LACK OF READY CASH

Compels the American National Bank of Kansas City to Suspend.

IN CHARGE OF THE EXAMINER.

Its Troubles Cause a Heavy Run Upon a Savings Bank.

LATTER'S DEPOSITORS RAPIDLY PAID

KANSAS CITY, Jan. 19 .- The American National Bank of this city was taken in charge this morning by F. F. Marshall, National Bank Examiner for the State of

The capital stock of the bank is \$1,250,-000. No statement of liabilities or assets can be obtained. Exammer Marshall said this morning: "There is absolutely nothing to say except that the bank is in my

During the early part of last week it be-came known to the members of the Kansas City Clearing House Association that the American National Bank was in need of assistance. A meeting of the association was called, at which a resolution was adopted assuring the American National Bank that, upon a proper showing, assistance would be rendered to the amount of \$1,000,000 or more. A committee consisting of Messrs, Whitten McDonald, President of the Midland National Bank; Dr. W. S. Woods, President of the National Bank of Commerce, and F. P. Neal, President o the Union National Bank, were appointed to be in readiness to act for the Association.

The Collaterals Not Sufficient. Friday evening H. P. Stimpson, President of the American National Bank, requested a conference with the committee. The conference resulted in a recommenda-American National Bank assistance. At a cting of the Clearing House Association on Saturday evening the committee was instructed to examine the security offered by the American National Bank and ascertain the amount of money needed. Yesterday the committee, calling to its assistance National Bank Examiner Marshall, ex-amined the collaterals offered as securities for \$1,000,000 or more, which the association agreed to loan.

The committee reported to a meeting of the association last night that the collaterals offered by the American National were not such as the banks of the association would accept. This decision made the failure of the bank inevitable, and the National Bank Examiner thereupon assumed charge of the

Uneasiness Among the Banks.

As a result of the failure of the American National Bank to-day a great deal of uneasiness has been created among the depositors of the Kansas City Safe and Savings Deposit Bank which is in the same building with the American National Bank and is supposed by many to be connected with it, and there is a tremendous run on that institution. The sidewalk is blocked and the doors of the bank are crowded with depositors auxious to recover their hard-

The bank is paying all depositors promptly, and the officials claim that they can meet all obligations. The bank is in no way connected with the American National. It is the largest savings bank in the State, and the officers are the most careful and conservative business men of the city. Later on the run censed.

The deposits of the American National Bank are about \$1,200,000. Since October I last the deposits have decreased from over \$4,000,000 to the present amount. It is ascertained that the bank owes over \$800,000 borrowed money. A gen-tleman who is in a position to know the condition of the other national banks of this city, says this morning that they are in an unusually good condition, and would not be materially affected by the faiture.

Much Surprise in New York. The announcement in New York today that the American National bank of Kansas City had been taken in charge by the bank examiner caused a decided surprise in banking and financial circies here as the bank was considered solvent. President Williams of the Chemical bank, one of the correspondents here of the American National Bank said that his bank was abundantly secured against any loss. At the Scaboard National Bank and the United States National Bank the other two correspondents here of the American National Bank it was said that the Kansas bank did not owe them money.

A dispatch from Washington says that

Controller Lacey expresses the that the bank's liabilities exceed \$1,000,000 which is \$250,000 less than its capital slock.

LOUISIANA LOTTERY CASES. The Whole Matter to Go to the State Su-

preme Court for Settlement. BATON ROUGE, Jan. 19 .- Mandamus proceedings were brought some time since

before Judge Buckner's court by John A. Morris to compel the Secretary of State to officially promulgate the lottery amendments passed by the last session of the Legislature. The case was tried last Friday and Saturday week. Much testimony was taken to show that the amendment had been properly

The case was submitted without argument and each side submitted authorities, the understanding being that the matter would go finally to the Supreme Court of the State, no matter what might be the decision of the lower court, Judge Buckner this morning handed down the decision in the case. It reads "Mandamus refused." John A. Morris' attorneys will now appeal to the Saureme Court, which will finally settle the

NO AIR IN THE CONDUIT.

What Caused the Fatal Explosion in Chicago Last Saturday.

CHICAGO, Jan. 19 .- At the Coroner's in quest to-day into the death of Emily Ross, who was killed on Saturday afternoon as the result of an explosion of gas in a manhole, it was developed that the conduits in the section of the city where the explosion occurred are not ventilated. The conduits further north are ventilated and no explosion

has ever occurred in them. City Electrician Barrett said the city had sought to ventilate the other section, but the citizens in the neighborhood interfered, and it was abandoned. It appeared that illumi nating gas had escaped into the conduit, and that the explosion proceeded from a light in the possession of men engaged in stopping a gas leak nearby.

GOOD EFFECTS OF DISCIPLINE.

Teachers in a St. Louis School Have Cool Heads During a Fire.

Sr. Louis, Jan. 19.-The cool-headedness and presence of mind displayed by the teachers of Shaw School to-day averted what would otherwise have developed into a panic, attended with loss of life, among the

About noon fire was discovered in the basement by the janutor, who immediately gave the alarm. The children became greatly excited, but under the excellent management of the principal, Mrs. Nauro. were all gotten out safely. Pecuniary loss will be only \$3,000.

TESTING THE TARIFF ACT. St. Louis Merchants File Suits in the United

States Court. St. Louis, Jan. 19 .- Several St. Louis importers through their agent, Wyman & Co., have filed suit against the United States Government to test the costitutionality of the McKinley law. These firms bought

ber 1 and was assessed the duty on them when they were taken out of bond. They paid the excess duty under protest to the

paid the excess duty under protest to the board of appraisers in New York city. The board decides that the duty imposed was properly assessed under the tariff act known as the McKinley bill.

There will be no defendant in the case and it will be filed as "in the matter of Charles Wyman & Co., and the Board of Appraisers." The law will be attacked from several points. It will be claimed that it is unconstitutional for the reason that the bill passed by the Senate was not the same bill signed by the president as it was proven that through a clerical error an entire section was left out. Other equally important points will be made to prove the bill unconpoints will be made to prove the bill uncon-stitutional. These suits are almost similar to those entered by Chicago and Cincinnati

NO SIGNS OF WEAKENING.

WILDWOOD MORE THAN SURPRISES THE BELIEVERS IN 1TS STRENGTH.

Jump Gives Up Forty Barrels an Hour-Other Wells That Are Holding Their Own Nicely.

WILDWOOD-The oil market's most relentless oppressor shows no signs of weakening. On the other hand, it threatens to be even more tyrannical. To-day it dealt another blow with such force as must convince those who have hoped for better times that such a boom is still in the gloaming. There may be, and no doubt are other

causes to which can be attributed much of the blame for no more rapid advance in values, but this seeming endless lake of eil is more responsible than any other cause. It was hoped by the majority that the limits of this field had been defined, but the developments of vesterday show that the hope was

wain and the depressing effects are to be felt for a longer period.

At 10 o'clock yesterday morning the drill broke through the shell in the Guffey & Queene and Forest Oil Company No. 1, in the Runge farm. The well made a 25 barrel flow and then they changed hits and with rel flow and then they changed bits and with a few mere strokes the fluid came gushing forth at the rate of 40 barrels an hour, and was maintai ing that gait last evening without having been drilled deeper. This well is located 500 feet in advance of the Ringheisen on a 45° line, and indicates a further extention of this prolific lead. The well will be fully twice as much per hour

when drilled deeper.
Greenlee & Forst reached the sand in their No. 1 McGengh six acres last evening. but the strong flow of gas necessitated their shutting down till morning, they not wish-ing to take the chances of drilling it in at night. No. 2, on the same lot, and 300 feet to the west, will be in to-day, and its loca-tion would indicate that it will be large, With the completion of these three wells all interest is now centered in "the front"

on the Kohlber, Keil, Marks, Kreizer and Heidleburg farms. It will be several weeks before the result of the wells drilling on these farms will be determined. There must be a jumping off place somewhere, but whether it is with the wells on the tarms just mentioned remains to be seen. To the northeast there are several important wells claiming the attention of those interested in that part of the field. The well on the P. & W. lot was drilled deeper to-day, but owing to the strong flow

of gas the work progressed slowly.

They had not completed pulling the casing at the Bowman gasser and could not start the drill. It is possible they will not be able to do so till to-morrow.

On the Barr farm, Christie & Co. have a well of some magnitude. It is claimed the oil was tound in the 100-oot, and, if so, it is a new feature in this territory. The Griffith & Co. well on the Hill farm is reported making 15 barrels from the 30-foot.

Failed to Connect. McCurdy-There are many anxious inquiries made as to how matters are progressing in the McCurdy field. The Captain Grace well on the Hinton farm was ex-pected in last week, but failed to connect. The well was reported in the sand Sunday, but a gentleman talked with one of the men drilling on the well, and he stated they were 30 feet above the sand. If that is true the well will not reach the sand till some time

to-day. On the Davidson Farm. CALLERY-The Young well on the town lot north of the Guckert & Co. No. 2, on the Davidson farm, is in and flowing 50 barrels un hour. This well is located only 150 feet south of the Geobring well, on the Irwin lot, and shows that there is a very narrow but rich pay streak extending to the northeast from the wells on the Cashdollar farm. The Guckert No. 2 will make a 50-barrel well. They will put in the tubing

A FAMILY POISONED.

Coffee Loaded With Arsenic Kills a Man and Wife.

SPECIAL TELEGRAM TO THE DISPATOR . LEXINGTON, KY., Jan. 19 .- A whole colored family was poisoned here this morning by having arsenic put in the coffee for breakfast. Peter White, his wife and his uncle and aunt, Daniel Frazier and wife, drank heartily of the coffee, save Mrs. White, who, being quite sick, only took a few swallows of the poisoned fluid. Immediately after breakfast all four of the persons named were taken with violent pains in their stomachs, and the physician, who was quickly summoned, pronounced it arsenical poisoning. Powerful antidotes were administered, but Frazier soon died, and this atternoon his wife expired after much

White is now lying at the point of death, and will probably die before morning. His wife may recover. Lily White, the 17-year-old daughter of Peter, has been arrested, charged with the crime. Her father whipped her last night because she stayed away too much at nights. She denies administering

OFFICERS NABBED HIM.

Dishonest Banker Arrested While on Trip From Canada.

SEPECIAL TELEGRAM TO THE DISPATCH. SYRACUSE, Jan. 19-On Saturday, Sheriff H. G. Borthwick, of Cortland, arrested Eugene Hemingway. He was taken to Whitlandt on the 9:48 A. M. train, and made arrangements with the Syracuse and Bing-hamton Railroad to stop their train that leaves Cortlandt at 10:09 P. M. Saturday night at Whitney's Point, and to stop the early morning train going north.

This would enable him to visit his sick daughter, who is expected to live but a short time, but he was arrested while visiting his sister-in-law, Mrs. Lovell, in Cortlandt.

An Inquiry From an Indiana Lawyer Unearths a Curiosity.

CLAIMS TO A PART OF PITTSBURG Made by the fleirs of a Man Who Died

Early in the Century.

MONEY FOR SNOFF AND A DOCTOR'S BILL

Another man bobs up with a claim to a few hundred acres of land in the heart of

Register Conner yesterday received a letter from J. G. Evans, of Covington, Ind., inquiring for information concerning the estate of John Rardon. Evans is attorney for one of the heirs of Rardon. He states that Rardon settled in Pennsylvania in 1808 or 1809, and took a claim of 160 or 320 acres of land on what is the present site of Pittsburg. After building a house, clearing 20 acres and making other improvements he moved to Kentucky. He rented his place in Pennsylvania, and left it in the hands of a law-Pennsylvania, and left it in the hands of a lawyer to look after. The tenant twice tried to
hold the land against Rardon, but the lawyer
defeated him. About this time Rardon died,
probably intestate, and his heirs were "scattered to the four winds," and no claim has been
made to the estate. Rardon's lawyer's name
was Carnaga. The writer wants to know the
present extent and condition of the estate.

Mr. Conner was not Register in 1888 or 1899
and could not remember anything about Mr.
Rardon, but he made a -earch of the will books,
bringing to light a curious old document. It bringing to light a curious old document. It was the will of John Rardon, dated March 16,

bringing to light a curious old document. It was the will of John Hardon, dated March 16, 1806, and was the only instrument that indicated any information concerning the man asked about. The will is as follows:

"I, John Rardon, being in a low state of health, but sound in mind and judgment, doth make this my last will and testament, which shall be as follows:

"Unto my good and loving friend John Witherze, I do leave and bequeath all my worldly property, such as houses, lands, moveables, etc., and all things that I have any property in is his. I do make and appoint said John Witherce my whole and sole heir and to him and his heirs and assigns I leave all my worldly substance, as he has proved my friend in distress and supports me in sickness and in health. J. Witherce will do as long as I live and bury me when dead. Unto the heirs of my own body, as each of them has got his own share and turned me out from among them and would not harbor me any longer, for their ingratitude I leave and bequeath to them as follows: To my son, Thomas Rardon, I do leave I penny to buy sauff." Continuing, he gave to each of his children, John, William, Mosea Timothy, Jacob and Nellie, I penny. He said further: "To Anne, my housekeeper, as she was the mother of all mischief and got her full pay when we parted, I will leave her twopence to give the doctors for setting her crupper bone, which I am informed she got broke. I do appoint my heir John Witherce after my decease, to pay all my legacies as soon as demanded.

"John X RARDON."

"JOHN X RARDON." A copy of this will is to be sent to Mr. Evans.

H. & C. F. AHLERS,

THE STANDARD COCOA OF THEWORLD.

HOUSEHOLD WORDS ALL OVER EUROPE.

VAN HOUTEN'S COCOA

BEST & GOES FARTHEST." Now that its manufacturers are drawing the attention of the American public to this first and, ever since its invention, the best of all cocoas, it will soon be appreciated here as well as elsewhere all over the world All that the manufacturers request is simply one trial, or, still better, a comparative test with whatever other cocoa it may be; then VAN HOUTEN'S COCOA itself will convince every one of its great superiority. It is because of this superiority that the English paper Health, says: "Once tried, always used."
To avoid the svil effects of Tea and Coffee, use constantly VAN HOUTEN'S COCOA, which is a STRENGTHENER of the NERVES and a refreshing and nourishing beverage. [52]

A GRAND SUCCESS!

"HE immense success of our great Muslin Underwear Sale has prompted other dealers to copy after us-copy everything but the prices, and these we know they can't duplicate. Our special sale of underwear continues all this week. Ask anyone who has visited this department during the past few days and they'll tell you of the wonderful bargains offered. So large was the demand for these goods that a few of the leading styles were closed out. These were promptly replaced at the same low prices, and to-day there's nothing worth having in muslin underwear that isn't displayed on these counters. Remember, every garment in stock is of reliable make, perfect fitting and finished in the highest style.

Having had a highly successful sale of white goods, we can offer an absolutely new stock of plain, plaid and fancy goods, as well as hemstitched. The latest novelties are shown in fast black goods. A large

variety to choose from at prices that will move them quickly. Our Clearance Sale is still in progress, and extraordinary values are to be found in all departments.

HOW ARE THESE PRICES?

CUT TO PIECES!

It's a fact that in our Cloak Department prices are away below what the goods actually cost us. Jackets, Newmarkets, Fur-Trimmed Coats, Plush Jackets, Plush Sacques-in short winter garments of all kinds are being disposed of at half price and less. We have 450 Misses' Reefers and Gretchens that will be sold at once for much less than the material alone could be purchased. Our Cloak Department must be cleaned out at once, and we have taken the sure way to do it.

THEY ARE THE PEOPLE

There is no longer any doubt in the public mind but that Drs. Copeland & Blair are the most successful specialists in their line to-day, How has this been brought about? By the very word of the public themselves. Thousands of witnesses have testified to it and new ones are adding their evidence each week voluntarily through the medium of the public press. This week two esteemed and well-known gentlemen of this city each make a positive assertion. themen of this city dear state that then.

Mr. Thomas Maybury, of 218 Thirty-ninth street, a forger in the employ of the Carnegie Iron Works, says: "Ever since I recovered from an attack of typhoid fever, about 13 years ago, I have noticed more or less catarrhal trouble, but in the last year or so it became very much aggravated and I suffered almost constantly,

Mr. Thomas Maybury, No. 218 Thirty-ninth

"My head and nose would be stopped up. I had very severe headaches, not merely a dull ache, but sharp terrible pains through my temples and in the back of my head that would almost set me frantic. Buzzing and roaring noises in my ears continually. My hearing became very much impaired. I could feel the mucus dropping back into my throat, which kept me hawking and raising to clear it. Sharp pains would take me in the chest and region of the heart, shooting through under the shoulder blades. I had a severe cough, which annoyed me very much, raising quantities of mucus. Night sweats set in and literally pulled my strength from me. My appetite became affected. Nothing I could eat seemed to agree with me. No matter how carefully or sparingly I ate I would almost invariably suffer a miserable feeling of distress and nausea at my stomach, even the outside becoming sore and tender to the touch. My sleep was restless and broken. I would get up mornings actually more tired and worn out than the night before. My work was a drag and my life a positive burden.

"I was in this condition when I first called on Drs. Copeland and Blair, after reading so much of their notable work. After examination, feeling that they thoroughly understood my case and finding their charges so very reasonable, I decided to place myself under their treatmenf. My symptoms gradually disappeared, until now I am like a different person from what I was when I went to them. I am 100 per cent a better man than I have been for years."

A RARE CASE

In Illustration of How Catarrh May Affect the Very Center of Life-The Human Heart-Still Another Indorsement of Drs. Cope-

land & Slair.

Mr. Wm. McDonough, of No. 2 Moultrie street (Soho), city, says: "I suffered constantly for about three years, and did not know what the trouble really was. My principal symptons were a depressed, heavy feeling in chest with occasional sharp pains. Although my appetite was good, I suffered a misery and sick teeling at my stomach after eating. I slept soundly, but would get up in the morning all worn out. My greatest trouble, however, seemed to be with my heart. There was a tight, compressed feeling there. For a time my heart would beat rapidly and so hard I would think it would nearly burst. The palpitation would be followed by a slow, irregular beating and a feeling of faintness. I went to Drs. Copeiand & Blair. They told me my trouble came from catarrh of the stomach. I began their treatment. To-day my symptoms have disappeared and I am well."

Special Indorsements

Following are given a few of Pittsburg's prominent citizens who have treated with Drs. Copeland and Blair and freely add their recom-Mr. J. S. Moore, 121 and 123 Fifth avenue. Mr. Miller, 121 and 123 Fifth avenue. Mr. Samuel Crawford, with Hugus & Hacke,
