Light of the best in comic opera. I wanted an artistic ensemble. I had an artistic ensemble when we hirst gave "The Oolah." The music was in Lecoci's best style, and I gave the score in full, with all the uelicate work in-tact. Aly boy, it was a frost. People said it might be Lecoci's music in very fruth, and the artistic ensemble might be there, but they were not amused or pleased with it. The low office receipts repeated this wordlet in very eloquent figures, and I pro-ceeded to discumbowel the artistic ensemble, cot out the cords and tassels of fine music, and generally adapt it not to standards of high art, out to the popular desire as far as I knew how. tout to the popular desire as far as I knew how. I was disabused of my notion that I was a pub-he educator. The public had educated me. Pure Whisky Unpopular.

Holding up a flask of pure Monongabela rye whisky so that the light showed off its color, which resembled that of a moderately pale sherry, Joseph Carson, liquor dealer, said: "There's the old Monongahela rye in its natural state, uncolored, untouched since it left the still, and, will you believe it, most men will turn up their noises at it and take in preference a whisky glat has been colored, flavored and hocuspocused in all sorts of ways? It is a fact that the majority of men do not like pure whisky. It may be that if they had been born in a world where positing but pure whisky was on tap they would not prefer the tinted, doctored stuff. But as it is I have almost lost patience sometimes in trying to persuade men that the pure essence of grain is better than ilquor that has been dressed up till it is 'fit to kill.' Some men will not believe that whisky is the Tale stuff unless it has a bite like a weakel; others want an still and will you believe it most men will has a bite like a weasel; others want an aronnatic flavor that can't belong to pure whisky, and the few who do want pure whisky have no end of a time getting it?" There is some hitch about the options, but the sale is expected to be mude shortly. Other coal men are buying heavily and going into the main facture of coke. Mr. Hood thinks also there is plenty of pat-ural gas in the vicinity. The well that was includ two mouths ago near Willeus, about 12 miles from Indiana, still maintains a pressure of 200 poinds. A number of wells are being

A Woman's Advice.

"There is little in woman's advice, yet, he that won't take it is not overwise," says Cervantes. This proverb is most aptly illus-instead in the following item:

During the fall of 1882, while my daughter was teaching in the country near here, she contracted a severe cold and cough. I sent her a bottle of Chamberlain's Cough Remedy and the effect was so satisfactory that on her recommendation the entire neighborhood began its use, and with the most satisfactory results, which has continued with increasing confidence ever since. IS THE COMING RESIDENCE.

We have three for sale, like this picture, that we believe are the best, and, considering everything, the cheapest now on the market.

We know they are well built-they were built under our supervision-by day work-no shoddy contract work.

Of course, they are on asphaltum streets, two in East End, one at Roup, all convenient to the different rapid transit lines and Pennsylvania Railroad; and, again, of course, they have every possible modern convenience and luxury, such as sanitary plumbing, electric light, and the thousand and one things such a house should have. They are necessarily in choice neighborhoods; it would not pay to build them in any locality but the best. They vary in size from 12 to 15 rooms, and, of course, in price; but the prices are the only things about them that are cheap-\$16,000 to \$20,000.

Come to the office or drop us a postal, and our representative will call in one of our carriages, that we keep for RESIDENCE PROPERTY. this purpose, and take you to the houses; it's no trouble; it's business.
