until to-day. The well in its present status is doing an inch an hour but by this time tomorrow night, if all goes well, the second pay will be punctured. The same company treated their No. 6, Whitsell, to a ten-quart shot to-day, which increased its production from 16 barrels a day to 15 barrels an hour. The Roth Oil Company, No. 8 Harbush farm, is doing 25 inches an hour: Roth Same company and same farm, is doing 3% inches per hour, while their No. 3, Smith, is doing 8 inches and No.4 9 inches an hour. The Wallace well is drilling in slate and shell at a depth of about 1,900 feet with no further indications of oil. This well will be drilled to the fourth sand, which is the first experiment of this kind to be noted in the southwest line. The McDivitt has not been drilled any for several days, and it is the opinion of some practical operators that no great improvement will be shown when the drill goes deeper. The well to-night is making lib harrels an hour.

Barusdall & Co. No. 6 Kress may find the sand to-morrow, and not later than the day after. Forst & Greenlee, 6 acres. McGeagh is drilling near the 30-foot, and No. 2 same lot, is down 1,900. Both of these wells found salt water in the Hundred-foot, which greatly retards drilling.

Gibson & Gilds drilled their No. 2 Scott to line boys have got a hustle on and taken

water in the Hundred-foot, which greatly retards drilling.

Gibson & Gilds drilled their No. 2 Scott to the second pay to-day, where they found an increased production of 20 barrels. Patterson & Forest Oil Company will shoot their No. 1 Young to-morrow, while Guffy & Queen will treat their No. 3 Roisehouse to a moderate shot at 9 o'clock in the morning.

Kennedy & Co. have finally got the tools of their railroad lot well and if no further bad luck occurs they will find the sand by Thursday. They are building No. 2 rig on the same property.

of late there has been considerable interest manifested in the Bowman gaser. The well is being rigged up and the drill will be started as soon as possibly. There are many experienced oil men of the opinion that when this well is drilled deeper it will make a good producer. ducer.

Patton & Co. have moved their No. 1 rig
from the east side of their Hardy farm lease to
their west line, which is about 1,500 feet north
of the Bowman gasser.

A West Virginia Field. Congo-The Congo field, as now developed, shows that out of eight wells drilled there are five dry and three producers. The field is located in West Virginia, across the Ohio river from Wellsville, It was opened up about two months ago by the Ohio Valley Natural Gas months ago by the Ohio Valley Natural GasCompany and others by striking a flowing well
of 40-barrel capacity on the Hamilton Brothers'
farm. This was followed shortly after by their
No. 3, on the same farm, which has a production of 30 barrels per day, their No. 2 being
a water hole, or, in other words, a dry hole.
The Eaton Oil Company, on the Hamilton heirs'
farm, have a well which is producing 10 barrels
after being shot. Prior to the above developments the Advance Oil Company drilled two
dry holes on the Mrs. Breneman farm, 140 rods
west from the above mentioned producers,
while their No. 3 on the same farm was also
dry. This well was located 300 feet west from
the Ohio Valley Natural Gas Company's
producing well. At present the Ohio Gas Company have Nos. 4 and 5 drilling on the Hamilton Bros.' farm at a depth of 100 and 200 feet
respectively. Flunegan & Phillips are indulging in a little wildcat scheme, and are
building a rig about a mile northeast from the
Congo developments on the bank of the Ohio
river. The oil found here is amber, and is the
same as the Smith's Ferry and Turkeyfoot oils.
In the valley the wells are about 700 feet deep,
while on the hills the rocks is found at from
1,100 to 1,200 feet. The territory is treacherous,
and spotted as a leopard.

Oll in the Gas Territory. WASHINGTON-There is some interest mani fested in the old McGahey pool, and there is a bare possibility that the old-time doings in the Washington field may be partially resurrected in this locality. The grounds for making this statement is furnished by the Manufacturer Gas Company, who, in their search for the caloric fluid on the Linu farm, found the Gantz sand in which there was considerable oil. This is a new feature in the gas territory and what may be developed by this find can only be determined by future operations. The Forest Oil Company on the Widow McClay farm are drilling in the Gordon sand with a thousand feet of sait water in the hole; the well looks good for 15 or 20 barrels.

15 or 20 barrels. To Tax Crude Oil. To Tax Crude Oil.

The independent producers are not only organizing themselves through the old P. P. A., but are also taking measures to procure legislative enactments in their behalf. In this direction they are of the opinion that every barrel of crude oil produced in the State of Pennsylvania and shipped beyond her limits without being refined or manufactured into other producets should be taxed.

The Southwest Pipe Line Company have their new station at McCurdy about completed and will soon be running in full blast. It will have a capacity of 3,000 barrels per day.

SALLER & CO., Cor. Smithfield and Diamond Sts.

Probably one of the most thriving towns of its size in Pennsylvania is Butler, the county sent of Butler county, a pleasant place of about 7,500 inhabitants.

Mr. Mangold, an industrious and well-to-do merchaut, is well known and respected by all Butterites. His wife, Mrs. Anna Mangold, is a charming lady, and has many friends. Recently the writer had the pleasure of an interview with Mrs. Mangold, during which she recited a brief history of a portion of her life, interesting to a degree, and the conclusion of which seemed truly wonderful.

"Some time ago," says Mrs. Mangold, "I contracted a cold: nothing alarming about that, but ere I recovered from its effects I caught another and then another, until I had a cold all the time. My head and nose would be stopped up so I could hardly breathe. There was a constant rumbling and buzzing in my ears, which later on affected my hearing. Soon a severe cough set in. I would raise great quantities of offensive matter.

Mrs. Anna Mangold, Butler, Butler Co., Pa "As my trouble grew worse sharp pains would take me in the broast and region of the beart, shooting through under the shoulder blades. Night sweats came on and weakened me fearfully. My appetite continued good, but everything I ate seemed to disagree with me. I suffered almost constantly with spells of terrible neuralric pain in my stomach, which would invariably be followed by diarrhesa and a sensation of nausea and faintness. My sleep was restless and broken by bad dreams and nightmare, and did me no good. I would arise in the morning feeling more tired than the night before.

morning feeling more tired than the night before.

"I tried many things to get relief, but all in vain. My whole system was undermined by the disease. I finally grew so weak I was unable to walk. In short, I was as near dead as it was possible to be and still live. I was in this condition when my attention was attracted to Drs. Copeland and Blair. I decided to call on them. I did so, and finding their charges so yery reasonable began their treatment.

"What was the result? Very surprising to me, I assure you. I began to improve almost at once. My symptoms gradually left me, until to-day I am like a different person entirely. I feel better than I have in five years, I gained 31 pounds in two months under their splendid care. It is certain, without a doubt, they saved my life, and I cannot find words to express my gratitude."

Mrs. Mangold lives as stated in Butler Pa.

gratitude."

Mrs. Mangold lives, as stated, in Butler, Pa.,
where this statement can be readily verified in
person or by letter.

SNATCHED FROM THE GRAVE. The Terrible Situation From Which Mr. Timothy Mahan Was Rescued by Drs. Copeland and Blair

Copeland and Blair.

Mr. Timothy Mahan, Eighteenth street, Sharpaburg, who is employed in —— Bros'. glass works, Says:

"For the past four years I was badly affected with catarrh, so badly that I thought it would finally bring me to my grave. I had almost half a dozen different doctors, but they couldn't find out what was wrong with me. My head and nose was stopped up. Sharp pains over eyes and through my temples. My throat constantly filling with muous. Night sweats and palpitation of the heart. My appetite was poor and I could not rest nights. I began treatment with Drs. Copeland and Blair. I am a well man to-day, all my symptoms are gone. I gladly recommend these eminent specialists, for they saved me."

Special Indorsements. Following are given a few of Pittsburg's prominent citizens who have treated with Drs. Copeland and Blair and freely add their recom-mendations:

aedations; Mr. J. S. Moore, 121 and 123 Fifth avenue. Mr. Miller, 121 and 123 Fifth avenue. Mr. Samuel Crawford, with Hugus & Hacke,

drygoods house.
Mr. R. M. Anderson, of the Sheriff's office.
Mr. John G. Frazier, 5710 Kirkwood street. HOME TREATMENT. Additional Evidence by Mail. Mr. W. T. Henshaw, of Prospect, Pa., says:
"For years I suffered from catarrh without
being able to find relief. Drs. Copeland and
Blair cured me, treating me by mail."

Mr. Henry Rose, of Eckhart's Mines, Md.,
says: "I suffered constantly from chronic
catarrh; could get no relief. Drs. Copeland and
Blair cured me entirely at home."
