A GENTS-TO SELL ATHE PINL PRESCULATE head ere long, if anything will. The Braddock Fuel Company has notified its consumers that they must accept meters from it, and pay \$6 for their use. As in other places, the price of gas has been increased. Consumers are also re-quired to deposit \$10 for performance of the contract. Now a resolution was offered in the Council on Monday night looking to the emot-ment of an ordinance requiring the Braddock Fuel Company to pay into the borough treas-ury \$25 for every meter it requires its enstom-ers to use, and one of the borough officials says that in the present temper of the town he has no doubt it will prevail, and that the company will find its meter profits sharply pared down. This gentleman says that the borough in its eagerness to get fuel gave the company pretty much its own way in the matter, even before it had been decided that it possessed the power of eminent domain, but he says that as the fuel has became a luxury, and the company is in-sensible to the kindly feeling shown by its con-sumers, all sentiment has evaporated, and hereafter dealings with the corporation will be on strictly business principles, and the golden rule construed as meaning "Do unto others as you are done by." # A WONDERFUL OUTPUT.

The Pig Iron Production Exceeded Ter Million Tons Last Year.

Just now when the furnacemen are com plaining of a dull trade, the main points in the report of George Swank, of the American Iron report of George Swank, of the American Iron and Steel Association, received in this city yes-terday, will be studied with interest. The total production of pig iron last year was 10,307,028 net tons, against 7,603,642 tons in 1889.

or an increase of over 21 per cent. The proof an increase of over 21 per cent. The pro-duction of 1859 was about 17 per cent over that of 1888. The joint increase for the last two years has therefore been about 38 per cent. The production for 1899 was greater for the first time than that of Great Britain, having exceeded the European rival by about 1,200,000 tors.

Had it not been for the closing of the furnaces in December, caused partly by the great coal strikes of Alabama and the financial strin-gency, the output would have been much larger.

the purpose of giving himself and others an opportunity "of presenting more fully before the public 'America's New Idea' upon questions on political economy and a new national bank-ing and currency system, which has been pro-posed by Mr. Fried." The notice sent out yesterday is signed by J. H. Stevenson, J. L. Evans, W. J. Smith and G. L. Cake, the committee. Among those who petitioned for this meeting are officers of the Flint Glass Workers, Window Glass Workers and Anights of Labor, the editors of the daily papers and representatives of the United Press and Associated Press. Mr. Fried announces himself as a gold standard adherent.

# Glassware and Crockery Jobbers Have

# Prepared a Scale of Prices.

The second annual meeting of the National Association of Jobbers in Crockery and Glassware will be held at the Monongahela House today. The jobbers have prepared a scale of prices in which they have included the price of the package in the cost of the goods. The scale will be presented to the manufacturers for their approval, but it is hardly possible that it will be accepted. The makers have always claimed that their profit B made on the package. At a meeting of the Central branch of the association last evening H. L. Jones, Detroit, was elected President; Lewis Hollwer, Indian-apolis, Vice President; and H. P. McGregor, Wheeling, Secretary and Treasnry. An effort will be made to organize an Eastern and West-ern branch. day. The jobbers have prepared a scale of prices ern brauch.
