notes of the present session, but, at the request of members of the board, various times referred to records of preceding meetings. It seems that the good work of establish-

ing a Deaconness' Home in Pittsburg has some antagonists who delight in making it the subject for facetious remarks, and boldly asser that it is under petticoat rule, i. e., under subjection to the Woman's Home Missionary Society of the Methodist Church, which fact Rev. Dr. Miller said could not be disputed, as a lady was not eligible as a member of the Board of Trustees unless she was first identified with that missionary body.

A Restriction to Be Regretted. He further remarked that he regretted this restriction, as he frequently met good, noble, energetic Christian women who would be admirable acquisitions to the organization, and who were desirious of serving, only that they were not members of the Home

Missionary Society.

At this point Dr. Miller was called down by a feminine member whose name ranks high among the officers of the Woman's Home Missionary Society, who remarked that only the sum of \$1 stood between any of the ladies possessed of the multiplicity of virtues and the object of her desires, as for that amount one could become a member of the missionary society and eligible to the

Board of Trustees.
Dr. Miller thought the least said about the subject the better, but another reverend gentleman was of the opinion that the charge that the board was ruled by the missionary society should be refuted, and it be clearly estab-lished that it was a general church work. Others—the majority, in fact—metaphorically, sat down upon any such an attempt, as it would only give the matter more prominence than it deserved, and would accomplish nothing, as the fact remained that the project was tied, to a certain degree, to the apron strings of the mission-ary society, which is expected to exercise a sort of maternal solicitude over it and furnish substantial financial aid, as well.

The report of the committee appointed some time ago to investigate property, with the intention of purchasing, was to the effect that they had not been successful in discovering any desirable property. Too Much Authority Not Wanted.

A motion was then made and seconded. that the committee be authorized to investi-gate property for renting, and also be en-dowed with the authority to rent, with or without the co-operation and knowledge of the remainder of the board. The commit-tee, with becoming modesty, declined to be so endowed, and such expressions as "You keep still!" "How do you know?" and others of similar sportive nature floated in

the atmosphere.

It was then suggested that as Mrs. Van Kirk's prolonged illness prevented her filling her position of Chairman of the committee, Dr. Miller be appointed to fill her place. To this Dr. Miller declined emphatically, when the bad not so many saying that others who had not so many funerals to attend, so many babies to baptize so many calls to make, and so many sermous to preach could do the work more effectively. At this juncture Mrs. Van Bradenburg, the little Deaconness who for some months has been waiting patiently a decided action in the matter, remarked effectively that the prolonged delay already was due to the fact that no Chairman marshaled the forces, and she thought a chairman of some kind quite indispensable. It was agreed to leave the matter to the committee to settle at its meeting, with the hopes it might prevail upon Dr. Miller to accept.

An Election With a String Attached. The resignations of Mrs. Brienall and Mrs. Hama were accepted, and Mrs. John Graff and Miss Belle Bradley elected to fitl the vacancies—if the latter was a member of the Woman's Home Missionary Society. The committee for the selection of a home will look around various parts of the city, and when a desirable piece of property is found, will call a meeting of the entire board, to take decisive steps, with the desire having the home in operation by the first of April.

ANOTHER BRILLIANT RECEPTION

Given in the Parlors of the Duquesne Club Last Night. The awning is becoming a permanent feat-

ure at the Duquesne Clubhouse, necessitated by the many social events held there, and last evening it sheltered a very stylish and brilliant company, as in twos and threes the guests of Miss A. M. Bissel, of the East End, left their equipages and entered the realm of beauty and light. The ball was given for Miss Mary Irwin Laughlin, the niece of the hostess, and was one of the important social affairs of the season. The appointments, from the profusion of flowers that perfumed the air and gave a summery aspect to the scene to the menu served by the caterer of the club, were perfect, including the entrancing music and the magnificent dressing of the company that problems. AFFAIRS OF NOTE IN SOCIAL LIFE

One dear, sweet, benevolent old lady at the meeting of the trustees of the prospective Deaconness' Home yesterday afternoon, with her spectacles on her nose and her shopping bag in her lap, dozed away for dear life, but the remainder of the trustees present were painfully wide-awake and on the alert, the meeting being one of the most spirited thus far held in the interest of the home.

Rev. Dr. Locke, President of the Board of Trustees, occupied the chair and Mrs. Joseph Weeks, as Secretary, not only took notes of the present session, but, at the resolution of the meeting pesterday afternoon. Miss Janie Cord, on "The Soul of the Exile," proved herself a decidedly original thinker, and the polished manner of writing, with the delicacy and nicety of expression habitual to the young lady, both in writing and speaking, made her paper particularly enjoyable, even though it was based upon the tortures and sufferings of the poor exile, whose soul may rise above the cruelties, but whose physical being cannot. Mrs. George Schlenderberg, on "Verestchagin and His Art," was intensely interesting, notwithstanding so much has been written and said of the famous and humane nobleman. "The English Stage of To-Day" was the subject chosen by Miss Minnie Moore upon which to weave a poetical and practical treatise that received and practical treatise that receiv search, engrossed the attention of the mem-

great favor with her listeners. The feature of the meeting, however, was the inaugural address delivered by the President, Mrs. C. I. Wade (Bessie Bramble). In her own tart, spicy, pungent style Mrs. Wade reviewed the history of the club, and from the past prophesied for the future in a manuer highly complimentary to the organization. Mrs. Wade is always entertaining and brilliant.

It was decided that should Mrs. Crowley (Jennie June) visit Pittsburg next week as a delegate from the New York Press Club, the Woman's Club en masse would do her honor as the first President of the Sorosia, of which organization the Pittsburg club is a part, and as a talented, eminent writer and

THE SECOND CONCERT

Given by the Allegheny Musical Society Carnegie Hall.

The audience that greeted the second concert of the Musical Association of Allegheny last evening was a characteristic Carnegie Hall gathering, cultured, reuned, attentive and appreciative, and completely filled the hall. The programme opened with Gounod's "Lovely Appear" and "From Thy Love as a Father," sung by Miss Grace Miller, the soprano soloist of the evening, and the chorus. Miss Maud Powell, the talented chorus. Miss Maud Powell, the talented violinist, then made her appearance and rendered "Largetto," Mardini, and "Farfallo," Sauret. Prof. J. H. Gittings interpreted on the piano Chopin in "Elude No. 7 op. 25" and Sherzo B flat minor. A truo, Miss Miller, Mrs. F. W. Kiefer, sprano, and Mrs. Mary Scott, contralto, rendered "As Fades the Evening Hour," and "Down in the Dewy Dell." Miss Powell and Mr. J. A, Bell appeared in a duet for the violin and organ, by Mendelssohn, in

the violin and organ, by Mendelssobn, it concluding part first.

A "June Song" and "Spring's Verdure,' Foerster, were choruses that opened par second, and "Lapateudo," Sarasate, wa next rendered by Miss Powell. Prof. Git next rendered by Miss Powell. Prof. Gittings in "La Fileuse," Raff, and "Polonaise E Major," Liszt, was again heard, and the chorus in "Cradie Song" and "Stars of the Summer Night" preceded the concluding number "Hungarian Air," by Miss Powell, who is acknowledged to be the finest lady violinist in the United States, as well as a graceful and prepossessing young lady. "The Sun Worshipers" by A. Goring Thomas will be given at the next concert of the association, Tuesday evening, March 17, 1891.

SMALL MONEY IN OI

Despite Poor Wages Paid for Labor, Producers Gain Little.

STATE OF THE HEAVY OIL FIELD. Wildwood Is Keeping Up Its Brilliant

Reputation Still. MORE BIG FIELDS FOR THE STANDARD

INFECIAL TELEGRAM TO THE DISPATCH. FRANKLIN, Jan. 20 .- Twenty years ago marks the ero, or the beginning, of the beavy oil industry. Franklin, until that time, was an obscure town, but the discovery of heavy oil on the point and the Galloway farm, was an incentive in bringing capital to invest in that field. It was heavy oil that founded the Galena Oil Works and the Eclipse Refinery, the latter the largest institution of its kind in the world. These two manufacturing industries are the life and support of the far-famed nursery. The producers in the heavy oil districts have seen many ups and downs, and, upon the whole, have made but little money. It is true, however, that several individuals have been very prosperous, but at the same time it should be remembered that they were men of an exacting character, and made their profits principally off of labor.

In speaking of labor, there is no place in the

In speaking of labor, there is no place in the oleagmous world where labor is so poorly paid as in the heavy oil district. A man who is capable of taking charge of a lease does not command more than from \$50 to \$60 per month, while the hands who do the work on the lease do not average more than \$1.25 per day. The men are not only required to do a day's work of 12 hours, but extra labor without extra compensation keeps them 18 hours per day on the lease.

pensation keeps them 18 hours per day on the lease.

The price paid for the indispensable staple is nothing near its intrinsic value. The market price at the wells for nearly the last ten years has been \$3.65 per barrel; but within the last six or eight months the price has been advanced to \$3.85. THE DISPATCH oll scout was informed by one of the mostpractical operators in the field that the average producer had a hard row to hoe, and that they barely made a living. Continuing, he said:

"It is an outrage that we do not get more money for our oil. We should have \$5 a barrel. The wells in the heavy oil district are very limited in capacity, and therefore great economy must be exercised in operating them. It is no uncommon thing to see a lease with \$60 or 50 wells connected by the sucker-rod process and propelled by one motive power. The average of the wells in the old district is about three barrels per month, while the average at the front is estimated at five barrels a mouth. According to the pipe line report the production for Tanahar was 7.506 harrels. The statement

At present there is but very little operating being done, and that little is confined principally to the front district. At the front, Emerson & Co., completed a dry hole on the Burkhart farm in the heavy oil sand, and found the same result in the gray sand. Cratty & Myers also finished a one-barrer well on the Scott farm

also finished a one-barrel well on the Scott farm Saturday.

The latest transactions in the heavy oil field is the sale of Cratty & Myers of their one-half interest in the Scott farm of 77 acres, eight wells, with a production of 240 barrels, per month, for \$12,000.

Sheasley & Grant completed a five-barrel well Saturday on the Eichner farm, and have started another on the same farm. Heald & Hopkins, of Pleasantville, who lately purchased the interests of Black & Emerson, are doing considerable work.

Tally One More for Wildwood. WILDWOOD-Wildwood to-day has lost none of its former reputation. On the other hand, it has added to its history on the southwest line by the bringing in of the Guffy & Queen

are in the first pay with their No. 2, and shut down to move the boiler. Their No. 1, on the same property, is reported 20 feet in the sand, with no show of oil. It is likely they will find the pay at about the same place it was found in the Ringheisen. Barnsdail & Gillespie shot their No. 7 Kress to-day, which increased the production to 75 barrels per bour. Kennedy & Co., on the P. & W. lot, are able to make but little headway with the drill, owing to the pressure of gas, and it lish not unlikely that work will have to be discontinued until the gas is somewhat to-night. The Griffith & Co. well, on the Hill farm, north, was no good in the 30 foot, and it will be drilled to the third sand. Christie & Co., on the Susan Gibson farm, three-fourths of a mile north of the Harley well, is down about 500 feet. This well, owing to the oil found in the Bowman gasser, will be watched with interest, The Bowman, on being turned into the tank to-day, made about eight barrels in an hour.

The following are some of the important gauges: Guffy & Co. No. 4 Holsebouse, 75 barrels an hour; No. 5, 30 barrels an hour; the production of their five wells on the Rolsehouse is 150 barrels an hour, The Roth Oil Company's Harbush No. 8, is doing 35 inches an hour to-night. The production of nine wells on this farm is 2,800 a day, while the production of Forst & Greenlee's 12 wells on the Rolsehouse, 750 barrels. Herr No. 3 was drilled to the second pay to-day, and responded to the tune of 15 barrels an hour. Barnsdail, Gillespie & Co. 5 production on the Kress farm is 3,200 barrels. The Ringheisen No. 2 is five bits in the sand to-night and has made several small flows. The well is shut down to move the boiler.

CALLERY—Oberations in the Collery field.

Town Lots Punctured With Holes.

CALLERY—Operations in the Callery field are keeping up, and the town lots are rapidly being punctured with holes. The Learn & Geobring well on the Deemer lot is in the sand-Burton & Bartley, on the Richards lot, 100 feet south of the Geobring well, on the Irwin lot, is four bits in the sand and doing 60 barrels per

hour.
When the Burton well was struck yesterday, the Goebring well was flowing 150 barrels, but Burton took both the oil and gas away from the latter. Forst & Scowalter are easing their No. 2 on the George Marburger. A Duster in the Chartiers Field.

CHARTIERS—Guffy & Queen drilled their well on the Graham heirs' farm through the fifth sand, and the result was a duster. Great Interest in a McCardy Well, .

McCURDY—In no section of the oil country is there so much interest as in the McCurdy pool. there so much interest as in the McCurdy pool.

There have been various reports concerning
the Kanawha Oil Company's Sinton farm well,
The well has been reported dry, but from the
best information obtainable by THE DISPATCH
scout, the well is not deep enough. By to-morrow morning, if everything goes well, the McCurdy field will be better defined than at pres-

Progress of the Harmony Wells. HARMONY—Youkins & Thompson shot their well on the Harper lot to-day, but it made no improvement. The Kelly & Co. well on the A. Zeigler farm, is in the sand. Sutton & Christie

From Father to Son

Through generation after generation, the taint of scrofula descends through the blood, blighting life and hastening death. The great majority of cases of scrofula and other blood diseases are hereditary, and therefore difficult to cure. But we wish to state in the most positive, emphatic way that Hood's Sarsaparilla does.

Cure Scrofula in every form. The most severe cases, too terrible for description, have yielded to this medicine when all others failed. The greater includes the less—and if you suffer from scrofula, salt rheum or impure blood in any form, you should take Hood's Sarsaparilla. New Territory for the Standard.

FINDLAY—Negotiations were concluded this evening by which the Standard Oil Company will acquire all the property of C. C. Harris, the largest individual producer in the Northwestern oil field. Negotiations have progressed so far that the wells are being gauged and the titles and leases are being signed. The value of the sale, which will probably be consummated in the morning, will probably per consummated in the morning, will probably reach \$175,600. This is property the Standard has long been trying to buy, and adds greatly toward giving that corporation the controlling interest in the Ohio field. Harris' property covers some of the best and most productive property in this section.
