Flint Glass Workers Winning the Now Famous Corning Strike.

WRIGHT WILL BE HERE TO-DAY.

Settlement of the Cork Workers' Trouble Reached Testerday.

MISCELLANEOUS INDUSTRIAL NEWS

President Smith, of the American Flint Giass Workers' Union, and John J. Martin returned yesterday from Corning, N. Y., where there is in progress the greatest struggle for uniopism Mr. Smith's organization ever experienced.

According to Mr. Smith, however, the men hold the key to the situation, and it is only a matter of a few weeks at the farthest until they will have the firm completely defeated. On Saturday night 60 men, including at least 50 of the most skilled workmen formerly employed by Houghton & Co., were sent to Findlay, O., where they will be employed by the Globe Chimney Works in making the electric bulbs, upon which the corning firm had such a monopoly,

Of the remaining 325 strikers it is claimed that not a man has broken faith with the organization, and all are standing firm for recognition of their rights. Speaking of the situation, Mr. Smith said: "This is the hardest fight we have ever had, but we will win it as sure as the sun shines.

Compaints Made of Ili Usage. "Every man we have organized is out and the firm has the factory full of green men trying to operate, but their attempt is a dismal failure. The newspapers of Corning are leagued against us. They have been pubare leagued against us. They have been publishing continually stories to the effect that the men were defeated, when, in fact, the latter never were in danger of losing the fight. The papers published and republished reports that the firm had all the men it needed, and could get along very well without the strikers and the men could not get aline printed in their favor for anything. The firm even controlled the Associated Press and prevented all information getting out of Corning concerning the strike."

Mr. Martin added in this connection: "Yes, and they even controlled the telegraph office. We wired a nau in Boston to come to Corning immediately. In seven minutes, time the firm knew of it and in some manner our telegram was countermanded.

some manner our telegram was countermanded. If we sent out information to any point, the firm found it out, and the information was contradicted to suit the wishes of Houghton & Co. I never saw a town where any one firm could run things so completely their own way, or where such injustice was gone to a lot of workingmen."

Mr. Smith continued: "The original cause of All. Shiffs continued: "The original cause of this trouble was the discharge of a number of employes because they were members of our union. The factory was a non-union shop, and we made an effort to organize it. When we had secured 195 members the firm found us out. Houghton is himself a member of the American Association of Flint and Lime Glass Manufacturers, but was not willing that his men should enjoy the privilege he claimed for himself.

Not Considered an Ordinary Strike. "As soon as he learned the names of about a lezen of the men who had joined the union, they were discharged. The remainder quit out of sympathy for their tellow workmen. Since the strike began we have organized about 150

the strike began we have organized about 150 more men, and we have them all to line.

The difficulty is something more than an ordinary strike. The principle, shall workmen be permitted to exercise the rights belonging to them, and shall one firm have a monopoly of an industry that belongs to the manufacturers of the country are questions involved; and for once, if never before are we fighting not only for the rights of our own men but for the manufacturers as well."

Mr. Martin, who went to Corning to get a glumpse of the situation, said he had never seen so much excitement as prevailed there when the 60 men left for Findlay. People gathered in great through arrord the depot and along the road, and when the special train carried the workmen away, those who were left behind paraded the street, waving banners and flags and cheering themselves boarse, as if celebrating the received as a second or seen to be come as a second or seed to be seen as a second or seen as a second or seen as a second or seed to see a second or seed to see a second or seen as a second or seed to see a second or seen as a second or seed to see a second or seen as a second or seed to see a

beering themselves boarse, as if celebrat-e great victory as it was. Citizens joined much gusto as the men themselves lently in full sympathy with the workers, he sending of the men to Findlay, O., marks sew era in the glass manufacturing industry the company. The monopoly on electric bulbs, which has heretofore been held by Houghton & Co., has been broken, and the market will now be supplied by other manu-facturers. It is given out that unless the forming firm come to the terms of their men of their skilled workmen will be taken from

IT WAS UNAUTHORIZED. No One Told to Secure Carnegie Hall for th

Amalgamated Meeting.

There is some misunderstanding about the ngagement of Carnegie Hall in Allegheny for the next session of the Amalgamated Associa-tion. President Weibe said yesterday that no one had been authorized to secure the hall as he usually attended to that duty himself. Clerk White of the Allegheny Councils was communicated with by telephone, and he said Mr. Lahugh had brought the matter before the City Property Committee for action, and it was understood be had been requested to do so by

City Property Committee for action, and it was understood be had been requested to do so by Mr. Weihe.

Mr. Weihe said Mr. Lahugh never was authorized by any one connected with the general office to apply for the hall, and no one else in the association had the right to apply for it. He further stated that hedd not know whether they would use the hall or not. He has never seen it, and in the absence of committee rooms in the building, he is of the opinion it will not be suitable for the meetings. "The matter is in my hands," said Mr. Weihe, "and when I am ready to secure a hall I'll do so without any outside help."
