The Tipstaves Have Quite a Hard

Time Trying to Keep Order. ACQUITTAL EXPECTED FOR COX.

A Verdict Against Barnum & Bailey Secured by a Pittsburg Lady.

YESTERDAY'IN THE COUNTY COURTS

The Criminal Court was kept in something of an uproar yesterday afternoon. Some laughable things occurred, keeping everybody in good humor and the tipstaves in activity trying to preserve silence.

During the trial of Thomas Welsh, of Mansfield, for an assault on Sarah Reese, a witness named Henley was put on the stand. He testified that Welsh was at his house on the night of November 15, the night of the alleged assault. The witness was positive as to

the date and also gave the time. When District Attorney Johnston started on the cross-examination he asked the witness if he had a good memory for dates. The witness replied that he thought he had. "Well, now," said Mr. Johnston, "suppose you tell us the date that you were sent to the workhouse for keeping a speak-easy in Upper St. Clair township."

The witness turned half a dozen colors and nade no effort to reply,
"Or," continued the District Attorney, "the
second time you were sent to the workhouse
for running a speak-easy in Chartiers town-

The witness replied that his memory was a trifle defective on dates of that kind, and the attorney for the defense appealed to the Court.
"I am just trying the witness' memory for dates," said Mr. Johnston.
"I see that," remarked Judge Stowe, "but hatter by a part of the subject." hadn't you better try some other subject?"

The District Attorney had gotten all he wanted out of the witness, and the subject was

wanted out of the witness, and the subject was dropped. The jury is out in the case.

Just as the Cox iury filed out of the courtroom, and a deep silence reignod, everybody was startled to hear the remark, in very loud tones, "I want you people to talk louder. I paid my money to come in here and things must be done right."

There was an instant scurry of tipstaves, and Judge Stows looked very angry toward the lobby. The cause of the disturbance was ferrested out. A country juror, in one of the rear seats, had fallen asleep, supposedly from overwork, and got to dreaming and it seems that he is aloud freamer, judging from his remarks. The rustic juror was hustled out of the courtroom in short order, and a smile passed around.

Louis Hilke was found guilty of a charge of forcible entry and detainer.

Susie Dusseath pleaded guilty to three charges of larceny. She will be sentenced on The jury is out in the case of Louis Hilke, charged by Mary Sheehan with assault and battery.

At her death the principal was to be divided among the brothers and sisters of the granter, among whom was the plaintiff. J. Bowman McKennan died in 1879, and his his wife died in 1890. In pursuance of the agreement the stock, etc., was to be di-vided, but the Citizens' Bank refused to transvided, but the Citizens Bank refused to trans-fer the stock in it to any other name than that of J. Bowman McKennan, for fear of becom-ing liable for the collateral inheritance tax. The plaintiff asks the Court for a decree compelling the transfer.

A VERDICT AGAINST BARNUM

Secured by a Woman Who Was Injured by a Runaway Horse.

Mary J. Clark yesterday received a verdict for \$250 in her suit against Barnum & Bailey, the circus proprietors. When the defendants' circus was showing in Allegheny the regulation street parade was given. One of the elephants was such an unusual sight to a horse attached to a buggy that the horse ran off, running against the plaintiff, knocking her down and severely injuring her.

Mrs. Clark sued the circus owners for damages, and yesterday received a verdict in her favor.

LEANING TOWARD ACQUITTAL.

A Verdict of Self-Delense Expected in the Enright Murder Case. At 3 o'clock yesterday afternoon the jury in

the murder case of Thomas Cox, Patrick Cox and Timothy Scanlon came down into Criminal Court for instruction. The point they desired to be enlightened on was the question of self defense. Judge Stowe reread that part of his charge to the jury relating to self-defense.

The Judge's remarks to the jury were looked on as being in favor of acquittal and several of the jurors smiled as they heard the charge. The verdict will likely be handed in this morning, as Judge Stowe refused to come back last Forced to Leave Her Husband. The testimony in the divorce case of Mrs.

Esther Hedger, against Samuel D. Hedger, taken before Commissioner S. R. Raymond, was filed yesterday. The husband was an ex-pressman, and lived on Arch street, Allegheny. The couple was married in 1880. The wife, in her testimony, alleged that with the exception of two years, when he aid not drink, her husband abused her continually. He was always striking or threatening her, and she finally had to leave him.

GOOD NEWS FOR DRILLERS.

FUN IN A COURT ROOM THE OIL WELL CORDAGE ASSOCIATION REDUCE PRICES.

> The Wildwood Limits Reached and Production Still Declining-Jack's Run, Also, Has Seen Its Best Days-Modern Methods Revive One of the Old Fields.

An important meeting of the Oil Well Cordage Association was held yesterday afternoon at the office of the Oil Well Supply Company. Contractors will be glad to learn that the association, at the meeting today, reduced cordage from 15 cents per pound to 18% cents, and agreed as a body to dis-count all bills in this line 2 per cent when paid within 30 days. Figuring on the basis of last year's sales, this will be a saving of over \$500,-000 to oil well contractors

Wildwood Production Still Declining. ISPECIAL TELEGRAM TO THE DISPATCE.1

WILDWOOD, Feb. 10.—As predicted by THE DISPATCH several days ago, the southwest line is not only looking like the end, but the territory is showing drainage. Since then develop-ments have borne out this conclusion, and at this writing there is nothing in the situation to justify a change of base. The production is still on the decline, and unless the Heidelberg justify a change of base. The production is still on the decline, and unless the Heidelberg and other advanced wells now drilling should come in well, Wildwood's production will tumble to a low figure compared with the present output. At the expiration of another week the drill will pretty conclusively tell the story in this quarter of the field. The situation is the principal topic discussed in oil circles, and the concensus of opinion concurs in what THE DISPATCH has already said. The best evidence is that some producers interested on the south and west lines are suspending further operations on new work already beens. The Roth Oil Company's No. I Kyhl struck a strong flow of gas in the 30-foot and Evans & Mandeville's No. I Marks will, if all goes well, get the 30-foot to-morrow. Forest & Greenlee expect to find the sand in their well on the Alston the last of the week. Their Nos. 1 and 2 Six-Acre lot are making 35 inches an hour; No. 8 Kress, 70 barrels an hour. Harbush No. 11 got the pay to-day, and is flowing at the rate of 300 barrels a day Ringheisen No. 2 is making five inches an hour, while No. 3 Ringheisen is on top of the pay and flowing by heads. They are moving out the boiler, and will get to drilling again in the morping. Reenga No. 2 is flowing six inches an hourly bheads. J. M. Guff & Co.'s Heidelberge well is drilling near the sand, and should be in by the last of the week. McDevitt & Co. drilled their No. I Guyton deeper, but as yet have not found another pay.

New Methods Bring Better Results. MACKSBURG-Interest in this field has been on the increase of late, by reason of finding paying wells in the shallow sand at 800 feet, and also many really good wells in the deep sand, on "Berea grit" rock. The change in the manner of drilling and operating the deep wells has had much to do with the revival of interest in this territory. Harrioform wells were drilled as with the revival of interest in this territory. Heretofore wells were drilled as "wet holes" below the salt-water sand, and, when oil was found, a "packer." was put in the production obtained by blowing. Now wells are cased when drilled below the salt water, and when the oil is reached the wells are tubed and pumped the same as wells in Bradford and other fields. Wells drilled in old territory under this new method show a largely increased production over wells drilled and operated on the old plan.

production over wells drilled and operated on the old plan.

The Ohio Oil Company are drilling on the coal lands. Boden & Aiken finished their No. 17 on the Dyer farm a few days since, and it did 29½ inches in a 250-barrel tank the first 24 hours. The condition of the roads has made operations difficult at present, but many wells will be drilled the coming season, both in the old terri-tory and in the new on the new plan of casing of the water.

Jack's Run's Glory Has Departed. JACK'S RUN—The only new operation going on in this field is one well belonging to Heber & Co., Hile farm, which is rigging up to start drilling. The same parties have a rig up for

A TRANSFER DEMANDED.

The Court Asked to See the Provisions of a Paper Carried Out.

A bill in equity was filed resterday by Thomas McKennau, trustee, against, the Citizens' National Bank of Pittsburg. The plaintiff stated that in 1878 his brother, J. Bowman McKennau, transferred to him in stocks, etc., \$20,146, including \$2,000 of stock in the Citizens' National Bank, to be held in trust. The income farm, is baving trouble with its casing.

The Operations at West View.

WEST VIEW-Smith & Klimmond's have finally got their No. 1, Ivory farm, finished and pumping, and is good for 20 barrels a day. The West View Oil Company's old No. 1, Ivory farm, has dropped off to five barrels a day, and they are now cleaning it out and will probably give it a shot. The same company will drill their No. 3, same farm, down to the 30-foot their No. 3, same farm, down to the 30-foot sand as soon as through with their No. 1, and if they get no oil in the 30-foot they will go on down in the hopes of getting gas. They also have a rig up for their No. 5, and will start drilling as soon as possible. Howman & Co. have reached a depth of 1,400 feet in their No. 2, Shields, and should get the sand the latter part of this week. When they complete this well they intend moving the tools to their old No. 1, same farm, drill it deeper and shoot it.

Many Callery Wells Nearly Due.

Many Callery Wells Nearly Due. CALLERY-Within the next three or four days there will be several wells due here. On the Sam Kauffman, Campbell & Murphy are in the sand. Boyer & Rook, on the Wallace, have also reached the sand, while Webber & Co., on the Davis, are drilling in the same depth. The most important of these wells is the Campbell & Murphy, northeast of town devaluements.

Preparing for a New Well.

HAYESVILLE-Guffey & Co., who have bought out the Osborn Oil Company's interest in this field, have a rig up, and are preparing to start the drill at their No. 2, Rhoads farm.

Working a New Mystery. ROUGH RUN-Humes & Co. are in the second sand with their No. 2 Cypher, Rough Run dis-trict, and are trying to make another Daylight mystery out of it. It won't go. McC.

TOO MUCH MORPHINE

The Drug Causes the Death of a Widow in a New York Hotel.

NO REASON KNOWN FOR SUICIDE.

She Had Plenty of Friends and Possesse an Ample Competency.

SWEDE OF A WELL-KNOWN FAMILY

NEW YORK, Feb. 10 .- Augusta Berg, a Swedish artist, died at the Metropolitan Hotel early this morning from an overdose of morphine. She had lived at the hotel since September. She was a widow. On Saturday evening one of the chambermaids noticed that she was acting strangely, and asked her what ailed her. Mrs. Berg replied that she had a severe cold and was afraid it would develop into pneumonia.

Afterward the maid stopped at the door and asked how she felt. Not being satisfied with the answer the maid told Mr. Hildreth, and William E. Forest, the notel physician was sent for. Mrs. Berg told Dr. Forest that she needed no doctor. He noticed that she was under the influence of morphine. She laughed and talked with him a few minutes, and he retired.

Found Dead in Her Bed. On Sunday evening one of the maids found the woman lying on her back in the bed unconscious. Dr. Forest was again called. At first he thought she was dead. Her body was cold, her face was discolored and he could detect no respiration or pulse. He put his hand over her heart and felt a slight flutter. Tanks of oxygen were rolled into the room, and the gas was forced into her lungs without any visible effect. The doctor with two assistants worked over her 15 hours, and then the heart stopped and she was dead. In the fire place, which had not been used and which was covered with a sheet iron blower. Dr. Forest found a bottle that had contained 80 grains of morphine. It was empty. On the bureau was an unsealed letter addressed to the Swedish Consul and a sealed letter addressed to Licutenant Walter a Sears, U. S. N., of the dynamite boat Vesuvius. The letter to the Consul was written half in English and half in Swedish. The English part informed the Consul that she was ill and asked him, if she died, to take charge of her body and all her effects, and see that her daughter received the latter. My little girl, five years of sge, had a breaking out on her face, hands and skin. I called in a doctor; he said it was sait sheum or eczema. He left a prescrintion, which did not relieve her any; she kept getting worse. I called in another; he said the same thing as the first. I doctored with him six months to no effect. I then tried two eminent physicians in Newark, three months each, to no effect. I then tried two eminent physicians in Newark, three months each, to no effect. I then tried a homeopathic doctor; he said he could cure her. He gave her medicine for eleven weeks; and if I had kept giving it to her another week. I do believe she would have been dead now. I was told of another doctor that was recommended very highly on diseases of the skin and blood. I was going with my child to see him, but stopping in a drug store on my way, I was advised by the druggist, Arthur Hodeman. to try the CUTICURA REMEDIES for her, which I did, to a noble effect. At this time the scabs on her hands and face were one-fourth inch thick; she could hardly close her hands, her fingers were swollen so they would burst open. I had hardly given her the medicine three or four days when the scabs began to peel off. She kept on improving, and inside of one month the sores had entirely dried up.
