THE ARRANGEMENTS FOR THE INAUGURAL BALL

THEOM A STAFF CORRESPONDENT.1 HARRISBURG, Jan. 19. - Senator William Flinn, of Pittsburg, has received from D. T. Watson and W. B. Rodgers, the attorneys, three important bills intended to overcome the difficulties into which Pittsburg has been plunged by the decision of the Supreme Court, declaring the street-improvement laws unconstitutional. Mr. Flinn introduced one of these in the Senate to-night.

It is entitled "An act authorizing assessments and reassessments of the cost and exnense of local improvements already made. including the damages caused by said improvements, or in process of completion, and providing for and regulating the collection of the same." The bill reads:

The Text of the Measure

WHEREAS, Local improvements of different kinds in the grading, paving, macadamizing, opening, widening, straightening and otherwise improving streets, lanes, alleys and other highways, and also in the construction of sewers, sidewalks, curbstones and other improvements have been made in various portions of the State of Pennsylvania, and the cost thereof, including damages for the taking, injury or destruction of private property in the making of such improvements, has been or is to be assessed upon the abutting property, or upon the property benefited; and,

Whereas, It is now doubtful whether the assessments so made to pay the cost, expense and damages of said improvements can be collected uder existing laws; and,

Whereas, The various tions in this State having made, or now making such improvements, are

Threatened With Great Loss

unless said assessments can be collected, therefore, be it enacted, etc., that all said municipal authorities in this Commonwealth are hereby authorized to provide by ordinance for assess ments or reassessments for the cost and expense and damages of local improvements heretofore made, or in process of being made, or which have already been completed upon the property benefited thereby, or upon the property abutting or fronting on any said treets, lanes, alleys, or other highways, or parts thereof, where the said improvements have been completed or are being made.

The assessments or reassessments shall be made by three viewers, who shall be appointed by the Court of Quarter Sessions of the respective counties upon the petition of said municipal authority, or any one interested in said improvements upon the property benefited where the improvements were directed to be made according to benefits, and shall be an calling for the appointment of a commission equal assessment on the property in proportion to the number of feet the same fronts on the highways where the improvement was directed to be made by the foot frontage; but the provisions of this act shall not apply to any case in which a pavement, sewer or other municipal pointment of a commission to make which a pavement, sewer or other municipal improvement has been repayed, relaid or rebuilt. Notice of the time, and place of making ing institutions recently were both in the said assessments or reassessments when the same handwriting. It is evidently a movement in concert. Senator Thompson, of effected by such assessments or reassessments. by a publication in atleast two newspapers, for our insertions.

Providing for Those Who Have Paid.

The bill then provides that assessments made by the viewers shall be payable 60 days after date of making the same, and for the placing of municipal liens in default both the assessments and lien shall be a first lien upon the property; provided wherever property has paid the whole or any part of its share of the total cost of said improvements, said property shall be given credit for the amount thus paid on the assessments and reassessments authorized by this act.

The second bill which Mr. Flinn has, will be introduced in the House first. It is entitled "An act providing for the ascertainment and collection of damages in any case where heretofore property has been taken or injured or destroyed in the construction of any local improvement." The bill reads: Whorever any municipal corporation has heretofore taken, injured or destroyed private property in the making or construction of any ocal improvement, the municipal corporation or the private property owner whose property may have been taken or injured or destroyed shall have and is hereby given the right to apply to any Court of Common Pleas in the bunty within which the property may be loexted, for the appointment of three viewers for e ascertainment of the amount of damages, if any, so done in the making or construct of such local improvements.

The Right of Appeal Given. After providing the usual duties of the

three viewers, the bill continues: Provided that either party shall have the right of appeal to any Court of Common Pleas of the proper county within 30 days after the confirmation of report of said viewers, and upon such appeal shall have the right to have he amount of damages assessed by a jury according to the course of the common law, and the damages so ascertained shall be assessed as a part of the cost and expense of the property benefited, and if property sufficiently benefited to pay the damages so ascertained cannot be found, the balance shall be paid by the municiral corporation.

The above bill and the one Mr. Flinn in troduced in the Senate are both applicable to all cities in the State. If they should encounter serious opposition, they will be followed by the third bill, which Messrs. Watson and Rodgers have sent the Senator. This bill relates only to Pittsburg and Allegheny as cities of the second class, and is in

year ago. It too, will be introduced first in the House, and reads as follows:

The Bill for an Emergency. An act providing for the ascertainment and collection of any damages in any case where heretofore property has been taken or injured or destroyed in the construction of any local improvements in cities of the second class, and wherever any city of the second class has here-tofore taken, injured or destroyed private prop-

erty in the construction of any local improve-ment in cities of the second class, the municipal corporation or the private property owners whose property may have been taken, or in-jured, or destroyed, shall and is hereby given the right to apply to any Court of Common Pleas in the county within which the property may be located for the appointment of three viewers or the ascertainment of the amount of damages, if any, so done in the making or construction of such improvements.

This bill then fixes the duties of the viewers, and for a report by them, after which it continues:

Provided that either party shall have the right of appeal to any Court of Common Pleas of the proper county within 30 days after the filing of said report, and upon such appeal shall have the right to have the amount of damages assessed by a jury according to the course of common law, and the damages so as-certained shall be assessed as a part of the cost and expense of the property benefited thereby, and if property sufficiently benefited to pay the damages so ascertained cannot be found that the balance shall be paid by the city.

ome Democratic Clubs Already on the Ground and Many More Coming-The New Executive Has Consented to Lead Off in the Inaugural Ball.

FROM A STAFF CORRESPONDENT. 1 HARRISBURG, Jan. 19.-To-morrow a high noon Governor Beaver and Governor Pattison will exchange positions, just as they did four years ago, the former retiring to private life and the latter assuming official station. Should the weather prove fine the city will be crowded with visitors. Already the hotels are filling up and the streets are thronged with men decorated with badges embellished with the likeness of the Governor-elect. Flags and benting are flying and the city has a gala appear-ance. The big reviewing stand at the West State street entrance to Capitol Park is covered with the national colors and various designs, including the coat of arms of the State and nation. A similar platform has also been erected in front of the west portico

of the Capitol, where the inaugural cere-monies will take place.

Governor-elect Pattison and family arrived in the city at 3 o'clock, and were met at the station by Governor Beaver and his executive clerk, Major John Lockhart. They were at once driven to the Executive Mansion, where dinner was in waiting, This evening at 7 o'clock the Central Democratic Club, of this city, and the Commonwealth Band serenaded the Governor-elect at the Executive Mansion. He appeared and made a brief speech, thanking the club for its compliment. It is understood that he has consented to lead the grand march of the inaugural ball to be given under the auspice of the club to-morrow evening.

The Young Men's Pattison Club, of Dan-ville, and the Central Democratic Club, of Scranton, were the first to arrive late this alternoon. Later came the Democratic Battalion, of Philadelphia, John Huggard, President, and during the night scores of organizations will join those now on the ground and ready for the march. The Ran-dall Club, of Pittsburg, will arrive at 3 o'clock to-morrow morning. In the after-noon at 3:30 o'clock the club, with the Great Western Band, will give a concert at the Capitol. Several of the military companies are here, and are being quartered at the Chestnut Street Hall, where they will have a fine spread to-morrow. Colonel Magee announced that there would be a dress parade by the Eighth Regiment in Market square immediately after the parade in the afternoon. Chief Marshal Awl has everything in good shape for the parade, which will move promptly at 1:30 o'clock, at the conclusion of the inaugural ceremonies.

SPECIAL TELEGRAM TO THE DISPATCHAL LOCKPORT, N. Y., Jan. 19 .- Eugene H. lowles, President of the Cowles Electric Smelting and Aluminum Works, was shown the Pittsburg dispatch sent out concerning his suit against the Pittsburg Reduction Company, to restrain it from infringing on his electrical aluminum patents. Mr. Cowles makes some rather astounding statements. He avers that the Pittsburg Company originated with Charles Hall and R. C. Cole, two former experts in the employ of the Cowles Company, who also employed William Buckley and John Hobbs, also experimenters and workmen in the Cowles plant here. All of them are now with the Pittsburg company, except the latter. On

this Mr. Cowles said: Our work and the wide publicity that we have always given it in scientific societies and the gaily press, has led to the universal interest in the subject of aluminum, and we expect to show in the courts that the Pittsburg company never made a pound of aluminum without the use of patented ideas and practice, which Messrs. PETERSBURG, VA., Jan. 19 .- The Legisature of Virginia at its last session made January 19, General Robert E. Lee's birthday, a legal holiday. Its first observance occurred to-day, and in Petersburg the annive.sary was observed in a most appropri-ate manner. All the banks and State and Republican Senators out of the total number city offices were closed, as were all of the public schools, and business was universally suspended. At sunrise a salute of 13 guns was fired at Central Park, another salute of 43 guns at noon, and at sunset there was a salute of 15 guns. At 12 o'clock there was a grand parade of the military, A. P. Hill Camp Confederate Veterans, different civic societies, fire department, police force and school boys. Ex-Governor William E. Cameron was chief marshal. The stores dwellings along the streets through which the procession passed were richly decorated with Confederate flags and bunting and the

National colors.
At the Academy of Music an immense audience had assembled. It had been ex-pected that Senators Daniel, of Virginia, and Breckenridge, of Kentucky, would be present to deliver addresses, but they telegraphed that their duties in Washington would prevent their attendance. The exercises consisted of prayer by the Rev. C. J. Gibson and an address by Mayor Charles F. Collier.

A NATURAL GAS TRUST.

That Is the Latest Charge Against the Columbus Company. SPECIAL TELEGRAM TO THE DISPATCH.

COLUMBUS, O., Jan. 19 .- The Natural Gas Company to-night, in response to harges of crookedness and refusal to keep ontracts with consumers, sent a communication to the City Council, asking that a committee be appointed with experts to examine the plant, to see if they were not justified in turning off the gas last week. The company has asked a change in the charter, they may charge 25 cents per 1,000 feet, in case they can secure the gas. The Coun-cil and Board of Public Works have ordered the investigation.

Representative Schuler has prepared a bill, which he will introduce in the House, to prevent City Councils from allowing an increase in the price of gas. The bill is pr pared on the supposition that there is a trust to force an increase in the price, and that Columbus was the first place selected for shutting down, and the other places will

only a Widespread Republican Bolt Can Prevent Their Success.

OBSTRUCTIVE TACTICS IN THE HOUSE

PRPECIAL TELEGRAM TO THE DISPATCH. WASHINGTON, Jan. 19 .- The climax of the force bill contest in the Senate will not be reached to-morrow. There may be, and probably will be, some lively skirmishing when Mr. Aldrich proposes the cloture rules, but the real fight will not come until after the motion to adopt it has been debated for a time and Vice President Morton endeavors to apply the gag to Senators who wish to still further argue the question of such change of procedure.

Senator Hoar and the other radical Republican Senators have practically agreed upon a programme of action which they pro fess to believe will secure the adoption of the cloture rule, and finally bring about a vote upon the force bill. The programme is based upon an agreement with Vice Presi-dent Morton, by which he agrees to announce to the Senate his determination to shut off debate at a given hour upon an intimation from Mr. Hoar that it is time to take a vote. A Republican Quorum Necessary.

This action will not be had, of course unless the Republican Senators are assured that there is a quorum of their own num ber present in the chamber. It is now generally conceded that it will be useless to make any further effort to dispose of the force bill until a rule is adopted that will permit the closing of debate. The force-bill Senators are seeking supporters of the modern that when the ground that tion to adopt such a rule, on the ground that it is needed for the passage of the appro-priation bills and other necessary legisla-

This argument deceives no one, however, and it is quite likely that the Republican Senators who are opposed to the force bill will be found voting against the proposed cloture rule also. The fear that these Sen-ators will refrain from voting when the Vice President shall have announced that no fur-ther debate will be allowed, and thus break the Republican quorum, is now apparently the only barrier that stands between Sen-

ator Hoar and victory.

It may prove, however, to be an impossible barrier. There are 45 Republican Senators in Washington to-day. One or two more, possibly Chandler and Farwell, are expected to-morrow, and it is not known that any are going away except, possibly Senator Ingalls who may or may not go to Kansas during the present week. Senators Moody, Squire and Pettigrew are still ab-sent and have not been so considerate as to notify Mr. Hoar of the date of their pro-

Where the Scheme May Be Beaten. The flaw in Mr. Hoar's programme is that at least four or five of the six Republican Senators who are openly opposed to the force bill, boldly declare that they will do all they can to defeat the measure even if it is necessary for them to inaugurate dilatory tactics or refuse to vote and thus break a quorum. Senators Teller, Wolcott, Stewart and Stanford are the four men who feel justified in resorting to all possible means to defeat the passage of the bill. If they do not weaken, neither the cloture rule or the of 51, and this would seemingly be an im-

It is probable, moreover, that, Senator Washburne and Jones, of Nevada, will not consent to the carrying out of the plan to arbitrarily shut off debate but will join their four colleagues in demanding that every Senator who desires an opportunity to argue the important question of making a radical change in the rules and time-honored cus toms of the Senate shall be heard.

Mr. Hoar realizes, however, that every day that passes now lessens the probability of the success of the force bill. He therefor is growing desperate and will push the mestion to an issue as soon as possible proceedings of the Senate to-day were un

WASHINGTON, Jan. 19 .- The United States Supreme Court to-day handed down an opinion, affirming the judgment of the Circuit Court of the United States for the Eastern district of Virginia, directing that a writ of habeas corpus be granted to William Rebman, convicted in Norfolk of a violation of the State meat inspection law. This is one of what are known

as the dressed beef cases arising out of State legislation, having for its object restriction of the sale of meats by firms located outside the State in which the meats are offered for sale. The statutes of Virginia make it an offense to offer fo sale fresh meats slaughtered more than 100 It was contended that this law was an in

HIS FIRST OPINION.

Mormon Case. WASHINGTON, Jan. 19 .- Justice Brown to-day rendered his first opinions as a member of the United States Supreme Court He delivered two opinions, of which the more important was in the case of George H. Cope vs. Janet Cope and Thomas H. Cope, brought here on appeal from the decision of the Supreme Court of Utah. The question involved in this suit is whether or not a son by a polygamous marriage has the right of inheritance from his father, it being claimed that he was an illegitumate child and therefore not entitled to a share in the

distribution of his father's estate.

The Court, in its opinion, holds that the son by a polygamous marriage did not have this right, and reverses the judgment of the Territorial court. The Court discusses the Edmunds and the Edmunds-Tucker antipolygamy acts, and says the latter act de-clared illegitimate the children of Mormon parents, born within less than 12 months from its passage. The object, the Court says, was to make these unfortunate an especial object of care, and to make the parents relinquish polygamy, by fixing a period until after which their offspring should be legiti-

Balloting for Senators begins in the Legisla tre to-morthe chairs of the Republicans being occupied by the Democratic Senators and visitors. On the floor outside the rail, later comers stood as thickly as they could and shut out the view of the seated ladies who were ranged around the hall.

The gallery too, was jammed on both side of the chamber, and in the gallery the brightly dressed and beautiful women lent an added interest to the scene. Senator Coggeshall voiced the thought of all concerned when he called it a funeral, and it was a funeral at which the survivors did not seem to be particularly anxious to make a show of respect to the departed. General Husted, who presided, spoke in sepulchral tones as he briefly recited the object, of the dismal gathering, and Senator Fassett faltered and stumbled in his speech of nomi-

nation of Evarts. At the end of every sentence he cast his eyes up to the lofty ceiling as though in search of a word or an idea.
When these glances failed of productiveness, as they soon did, he sat down very ab-rubtly. There was a long pause, and no one would have been surprised to hear the words "The friends will now have an opportunity to view the remains," so utterly lugubrious had the situation become. No one else seemed to feel like saying anything. The caucus adjourned almost without voting the

A Test of the Strength of the Alliance Will Be Made To-Day.

TOPEKA, Jan. 19 .- Both houses of the Legislature met at 3 o'clock this afternoon. No business of importance was transacted beyond the passing of a concurrent resolution providing for the holding of a joint convention to-morrow afternoon for the purpose of electing a State printer. This is one of the "fattest" offices at the disposal of the Legislature, and the contest for it has been spirited. Up to the present time the Alli-ance, which has the strength sufficient to elect, has been unable to agree upon a can-didate.

A caucus or conference, as the farmers call it, is being held to-night at which the matter is being discussed. The caucus is absolutely secret and the result of the delibrations will not be known until the ballotng begins to-morrow. The ability or inability of the farmers to agree upon a State printer, it is thought, will be a fair indication of the prospects of the success of the farmers in electing a Senator to succeed Mr.

THE CONNECTICUT SITUATION. Each House Will Vote for a United State Senator To-Day.

HARTFORD, Jan. 19 .- Both Houses of the Connecticut General Assembly meet to-morrow morning, and the crisis developed by the Senate last week inaugurating the State officers is likely to come to a head then. Governor Bulkley's procismation of to-day warns the persons who have taken office in advance of being declared elected by the General Assembly to refrain from acting. COMPLETE RECOVERY ANTICIPATED

As London physicians have been inclined ately to depreciate the Koch lymph cure, some think through jealousy, the following, bearing on the treatment and its results on a Pittsburg physician, is of peculiar interest

Harry P. Dilworth, of H. P. Dilworth & Co., brokers, has interested himself particularly in the case, as a friend of the sufferer, Dr. Edwin T. Painter, of Wilkins-Yorg, whose office is between Fifth and Tih streets. Penn avenue, and who left

Mr, Dilworth states that as soon as Prof. Bergmann saw a lump on Dr. Painter's arm, out. Here it is:

BREMEN, Thursday, December 4, 1890, DEAR FRIEND-I have had a most horrible passage. Salied Tuesday, early, and was some leasick, Tuesday and Wednesday. Friday my back began to discharge so much that a half day would wholly saturate a folded handkerchief. The pus was a thick mass. The united efforts of the ship's doctors and two San Francisco physicians finally gave me some re-lief. Discharge from back has much blood

I make no halfway affair this time, and as soon as I can get there will ask for diagnosis and treatment of Prof. Bergmann, of Berlin. Lymph is now secondary. I am exhausted, having written this in bed.

Very sincerely, EDWIN T. PAINTER. Harry P. Dilworth, Esq. The next letter is from one of the physicians referred to by Dr. Painter: BERLIN, GREMANY, Dec. 6, 1890

Dr. E. T. Painter, of your city, having fallen of his present condition and future prospects Shortly after leaving port he became and soon thereafter his back trouble, disease of the bone of spinal column, became very much exacerbated, and because of both he had to take to his bed, not to get up from the same until he reached this continent. On leaving the boat, at Bremerhaven, he was carried to the to the cars, and after a night's rest at Bremen, he started for Berlin. The entire trip was made on his back, he requiring the assistance of two men' from the station to the hotel—in short, he was in a most precarious condition. He arrived here at 5 o'clock yesterday afternoon, and was taken immediately to Prof. Bergmann's hospital. To his great disappointment he was refused admission, because there was not a single bed vacant in the entire institution. He thereupon secured rooms at Central Hotel, near by, and requested the first assistant physician of Prof. Bergmann, Dr. De Reuter, to visit him next day at the hotel.

The Case Pronounced Tuberculosis.

Dr. De Reuter has just left, and as the result of the examination, Dr. Painter will be admitted to the hospital to-morrow, and will, as soon as possible, be subjected to Koch's consumption cure, as the doctor pronounced the case one of tuberculosis (consumption) of one or more hones of the spinal column.

Dr. Painter at present is feeling physically a little stronger, but mentally and in spirit he is truly down-hearted—the suddenness of the disclosure, the distance from home, friends, and entire dependence on strangers, family cares etc., all combine to bring about this condition of low spirits. And yet there is a silver lining to this black cloud, for if ever a man in his condition can or could be cured it

condition of low spirits. And yet there is a silver lining to this black cloud, for if ever a man in his condition can or could be cured it is right now and right here. Two years ago such a diagnosis would have been a ceath warrant. Now we have hopes of his ultimate and entire recovery, and that, of course, through this discovery of Koch.

Dr. Painter will, through me, so long as I stay in Berlin, keep you informed of his condition and hopes to hear from you in return. His address will be Americkanischen Consulat, Berlin, Germany, I, the writer, am also a physician, bent upon the same purpose here in Berlin, and having taken passage on the same steamer, have piloted him to the very best of my ability, and will not leave him until I see him safe in the hospital to-morrow at 4 P. M. The next day I leave here for a few days, and will return and stand by him so long as I remain here, and before my departure I will interest a friend or two in his benalf, so that he will not be altogether alone. Hoping he will soon return to Pittsburg, and relate personally to you all his adventures, I am, tough a stranger,

Yours very respectfully,

RESPECTED SIR-I am glad to report that Dr. E. T. Painter entered the hospital Sunday last, was operated upon on Tuesday by Prof. Bergmann and assistants very successfully and be-gan to receive Koch's treatment yesterday, Everything very lavorable and expect him to be up and about in very short time, at furthest a few months. I will report progress every few days. Yours very truly, CHABLES H. ROSENTHAL,

DEAR FRIEND—Your kind note of November 29, received yesterday afternoon, filled me with hope. I have been very near death, and it is only the last few days that I have seen any chance for myself. I was operated on two weeks ago last Tuesday. Yesterday I had the third injection of Kochi's Kochin, and it reacted in a horribly disagreeable chill, with fever. I have heard old soldiers tell of their sufferings while South, and I thought I had it in like measure.
