#### AMONG THE OIL MEN.

What Has Most Interested Them During the Past Week.

WANT THE BILLINGSLEY BILL.

Producers Insist That It Is the Very Measure Needed By Them.

LATEST REPORTS FROM THE FIELDS.

The past week has been one of great in terest both in the general and field situation. There has been no time since the memorable shutdown movement when the trade was subject to and undergoing so many important changes. The most important matter now claiming the attention of the trade is the Billingsley bill. The producers in general are clamoring for its passage and are sanguine that the measure will become

The meeting at Warren on Wednesday the delegates of all the local assemblies is also regarded as one of the greatest producers movements inaugurated in the history of the great industry. In conversation with Hon. J. W. Lee, who is one of the old Executive Board, he informed THE DIS-PATCH scout that he expected from 60 to 80 delegates present who would represent the world of Oildom from Wellsville, N. Y., to Washington, Pa. The ex-Senator was not committal as to any policy that they intended to adopt, but said the general situation would be discussed to the satisfaction of

There are some changes to be noted in the field situation. One important event was the Kanawha Oil Company's dry hole on the Linton farm, in the McCurdy pool. The well was located for a producer, on the best well war located for a producer, on the best theory, and there were a number of practical operators who were willing to have gambled that the venture would not have been dry. This well, coming as it did, is another proof of the uncertainty and treacherous character of the fifth sand formation. In this pool there are two more wells due to-day or to-morrow, one on the Tidball and the other on the Palmer. Their advent is being watched with much interest, and in a measure will decide the future of the and in a measure will decide the future of the and in a measure will decide the future of the McCurdy field, which was given great promise by the phenomenal Patterson well, struck on the McCurdy farm some time ago. At Wildwood the Bowman gasser and Kennedy wells coming in as they have, apparently makes the north line of the field look better, but these wells, however, have invariably been overestimated.

Somebody Will Be Fooled at Callery. CALLERY-Operations on the town lots are till going forward with much vim, and when the smoke of the battle is over, so to speak, some will learn with sorrow "all that glitters is not gold." The latest acquisition to this new pool is the B. Forest Oil Company's No. 1, on pool is the B. Forest Oil Company's No. I, on the Staple property. The drill reached a depth of 30 feet in the centennial sand Saturday morning, and responded at the rate of 15 barrels an hour. It is the opinion of the most expert operators there that, when crilled deeper, the well will make a much larger production.

The Bailey well, some 30 or 40 yards to the east of the above, is flowing only by heads. Since the Geobring has been shot, the explosion seems to have forced the water over to the Burton well, which is something very peculiar in this territory. The B. Forest Oil Company have made two or three more locations on the Staples. They also have a well on top the 100-foot on the Marburger, and are getting ready to build two more rigs on this farm.

On the William Cashdollar, W. J. McKee is in the first pay with No. 7, and the indications are good for a fair producer. Mr. McKee has another rig up near his No. 7, and will start drilling in a short time. Messrs, Geobring & Shaffer on the Vanroy lot will start a new well in a day or so. Geobring & Co. treated their well on the Lon Erwin lot to a liberal dose of high explosive and unfortunately collarsed 15 or 20 joints of casing. The same party

dose of high explosive and unfortunately col-lapsed 15 or 20 joints of casing. The same party have a well in the sand on the Vance lot, but

depth of 500 feet in No. 1.

Webber & Co., on the Wallace lot, are down 700 feet, and Kayler & Co. have shot their Dunbar lot well, which is showing up in good shape; the same parties have another rig in course of construction on the T. Cashdollar. The Irwin Oil Company, some two miles east from the Junction, have a well 65 or 70 feet in the sand with a showing of oil. The Showalters Bros, have disposed of their one-sixth interest in the Marburger, Staples, Dr. Irwin and Cashdollar farms, with two wells drilling and seven producing, to Gantz and Robert Ash for \$7,500.

Wildwood Dolpe Well. Wildwood Doing Well.

WILDWOOD-Forst, Greenelee & Co.'s No. 1, on the six-acre lot, was making 60 barrels an hour Saturday morning, but on deeper drilling increased the output, and was reported in the

increased the output, and was reported in the evening as doing between 120 and 130 barrels an hour. Their No. 2 on the same lot, was drilled with no change of consequence in the production. Barnsdall & Co., No. 7, Kress, was also drilled deeper Saturday forenoon and it increased to 130 barrels an hour. Their No. 4, same farm, is being connected to the tank, and expects to reach the sand soon. The Kennedy & Co. well, on the Pittsburg and Western, was drilled for about three-fourths of an hour saturday forenoon, and the output increased from 43/5 te about 10 inches an hour. An hour gauge of the Bowman & Co. well, on the Whitesell, Saturday morning, showed it to be making 13/2 inches. They were getting ready to start the drill again. The Runga was making 13 inches an hour, and the Rolshouse No. 4, 15 inches, No. 5, same farm, 17 inches an hour. There was no particular change in the other wells. wells.
Griffith and Forest Oil Company No. 3, Herr,
which came in Friday night at 45 barrels an

which came in Friday night at 45 barrels an hour is still maintaining a very nice production. Miller and Griffith's Hill farm well is said to be no good in the 30-foot. Since the good showing made by the Bowman gasser a new interest has been infused into this section of the field. Property has rapidly advanced and territory is eagerly sought for. S. W. Harley & Co. have sold their Whitesell property, comprising 33 acres, and one dry hole to Waterhouse & Hooks, of Fredonia, N. Y., for the saug sum of \$16,000. Only three weeks ago this property could not find a taker at \$3,000. If the Bowman and Kennedy wells still continue to bold their grip it would not seem that the price paid for the property is an exorbitant one. The production of the field Saturday was 13,700 barrels.

Pushing Ahead at Bakerstown.

Bakerstown—Joe Millison & Co.'s well, recently completed, on the Jack farm, is making 80 barrels a day. The next well due here is located on the Mrs. George Hays farm. The Wesley Monks well is spudding. The Chartiers Oil Company will start the drill Monday morning on the Robert Jack farm, and have another rig building. The Fisher Oil Company, on the John Jack farm, have a rig in course of construction, while Ireland & Hughes are ready to hounce the drill on the Martin Monks. Joe Millison & Co. completed a rig Saturday on the William Jack farm, and will start the drill at an early date. Millison & Dickson, on the Mahan farm, have put on the last string of casing, while their Patton farm well received its last string of casing on Thursday. On Friday they had the misfortune to burn the boiler, but have things in working order again. The Butchers' Oil Company will bring in their No. 4 on the Richards farm, the first of the week, and their Kingshan well is cased. The well on the Rickenbrode farm is drilling in the salt sand, while the well on the Reed farm is in the bundred-foot.

May Be a Good Producer. BAKERSTOWN-Joe Millison & Co.'s well, re-

PETERSVILLE-East of Petersville a half mile Hartman, Hovis & Co. have got their well tubed, on the H. K. Dambach farm. The well has a large amount of salt water, which is gradually being exhausted, and the chances are that with persistent pumping it will make a

Sold Twelve Wells.

WASHINGTON-The Bear Creek Oil Company sold 12 producing wells Friday in the Washington field to A. P. Tanner. Considera-tion private.

Two Wells Due To-Day.

Mansfield—Galley & Mellon will very likely get the sand, on the Palmer farm, not later than to-day. This well is located 800 feet north from the old McCurdy well. The same company's Tidball is also due about to-day. They found a large flow of gas in their Dougherty well.

CRAFTON-The last oil well completed by the

Forest Oil Company on the Poorman farm is | Pittsburg. now doing five barrels a day. The same company's No. 3 Phelps, which has been fishing for two years, has finally got the hole cleared and will be drilled in this week.

Near Oakdale the Forest has started one

NEXT Sunday THE DISPATCH will be gin publication of a series of South Ses Letters by Robert Louis Stevenson, the novelist.

Watch for this great feature.

Drilling at McDonald McDonald-The McDonald No. 2 is being made ready to start the drill again. It is making a little oil, thought to be from the Gordon sand. The tools are still in No. 3, same farm, but they expect to get them out shortly. It is spraying a very little oil.

In the Beimont Field.

In the Beimont Field.

BELMONT—Ackerley & Sammell have a well on top the sand on the Hendershot farm which is filled up 1,600 feet with oil and has every indication or making a good producer in this tertitory. Johnson & Story are getting ready to drill their Friendly Island well deeper. There is some interest centered in the result.

BUSH CREEK—A half mile ahead of Bush Creek developments and on a northeast line, Reader & Heasley's well, on the Dr. Crawford farm, found the sand Friday, and filled up and looked as if it would flow. Further operations were suspended until the next morning, when the hole was full of salt water. On the Dulith heirs' farm, Baransdall & Co. are on top the sand. Finnegan, Downing & Co. are in the sand with their Kerr No. 4. No. 5, same farm, is down 1,300 feet. Their No. 1, Snowhite, is down 1,300 feet, and No. 2, Neelay, is 1,700 feet. Galley & Co. are drilling at 200 feet in their No. 1 on the sandbar. Block & Emerson have the rig up for their Curry No. 2, and are ready to start at their Riter No. 3 and Jolly No. 4. Coraspolis Oll Company should get the sand at their Watson No. 1 the first of the week. It Was Full of Salt Water.

first of the week.

Londen & Co. are down 1,600 feet with their McAdams No. 1, and should get the pay in a couple of days. Orion Oil Company's Logan No. 4 is making 60 barrels per day; their No. 5 is down 1,200 feet, and have rig up for No. 6. The production here is holding up well and the field is making in the neighborhood of 1,000 barrels per day.

CORAOPOLIS—The Forest Oll Company have started a well on the hog bar, below Nevell island, on the Ohio river. It is down 200 feet, H. McC.

SUNDAY'S DISPATCH.

THE CREAM OF THE NEWS OF THE WORLD IN ATTRACTIVE SHAPE.

Sunday Newspaper of Twenty-Four Pager That Has No Superior in the World-A Hasty Glance at Some of Its More Salient

No issue of THE DISPATCH for the past few undays has contained more important news than that of yesterday, nor has its literary features been surpassed. The special corre-spondence from various parts of the world was of exceptional excellence. Rudyard Kipling told about salmon fishing in California, while the two continued stories were of absorbing interest, Following is a resume of the more

Mitchell and Slavin to fight with bare knuckles...The story of the killing of a young Russian by his rival...Virtues of lymph in the treatment of tuberculosis in cattle...Laws re-supply of lymph.... A thaw in England saves millions of oysters.... Santiago besieged by the Chilean insurgents.....Mrs. O'Shea witnesses a burlesque on Parcell in an English theater.... ### FRAUDULENT CLAIM TAKERS.

Disappointed Would-Be Settlers in Wisconsin Petition Congress.

WAUSAU, WIS., Jan. 25 .- A petition, signed by 200 men from all parts of the Northwest, who were in Wausan on December 20, when a large tract of public land was thrown open for settlement, has been drawn up to be presented to Congress. It alleges that the homestead claims of that date were traudulently made in the interest of Wausan and Merrill lumber rings; that the men in line who were acquainted with the Wausan police force, sometimes remained away for hours, and were reinstated by the police, while the honest homesteaders were crowded out and refused reinstatement; that on the 28th of December, when the water reserve lands came into the market, the court house grounds were occupied by a pretended body of soldiers or guards who reinsed admission to the grounds except at the rear of the line formed by the lumber rings, etc. The petition is backed up by eight affidavits. HILL DEMOCRATS MAD Over the Acceptance of the Senator-

ship by the Governor.

LEFT WITHOUT A CANDIDATE

To Put Up in the Presidental Race Against Cleveland.

FIGURING ON THE LATTER'S DEFEAT

IFROM A STAFF CORRESPONDENT.1 NEW YORK, Jan. 25 .- There were a good nauy people in this State taken by surprise by the acceptance of the Senatorship by David B. Hill. And they haven't recovered from it yet. One particular class of Demo crats, the anti-Cleveland crowd, are fairly gnashing their teeth for rage. Their principal reliance had given way and dropped hem in the mud. This, too, at a time when the position assumed by their pet candidate for the Presidental race had fully justified their belief that he would never accept the

Senatorship-no; never, never, never! Their disappointment knows no bounds Not that they love Hill so awfully bad, you know, but because it leaves them for the time being with no candidate of national repute and Democratic fame to oppose against the pretensions of one Grover Cleve-land. All of their preliminary work was swept away in a breath and by a breath. It stands as if it had never been done. The oaths that were dropped around the Hoff-man House and other political headquar-ters would, could they be materialized, have built a wall around the city. This was immediately after the reception of the news of the situation at Albany.

Hill's Acceptance Retires Him.

The subsequent attempt to show that Hill's acceptance of the Senatorship did not mean a retirement from the Presidental mean a retirement from the Presidental race, necessarily, was a second thought and not very safis'actory to the thinkers. There are a good many people who ought to know better, who believe that a United States Senator in some way becomes ineligible for Presidental timber. Of course, it does not convince these people if a number of cases are cited wherein Senators have been nominated and have achieved the Presidency.

nated and have achieved the Presidency.

The general feeling here is that Mr. Hill's The general feeling here is that Mr. Hill's acceptance of the Senatorial plum effectively retires him from the Presidental field. On general principles, perhaps, they are correct. The people of the United States who regard office as merely the spoils of the politicians, will naturally conclude that Mr. Hill has received the Senatorship of the State of New York as his share of the spoils and that he is satisfied with it. They will not be inclined to force upon him any further or greater reward. further or greater reward.

Cleveland People Are Happy. It need scarcely be said that the political friends of Mr. Cleveland are overjoyed at the present situation. It is what they have been laboring and hoping for for months. While many of them believed from the beginning that Governor Hill would accept the Seatorship and be glad to get it there. the Senatorship, and be glad to get it, there were a considerable number who betrayed some anxiety in the matter. The Cleveland men, without exception, go about the streets

men, without exception, go about the streets of New York now wearing smiling faces. They think they see in this decided turn of the cards a clear track ahead for them and their favorite candidate.

If anybody is inclined to express a doubt, it is immediately inquired where is the man who can be named in the same breath with Grover Cleveland as a Democratic possibility? And, in fact it Democratic possibility? And, in fact, it will really puzzle any one to answer that question satisfactorily. The fight within the ranks of the Democratic party has been so sharp and incessant, as between Mr. Cleveland and Mr. Hill, that all other possibilities seem to have slipped from the rub-Cleveland and Mr. Hill, that all other possi-bilities seem to have slipped from the pub-lic mind. It was accepted as a foregone conclusion that either Hill or Cleveland would receive a residual to the conclusion that would receive a majority of the votes of the next National Democratic Convention. On this presumption a pretty close canvass of every State in the Union has been made.

From time to time the New York papers have been filled with evidences of the popu-larity of one or the other of these candidates and the unpopularity of his opponent. It was indeed a cruel blow to Charles A. Dana when David B. Hill accepted the Senator-ship. It fairly took the editorial breath

Those who are not in sympathy with the Those who are not in sympathy with the Dana movement are laughing from one end of the town to the other at the result. It may be said without injustice to the venerable editor that the Presidental candidacy of Hill was advocated as much for the purpose of downing ex-President Cleveland as from the fact that he was an able leader of his party. Who now will be found whose trate the opposition to the ex-President? That is the live question of the hour. It is a question Dana has, so far, been unable to answer to his own satisfaction. Nor has it been suggested in any quarter, except in the expression of a lingering hope that Hill in the Senate of the United States was not necessarily ineligible as a Presidental candidate.

It would be funny, in view of all that has happened within the last two months, if political matters should so shape themselves that the name of Grover Cleveland would not be heard of when the convention meets. From all the indications at Washington there is a single probability that this will be the fact.

Possibility of Cleveland's Defeat. The probable pendancy of the silver ques-tion in the next Congress will leave an issue to be fought over, on which Mr. Cleveland's to be fought over, on which Mr. Cleveland's record is such that he can scarcely hope to receive the nomination at the hands of his party. The friends of Mr. Cleveland might as well take this into consideration now. If they do, they will not be suddenly disappointed as are now the backers of David B. Hill. The mugwump organs of New York, that most warmly support Mr. Cleveland, are daily indulging in the most bitter denunciations of what they style the silver craze.

The silver issue promises to be fought over from now on to the next Presidental nominating conventions. There is but a single chance for it to be withdrawn from public consideration, and that is the chance that it may be settled by the enactment of a free coinage law during the present persists.

that it may be settled by the enactment of a free coinage law during the present session of Congress. This chance is a remote one. There is a probability, in view of the circumstances, that there will be a radical readjustment of party lines before the next election. It would not be easy to predict with any degree of certainty what the probable result of this readjustment will be.

CHARLES T. MURRAY

NEXT Sunday THE DISPATCH will begin publication of a series of South Sea Letters by Robert Louis Stevenson, the novelist. Watch for this great feature.

FOR BILIOUSNESS Use Horsford's Actd Phosphate. Dr. W. B. Gilles, Winnipeg, Manitoba, says

NOVEL IDEA OF GIVING MERCHAN-DISE GRATIS TO THEIR PATRONS THIS WEEK:

We have concluded to supplement our Great Inventory Sale Reductions with a most liberal and enterprising offer. Here are the particulars:

Every time your watch goes five minutes, some purchaser will get his (her) goods free of charge this week, and, in order to insure a perfectly fair and impartial distribution, we have adopted the following system:

1.—The hours of distribution will be from 9 o'clock in the morning until 6 o'clock in the evening each day, and until 10 o'clock on Saturday.

2.—The first purchase will be given away at 9:05 o'clock; the second at 9:10; the third at 9:15; the fourth at 9:20; the fifth at 9:25, etc., etc.; one at the completion of every five minutes until closing time.

3.—Thus, twelve people will receive their purchases free every hour, or 108 people every day, excepting on Saturday, when 156 people will get their goods for nothing.

4.—Every department, and all kinds of goods we keep, are included in this free distribution, and the finest Man's

Suit or Lady's Wrap will be given away as readily and cheerfully as a ten-cent collar. 5.—The money first received by the Cashier, after the completion of every five minutes, will be handed back to the patron who paid it, no matter whether the amount be fifty

cents or fifty dollars. 6.—The actions of Mr. Baum, the Cashier, are "open and above board," he being constantly in full view of the peo-

ple standing without the Cashier's office. 7.-On each day we shall publish the names and residences of the people who received their goods gratis on the

8.—Employes of the house, also wholesale buyers, cannot participate in this free distribution of merchandise.

SPECIAL: Of course, the big reductions we have made on the prices of all goods, on the occasion of our Great Annual Inventory Sale, will remain throughout this week. Thus, while not EVERY patron will get his (her) purchase for nothing, EVERY PATRON WILL get a matchless bargain and effect a big saving of
