James Madison Council No. 435 has ordered and some new silk flag for the parade. Stovestown Council No. 562 was instituted uesday evening by D. S. C. George A. Thomp

An entertainment will be given by Allequipp ncil No. 67 on Monday evening, the 16th

The second anniversary of Braddock Council No. 239, was celebrated by a reception Friday Fulton Council No. 147, was visited on Mon-day evening by a delegation from Vine Cliff Council No. 107.

Beaver Falls Council No. 48 was visited on anuary 19 by a delegation of about 25 members f Hemewood Council.

Waynesburg Council No. 191 was instituted t Waynesburg, Pa., on Monday svening by D. l. C. E. H. Prowitt, of Washington. Manchester, Fort Pitt and Standard Councils are arranging to present a flag to the Sixth ward, Allegheny, school, to replace the old flag, which has become weather-beaten.

The public school at Irwin, Pa., will be pre-

The public school at Irwin, Pa., will be presented with a flag on the evening of February ST by Irwin Council No. 44. Among the speakers will be J. J. Miller. Esq., of Pittsburg, and possibly State Councilor Collins.

The Hon. Lee Thompson Council, No. 434 of Templeton, Pa., will attend Washington's Birthday parade in Pittsburg in a body. This council, not yet a year old, has 110 members, Mr. J. P. Anderson, general passenger agent of the A. V. R. R., has been consulted and will arrange cheap transportation for the many councils and persons who will attend.

Chief Marshal Thomas J. Moriey for the

persons who will attend.

Chief Marshal Thomas J. Morley for the Washington's Birthday parade, in general order No. 1 announces the following appointments: Adjutant General, George R. Beecher, of 265; Assistant Adjutant General, George Kepple, of 219; Chief of Staff, John Gripp, of No. 127; Color Bearers, E. G. Merriman, of No. 124, and John Force, of No. 89; Surgeon General A. J. Barchfield, of No. 422; Chaplain, Rev. J. B. Koehne, of No. 110. The parade will form in four divisions and be ready to move promptly at 1:20 P. M. The first division will comprise all councils on the Southside (Pittsburg) and all visiting councils and members arriving in that part of the city. The second division will comprise all councils in Pittsburg, between the rivers, and all visiting councils and members arriving in the trivers, and all visiting councils and members arriving in the councils in Pittsburg, between the rivers, and all visiting councils and members arriving in the councils of the all visiting councils and members arriving in the city proper. The third division will com-prise all councils in the city of Allegbeny, and all visiting councils and members arriving or the north side of the Allegheny river. The fourth division will comprise all councils of the O. U. A. M. (senior order) arriving at any or all points of the two cities. The parade will assemble as follows: The first division will form on Water street, via Teath

the parade will assemble as follows: Ine first division will form on Water street, via Teuth street bridge, right resting on Smithfield street; extending east along Water, Grant and Second avenue. The second division will form on Water street, right resting on line with Wood street, arriving via Wood street, forming on masse, extending west. The third division will form on Water street, right resting on line with Market street, arriving via Market street, forming en masse, extending west. The fourth division will form on Water street, arriving via Ferry street, forming en masse, extending west. The route of procession will be as follows: From place of formation to Saudusky street, to Church avenue, to Cedar avenue, to Ohio street, to Allegheny avenue, to Pennsylvania avenue, to Beaver avenue, to Jackson street, to Monterey street, to North avenue, where the parade will pass in review. The first Regiment, U. A. M., is appointed escort to the parade, and Lascalette Council 442 escort to Unief Marshal.

B. P. O. Elks.

Hot Springs, Ark., has sent in a list for a Pittsburg Lodge, No. 11, will benefit in the near future. Kokomo, Ind., and Red Wing, Minn., will

soon have lodges.

The new charters have been received by all the old lodges during the week. Oil City and Greensburg are both pining for odges of Eiks, and they can have them as soon as they get up the lists.

Deputy Williams will institute Trinidad (Col.) Lodge February 14.

Williamsport Lodge, No. 173, gave an enjoy-able social Wednesday night. A fine enter-tanment was furnished.

Some of the late new lodges are Dover, N. H.; Montgomery, Ala.; Olympia, Wash.; El Paso, Tex.; Portland, Me., and Anniston, Ala.

Lock Haven Lodge, No. 182, which was in-tituted January 14, is composed of the best litizens of the place, all of them enthusiastic. Exalted Ruler William H. Fridny, of Brock-yn Lodge, recently captured the finest set of intlers in the United States, paying \$500 there-Deputy Grand Exalted Ruler Borland sent

out circulars to all Pennsylvania lodges during the week, in which he named cities in the State that he thinks should have lodges, and also gives the lodges some well-timed advice. Franklin Lodge, No. 110, realized handson

Frankin Longe, No. 110, realized handsome ly on its recent benefit. The performance was repeated the second night for the benefit of the family of a man who was recently blown up with nitro-glycerine. The widow was pre-sented with a check for \$175. Sharon (Pa.) Lodge, No. 103, which was given

one of the dead numbers and organized January 14, is made of the right sort of stuff. It started off with 25 charter members and at its second meeting, held last Wednesday night conferred the degrees upon nine candidates It was assisted by brothers from Greenville.

Organizer D. I. Osmond will start East in a few days in the interest of the order. Past Grand Master Workman William R. ord will pay a visit to the lodge at Slipper Rock during the week. The new lodge in Pleasant Valley will be in-

stituted next Tuesday evening, and is composed of a line body of men from the upper part of Allegheny Unty. Grand Recorder McNair visited Butler Lodge

No. 94 during the week, and assisted the deputy in an open installation of officers. He made an fective address, which was well receive Grand Receiver O. K. Gardner paid a flying visit to Altoona Lodge during the week. He reports the lodge at that place in good working order and the nembers very enthusiastic.

Harvey Henderson, Receiver of Industry Lodge No. 25, Allegheny City, has announced himself for Common Council in the Second ward, Allegheny City, and no doubt make some one hustle to defeat him. Deputy Grand Muster Workman Dr. F. V.

Brooks, for Butler county, with a delegation from Evans City Lodge, paid Butler Lodge No. 18 a fraternal visit, and found it in good work-ing order. The doctor is an earnest worker in the interest of the order.

ing order. And the order.

A. J. Gill, of Allegheny Lodge No. 24, Allegheny City who decided to go to Washington, D. C., was honored by a farewell reception to himself and family by his lodge recently. He was prosented with an elegant pen and inkstands as reminder that his brothers would like to hear from him occasionally. He is a past master, beloved and respected by all who know him.

Manchester Lodge No. 25, which meets at Manchester Lodge No. 28, which meets at Odd Feliows' Hall, corner Beaver avenue and Juniata street, Aliegheny, every Friday evening, had a very entertaining meeting last week. A number of visiting brothers were present. P. G. M. W. W. R. Ford made a very entertaining address on the duty the brothers owe to the order, and was followed by D. G. M. John Sprat, of Union Lodge No. 86. Manchester Lodge extends an livitation to members of the order to pay it a visit.

Order Golden Chain.

Linden Lodge, of Oakland, is one of the few odges of any order that has been able to with-Paterson Lodge is always to be found at the head of the list on the Roll of Honor for prompt payment of ansessments to Supreme Lodge.

Pittsburg Lodge No. 22 received three appli-cations for membership at its last meeting. Dr. Painter, Past Commander of this lodge, is ex-pected home from Berlin, much improved in health, due to Dr. Koch's treatment. C. M. B. A. Mrs. Brady expects to go to little Washington o institute Branch 58 in a few days.

District Deputy F. J. Brady is now hard at work on a branch in Greensburg. He has 17 names on the charter list. Grand Deputy J. W. Sullivan has been ap-pointed as Supreme Deputy for Kentucky, Virginia and the District of Columbia. Branch 34 of the East End, initiated Dr. A.

and receives numerous invitations from sister lodges to assist in the ceremony.

Branch 55 was instituted in Beaver Falls last week by Supreme Deputy Mrs. F. J., Brady. The branch starts with a membership of 18, with four more members waiting to come in. The open meeting of Branch 17, of the East End, held last week, was a grand success; the programme consisted of literary and musica attractions of a high order and was very much enjoyed. The addresses were made by Deputies Sullivan and Molauphy.

The Heptasophs. The next Supreme Conclave will meet in New York April 21.

On the whole the prospects throughout the order for increase far excel the same outlook a year ago. Zeta in the lead, with 89 second and No. 82 working hard for second position, the competition is now creating much interest. May the best worker win.

Cap Sheaf No. 159 and Friendship No. 3 should show some work soon. New men are at the helm, and they must demonstrate by re-sults if their administrations shall be an im-provement on their predecessors.

In District No. 7 there is at present no deputy. The Supreme Archon has published he will honor the most deserving conclave scuring the largest increase by April 1 with the appointment. It is an experiment what a competition for these honors will do.

All the Allegheny county conclaves but three have organized for conclave increase during the year; these will also follow soon. The district deputies have secured very good promises from the officers of their respective conclaves at the inspection. They only need watch their promisors that the a-surances are fully introduced and carried out. Frequent visits and inquiries by letter will get some down to their work.

work.

West End Conclave Tuesday night gave its friends a musical and literary treat in Metropolitan Hall, which was filled beyond its seating capacity. The conclave has selected two recruiting teams, of which C. S. Koerner and W. J. Hamilton are the respective captains. A handsome prize badge of the order has been offered to the most successful team worker. It is said 20 applications will be presented at its next meeting. The public of the West End have witnessed the practical benefits of membership, and are largely gravitating to the Heptasophs. The conclave is pursuing the right plan, and a large accession to the membership is assured.

J. K. Moorehead, No. 82, celebrated its sixth
J. K. Moorehead, No. 82, celebrated its sixth
aniversary in Turner Hall, Wednesday evening. The programme was well selected, excellently rendered, with a sufficient variety to
please all. This conclave is one of the most
prosperous of the order. It has divided the
whole membership into 15 teams of 10 members each, under live, active captains. None
but first rank will satisfy this conclave. Its
prospects are excellent for the present year.
Monongabela Conclave No. 139 had a well attended meeting last week. Brother M. G.
Cohen was successful in securing the assessment to be covered by allotment. This scheme
is novel, interesting and attractive.

Supreme Trustee W. C. McKelvey, of Parker City, visited the Supreme office Thursday. Supreme President J. M. Ball reports severa annidates and a rosy outlook for Ball Lodg

Deputy Howard L. Strickler, assisted by Su-preme Treasurer Godfrey, organized a fine lodge at Derry Friday night. The Supreme Treasurer has returned from a trip to Cleveland, and reports an excellent growth in all lodges in that city.

Secretary Lloyd, of Sharpsburg Lodge, visited the Supreme office during the week, and re-ports fair prospects in his district. Supreme Vice President has deferred his trip north, and has been trying to keep warm at the Supreme office for the past week.

Warner Lodge No. 12 has just awakened from a long sleep. Dr. Warner filed five applications for No. 12 Wednesday. They will be received at the next session.

Editor A. J. Rodgers denned his working clothes during the past fortnight, and the re-sult of his laber is shown in the February num-ber of the Sector, which has been enlarged to

is safe to predict a boom in Warren lodge Brother Naylor is an energetic worker

Success Lodge No. 102 held an open meeting and entertained many friends at their coxy hall, Twenty-four hand Penn avenue, Wednesday evening. Several of the supreme officers were present and discussed on the objects and aims of the order.

The Golden Eagles. Brother S. Jones is serving on the jury. Brother N. T. Wilson was in Wheeling last

Brother W. E. Maguire left for Steubenville, O., Friday. Brother D. G. C. Samuel Hackwelder lost his only sister last Monday.

Brother James B. Lesli has received his books and papers for Omega Castle. Omega Castle has purchased the finest para-phernalia in Pittsburg or Allegheny. Omega Castle No. 409 was duly instituted with 102 members Monday night at Lorena Castle Hall.

Castle Hall.

Brother C. P. Bailey, of Venus Castle, was at the institution of Omega. Brother D. G. C. Benton Patterson assisted, and was well pleased with the showing.

Select Knights of America Bellevue Legion installed officers Thursday

Major J. A. McKee was among the happy Major J. A. McKee was among the happy throng at the mechanics reception. Rumor says Commander J. H. Hamilton has engaged with a firm, which manufactures secret society goods. Past Grand Commander Shaner lost a valu-

able horse and wagon last week, but he is still

among the boys,
Grand Recorder Thomson paid a visit to Eric
Legion No. 8, at Eric, during the week and
found it a hustling legion.
Colonel C. V. Lewis requests that the recorders of the legion in the First Regiment be very particular to send him the names and addresse of all officers-elect of their respective legion

The Heptasophs.

Northelde Conclave, No. 85, initiated a new member on last Monday night and elected three others. This conclave has been going ahead rapidly during the last year.

The Knights Templar.

The members of Pittsburg Commandery No. 1, Knights Templar, are making very extensive preparations for their pitgrimage to Erie to attend the annual conclave of the Grand Commandery of Knights Templar of Pennsylvania, which will be held there May 26, 27 and 28, Quarters have been engaged at the Reid House for 150 Sir Knighte. There will be from 60 to 70 of the members accompanied by their ladies. The larie parior of the botel has been secured for headquarters and will be beautifully decorated by florists from this city for the occa-ion. The commandery will arrive at Erie Monday evening and will participate in the parade on Tuesday, and on Tuesday evening the drill corps of the commandery will, after crill, tender a reception under the auspices of the commandery to their Masonic friends at Erie and the visiting Sir Knights from other parts of the State. The reception will be similar to the one given at the Monongahela House, recently. The commandery and drill corps gained a very high reputation on their visit to Erie in 1882, and from present indications intend to maintain it. The Knights Templar.

Order of Tonti.

Christen Lodge held quite an interesting meeting Thursday erening at its cozy lodge room in Willew Dale Hall, 64 Fourth avenue. Four candidates were initiated and three propositions were received. Brothers John U. Christen and Phillip Schlender presented the lodge with a beautiful marble slab with the name and number of the lodge cut therein. Brother Schlender made the presentation speech, and was completely knocked out when his co-laborer, D. S. P., John U. Christen, presented him with an elegant gold badge emblematic of the order. But he responded in a fitting manner. D. S. P., Anam Weitzel then installed the officers-elect as follows: Past President, Phillip Schlender; President, Fred Emmel; Vice President, Adam Weitzel; Secretary, C. L. Wilson; Treasurer, John U. Christen; Meilical Examiner, A. L. Slonaker, M. D.; Marshal, W. J. Cook; Guard, William Quinlan; Sentinel, H. A. McLain; Truskee, Philip Schlender, Robert McClain and Edward Stellimacher.

Grafton Lodge, of Crafton, initiated two candidates at its last meeting. Its degree team is noted fer its efficacy in conducting initiations.

Suppus changes of weather cause throat discusses. There is no more effectual remedy for coughs, colds, etc., than Brown's Brownist Rooms. Bold only in boxes. Price 2 cents.

ELECTRICITY IN LAW.

ONE OF ITS MANY USES IS TO KEEP ATTORNEYS ALIVE.

The Current in Dental Surgery and Dr. Elchardson's Applications in the City of Hygeia-The Frosting of Lamp Bulbs (PERPARED FOR THE DISPATCE.)

One of the effects of the rapid introduction of electrical inventions during the last quarter of a century has been to open up entirely new fields of litigation for the lawyer and new questions for the bench. This in a general way is true of every new creation of industrial property, but with electricity many of the problems to be solved are quite novel, and a judge has often to go wide of practice or precedent before he can determine the legal principle proper to ap-

ply in the case before him. Thus for instance, in Pennsylvania the question has recently been adjudicated upon whether a local electric light company was a manufacturing concern. The Court says it is not, and yet all that it does is to make current for sale.

A similar point is that raised as to the dutiability of electric current. The law officers of the Treasury say it is intangible, and therefore pays no duty; yet it can be measured to the minutest fraction. The Western Union Company has had many a fight as to whether pole lines had any right on the public highway, and Massachusetts say they have, as transporting message is part of the work of intercourse for which roads are laid out and maintained. The American Bell Telephone Company for years spent bundreds of thousands of dollars in defending the abtruse doctrine that telephonic speech can only be transmitted by an undulatory current, that a make-andbreak current would not do it, and that other devices are simply a juggle to get around Bell's patent. In electric lighting, millions of investments have hung on a "filament," and on the exact meaning that

the courts might attach to the word. Among the latest legal fights is one that probably the United States Supreme Court will have to settle, namely, whether the telephone companies or the electric railway companies have the right to use the earth as a "return" circuit. The telephone people claim that the leakage from the railway throws their service out of gear and renders the instrument useless. The railway people reply that their telephonic friends have a remedy in metallic circuits, and that no one electrical interest anyhow can "own the earth." Already this dispute has cropped up in nearly a score of States, and the increasing number and magnitude of the electric roads renders it more and more important. In the meantime, the telephone companies as far as pos-sible are putting their metallic circuits in, with a marked improvement in the service. New questions thus crop up every day. In the use, for example, of the alternative cur-

rents now becoming so common, not a little has depended on the patentability of the principle of transforming the current, and on whether a "step up" was equivalent to a "step down"—in other words, whether raising the voltage and decreasing the am-percage was a simple and inevitable converse to decreasing the volts and raising the emperes. Another point around which legal controversy has gathered is the fine one as to "low" potential ends and "high" potential begins.

Electricity for Dwelling House Use. Electrical people familiar with all 'the great advances in electric light and power become impatient sometimes at the delay that attends the general introduction of electricity into our homes. An expression of this feeling has lately been seen in a movement to establish an "electric city" at South Lakewood, very near the famons New Jersey winter resort, and on ground said to be more advantageous in many respects. Dr. Richardson's famous city of Hygeia bids fair of realization if the present plans price of ground, they are a positive necessity. Past Supreme President Naylor, of Chartiers, has removed to Warren, where he will locate permanently and engage in business. It be carried out. There is a fine water power generate current. Not only will all the lights at night be electric, but during the day the energy of the fall will be used in listributing power for electric motor service; while the current is also to be employed for the new electric cooking and heating apparatus that is now coming to the front so rapidly. Electricity, in short, is to be the "maid-of-all-work," as well as the "jack-of-all-trades," and nobody will be asked to do any labor that electricity can do for them. The scheme has attracted much enthusiasm among electrical folk in New York, New Jersey and Philadelphia, and not a few in novations on the present social regime, looking to an increase in comfort and conveni-ence, are talked about. A quaint feature of the place is that all the streets and ave-nues have stready been named after celebrated electrical inventors. A number of villas are being put up, and soon the "electric city" will be in a fair way to show how thoroughly electricity can make life pleasant and luxurious in this Florida of the

Electricity in Dental Surgery. For many special classes of work storage batteries have passed the experimental, stage and become regular articles of commerce, and their efficiency and durability depend largely on the care bestowed on the forming of the plates, their manner of insulation and the general mechanical construc-tion of the cell. A handy storage battery has appeared, which is intended exclusively for electro-cautery, the driving of small mo tors for nasal and dental surgery, and for the lighting of small lamps used for diag-nostic illumination. One of the latest ap-plications of electricity to dentistry has been exhibited in England in the shape of an apparatus destined to effect a revolution in certain kinds of work, called the dental vibrator. By means of this most simple apparatus it is said that the extraction of teeth is rendered actually as well as nominally painless. The principle of the operation is that a rapidly inter-rupted current is allowed to pass through the body of the patient, who grasps a handle in each band, while a third connection is made to the forceps, so that a shunt of the current passes through the teeth. There is little doubt that this method of extraction will supersede extractions under the anæs-

thetics hitherto used. Frosting Electric Lamp Bulbs. Inquiries are frequently made as to the best method of modifying the brilliancy of the electric light. A very useful as well as ornamental way of frosting glass is to dip it in a saturated solution of alum and water and then give it a protective coating when dry with collection. People often complain that the electric light is too strong for their eyes. This is not to be wondered at considering that in using it they entirely disregard anything like common sense. They will hang or fix the light so close to the face that the sensitive muscles of the eye are being constantly strained by the bright rays of light. An easy remedy lies in a regulation of the distance to which lights are swung or dropped and the employment of tion of the distance to which lights are swung or dropped and the employment of the admirable shade devices which are becoming so familiar. Another remedy, which we shall no doubt gradually attain to, is a more judicious scheme of lighting for interiors. What is wanted is a distribution teriors. What is wanted is a distribution so even and well balanced that it fills the room with light without our being any more onscious of its source than we are of the daylight which streams through the window.

Cups and Saucers.

Our marked-down sale is now started and we offer the best values in all grades of teas, coffees and chocolates at C. Reizenstein's, 152, 154, 156 Federal street, Allegheny.

row of flats—all first class and all occupied. Mages street, near Forbes, has one. Wylio avenue is rather backward in this line of improvement, but it shows signs of awakening. Mr. McCracken is putting the finishing touches to a flat on this street, modeled after the one owned by him adjoining the power house. It will be ready for occupancy in a few days. There are two others on Wylie, but they are small. anys, increase will soon have one—Mrs. Federal street will soon have one—Mrs. Reed's, near Fifth avenue. It is nearing com-

Reed's, near Fifth avenue. It is nearing completion.

Colwell street seems to be a favorite location for flats. Henry Davis is building a fine one on the corner of Townsend street. The Lang flats are nearing completion. Mrs. Chalet's has been occupied for over a year.

Altogether there are between 20 and 30 flats in Pittsburg and there are good prospects of many more before the snow flies next autumn. The cost varies from \$5,000 to \$25,000. On the average they pay about 8 per cent on the outlay.

average they pay about 8 per cent on the outlay.

In summing up, Mr. Hopkins said: "In my experience a fiat must possess at least one of the following qualifications to make it a success: First, if on a side street, it must be convenient to the downtown portion of the city, and within easy walking distance of the postoffice; second, if not convenient to the downtown districts, it must be on a prominent thoroughfare, such as Fifth, Penn, Wylie or Forbes avenues, where there is life and movement, or, third, if possessing none of the above requirements, it must have a pleasant outlook, probably on a park or open green space and be convenient to rapid transit. The flat system having obtained a good foothold here, will continue to grow in public estimation until houses of this kind become a feature of the downtown wards, where, owing to the scarcity and high wards, where, owing to the scarcity and high

Business last week was a good improvement into good shape very fast. The Camp property, reported sold on Friday, is situated on Marchand street, just east of

Shady lane, and is not the corner house as stated. J. O. Palmer, of Hamilton county, O., was the purchaser. It cost him \$18,000. Charles Somers & Co. contemplate removing their Wood street office to Nos, 129 and 181 Fourth avenue, opposite the new postoffice building about April 1. They have opened a

branch office at 8313 Penn avenue.

There is talk of building a hotel on the Bloomburg property, opposite the car shed, in

Big Week on 'Change-Electric Climb

ing to the Old Level.

at 16% and sold up to 17% weakened a trifle after orders had been filled, and closed at 16% after orders had been filled, and closed at 16% bid. The gain for the week was over \$5 a share. The close was about \$11 better than the lowest point touched during the decline. Reports from the financial department of the company were uniformly favorable.

Trading in the rest of the list was of small proportions. Closing prices, as compared with those of the previous Saturdas, show small gains in Philadelphia Gas, Switch and Signal and Central Traction, and a slight concession in Luster and New York and Cleveland Coal. The Tractions about held their ground.

Best Week of the Year and No Breakers in

Business made quite a bulge last week. The impulse was forward and through. Bank clearings were nearly \$500,000 greater than those for the previous week. Confidence was expressed on all sides that the upward movement would not only continue but receive fresh impetus as the season progressed.

Money was as easy as at any time last year. In one respect this is not a good symptom, but

The Usual Duliness in the Share List and Quietude in Bonds-Chesapeake and Ohio Strong-Edison Electric Weak-Small Changes.

NEW YORK, Feb. 7 .- In the buying of the early morning when the support was with-drawn, the usual duliness ensued and the early publications of the bank statement gives without, opposition of moment. Lackawanna, however, yielded, and was the only stock among the usually active list calling for comment, the rest being quiet without special movement. Among the specialities, special movement. Among the specialities, was influenced principally by aspreading belief that receipts are upon the eve of increasing. Reports came to hand from lowa and Nebraska that the farmers were losing their grip on their stocks.

Outs followed wheat and corn closely, declining steadily from the opening prices, which were about steady. The market was influenced principally by a spreading belief that receipts are upon the eve of increasing. Reports came to hand from the corn market was influenced principally by a spreading belief that receipts are upon the eve of increasing. Reports came to hand from the corn market was influenced principally by a spreading belief that receipts are upon the eve of increasing. Reports came to hand from Lowa and Nebraska that the farmers were losing their grip on their stocks.

Outs of the built side was influenced principally by a spreading belief that receipts are upon the eve of increasing. Reports came to hand from the spreading their stocks.

Outs of the built side was influenced principally by a spreading belief that receipts are upon the eve of increasing. Reports came to hand from the spreading their stocks. however, there was great strength shown by the Chesapeake and Ohio stock and Erie pre-ferred, while Edison General Electric developed sudden and marked weakness, dropping from 107 to 192 and afterward to 100. The market 107 to 102 and afterward to 100. The market for market and the second preferred, 134.

Railroad bonds were quiet, the trading for the session reaching only \$89,000, out of which amount the Eris seconds contributed \$47,000.

The strength of the list, however, was equal to fife, and rise found no considerable appears that of late, and while the considerable appears and the considerable appears.

ally unimportant they are in most cases in the direction of higher prices.

The exports of specie at the port of New York during the week amounted to \$312,833, of which \$176,005 was in gold and \$136,878 silver. The imports of specie for the week amounted to \$64,188, of which \$41,659 was gold and \$22,539 Silver.

Pacific Mail Boomed-Silver Lets Go-A Su prising Bank Statement.

The good and bad influences in the stock market are shown up in the following telegraphic letter to John M. Oakley & Co.: The stock market opened buoyant and closed weak. Pacific Mail was the feature at the start, Atchison at the finish. It is understood that the Republicans will carry out the logical necessities of the policy of protection and reciprocity with South and Central America by outting through a subsidy shipping bill. We

putting through a subsidy shipping bill. We feel assured that whether this is accomplished or not the value of Pacific Mail is equal to its present selling price. The coal stocks were very active and strong, but they are not widely held and they can be marked up and down at the pleasure of the cliques. The worst blow to the market came at the end in the December figures for Atchison, which show a net loss of \$83,000. The Southwest is a poor field for railroad operatiors.

Sliver was weak again and doubtless weaker than if there had been no talk of free silver. The conviction is now general that no silver bill can pass the present House, if indeed the obstructional measures of the anti-silver men will permit even the consideration of the question. Lead Trust was weak, and the fact that it declared a dividend seems to have set everybody against it. Newspapers that are builing Western railroad stocks are talking Lead Trust down for some reason that no one can quite explain. We believe that the sentiment toward this property will change.

The bank statement was a genuine surprise, showing as it did a loss of \$8,000,000. The actual loss in cash was over two millions. and an increase in loans of \$8,000,000. The actual loss in cash was over two millions. The surplus reserve is still \$20,000,000, so that this loss cut but little figure in the market. The increase in loans is undoubtedly largely in Wall street borrowings, and as the street has been in a builtish mood all week, and clients have been having it is safe to say stocks are more scat.

for better prices next week on specialties but on the Western stocks for lower prices.

MARKETS BY WIRE. Bears Have Their Own Way in the Future Deals in Grain and Provisions-Rush to Sell May Wheat-Large

Receipts of Pork.

CHICAGO-The bears were in supreme con trol of speculation in the future deliveries of wheat, corn, cats and provisions to-day. At the opening the pit was overflowing with sellers of May wheat at 98%c, and there were no buyers to speak of except from those who were custing prices 1/40 below 993/c. At 995/c and 99%c there was some buyers for a second or two, but the uproarious anxiety of the sellers to dispose of the stuff made those who were inclined to buy desist and they were rewarded for the exercise of a little patience by finding plenty for sale at 98 before trading had been over 10 minutes in progress. There was really nothing in sight to stop the decline but buying against puts and the caution of some shorts, who were apparently willing to cry "enough" to a drop of %c under the closing price of the previous day. The class of traders referred to had no reason to regret their moderation, for 20 minutes later they had an opportunity to put out their short wheatfagain at 98%c, and in the course of an hour thereafter to buy it back again at 97%c.

Receipts were again liberal at Minneapelis and Duluth. Bradistreed's statistics were discouraging in most particulars to those who were hoping for an advance in prices. The guesses on the probable change this week in the official visible supply were also against the bulls, being for a decrease of only 250,000 bushels, compared with over 735,000 bushels on the corresponding week of last year. There could be no effectual resistance to a bear attack, and consequently a further drop in May wheat to 97c was not surprising. The price, in the meantime, had recovered from 97%c on the break previously alideded to 1097%c, and it was from the inter point that the break to 97c was started. The news which was forthcoming on the built side was unimportant. desist and they were rewarded for the exercise

sold.

The market for provisions was weighted

ANXIETY FOR INVESTMENT IS HELPING THE BULLS.

January Earnings of Western Roads Give Reason for Encouragement-Prospects for Hostile Legislation-Effect of the Set-Back to the Free Coinage Men.

PERSONAL TRUEGRAM TO THE DISPATOR 1

NEW YORK, Feb. 7 .- In their weekly financial review Henry Clews & Co. say: During the past week, the tone of affairs in Wall street has shown distinct signs of improvement. The "bear" element has been more cantious, and some prominent operators on that side have narrowed their risks while others openly acknowledge that the drift is against them. The forces on the "pull" side are gathering strength and numbers, and some of the most noted lead ers of speculation are beginning to marshal themselves for an upward campaign. This change of tone can harrily be said to have been the result of anything new of decided importance in the actual situation. It has been some gain that, as the contest between the two sides on the silver question de-velops, the chances of the pro-silver party be-ing defeated (at least for the present session)

ing defeated at least for the present session) decidedly improve; and although some desperate expedients may still be adopted by the mining interests, yet their ultimate defeat seems very probable. This has no doubt helped the tone of the market quite materially; for the possibility of the enactment of free coinage has had a more seriously damaging effect upon confidence in high quarters than is generally apprehended.

Another contribution toward recovery has come through a quite unexpected improvement in the January earnings of the Western roads, and especially in those of the Granger lines, which was the last thing to have been expected. The recovery is not large in amount, but is very The recovery is not large in amount, but is very general, and coming in place of an expected de-cline its effect is the more marked. It suggests

cline its effect is the more marked. It suggests a probability that the common e-timate of future earnings may have been put below what the facts really warrant; and if that conclusion should be confirmed by later experience it would undoubtedly have a marked effect upon prices. Beyond this fact, there is the further encouragement that Chicago advices report some actual advance in rates and a more or less general tendency to higher charges both for passengers and freight. It is also worth something, as an element of confidence in the future, that the Western Railway Association has well nigh completed all its working arrangements, including the allotment of traffic, and seemingly with an unanimity and good feeling which augur well for the prospects of this new method of regulating railroad competition.

It is true that alongside these unexpected favorable developments in railroad interests. It is true that, alongside these unexpected favorable developments in railroad interests, there is the disheartening revival of hostile State legislation both by the Grangers and the Farmers' Alliance; but these attempts will be met with a thoroughness of opposition and with an application of constitutional tests, both State and Federal, which will at least soon settle for the whole country what can and what cannot be done by this destructive sort of warfare. The probability seems to be that, within a few months, there will be a great body of legal decisions showing that the farmers' conception of what constitutes "reasonable charges" for carriages is something very different from the conception of the courts.

The influences above noted as affecting the tone of the market favorably might have had

The influences above noted as affecting the tone of the market favorably might have had little influence under other circumstances. But, coming now, they find a market prepared to yield a full response. Both here and in London, money is becoming so abundant and holders of balances are becoming so anxions to employ them, that the slightest symptom of improved conditions in investments must encourage buying.

courage buying.

The Bank of England was prepared to pay its The Bank of England was prepared to pay its £3,000,000 loan from the Bank of France when she reduced her rats to 3 per cent, and the question there of 1 per cent for money in the open market, in the close prespect of such an important withdrawal from the bank, shows how extreme the case in London must be. The uncertainty as to the final disposal of the free coinage movement is, at the mounent, a serious drawback upon London buying our stocks; but in the light of yesterday's action London buying is likely to assume a volume that will surprise Wall atreet, and prove a great stimulus to prices of both stocks and bonds.

DANGER OF MINING

Risk That Miners and All Per-

sons Are Under.

HOW TO AVERT DISASTER.

The result of the gas explosion in the Mam-

The result of the gas explosion in the Mammoth mine makes it the most terrible catastrophe that has ever been disited upon the mining industry of this or any country.

The disaster would never have proved so fatal, and, possibly, might not have happened had the men used safety lamps. Where there is the dightest chance of danger, by accident or disease, preventative measures should be used, especially so, when it threatens human life.

Catarrh is a malady that, if the person so afflicted does not find and adopt means to stay its progress, the disease eventually envelope the whole system and leaves its victim a physical wreck.

Drs, Copeland and Blair's treatment in all cases of catarrhal affections has been attended with eminently successful results, as the many statements show. This week the following:

Mr. William McDonough, & Moultrie Street, Pittsburg, Pa.

Mr. William McDonough, of No. 2 Moultrie street (Soho), city, says: "I suffered constantly for about three years and did not know what my trouble really was. My principal symptoms were a depressed, heavy feeling in my chest, with occasional sharp panus—although my appetite was good I suffered a misery and sick feeling at my stomach after eating—I slept soundly, but got up in the morning all wore out. My greatest trouble, however, was with my heart. There was a tight, compressed feeling there. For a time my heart would beat rapidly and so hard I wonder it did not burst. The palpitation would be followed by a slow, irregular beating and a feeling of faintness. I went to Drs. Copeland and Elair. They told me my trouble came from catarrh of the stomach. I began their treatment. To-day my symptoms have left me. My heart is regular and I feel well generally." Mr. William McDonough, of No. 2 Moultrie

ANOTHER INSTANCE.

Mr. Thomas Maybury's Statement in Brief.
Mr. Thomas Maybury, of No. 213 Thirty-ninth street, in the cupley of the Carnegie from Works, says: "For I3 years I noticed more or less catarrhal trouble, but in the last year or so it became very much aggravated, I suffered almost constantly. I had about all the symptoms and in their worst form. My work was a drag on me and life a positive burden, I was in this condition, unable to find relief, when I called on Drs. Copeland and Blair. After examination, feeling that they thoroughly understood my case, and finding their charges so very reasonable, I decided to place myself under their care. I don't believe I ever made a better resolution in my life." Concludes Mr. Maybury: "I improved almost from the start under their treatment. My symptoms gradually disappeared, until now I am like a different person from what I was when I went to them, I am 100 per cent a better man than I have been for years." Mr. Thomas Maybury's Statement in Brief.

HOME TREATMENT. Additional Evidence by Matl. Mr. W. T. Henshaw, of Prospect, Pa, says; "For years I suffered from catarrh withous being able to find relief. Drs. Copeland and Blair cured me, treating me by mail."

Mr. Henry Rose, of Eckbart's Mines, Md., says: "I suffered constantly from chronic catarrh; could get no relief. Drs. Copeland and Blair cured me entirely at home."

DRS, COPELAND & BLAIR treat with success all curable cases at 05 Sixth avenue, Pittaburg, Pa, Office hours, 9 to 11 A. M., 2 to 5 P. M. and 7 to 9 P. M. (Sundays included). Specialtics— Catarrh and all diseases of the eye, ear, throat Address all mail to DR. W. H. COPELAND,
