SUPPLYING A WANT

Two Botels Projected for the Busy Borough of Wilkinsburg.

A GOOD FIELD FOR DRUMMERS. Electric Swings Upward and Solls as Freely

as Hot Cakes in Winter. THE NEWS AND GOSSIP OF THE CITY

Every person who is familiar with the suburbs knows that Wilkinsburg is second to no other in growth and prosperity. It is so attractive as a place of residence that the population was doubled in the last five or six years, and now numbers about 6,000. Empty houses are almost unknown. Building is active but not equal to the demand. Lots are picked up almost as fast as they are put on the market at prices not even dreamed of a few years ago. When a sale, was made on Wood street at \$120 a foot front people opened their eyes, but they opened them still wider when \$165 was paid for ound on Penn avenue. This raised the

standard of value all around.

The need of a hotel has been felt in Wilkinsourg for several years, and especially within the last two or three. There are between 75 and 100 stores, shops and other business con-cerns in the borough, doing a business of upward of \$250,000 a year, and traveling salesmen from all parts of the country are frequent vis-It is also beginning to attract the atteniters. It is also beginning to attract the attention of show people; and now that two good hails for lectures, concerts and exhibitions are about completed, a flood of entertainments may be expected. Both drummers and shownen are liberal dispensors of money, and to get the full benefit of their visitations, it is necessary to have good hotel accommodations.

The necessity for an improvement of this kind has been apparent for some time, but no consistent of the pare courage or enterprise

one seemed to have courage or enterprise enough to undertake it. Owners of suitable sites talked and figured, and that was the end sties talked and figured, and that was the end of it with them. Now Mr. E. D. Gillespie comes forward with something tangible. He proposes to creet a hotel on his lot on Robecca street, near the railroad station, that will fill the build in every particular. Plans for the building have been prepared and part of the material delivered. Work on the foundation will be gin as early as possible in the spring, and it will be rushed to completion. It will be of brock, and will be provided with all the latest devices to insure comfort and safety.

Mr. C. H. Covel, the druggist, is another citizen who appreciates the need of hotel accommodations, and he is talking of removing his store to the rear end of his lot on Rebecca street, and putting up a hosteirie in front. There is room and will be business for both, but it is rather unfortunate that both locations

there is room and will be business for both, but it is rather unfortunate that both locations are on the south side of the railroad, and almost within touching distance of each other. If Mr. Lovel would divert his project to Penn avenue or Wood street he would make success

Orders were numerous, trading was heavy, and prices were stronger throughout most of the list. All of the calls were well attended, and business resembled that of the good old times, which brokers are fond of describing. Total sales were 2,850 shares, of which 2,800 were Electric. This stock, as the preponderance of sales in-dicates, was the leading attraction. The good prospects of the company of emerging from its embarrassment with flying colors brought out a flood of buying orders—largely Eastern, although there was a fair local contingent—and the price was run up from 10½ to 13½. It was worked up and down quite rapidly between these extremes, with the bulk of the sales be-

tween 12 and 13. It closed at 12% bid and 13 asked. Philadelphia Gas scored a substantial gain, as did Switch and Signal and Air Brake, all of which closed at the best prices of the day. There was no material change in the Tractions

NONE ON TAP.

Price of Oil Ran Up Without Bringing Any of It Out. There was considerable demand for oil yes terday, presumably from the short side, but

there was none on tap and no sales were made. The market started on a bid of 76c. This was the lowest. The price was afterward run up to 77% c, the highest and closing.
There was no change in refined, but some talked of a decline to help check the advance in crude—Standard tactics. Average runs, 90,346; average shipments, 78,676; average charters not reported.

Many Outside Inquiries. NEW YORK, Feb. 2.—The stock market to-day was more active and strong, the strength shown being entirely out of proportion to the increase in the volume of business. The improvement in prices was well distributed, but the strongest stocks were Lake Shore, Manhastan. Wheeling and Lake Eric, both common and preferred. Western Union, Missouri Pacific and Pacific Mail. It will thus be seen that the Gould stocks were the leading group of stocks in the market, but the Grangers, especially the corn roads and the Vanderbilts were not far behind. There was no news of special importance to been the general list, but brokers re-

ance to beem the general list, but brokers report more inquiry from outsiders.

The opening this morning showed a stronger and more confident one and Lake Shore started the upward movement, the traders detecting what they supposed to be inside buying. This induced considerable covering of shorts and the brokers who have been short of the market for some time were prominent in bidding upon prices all through the day. The result disclosed the fact that the short interest in the Grangers was larger than generally supposed, taking into consideration the limited market we have lead for the past two weeks, and Burlington and Rock Island early became features in the upward movement.

and Rock island early became leatures in the apward movement.

Reports from Washington that the subsidy will was likely to come up again started Paollo Mail again, and the announcement that the Manhattan Company directors had decided to take the Suburban Rapid Transit from the syndicate controlling it gave Manhattan a boom, and it scored the largest advance of the day. Wheeling and Lake Erie showed good having all the way out and on companyity levels.

boom, and it scored the largest advance of the day. Wheeling and Lake Erie showed good buying all the way out, and on comparatively light transactions scored material gains. The sluggish stocks were the Villards, New England and the Industrials, but none of these failed to make some sort of a gain. Silver was comparatively quiet, and yielded slowly, making only small fluctuations during the day. The stock of silver in this city continues to accumulate slowly, but holders are rejuctant to sell, hoping for more favorable developments in the near future.

The advance was subjected to several halts, caused by realization of the profits accrued by the trading element, but while the best prices were shared in the last hour by this means, the close to the highest prices of the day. The final changes are almost invariably advanced, and Manhattan is up 2½: Rock Island, 2½: Burlington, 1½: Jersey Contral and Western, 2, each: C., C., C. & St. Louis, Lake Shore and Union Pacific, each 1½: St. Paul, Louisville and Wheeling and Lake Erie preferred, each 1½, and others large fractions. Railroad bonds were quiet, and, while generally strong, showed no material move in either direction, though there were a few marked gains among the macrive issues. The total sales reached \$1,498,000. Government bonds have been dull and steady. State bonds have been dull and steady. State bonds have been dull and steady. Cold storage eggs have been out of the market for a storage eggs have been out of the market for a month past and could not be sold if they were here. It is interesting reading to find them still quoted. New Bermuda potatoes and onloss have put in an appearance within the past week, but price is such that only they with whom money is no consideration can indulge. Bermuda potatoes are selling at \$9 10 per barrel. The high price of potatoes all this winter has very much diminished demand. The average consumer does not indulge in potatoes to a

great extent, when the price per bushel is almost as high as it is per barrel in ordinary almost as high as it is per parter in ordinary seasons.

Groceries. The week is too young for any new develop-ments. Sugar is weak and quiet at the decline noted in Monday's DISPATCH. All jobbers are carrying light stocks, in view of the fact that on April I sugar will go on to the free list, which means a drop of 2c per pound. With a good fruit season in 1891, the expense of house-keeping will be greatly reduced by the re-

duction in sugar.

Market opened at East Liberty yards with 68 loads of cattle on sale, against 83 loads last Monday, and 85 the previous Monday. With a decline of over 25 loads in receipts the situation proved favorable to the sellers for the first time in many weeks. The sellers' advantage was still further improved by the news from Chicago, which showed an advance there this morning of about 10 per cent. The average quality of offerings at East Liberty was an improvement on recent receipts, and this added to the advantage of the seller. While there were few, if any, primes on sale, there was a large proportion of fair to good stock. Supply of stockers was better than for some time past. Buyers were on hand in full force, but were reluctant to accept the advance. Markets opened slow because of the divergence of views between seller and buyer, but the former made the most of his opportunity, and after some kicking prices were established at 10 to 20c higher than last Monday. Good fat beeves and smooth tidy butcher cattle of light weight gained most from the advance. For the first Monday this year prospects were good at noon fer the sale of all cattle offered.
