## SURPRISE IN COURT.

The North Branch Conspiracy Case Comes to a Sudden End.

MANAM CONFESSES HIS ERROR.

He Is Fined \$1 and Costs and Further Proceedings Are Dropped.

THE OTHER DEFENDANTS ACQUITTED

PEPECTAL TELEGRAM TO THE DISPATCH A DANVILLE, PA., Feb. 4.-To the great surprise and evident disappointment of the large audience that has crowded the court house daily for the past week, the famous North Branch Steel Company conspiracy case came to a summary ending this morn ing, and with it ended the other conspiracy, burglary and false pretense cases in which that company and the Johnson Company, of Johnstown, were interested.

Yesterday A. J. Moxham, of Johnstown, was on the stand all day, and his cross-examination was to be resumed this morning. When court opened, however, he entered a plea of "nolle contendre." It was admitted, and the case was concluded by the imposition of a fine on Moxham of \$1 and costs of

Verdicts of Acquittal Ordered.

The jury was then directed to bring in a verdict of not guilty in the following cases: R. S. Murphy, H. Shea and E. B. Entwile for burglary; Murphy, Shea and Entwile for larceny; Frank P. Howe, Henry H. Leisenring and J. R. Williams for con-spiracy, and Henry H. Leisenring for false pretense, in the latter two cases the prosecutor to pay the costs.

In his statement to the Court Mr. Moxham said: "The Johnson Company had a suit pending against the North Branch Company for infringement of patent. I was advised by my counsel that certain evidence was necessary to sustain the suit. A man named Henry Leisenring presented himself at Johnstown and professed to be able to get the proof for me, and I took advice of coun-sel as to my right to send men into the mill for the purpose, and was informed I had a right to do so.

Caused the Men's Arrest.

"Acting on this advice and at the solicitation of Leisenring, who turned out to be an agent of the North Branch, I sent the men into the mill for the purpose of obtaining evidence, and they were arrested on the

"I had no intention to commit an offense against the law, and am not satisfied that I have done so. My action in declining fur-ther to contend against the count of the in-dictment is determined by the fact that I have unintentionally involved other men in the prosecution, and when the prosecutor, through his counsel, tendered me an opportunity to relieve them from responsibility without pleading quietly myself, I felt it to be my duty to accept it." What the Ending Indicates.

Public opinion here, which naturally in the majority of cases leaned strongly to the North Branch Company, is very much di-vided as to what the abrupt ending of the trial indicates. Many consider the whole affair as simply one phase of the patent litigation which continues between the Johnson company, of Johnstown, and the North

From expressions of the jurymen since adjournment, it is safe to say that the re-sult, if the trials had been continued, would have been a disagreement. The more con-servative thought probably finds expression in the opinion of President Judge Skeler, in which he said:

"In the investigation of the case, we can not help but think the defendants were led step by step, and perhaps by the conduct of the detective, to give way to their better judgment in the transactions and that while the motives of F. P. Howe were worthy in appointing Leisenring a detective, he, the detective, perhaps, exceeded the bounds an officer of the law should go in detecting adopt the resolution.

### A SHARP ALLIANCE MAN.

How He Escaped Arrest on Severa? Very Serious Charges.

TOPEKA, Feb. 4 .- Colonel Sam W. Wood, the veteran border "boomer," was the object last night of a sensational episode. Colonel Wood is a resident of Stephens county, and is supposed to have been implicated in the noted Sheriff Cross murder case, for which a number of Stephens county men are now under sentence of death. He was Mayor of Hugoton for a time, and is defendant in a case in which he is charged with having embezzied \$5,000 of the city's bonds. He was an Alliance man at the late election, and his activity for the party was rewarded by the Legislature Commit-tee of the Lower House, which appointed him its clerk.

He was indicted in Hugoton last week for bribing two voters. A warrant for his ar-rest was given to Constable Aurelil for service. The constable came to Topeka and told Colonel Wood he had a warrant for his ar-Colonel Wood he had a warrant for his arrest. The Colonel demanded a copy of the warrant, and the constable handed it to him so he could copy it. Wood calmly put the warrant in his poeket, and told the constable to "chase himself back to Stephens county." Colonel Wood destroyed the warrant, and the constable, having no proper authority, was obliged to go home without his prisoner.

A Bill Introduced to Remove the Capital to Bachanan.

PEPCCIAL TELEGRAM TO THE DISPATCH. CHARLESTON, W. VA., Feb. 4 .- The arguments in the Senatorial contest case of Feming & Son's, Market st. Morris versus Odgen was concluded to-day, There is little doubt that Morris (Dem.), the contestant, will be seated. Only one bill was introduced in the Senate to-day-to authorize Boards of Education to purchase

books to be loaned to students.

In the House the Senate bill prohibiting the furnishing of liquor to students, was the subject of quite a warm discussion, but at last was ordered to a third reading. Young introduced a bill providing for the re-moval of the capital to Buchanan in 1900, if so decided by a vote of the people at the election of 1892. It was referred to the Committee on Public Buildings.

## THE TREACHEROUS MISSISSIPPL

It Has Made an Island of a Cemetery and

Is Washing It Away. SPRINGFIELD, ILL., Feb. 4 .- Rev. Father Ferland, of Kaskaskia, is in the city for the purpose of having a bill introduced providing for an appropriation to remove all the bodies buried in the old Kaskaskia Cemetery. This was the first settlement in the State, and the first white man who received Christian burial in Illinois was

interred in Kaskaskia Cemetery.
The ravages of the Mississippi river, after converting the cemetery into an island, is washing it away, and it is desired by Father Ferland and the citizens of Kas kaskta that the first settlers of Illinois shall have a fitting and last ing resting place.

### BUFFALO BILL'S OPINION.

He Thinks the Late Indian War Is the Most Wonderful on Record.

CHICAGO, Feb. 4.-Colonel W. F. Cody (Buffalo Bill) arrived here to-day. Mr. Cody has nothing but words of praise for General Miles. "The General," said he, handled that campaign in a phenomenal manner. It will go down in history as being the most wonderful Indian war on record. There were critical points when the entire West was trembling for the class gro

safety of thousands of settlers. Nebraska militia posted along the State line, and South Dakota militia massed in the best places enabled General Miles to concentrate his troops so as to corral the Indians in the Bad Lands. The Wounded Knee affair was an unfortunate accident. What will be done with Forsythe is purely an army matter. The general idea is that he could not have done otherwise considering the not have done otherwise, considering the circumstances." He declares that the killing of Sitting Bull, while its effect was good, was a cold-blooded murder, prompted by jealousy on the part of the Indian police who were sent to bring him in; that they called him out of his tent only to shoot him to death while reading to him the warrant for his arrest.

CAVE DWELLERS OUT WEST.

HOW THE CHEROKFE STRIP BOOMERS ARE NOW LIVING.

Bushes and Trees Conceal the Entrance to Their Retreats - The Choicest Parts of the Forbidden Land Occupied By Them -The Soldiers Are Moving.

ARKANSAS CITY, KAN., Feb., 4 .- A newspaper correspondent has just returned from a trip through the Cherokee strip. Along every stream in the eastern part of the strip he reports having found dozens of families living in caves dug into high banks, with a tree or bushes hiding the main entrance, and many are living in caves on the open prairie. Along Black Bear creek there is a colony of over 200 in caves, tents and cabins, and at several points they

are preparing to plow for spring crops.

There are at least 2,000 boomers now occupying the choicest quarter sections in the strip, and it will take the soldiers months to find them. Southwest and east of Kiowa there are hundreds of settlers in the strip, and it is reported that there are large num-bers in the broken country at the extreme

A dispatch from Fort Reno, Ind. T., says: A number of troops are at the post under orders to move into "the strip" at short notice. This order has been issued pre-sumably in view of the fact that a number of boomers along the border have invaded the strip without sanction of law. The boomers will be ejected by the military if found on the lands in question, and any per-manent structures erected will be pulled down and destroyed.

## AN EX-GOVERNOR'S TROUBLES.

His Insurance Company at Waterloo, Ia Goes to the Wall. WATERLOO, IA., Feb. 4 .- The Citizen's

Mutual Fire Insurance Company, of this city, has made an assignment. The liabilities are about \$25,000, and the assets, made up of premium notes, will be about \$170,000. The company was organized about four years ago by ex-Governor Buren K. Sherman at the conclusion of his Gubernatorial term. He was the President, and has

directed the management of the company since it was organized. The company's list of guarantors embraces the names of many men prominent in political and financial affairs in Iowa. James Sherman, a brother of the Governor, is the assignee.

A POLITICAL DYNAMITE PLOT.

The Kansas Republican State Committee to Be Investigated.

TOPEKA, Feb. 4.-The Coffeyville dynamite episode, which created such a sensation in political circles during the campaign of 1888, was revived in the Lower House this morning by Mr. Andrews, of Cowley county, who introduced in the House a resolution looking to the investiga-

tion of the matter.

The resolution charges the Republican State Central Committee with having been responsible for the plot, the object being to

### A STRANGE COLLISION.

A Train Runs Out of Water and Steam, De laying Traffic.

CINCINNATI, Feb. 4 .- A peculiar col lision happened to-day on the Cincinnati. Hamilton and Dayton Railroad south of Glendale. A northbound freight found its supply of water short and left a portion of the cars on the main track while the rest of it proceeded to a water tank north of Glendale. Before reaching the tank the steam was exhausted and the train could not move. This blocked in several trains and a teatr for commuters was started for the city. The engineer did not know that the freight cars were left on the main track, and ran into them. The engineer, John Hughes, had his arm injured. None of the passengers

A complaint often made about cakes and breads. This "peculiar dryness" is caused by the ammonia or alum in the baking powder.

The leavening power of Cleveland's Baking Powder is produced by cream of tartar and soda only, and food raised with it keeps moist

# TRICKS OF TRADE.

NEW ADVERTISEMENTS.

Once in awhile certain firms will sell goods at a loss, evidently to attract trade. To make good this loss, they of course increase prices on other articles. That is not our way of doing business-the legitimate, straightforward plan suits us best. Customers have long since found out that, taken the year round, our prices are much lower than at any other house. And then the goods are always right-no shoddy handled here. You always know what you are getting.
