Common and Low Grade Beeves Draggy at

Reduced Prices.

SHEEP STEADY AND LAMBS LOWER

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, Jan. 21. There were about 95 cars of cattle on the market at East Liberty this week, against 100 loads last week, and 80 the week before. Some reports place this week's receipts the same as last week, but as several loads were held over from last week, the discrepancy in estimates is explained. The proportion of good heavy beeves in this week's offerings was larger than the late average, but there were no strictly prime cattle on sale, with the exception of oneload, which cost \$5 40 in Chicago. This load was sent on East for want of a customer ready to pay the price which was

close to 6: per pound.

The best price said at East Liberty was \$5.35 for a single load. With this exception top price was \$4.95. Markets opened Monday morning fairly steady at last week's prices for good beeves, but loe to like lower for common and low grade stock. Since Monday latter have still further weakened, and prospects are that when sold great sacrifices will be demanded. Markets have been draggy all the week for all cattle excepting good shipping stock and light, smooth batcher beeves, weighing [1,00 to 1,300 pounds, such as our local trade particularly calls for. The best beeves on the close to 6 : per 1 ound rly calls for. The best beeves on the .ek were from Chicago, there bemarket thit 2 set were from Chicago, there being about 20 loads from that point on sale.

Supply of fresh cows was small, and prices were well maintained at a range of \$250 to \$45 per load. Veal calves were steady at a shade higher thin last week's prices, the range being 6 to the real part of the range being 6 to the real part of the real part

Sheep and Lambs.

There have been about 19 loads on the market this week, a large proportion of them being lambs. Last week there were about 15 loads on sale, and the previous week 10 loads. The average quality of this week's offerings was about the same as last week. There were few choice

Sheep on lambs on sale.

One load of natives, extra fine, weighing 116 pounds, was sold at \$5.60, but the general range was \$6 to \$\text{84}c\$ per pound. Top price of lambs was \$65c, a drop from prices of last week.

The Supply of Hogs. The run has been light. On Monday there were 26 loads on sale against nearly double that number the previous Monday. Total receipts for the week have been between 50 and 60 loads. Last week at this time the offerings amounted to 120 loads. The number on sale this morning as 81 ands and markets opened slow, in spit the short supply of the week. Top prices ranged from \$3.20 to \$4.00, with

very Iew good enough to command the outside figure. According to advices received by one of our leading packers from his Chicago buyer receipts there were 40,000 head this morning. and top price \$3 65.

MARKETS BY WIRE.

Setback Followed by a Bulge in the Wheat Pit-Rather Firm at the Close - Provisions Materially

Lower All Round.

CHICAGO-When trading started this mor ing there were sellers at 94% for May wheat, which was the condition of the market at the close of yesterday's session. There were no buyers, however, at over 94%c, and soon there were sellers but no buyers at that. This weak-ness of feeling was of short duration. There was a good deal of confident buying at from 94% to 94%, and before long an advance to 91%c took place. The foregoing changes were followed by a decline to 94%c, an advance to 94%c, another setback to 94%c, and a bulge which had reached 95c by 12 o'clock.

The cable advices indicated a hardening

tendency at Liverpool, and considerable firm-ness in the French country markets. The ex-

ness in the French country markets. The extreme cold weather recently prevailing in
England had given place to a higher range of
temperature, as indicated by the weather being
described as cold and wet.

The first advance was on B adstreet's report
that the visible supply had decreased 1,758,000
bushels during the week. A private telegram
was received from San Francisco saying that
only 4½ inches of rain had fallen in the wheat
district of California against an average of 14
inches. Subsequently wheat sagged to 94½c, but
strengthened on reports of considerable export
business.

strengthened on reports of considerable export business.

The feature of the day in corn was the taking of profits by shorts. Schwartz-Dupee were liberal ouyers and Pardridge, Hutchiuson and a few others supplied the wants of the purchasers. The range in May was from 51½650c at the opening to 51½6, then up to 52½6.

May outs opened at 55½6, The price advanced to 55½6, declined to 55½6 reacted to 466, and closes ½6 above yesterday at 55½6 bid. There was fair trading.

The first estimate on the day's receipts of hors as reported from the yards was 42,000 head, with prices 10c to 156 dower. This was enough to give the provision market a weak start at a decline from the previous day's closing price. The early weakness was added to later, when the day's receipts of hogs were reported at 52,000 head. Armour and other packers were sellers.

The leading futures ranged as follows, as corrected by John M. Oakley & Co., 45 Sixth street, members Chicago Board of Trade:

Real Estate Exchanges Give Satisfaction in Other Cities.

ENCOURAGEMENT FOR BROKERS

Local Securities Continue to Gain Ground

All Along the Line. THE NEWS AND GOSSIP OF THE CITY

Now that the real estate brokers of Pittsburg have established an auction sales board as a stepping stone, it is believed, to a regular exchange, information in regard to the workings of the system in other cities is of peculiar value. A Fourth avenue broker received a letter from the President of the Chicago Exchange a few days ago, in which this passage occurred: "I would advise you to establish an exchange at once. It works splendidly. We could not get along here without it. It does not destroy the individuality of members or interfere with office business, Business is prepared in the office and executed on 'change." A broker who was in New York a short time ago gives the following account of the operations of the Real Estate Exchange in that city: "The New York Real Estate Exchange was

organized about seven years ago. The members own the building in which they meet. It is valued at \$600,000. The par value of the is valued at \$60,000. The par value of the stock is \$100. It is quoted at 25 per cent premium in the open market. Stock brokers are admitted to membership by paying a yearly assessment of \$60, but they have no voice in the management. All the real estate business transacted in New York passes through the Exchange, including Sheriff sales. There is a full con plement of officers and a general manager who supervises all the business. There are several committee; the most important of which is that on arbitration, which settles all disputes between buyers and sellers.

3. "All transactions are conducted on strictly business principles. Bogus budders are rigidly excluded. All bids must be in good faith. Owners of property bidding it in must pay the commission the same as withers. This is a protection to both buyer and seller. The exchange system has worked so well and given such satisfaction to all dealers in real estate that it has become a fixure, and not one member in a hundred would vote to go back to the old way of doing business."

Business News and Gossip.

The special rent lists appearing on Mondays ferced to-day by contributions from Messrs. W. A. Herron & Sons, Charles Somers & Co. and Reed B. Coyle & Co. These lists are a great convenience to renters. Their perusal will save much time and trouble to all in quest of houses and offices.

NEW YORK STOCKS.

The Dullest Day for Weeks in the Share Market-Industrials the Strongest Features, Led by Chicago Gas-A A Dearth of Speculation.

NEW YORK, Jan. 21.-The stock market today has again been very dull, the business of the day being the smallest for a full day for many weeks, while the fluctuations were strictly in harmony with the trading, and again there is not a single change of note from yesterday's figures. The speculative spirit, for the time being, seem: entirely dead, but money is extremely easy and the banks have accumulated a suplus which would insure ease for months to

The largest of 31 mortgages on his jest than say for \$10,000. Each of 16 was for less than \$1,000.

One of the largest deals in coal lands for a long time is being brought to a head. Particulars will be given in a few days.

Newly elected trustees of the Dollar Savings Fund are: A. J. Armstrong, John W. Chaifant, A. Clendenning, Utilles Baird, R. H. Boggs, J. N. Davidson, T. P. Day. James W. Grove, James B. Herron, B. F. Jones, A. M. Marshall, Henry W. Oliver, Jacob Painter, Jr., P. J. Pierce and C. H. Voigt.

Fifth avenue, from Soho street to Oakland, an account of the irregular grade, shows a majority of frame houses. A change is apparent, the corner of Boston street, early in the spring.

Julius F. Stark soid 40 shares of Philadelphia Gas Company stock at 10.

Mr. Marion F. Hippie's sickness is of a serious nature, but his friends are hopeful of his recovery.

last hour. Lead was also sood down late in the day.

New England was, if anything, the strong point in the railroad list, while considerable pressure upon Atchison forced it off a fraction. One of the features of the day was the offering down of San Francisco 1st preferred to 59 bid. It later sold at 61 against 70 last week, but a later sale was made at 62%. The rest of the list were very dull and featureless throughout, and the market at the close was steady for the general list, while displaying some weakness among the leaders.

Railroad bonds to day were relatively more active than stocks, but the business of the day amounted to only \$1,160,000, which was divided among a large number of issues. There was also more strength displayed than in shares, and while the important changes are few in number, they are generally in the direction of higher prices.
