The Iron Market Continues to Be Quiet, Despite the Failure of the Great Strike in Alabama.

THE MONEY MARKET IS MUCH EASIER.

Continus to Largely Fredeminate Over the Country's Imports.

SPECIAL TELEGRAM TO THE DISPATOR. NEW YORK, Jan. 16 .- Special telegrams to Bradstreet's this week point to an improved teeling in trade circles, though there is no general increase in demand or distribution. Continued cold weather has stimulated the demand for staple articles North and West, and at Philadelphia, Memphis, Chicago, Duluth, Minneapolis and St. Louis a fair movement is reported. Increased demand for supplies for logging camps in the Northwest has resulted in some activity among dealers in groceries, clothing and provisions. Trade in Nebraska and por-tions of Kansas, is quiet, with jobbers not extending lines of credit, preferring to await payments now past due. Omaha and St. Joseph refer to this state of affairs, with drygoods, clothing, boots and shoes slow of

Higher prices for grain and lower prices for hogs have caused Missouri, Kausas and Nebraska farmers to sell freely. At St. Louis there is greater freedom in general distributive lines, but, with pig iron, prices are shaded. Manufacturers of textiles report trade quiet, excepting those making

Quiet State of the Pig Iron Market. Pig iron is quiet. The strike of Ala-bama miners has failed, but this will not

tend to strengthen the market. Stocks of pig increased 230,000 tons in December. It is announced that steel rail makers have settled their differences, have allotted shipments for the year and will not contract for less than \$30 per ton. Authracite coal is in better demand and firmer in price except at Chicago, where it is off 25 cents per ton. Leather is firmer on the strong market for hides, while crude rubber is reaching up

toward 80 cents. Raw sugar is quite firm with holders not offering to sell. Coffee is one-eighth cent higher on an improved de-Money markets generally throughout the country are easier, and rates have dropped noticeably at Memphis. At Duluth and St. Joseph money is closely held and not in

abundant supply. Funds have been received at Omaha from the East, but the tendency of money continues Eastward. Mercantile collections are quite irregular, and, on the whole, only fair. Stock speculation is undergoing a re-action from the recent builish tendencies,

the advance having apparently been too Free Coinage Is Not Anticipated.

It cannot be said that the Congressional action on silver has thus far affected the market appreciably, as doubt is felt of the ultimate passage of the free coinage bill.

Western sentiment as to the success of the new railroad association is not encouraging. Bank clearings at 55 cities for the week ended January 15 are \$1,190,288,398, an increase over this week last year of 1.9 per cent. New York City's clearings, which constitute 60.6 per cent of the grand total, are a fraction less than those for the same period last year, while at 54 other cities the

Wheat is weaker and a bearish sentiment appears to dominate at the moment. Dryre rather backward. Brown and bleached cottons are slow and weak. Woolens are in steady movement. Print cloths are more active and slightly higher. Territory and pulled wools are active, but fleeces and carpet wools are in slow sale. Prices generally are firm and tend upward. Cotton speculation is less active. Futures are steady and only slightly changed.

The Key to the Cotton Situation. Good grades are scarce and 1/c higher. The crop movement is the key to the price situation. The lighter than anticipated port movement is said to be due to bad

Business failures reported to Readstreet's number 366 in the United States this week, neginst 391 last week, and 355 this week st year. Canada had 51 this week against 46 last week. The total number of failures in the United States from January 1 to date is 903, against 1,018 last year. Dun & Co.'s weekly review says:

How far the situation and prospect may be changed by the passage of a free-coinage bill by the Senate, as yet is mainly a matter of conjecture. Reports of the state of trade at different points reflect mainly a situation prior to that vote, and show general improvement in the volume of business easier ney markets and a more cheering out-The exports of merchandise heavily exceed imports in value.

Exports Much Larger Than Imports. At New York for January thus far the increase in exports over those of last year has been \$1,400,000, or about 12 per cent, while the imports here show a decline of \$2,900,000, or about 15 per cent.

The preliminary reports of exports of cotton, breadstuffs, provisions, cattle and petroleum in December were almost unprecedented. Hence it appears that the excess of exports in December was very large in spite of the decline in movement of breadstuffs, which higher prices tend to prolong. For the past week, with wheat one cent higher, corn and oats practically unchanged, and cotton three-sixteenths higher, exports of wheat have been only half of last year's; of flour, less than a quarter, and of corn only one-eighth, while the exports of cotton show a decrease for the week in spite of a considerable increase in receipts. Pork has not changed, but lard and hogs are lower, oil is 11/2 cents lower, and the speculative markets are generally rather weak outside of those

above mentioned.

Reports From Other Cities. The reports from other cities show that until Friday the situation and outlook had been improving and a feeling of greater confidence prevailed. Boston notes greater acbuyers appearing for boots and shoes, with leather firm, but lumber depressed. Philadelphia reports easier money, a better trade in canned goods and in wool, a fair trade in processes generally. Chicago sees increasing sales of drygoods and clothing, with better collections; some decrease in the receipts of grain, dressed beef and butter, but an increase in lard, cheese, hides and wool. At Cincinnati there is an average trade, and there is a favorable outlook at St. Louis; inactivity in retail clothing, owing to mild weather, at Kansas City, and depression in the lumber inter State business at Milwankee, owing to lack of trade, and at St. Paul and Cleveland. Trade is improving at Louisville, Memphis and Jacksonville; only fair at New Orleans, but increasingly active

The State of the Money Market. The money markets have grown easier, and banks are able to help customers more liberally, but at the East the difficulty of making commercial loans has not en-tirely ceased, though money on call is very abundant. In other words, those who have money want their funds at immediate command in case of any emergency. The Treasury has put out of cash, including \$1,500,000 more new silver notes, about \$800,000 more than it has taken in during the week. At the West and South

all the money markets are easier, though rates are not lower, and caution in regard to character of loans is more frequently noted.

The great industries are not in a wholly satisfactory position. The market for woolen goods is broader and more hopeful, and the demand from clothing is distinctly better, while the boot and shoe trade continues highly satisfactory, but the weekly output of pig iron January 1 was but 167,599 tons. Bar iron is unsettled and plates weaker. The coal trade is in a more hopeful condi-The coal trade is in a more hopeful condi-tion, and the lead market is strong. The cotton manufacturer feels the effect of ac-cumulating stocks and low prices. Print cloths have sold at the lowest price ever recorded-2.94 cents for 64s-and the advance in raw material during the past week comes to increase the embarrassment. In general, the course of prices for manufactured products is not helpful to producers, while the cost of living and production is contanted by speculative advance in the prices of

YESTERDAY IN COURT,

Alderman McNuity Charged With Receiv-ing Overcharges in Thirteen Different Items of Costs-News of the Criminal

Court and Next Week's Trial List. Gallagher Brothers yesterday entered suit against Alderman McNulty, of Allegheny, to recover the penalties provided by law for 13 alleged illegal items of overcharge in costs. Gallagher Brothers, it is stated, were plaintiffs in a suit before Alderman McNulty against A. F. A. Brown and wife, to recover a debt. The costs were placed on them, and they claim there were 18 items of overcharge.

The penalty provided by law is \$50 fine for every item of overcharge, and the suit is brought to recover it.

BURNING ECZEMAS and other Itching, Scaly, and Blotchy Skin and Scalp Diseases, none but mothers realize.

To know that a single application of the Cuticura Remedies will, in the great majority of cases, afford instant and complete

relief, permit rest and sleep, and point to a permanent and economical (because so speedy) cure, and not to use them without a moment's delay, is to be guilty of positive inhumanity. No greater legacy can be bestowed upon a child than a skin without blemish and a body nourished with pure blood.

CUTICURA

Remedies are the greatest skin cures, blood purifiers, and humor remedies, are absolutely pure, and may be

used from infancy to age, from pimples to scrofula, with the most gratifying and unfailing success.

TREATMENT. - CUTICURA, the great skin cure, and CUTICURA SOAP, an exquisite skin purifier and beautifier, externally, instantly allay the most intense itching, burning, and inflammation, soothe and heal raw and irritated surfaces, clear the skin and scalp of crusts and scales, and restore the hair, while CUTICURA RESOLVENT, the new blood and skin purifier and greatest of humor remedies, cleanses the blood of all impurities and poisonous elements, and thus removes the cause.

SAME.

By far the most common variety of polypoid tumors is the gelatinod. It is jelly-like in appearance and very much like an oyster, soft and spongy, occurring either singly or in clusters, and often completely fills both nostrils, expanding in wet weather and shrinking in dry weather. The only reliable treatment is of a surgical nature—extirpation, and even then it is apt to return in time. I have come across quite a number of polypoic tumors during the past few years, and always find them associated with cararrh, or a hypertrophic condition of the nasal mucus membrane, and have often thought in the light of the recent advancement in the treatment of catarrhal troubles, if patients would follow these treatments up a few months after removal it would prevent their return.

S. S. McFate. During the last Exposition Mr. McFate, of Wurtemburg, Lawrence county, consulted me for nasal obstruction, supposed to be due to catarrh, as he had the usual catarrhal symptoms. An examination revealed both nostrils filled with clusters of gelatinoid tumors. I advised extirpation, and inside of 30 minutes had both nostrils free with but very little pain and loss of blood. I had him visit the office next morning to note the result, when he said he morning to note the result, when he said he hadn't spent such a comfortable night for a long time and couldn't find words to express

long time and couldn't find words to express his gratitude,
A few weeks ago Mr. Porter, of the same town, was sent to me by Mr. McFate, as he was troubled the same way, excepting that his trouble was confined to nasal obstruction, his general health being good. I cleared both nostrils in the same manner with like results. Mr. Porter called next day and said his brother-in-law, with whom he spent the night, noticed he had lost his nasal twang as soon as he spoke to him.

Number of 101/2x12,... 76

Number of 11x12, 80

If anything was needed to prove this machinery to be the oil man's favorite and the best in the oil field, these figures are all that is necessary. We sold nearly 400 Corry boilers in the same time, making over 1,600 pieces as the year's output. The "Ajax" engine is the strongest, quickest and most economical engine ever built, and the Corry boiler is the largest, strongest, best constructed and most economical boiler in the field. We now have a large stock of all sizes of engines and boilers, together with engine and boiler parts and fittings in warehouse in Pittsburg, and can supply that vicinity and the southwest more promptly than any other manufacturer. My Pittsburg office is 421 and 422 Bissell Block, and after office hours you can find me at the Seventh Avenue Hotel. Offices and warehouses -Butler, Pa.; Pittsburg, Pa., and Washington, Pa.
