Pittsburg isn't going to have the World's Fair, but it has the Verestchagin collection; it is going to have a May Festival, andhold your breath now-a Greek play. This is something that has been attempted but twice before in the United States, I believe, once at Harvard University, where Mr. Riddle, who gave a reading recently at Carnegie Hall, took the leading role, and once in New York City. The play to be presented is "Alcestis," by Euripides, a lyric tragedy, and the east will be composed of nine members of the senior class in the Holy

Ghost College, with a chorus of 24 voices. The play will be given immediately after Easter under the management of Byron W. King, who is actively engaged even now in training the young gentlemen in acting and coaching them in their Greek, he being a former Greek professor and an ardent Greek scholar and student. Either the Grand Opera House or the Duquesne Theater will be secured for the performance, which will be given in the afternoon. And it is the intention to have everything pertaining to the presentation in harmony with the language and suggestive of the time in which the play

A Pleasing Marble Effect.

The stage and the scenery will be spotless it their purity and represent marble as nearly as possible. The seats and the floor of the theater will likewise present a marble aspect, as they will be covered with white material. The players will appear in historically correct cos-tumes and the lights will be tempered to the desired softness, thereby obtaining the ancient amphitheater effect. The choral parts of the play are being set to music by Rev. Father Griffin and will be an especially interesting feature of the performance.

"Aloestis" differs from many Greek plays in that it has a lampy conclusion that would do credit to a medern creation. The hero is conclusioned to neath by the gods, but by Apollo's intercession he is permitted to go free if a substitute can be found. Substitutes, however, are not as numerous as they might be, but Aloestis, the hero's wife, brave, true, little mortal, offers her life as a sacrifice. She is being lead off by Thamtos (death), when Heroules mortal, offers her life as a sacrince. She is being lead off by *Thanntos* (death), when Hercules appears and rescues her from the grave, thus

Flowers remind me that the writers of the numerous articles going the rounds of the press at present regarding the labe Historian Bancroft's love for horticulture have overlooked one important little floral incident interesting to every seedety lady and lover of the "American Beauty" rose. Mr. Bancroft was especially fond of roses, and his garden abounded in all new varieties of our own as well as of foreign countries. His gardener, a Mr. Brady, was attracted strongly to one particular bush that was in flower. The great size, rich color and exquisite perfume of its blossoms so pleased him that he represented a number of what he is the second of the presented a number of which the residence. The great size, rich color and exquisite perfume of its blossoms so pleased him that he propagated a number of plants for his own garden. A progressive Washington florist, years after, discovered the bushes in the grounds of the old gardener, recognized their value, purchased them for a song, increased his stock a thousandfold, put them on the market, made a great furore and a small fortune at the same time. Some technical sharps declared at the time of the introduction that it was the French rose "Madam Ferdinand Jarmain," but the name "American Beauty," given by the Washingtonian, was greeted with

The Belle of the Period.

The society girl of the present time who doesn't take something, and have her regular hours for taking it, is not in existence. And it isn't mint julips either, though she may take them, too. Just now it is music, vocal or on the piano, violin or mandolin; elecution, Delsarte, or even shorthand, if she can think of nothing or even shorthand, if she can think of nothing elso of which she has not a smattering. Not that she intensit to make any use of the knowledge gained—it is only as an accomplishment and amusement. But whatever else is taken, French must not be neglected, and the limited knowledge obtained at a fashionable boarding school or seminary must be extended with the assistance of a private teacher until a comparatively easy flow of the language is possessed.

sessed.

I dropped in on two charming young ladies during the week who were, metaphorically speaking, scratching their pretty heads in great perplexity over the composition and writing in French of a note to their teacher whose illness represents these and the second services and the second services to the second servic prevented a lesson tan evening. Perseverance accomplished the object, however, the note was finally written and dispatched by "Buttons," and if the poor teacher's head ached more vigorously after deciphering it she must certainly have been gratified by the evidence

The Fashionable Handwriting.

To be stylish nowadays one must write a very peculiar hand, a sort of a uniform crazy hand, which originated with some of the leading lights of the professional stage, as so many fashious do. In describing it I would say it is a sew-saw chirocraphy, a "now-rou're-uy-now-down" design. The first letter is on the line, the next ascends a degree or so, while the third returns to the original line, and so on throughout the word. The characters are inclined only a trifle to the right, and are large, round and legible. The writing is strikingly attractive when written by one accustomed to it, but remarkably funny and crary-locking when written by a novice. However, a little patience and practice will be rewarded by as see-sawy an effect as one would wish, though a rather ungracious young man remarked that girls usually maintained such in their letters regardless of their chirography.

The distinguished ladies of the press will be here this week, and will be entertained in a manner befitting their eminence. Other social lights of the professional stage, as so many manner behiling their eminence. Othersocia extertainments will make the week a merr one, and as Lent begins so soon no time is to b lost. The events of the past week have been lost. The events of the past week have been, in school composition style, "too numerous to mention," but have consisted, as predicted, of lunches, teas, receptions and theater parties, weddings having been conspicuous by their nisence. Our, however, authorizes the signature.

ART AND ARTISTS.

THE great artistic event of the past week was, of course, the famous Verestcharin Exhibition in Carnegie Galleries, Allegheny. There was little else talked about in art circles. The one theme upon every tongue was the remarkable and gratifying success of the exhibition. Artists, of course, without exception, are de-lighted with this revelation of almost unlighted with this revelation of almost unbounded interest in the great collection of paintings. During the week they were seen singly and in groups studying and discussing the technical qualities of the masterpieces of the collection. Outside the profession the enthusiasm was equally great, and educational institutions in the two cities and surrounding towns either have or are arranging for students' parties to visit the galleries, accompanied by instructors who will explain the historical significance of the works. The present week promises to be a great week at the galleries, and thousands will enjoy a treat such as has never been offered before.

artist, has probably made a more careful study of the Verestchagin paintings since they came to Allegheny, than any other Pittsburg po He was seen in the galleries every day and ne was seen in the gaiteries every day and evening bent only upon discovering the methods employed by the great painter in the production of his works. Mr. Sborigi says he has discovered an interesting fact, Hinstrating the extreme care with which the Russian painter extreme care with which the Russian painter worked, even upon his mammoth canvasses. This is that in drawing the innumerable perspective lines in the great mosque, for instance, which is 20 feet long, the artist in his effort to be exactly correct, used so small a point as a lead pencil. In the lapse of time the pencil marks have become barely visible where the celor was especially thin and transparent, revealing the conscientiousness with which every detail was attended to.

MR. J. C. KRAY, of London, has at Gillespie's gallery a remarkably valuable and beautiful collection of paintings. Among them are ex-cellent examples of Henner, Gerome, Rico, scellent examples of Henner, Gerome, Rico, Schreyer and other well-known artists. The Gerome is a most remarkably strong example of this master's work, and the Rico is simply delicious in harmony of colors. The collection is a very even one, and a half hour spent in the little gallery is a pleasure indeed.

THE forty-third exhibition of the Boston Art Club is spoken of as an excellent one, as general exhibitions go. It is notable as a testimonial to the excellent quality of work now being done by American painters of both sexes. The ensemble is admirable. The collection gives an impression of capable handling, pleas ing as a whole, in color, drawing and composition. In variety of subjects the exhibition is
well balanced. Walter Shirlaw's "Harmonics"

EMILE VAN MARCER, the celebrated cattle painter, is dead. He was a native of the town of Sevres, in the suburbs of Paris, and was about 60 years of age. He was a pupil of Troyon and a chevalier of the Legion of Honor. Many of his cattle pictures are in the private collections of this country. He was an accomplished and studious draughtsman, composed his groups of cows with great skill, and his paintings have for many years past met with a ready sale. In respect to color, the examples of his work which we have seen are deficient.

THE restoration of the Elgin marbles to their original positions on the Acropolis of Atheus is a subject of recently revived discussion in England. It will be remembered that Lord Eigin corrupted a feeble and unprincipled lovernment of Greece, capturing them in Government of Greece, capturing them in 1816, and after giving his name to the collection sold them to the British Government for £35, 500, Although they are being ruined by the atmosphere of London there is little probability of this movement to do justice to Greece amounting to anything.

A pleasant exchange of hospitalities is pass ing between the Amateur Photographers' So-ciety and the Art Society. The former has invited the latter's members to attend its fifth annual exhibition of photographs, trans-parencies and lantern sildes, to be held at the parencies and lintern slides, to be held at the Academy of Science and Art February 5 and 6, and the latter society has responded with a similar invitation to its water-color exhibition this week. Such courtesies form an admirable instance of the mutual helpfulness hoped for in combining the various artistic and scientific societies and giving them a common home in the Academy of Science and Art.

Camp 162's Installation and Supper. On Tuesday evening the joint installation of the officers of Camp 162 and Ladies' Aid Society No. 5 took place in the hall of Post 3. The camp and society turned out in full force and a number of visitors helped to comfortably fill the chairs. A number of comfortably fiil the chairs. A number of comrades of Post 3 and other posts were present. Quite a delegation of brothers from Camp 83 was on hand. George Datt, of Camp 2, was the installing officer.

The entertainment was a pleasing one. The Keller Quintet delighted the audience with instrumental music. Miss Wise recited two pieces in a pleasing manner. Judge Auvocate Woods, of McKeesport, delivered a short address on the order of Sons of Veterans. After the conclusion of the ceremonies everybody adjourned to an adjoining hall, where the ladies of No. 5 had spread an excellent lunch. Coffee, sandwiches and other palatable eatables were succeeded by ice cream and cake.

All present had a very enjoyable evening and the brothers of Camp 33 struck a responsive chord in the hearts of all present when they ended with three cheers for Ladies' Aid Society No. 5.

Old City Hall Pierce-Bla The above are the theatrical attractions for

The Duquesne Theate

Following the successful "Midnight Beli," the Duquesne announces for next week farce comedy of the broadest order. The attraction is H. Grattan Donnelly's humorous skit "Later On," and it will be illustrated by those two most amusing comedians, Fred Hallen and Joe Hart, assisted by a number of clever laughmakers, with Molly Fuller, Annie Lewis, Ada Somers and half a dozen more pretty girls, with sweet voices and nimble feet.

"Later On" is said to be a satire on Anglomania, but it really isn't a satire on anything. A satire must of necessity follow some line of plot-"Later On" doesn't. It is a conglomerate mass of incidents heaped one upon another without any further regard to coherency other without any further regard to coherency or legitimacy of succession than the very lax and elastic laws of laughter demand, but "Later On" is very funey. It is one of the best slap-bang, catch-as-catch-can mixtures of froth and nonsense which constitutes the anomalous quantity known as farce comedy. The company is chosen with due regard to the requirements of the piece, and includes a number of neople well calculated to make the flying moments speed in joyous langhter. John McWade, the well-known baritone, Harry Hilton and Annie Lewis are people who might have been made for farce comedy. The musical features of "Later On" are of particularly good, and the interpolated solos, duets and choruses are chosen from the very latest operaite successes. The regular Saturday matines will be given, and also the popular Wednesday function, at which the reduced prices have proven so acceptable in the past.

Hoyt's very latest farcical success, "A Trip to Chinatown," follows Hallen & Hart at the Duquesne. The piece has proven very successful in New York, where it has been running for several weeks past, and is said to be more than up to the mark of the author's previous boister-ous nonsensical successes.

Grand Opera House.

The Grand Opera House this week will have a novelty of a most amusing nature in the first production in this city of the latest farce. production in this city of the latest farce-comedy success, "The U. S. Mail." George C. Jenks, the well-known Pitteburg journalist, in a spirit of revenge for the careless delivery of a letter addressed to him, wrote a short skit on the possibilities of postal mismanagement. This he quickly adopted to the popular demands

This he quickly adopted to the popular demands of a farce comedy, and in "U. S. Mail" are said to be some of the most laughable features to be found in his form of entertainment.

"The U. S. Mail" has made a predigious success wherever it has been presented, and as the company which will be seen at the Grand Opera. House this week is composed of the best of comedians and vanceville artieus, a week of light, breezy and most enjoyable entertainment is promised. The nature of this piece is an amiable satire on the postal service, and has for one of its leading characters a fourth-class postmaster, John Moneymaker, of Maine.

This is a play which is said to be replete with roaring comedy, light music and lively dances. Gereie Parker, who takes the part of Jack, the postmaster's daughter, is one of the most versatile of southertes, and is already a favorite here through her Fernus in the "Rag Baby."

This season Miss Parker introduces a wild and delicious Spanish dance with castanet accompaniments. This "cachuca" is not modeled on any of Carmencities dances, but is said to be original, and to be one of those things that must be seen to be appreciated.

"KAJANHA" is said to be a much better spectacle than when seen here last season, and is coming this way in a few weeks.

"KAJANHA" is said to be a much betweeks and is coming this way in a few weeks.

BERNHABIT will sail from France for New York next Saturday. She is to open in "La Tosca" at the Garden Theatre on February & The dress Georgie Parker wears during her Spanish dance in "U. S. Mail" is a solution of the extent of \$250.

BASS, the oseified man's, body vibrates like a telegraph wire; he might lease himself as the neucleus to a telephone plant in opposition to the Bell patent.

ONE of the musical hits in "U. S. Mail" is made by a precoccious 5-year-old, Harry O'Lynn by name, with a humorous song entitled "I'm not yellow to be one of those things that must be seen to be appreciated. Prominent in the Tun-making is Frank David, the well-known in the Tun-making i

Barrett and Hall Caine, will be produced at the Grand Opera House week of February 2. The dialogue is clean, bright and strong, the situations and climates effective, and the ac-tion, in the main, easy and soherent. The piece shows the hand of the practiced playwright throughout.

Williams' Academy. This popular house will be visited this week by the well-known Howard Big Burlesque Com-pany, with the versatile and successful May Howard at its head. It comes loaded down with new sensations and attractions, with redwhite new selections, with dream-like visions, with wonderful scenic effects, with race horses and beautiful jockers, and all that goes to portray their new burlesque, which made a great hit in New York, styled "The O-Country Fair."

Old City Hall. At the Old City Hall on Friday evening, January 30, the Pierce-Blamphin Concert Company, including the Pittsburg tenor, Frank M. Hunter, appears. A notice of this interesting event appears elsewhere in the musical depart-ment of THE DISPATCH.

Bijou Theater. The Bijou will be graced this week by Mr. and Mrs. Kerdal, to whom Pittsburg audiences need no introduction. They appear in their own company. The repertoire for Monday, Tuesday and Wednesday, is "The Ironmaster;" Tuesday and Wednesday, is "The Ironmaster;" for Thursday and Friday, and for Saturday matinee, "A Scrap of Paper;" and for Saturday evening, "The Queen's Shilling," The flushed and justly celebrated reputation which the Kendals have won for themselves is characteritic of the stage at its best, and the patronage which such artists win is as complementary to their audiences as to themselves.

"The Hustler" follows the Kendals at the Bijou. The silver-throated Harry Leighton, who was formerly a soloist at Dr. John Hall's church, in New York, met Major "Billy" Keogh, of "The Hustler," and succumbing to his blandishments, now trills and warbles for a more extended audience than ever before.

One of the greatest living curiosities of the present day will be exhibited at Harry Davis' Fifth Avenue Museum during the coming week. It is Jonathan Bass, the living ossified man. It is well worth a visit to see this production of nature. Imagine, if you will, a solid. The Funeral of a Most Estimable Young
Lady of Allegheny.

To-morrow morning, at 9 o'clock, the funeral of Miss Mary Amelia Ihmsen will take place at St. Peter's Pro-Cathedral, Allegheny. Miss Ihmsen was the oldest daughter of Mr. Dominick Ihmsen, the glass manufacturer, and a sister of Thomas O. Ihmsen, of the glass firm of Cunninghams & Co., Lim. Miss Ihmsen's death, which occurred on Friday at her father's residence, Sheffield street, Allegheny, was so sudden as to be a great shock to her friends. She attended the opera Thursday a week ago, and on the following day was attacked by pneumonia, which was so rapid in its progress that her death occurred just one week later. Miss Ihmsen was exceedingly bright, and of a very lovable disposition, which makes her demise in the very flower of her youth the greater cause for sorrow.

She graduated from the Ursuline Academy in the same class with Miss Lillian Spencer, who was one of her warmest friends. Mother De Sales, Superioress of the Order of the Sisters of Mercy, in Pittsburg, is an aunt of Miss Ihmsen. The floral tributes irom the young lady's friends have been numerous, as she was widely known and universally beloved.

Rorer, Principal Philadelphia Cooking School, for music will be undeceived by a visit to this famous little band. Alex Wilson, ventriloquist, the white haired Madagascar family, and other new faces will appear in the halls. In the theatorium anumber of artists will appear, including Flizzeraid & Kelly, Healey & Saunders, statuesque clog dancers, and others. The programme will conclude with J. W. McAndrews and his celebrated interpretation of "Uncle Epp's Draam," assisted by the "Brilliant Quartet" and other members of the company.

World's Museum.

At this kaleidecopic resort wenders and curious marvels without number are to be seen at every turn. Prominent among this week's attractions is the famous spotted or human leopard family. They will undoubtedly prove a drawing card. Midway, the world's champion leaper, who offers \$50 to anyone who can accomplish any of his leaps, will show what he can do in his line. Miss Alice Dakin, the serio-comic queen, the reappearance of DeRock and Girard, the accomplished lady cornetist, Miss Laura Russell, and other attractions will be present to the pleasure-seeking public.

Harris' Theater.

Harris Theater.

Harris Britton & Dean will have the only Wilbur Opera Company here this week. The repertoire has been arranged as follows: Monday and Tuesday, "Erminie," Wednesday and Thursday, "Clivette;" Friday and Saturday, "Mikado." The company this season is better than last—having been considerably improved by the addition of a number of talented people. Miss Susie Kirwin is in excellent voice and will appear at each performance. The gompany is costumed in an elaborate style, and has more pretty faces than are generally seen in similar organizations.

Stage Whispers. MODJESKA will have a new piece next season on the subject of "Marie Antoinette." JOHN T. KELLY and Gus Williams in the new comedy, "You and I," will pay Pittsburg a visit in the near future.

FRANCIS WILSON in "The Merry Monarch" will soon be here. It is his first visit at the head of his own company. "NATURAL GAS" opened at the San Fran-cisco Bush Street Theater last Monday and made an unmistakable success. "KAJANKA" is said to be a much better

MISS AGNES PURCELLE, one of Pittsourg's talented young artists, will appear February 14 at Odd Fellows' Hall, Southside, in a benefit tendered by her many friends. She will present "The Two Orphans," which she has given frequently in different cities, and be supported by her sister, Estelle Purcelle, and an excellent company. MANAGER AUGUSTUS PITOU has engaged John H. Young and Homer Emmens to paint the elaborate scenery for his new play "The Power of the Press," which he produces at the Star Theater on March 16.
