FIGHT AT A FUNERAL.

A Secret Society and the Catholic Church Come in Conflict.

SUDDEN CHANGE OF BURIAL PLANS

The Former Leader of Gilmore's Band Is Pursued by His Wife.

A LITTLE GIRL'S VICTORY OVER MEN

PEPECIAL TELEGRAN TO THE DISPATCH. WHERLING Feb. 11 .- There was a very

unusual and sensational episode vesterday afternoon at the funeral of Edward Werner, a prominent young man who died Monday. Mr, Werner was a Catholic and also a member of the Knights of the Golden Eagle. The Knights, as is the custom of the order, were very attentive to him in his last illness, and undertook to defray the funeral expenses. Knowing the general objection of the Church to secret orders, the members vesterday avoided a conflict. They held their ritual services at the family residence before the religious services were held at St. Alphonsus Church, and from the house went to Elm station to take the train for Mt. Culvary Cemetery, where the inter

ment was announced to take place. When the funeral party came to the station, Rev. Father Didacus, of St. Alphonsus Church, the officiating clergyman, noticed the Knights present in a body | Bady Keefer and ice pond property, consistin full uniform, and inquired if they proto the cemetery. When informed that it was their intention to go, The consideration is \$20,000. Father Didacus said they could not go into the cemetery. The funeral procession proceeded to Mt. Colvary, however, where the sexton informed the Knights that his instructions were to refuse them admission. A halt was called, and the widow of Mr. Werner consulted. It is understood that she is a

Fretestant.
She expressed a desire that the Knights should bury her husband, as they had been her best friends in her effliction. Father Didacus was obdurate: the Knights were stubborn, and was obtained; the Knights were studiors, and inally it was decided to have the interment in Greenwood cenetery. Back to Greenwood the procession moved, while a number of the Knights kurried to town, purchased a let and secured a permit for the burial. A fire was lighted in the waiting room and all the ladies who could get in were accommodated there. A

A LITTLE GIRL'S VICTORY.

How She Got Even With a Lot of Men for a Practical Joke.

SCIAL TRIEGRAN TO THE DISPATOR. WESTON, W. VA., Feb. 11 .- An amusing episode occurred at the postoffice here Friday. Au 8-year-old girl named Arnold entered, when one of the clerks, noted locally for his powers of mimicry, pointed to a large terra-cotta dog and warned the girl it would bite, at the same time imitating the growling of a dog. The child was frightened, and the postmaste and pany: his associates had a good deal of sport. Finally his associates and a good deal of sport. Finally
the girl said she had a dog which could "fight
you and your dog, too," and went out.

The incident was forgotten, and the postmaster and his assistants were proceeding with
their work, when the door flew open and in

came a mastiff as big as a calf, followed by the girl,

"Sick 'em, Jack!" said the girl, and Jack made a rush for the postmaster. In two minutes the whole force were perched on tables, cases and racks, and the girl and her dog owned the establishment. Whenever a man would show a disposition to come down, a small voice would say, "Sick 'em, Jack," and the descent would be postponed. Finally the Mayor induced the girl, through a delivery window, to call off her dog, and business was resumed. There will be no more practical jokes in that office.

The Former Leader of Gilmore's Band Fugitive From Wedlock.

PEPECIAL TELEGRAM TO THE DISPATOR 1 EWARK, O., Feb. IL-There has in rived in this city a neat but plainly dressed young lady, rather handsome, and accompanied by a bright-faced, light-haired little boy, whose age is probably 5 or 6 years. She is here to capture a husband who she claims has deserted What makes the circumstances more interesting is the fact that the alleged husband is known all over the country in theatrical cir-cles, and was for some time at the head of the Gilmore Band.

the Gilmore Band.

She arrived here on the mfdnight train from New Brunswick, N. J., just one hour after the husband had departed. Here she registered as Airs. J. H. Bolehy and child, but her real name is Mrs. J. fl. Laine. She said she was married to Laine in Milwankee in 1881, and that after going to New Jersey Laine descrited her in 1887. Mrs. Laine thinks that she has sufficient evidence to establish a case of desertion, it being claimed that he married a woman in Colorado. She proposes to follow the man and see that he is dealt with according to law, and to that end is dealt with according to law, and to that end has labored at stitching handkerchiefs to raise fonds. A MINER'S HORRIBLE DEATH.

After Firing a Blast He Is Buried by Tons of Falling Rock.

SPECIAL TELEGRAM TO THE DISPATCH. CANTON, Feb. 11,-It was an agonizing death that Henry Lakes, a coal miner, met at the Hidgeway, Burton & Co.'s coal mines, four miles south of this city, at North Industry, last night. He went into the mine at 6 o'clock last night to make a blast. After firing the fuse he came out to await the explosion. That sounded, and he re-entered to see how well the powder

and he re-entered to see how wen the powder had done its work.

He was never afterward seen alive. At 6:30 o'clock this morning Nick Oper, a fellow miner, went to his place of work. On his way to his room he saw a lot of fallen rock. From the midst of it the light of his flickering lamp showed the bloody head and flesh-torn hands, arms and shoulders of Lakes. It is thought that the jar of the blast had so loosened the rock roof of the mine that Lakes was buried without warning by the falling stone.

Gonda recled, but as he fell Hovances thrust the pick into his head, killing him instantly. The murderer then fied, but was later captured and jailed at Greenburg. If he had remained at Morewood he would have been lynched.

Greenlee & Forst have also just consum-

The consideration was between \$3,500 and \$4,000. In the following sale of oil property will be recognized the wonderful staying qualities of recognized the wooderful staying qualities of Butler county third sand wells on the original helt line extending from Clarion county to West Virginia. Yesterday ex-Sheriff William Hoffman sold six producing wells located two miles north of Millerstown to William A. Dennison, of Millerstown, for \$10,000. These wills were producing at the time of the sale a net result of 500 barrels per month. This property was drilled 16 years ago by McKinney Brothers, of Titusville, and was sold to Mr. Hoffman seven years ago, when the production was 500 barrels per month, as now, and the price then paid was \$500 per barrel, while the price per barrel paid Mr. Hoffman is about \$600 per barrel.

At the time of the sale the production was 70 barrels a day, and when sold by Captain Rodgers one year ago to Charley Coffio, of Bradford, the production was 65 barrels a day, which is only a decline of five barrels in seven years.

Zeigler farm, owned by Sutton & Christie, should get in the last of this week. The same parties are building rig No. 4 on the Zeigler, located between Nos. 1 and 2 and south of the Howe well. On the Hartman lot, near the Pittsburg and Western station, Earnest & Co. are taking down the rig at their Zeigler farm duster, and will move it some 200 feet west to another hole. A New Oll Refining Process. WARREN-A new industry is about to be started at Glade. It is a new process for reof New York. This gentleman may be said to be the pioneer refiner of the oil country, having heen engaged in the business for the last 35 years. He began as a refiner near Pittsburg, and later built and operated refineries at Oil City, San Francisco, in Ohio and other places. The discovery of the process is the result of years of hard labor. About nine months ago, after completing a series of successful experiments. Mr. Thumm interested Pittsburg and New York capitalists, and they organized a stock company known as the Pittsburg Tubeoline Refining Company, with a capital stock limited at \$5,000,000, and \$200,000 paid up. The plant is yet incomplete, and will cost about \$75,000 when finished. Mr. Thumm is himself superintending the erection of the plant, but vesterday passed the management over to George F. Nailer, of Pittsburg, who will be the superintendent. The new discovery makes refined oil by the vapor process, which, it is claimed, will reduce the cost more than 50 per cent. of New York. This gentleman may be said to

The Situation About Unchanged. WILDWOOD-The situation on the southwes wild by the best of the second of the southwest line practically remains unchanged from yesterday's report. Graffith & Co.'s No. 3 Ringheisen is producing 75 barrels a day. The well yesterday was 16 feet in the sand, and but little was added to its depth to-day, owing to draw backs. The well is reported to-night to be drilling on a hard shell, under which the owners look for another pay. Should their hopes not be realized it will contribute another evidence of the beginning of the end.

The McCurdy Pool in Statu Que. McCundy-The McCurdy pool still remains in statu quo. The way things now look it will be the latter part of the week before any of the wells will get in, and it is possible the time may be extended to the first of next week. The old McCurdy is holding at about 380 barrels a day and the Palmer is doing II inches an hour.

JUDGE ACHESON TAKES HIS SEAT.

ALL THE NEWS OF THE COUNTY COURTS

Colonel Archibald Blakely made a moion for a new trial yesterday in the cases of Rusnok, Sabol and Todt, convicted of murder in the first degree. Three points of error are assigned: that the Court erred in allowing three jurors to serve on the case who had served in the riot case but a short time previous; that the Court erred in refusing some of defendants' points; that there was not sufficient evidence to warrant the verdict in any of the cases, but that either Rusnok or Sabol should certainly have been equitted.
Judge Stowe said so far as he recollected the evidence did not warrant the conviction of the two men named.

Special To Let Lists This Morning. LA GRIPPE IN PITTSBURG.

This Dreaded Disease Makes Its Appear

Again.

La grippe is with us again, and this dreadful disease has already taken a firm grip on many of our people. The after effects of "la grippe" are more to be dreaded than the disease itself. Generally it makes place for pneumonia and leaves the patient, if he recovers at all, in a very feeble condition, from which many have not railled long after the last attack of our Russian enemy "la grippe" had left us. Bir Morell Mackenzie highly recomments the Soden Mineral Pastilles as being the most effectual remedy for the prevention and cure of all catarrhal inflammations (of which is grippe is the most aggravated type) for sore throat, coughs, bronchitis and lung troubles. Whenever you enter from a heated foom into the open air during the winter, put one of these pastilles (troches) into the mouth and you will savely excent on a track, of the arrives. Again. surely prevent any attack of the grip, catarrh or cold. Whenever you suffer from a cold in the head or catarrh of any form, do not triffe with yourself, but use them at once.

The genuine Soden Mineral Pastilles must have the testimonnal and signature of Sir Morell Mackenzie around each box.

A MINERAL SPRING IN EVERY HOUSEHOLD.

Not everybody can visit the Spas of Europe, the most famous of all is Carlsbad, which has been known for centuries for its healing properties; but every one can have the Spa on his sideboard in the shape of the Carlsbad Sprudel Salt, which evaporated from the Sprudel Spring at Carlsbad, and exported to the United States.

The Carlsbad Sprudel Salt (powdered form) is an excellent aperient, laxative and diuretic. It clears the complexion and purifies the blood. It is of great benefit in temporary and habitual constipation, liver and kidney diseases, chronic catarrh of the stomach and bowels, rheumatism and gout, etc., and should be used early in the morning before breakfast. Care must be exercised to obtain the genuine article, which is imported in round bottles. Each bottle comes in a paper cartoon. Write for pamphlet. Price per bottle,
