SPECIAL TELEGRAM TO THE DISPATCH.

CARLISLE, Jan 30 .- Referring to the press dispatches from Chicago, dated the 26th, Lieutenant Chamberlain, of the First Artillery, just from Pine Ridge, says that the slayer of Lieufrom Pine Ruge, says that the slayer of Lieu-tenant Casey was a graduate of the Carlisle In-dian school, the son of a prominent Sioux known as No Water. Captain Pratt says that only two Sioux have been graduated at Carisle. One, George Means, has been employed at Pine Ridge Agency all winter, and together at Pine Ridge Agency all winter, and together with a score or more other former pupils of Carlisie, bore arms for the Government at the most critical period of the excitement, and the other, Miss Neille Robertson, has been a stu-dent of Metzger institute at Carlisie all through those troubles. Captain Pratt further says that out of 127 former Carlisie students now at the Rosebud and Pine Ridge Ageucies, his latest informa-tion is that only seven were with the ghost dancers; not one of them have been killed, and only one wounded.

#### A NEW TEMPERANCE CRUSADE.

East Liverpool Ladies Try Moral Suasio Upon Saloon Keepers.

EAST LIVERPOOL, Jan. 30.-A series of re vival meetings here have resulted in a crusade against the saloon keepers. Some time ago committees of ladies visited all the saloons and committees of ladies visited all the saloons and invited all present to attend the meetings. A movement has now started to induce the men to go into other business. The ladies travel in committees of two, and in some of the saloons they are very well treated, while at others they are very badly mistreated. At "Rev." Mr. Fout's place they were cordially invited to call again. The move-ment begins to assume the general appearance of the old crusade, which became so famous here several years ago. It is reported the work will not stop here, but that the spring elections will have a prominent position among poli-ticians, owing to the importance of the liquor question.

It is jelly-like in ap-pearance and very much like an oyster, solt and spongy, occurring either singly or in clusters, and often completely fills both nos-trils, expanding in wet weather and shrinking in dry weather. The only reliable treatment is of a surgical nature-extinpation, and even then it is apt to return in time. I have come across quite a number of polypoid tumors during the past few years, and aiways find them associated with catarrh, or a hypertrophic condition of the masal mucus memorane, and have often thought in the light of the recent advance-ment in the treatment of catarrhal troubles, if patients would follow these treatments up a few months after removal it would prevent their return.

#### BEGINS TO LOOK BLUE.

#### Anson Tells O'Neill That Van Haltren and Gumbert Must Stay in Chicago.

CHICAGO, Jan. 30.-Ad Gumbert and George Van Haltren will play in Chicago. This is the first piece of efficial news that has emanated from headquarters since Spalding and Anson returned from the East. J. Palmer O'Neill has sent repeated telegrams to Anson requesting permission to perpliate with Combert and Van Haltren, who have been on the Chicago reserve

Haltren, who have been on the Chicago reserve list since the season of 1889. No reply was sent until yresterday, when Anzen wired O'Neill that he had use for both men in Chicago. Al Reach, President of the Philadelphin club, spent the greater part of yresterday in spalding's company. He assured interviewers that his visit had no particular baseball signifi-cance—that business of a purely commercial nature brought him to the city. On all ques-tions for the season and had not yre given the make-up of his team any particular attention, hue would set his cap for any desirable players that came his way. His principal want is a first baseman to succeed Farrar. When the name of Dan Browthers was suggested to him be said he considered Dan a preity good man, Kilrain in 'Frisco. be said he considered I'an a pretty good man. but would not say whether or not he would make an effort to secure him.

#### The Big Captain Supports the Idea of Allow ing Managers to Coach.

CHICAGO, Jan. 23 .- The next important inno vation in baseball rules will no doub be the granting of permission to non-playing managers to coach their men from the coacher's box. The scheme has been freely discussed and meets with favor in most quarters. Anson is one of the latest converts to the idea, and explained the advantages of it yesterday at length. "It would tood to improve the game." he said,

"in more ways than one. In the first place : manager is held accountable for the work of histeam, yet he is barred from directing its move ments at the time that it needs a guiding hand the most. The managers are, as a rule, a much brighter set of men than the players, and there would be less mistakes on the beld if managers were allowed in the coacher's box. Besides, men like Harry Wright and Tom Loftus are men like Harry Wright and Tom Loftus are placed at a disadvantage with men like myself, who combine the positious of manager and captain. Then, too, suppose I should be in-jured enough to retirfor me temporarily from the field but not seriously enough to keep me in-doors, I would be compelled to lease the hand-ling of my team to an assistant While I sat on the bench and saw my men doing just the oppo-site of what I shfould wish. I think by all means that managers should be allowed the power to stand on the lines and coach their men."

BALDWIN'S OPINION.

## The Pitcher Thinks that Pittsburg Cannot

Hold on to Bierbauer. During a conversation yesterday Mark Baldwin, who has just returned from Columbus, said: "The Association certainly has a right for Bierbauer and if Wagner wants him he will have to go to Philadelphia. Bierbauer jun his contract when the Athletics were all right his contract when the Athletics were all right as a team and club and that is the time that must be considered and not the subsequent history of the dlub. The Association can keep Bierbager if he is wanted there." Maidwin went on to say that he has signed to play in Columbus. He cannot get anywhere else and ne will make himself contented there.

#### Bierbauer's Case.

CHICAGO, Jan. 38 .- One of the first case likely to come before the new Board of Control will be that of Bierbauer. The latter was scoond haseman for the old Athletics, but was this week succed by Manager Hanlon for the Pittsbarg ican. The latter will fight to retain Bierbauer, who is also claimed by Wagner Brethers for the new Athletics, The disputs will be decided upon the question as to whether the expelled club sent in a list of reserved play-ers at the end of the season. If it submitted to seeh list, Bierhauer, under the new agreements in doubt belongs to the American Association for at least ten days, during which time he may be claimed by any of its members before the served, there is little doubt that he will be awarded to the Athletics, for if the latter can trol will be that of Bierbauer. The latter was

done." Mr. Kuntzsch states that he makes no claim for anything to which he has no right out he does c'aim to be champion pool player of Syra cuse. He is an excellent player, and if Mr Boone or his friend are better, they must be what is commonly called "corkers." THE most stubborn COUCHS or COLDS will yield to its subtle powers when all other remedies have failed. It not only stops the cough but heals the irritation of the throat and lungs and at the same time builds up and fortifies the system against the further inroads of disease. In addition to its almost magical effects in these very prevalent disorders it will positively cure CONSUMPTION in its early stages (when the laws of nature are reasonably observed). Abundant proof of this statement will be furnished if required; and in the latter stages of this most terrible disease it will give comfort and prolong life, and in many cases it has effected cures when physicians had given up all hope.
