and talked. Mr. Lare and several others thought the fact that the recent case was taken to Supreme Court without consulting the committee showed a want of respect. Mr. Kennedy said all the points to be decided had been put in the fall how before the Supreme Court, but he did not know whether each would have to be made out of each one and then taken up from the lawer court. lower court.

Mr. Lare spoke until requested to stop, and Air, hate space unit requested to stop, and of it, but he believed he could find a way to bring all the questions before the Supreme Court. At this stage the committee realized they had nothing to do and adjourned.

DISAPPROVAL OF THE TARIFF

Is the Reason Why Michigan Is Now Democratic, Says a Resident.

John P. Windoes, of Kalamazoo, was at the Duquesno yesterday. Mr. Windoes said that Michigan was now a Democratic State for the first time since the war. The revolution in sentiment was due largely to the McKinley bill. Congressman Burrows, whose majority was usually about 2,500, only succeeded in pulling through this time by little more than 200. He was regarded as a very good representative, and that his majority should have been so much reduced was attributable to disapproval of the tariff act. Mr. Windoes said he did not think he Farmers' Alliance would attain to the dig-

the Farmers' Allance would attain to the dig-nity of a party in his State. One curious incident, he says, occurred dur-ing the election. Githings, who had been County Clerk for 30 years, was defeated for the Auditor Generalship. Mr. Windoes says it is not generally known that Kalamizoo is a great producer of celery, the town receiving over \$1,000,000 a year from the succulent root. It is abipped to all parts of the country.
