## A Slightly Improved Tone Noted in the Local Situation.

THE MARONING VALLEY SHUTDOWN

## Has Had the Effect of Strengthening Prices Somewhat,

# REPORTS FROM THE LEADING CENTERS.

There is a slightly improved tone to iron markets in the week past. The shutdown in the Mahoning and Shenango region, together with labor troubles in the coke regious has had the effect of strengthening prices. Furnacemen are firmer in their views of values, and while there has been no advance in prices there is a better tone to markets. ## The Philadelphia Market Has Now Attained a Healthy Equilibrium.

SPECIAL TELEGRAM TO THE DISPATCH.1 PHILADELPHIA, Feb. 18-During the pas week the law of supply and demand seems to

have been fairly adjusted, so that the market may now be said to have attained a bealthy equilibrium. Sales during the week have been on a very liberal scale and but few furnaces are now carrying any large excess of stock. Many of the recent sales are believed

Many of the recent sales are believed to have been made in anticipation of the coke strike in the Connellsville region, which has affected the leading iron-producing sections of the country. No upward movement is prices has as yet been started, but the mar-ket is more active, with a firmer, tone and a stronger feeling. In pig iron it is difficult to give exact quotations, as there are many kinds of from in the market and almost as many prices. # A Flourishing Locality.

There is quite a movement in real estate down the Panhandle Railroad, of which little notice ever reaches the public. Straub & Morris report sales aggregating almost \$180,000 in the vicinity of Ingram and Crafton within 18 months. Wood, Harmon & Co, are improving their tract of 50 acree, bought last fall, between Sheridan and Nimick. Several other pieces of acreage are being brightened up. Building is active. John J. NEW OCCUPATION FOR WOMEN.

One Who Takes Charge of Brides' Houses

The woes of young housekeepers have

been described so often that it is remarkable

that a practical teacher of housekeeping has only just now arisen. One of the army of

women who had to do something for herown and family's support, and whose limitations

were defined narrowly, as she thought,

within the qualifications of a systematic

and skillful housekeeper, had the bright

idea to utilize her one accomplishment. For some months she has been established

in her unique occupation. She spends a fortnight or a month in the newly-founded

household, superintending the servants, ad-justing the details, and in fact getting the

domestic machine in running order and teaching the young housekeeper just what

touch to put upon the cogs and wheels in order to keep it so. It is a marvel that no-body has thought of it before.

## About Placing Any Very Large Orders in the St. Louis Market.

SPECIAL TELEGRAN TO THE DISPATCE. ! ST. LOUIS, Feb. 13 .- Rogers, Brown & Meacham say: Inquiries have been made freely the past week for small lots of Southern and Ohio iron. Buyers, however, hesitate making large purchases, but we find in most cases it is not the condition of the market that prevents them, but a lack of work. Should trade present a brighter future, consumers would find some difficulty in placing their orders at the current market figures. The miners' strike in the Convellsville district will prove a serious disturbance to the foundry trade generally, and will probably be a long-fought contest. We quote forcash f. o. b. say: The week closes with more signs of strength than have been exhibited in the market for several months. The buying improve ent has been heavier than has been witnessed for a long time. Stocks of Southern coke for a none time. Southern cokes from have been slowly diminished, and with an active demand and curtailed production, the turning point has finally been reached. There are buyers to-day of round blocks at 50 cents per ton higher than from was offered for January 1. The Connellaville cake arrike has something to do write the eoke strike has something to do with the activity of demand and the strength in prices. Stocks are also being steadily reduced and production in the country at large is at the owest rate recorded since September, 1889. It is believed that there is a foundation for a good heavy market from this time on. Ther ire those, however, who maintain that between are those, however, who maintain that between slack railroad demand, short crops, heavy pro-duction and large stocks on hand, there is little room tor any substantial advance. Charcoa from continue to erray, and prices are at per haps the lowest range ever recorded.

## NOT MUCH ACTIVITY.

Very Little Demand for Iron in the Chicago Market.

ISPECIAL TELEGRAN TO THE DISPATCH. CHICAGO, Feb. 13 .- Rogers, Brown and Merwin say: Only a moderate amount of activity has characterized the Chicago market during the past week. Transactions which have taken the past week. Transactions which have taken place have been almost exclusively in the way of lake irons, there being at present no demand for any size of Chicago brand. On lake irons, particularly those made in the Alahama dis-tivet, sellers are presenting a firmer front as to prices, there being less in the way of special cuts than for some time. While in-dications point to no material advance in prices in this line, it is apparent that nearly al-the special chers have now been picked up. Bener, show a large derease in stocks of fact, complete with the coke strike, may lead to a readjustment of values some time. May been expected. The matter is one of too much un-certainty, however, to permit making definite predictions.

don ngures, and Chicago Gas was sold on rumors of liquidation by a bull pool in the stock. On the other hand, the Susquehanna and Western stocks were again strong, the pre-ferred rising materially. The opening was lower in sympathy with the lower London market and under, the influence of the gold shipments, but the traders endeavored to rally the list in the early trading without much change. Manipulation in Sugar stocks was in the direction of lower figures in the forencon, and the new common stock was depressed from 75 to 72, and the receipts from St to S%c, giving a heavy tone to the regular list. Later there was a sharp reaction, especially in the last hour, when these losses were en-tirely made up and the preferred stock sold up to 88. The general list exhibited no recupera-tive bower, however, and the close was no more thang to for more than a fraction, though the advances among the active stocks are few. The trading in tuilroad bonds, also, showed a material failing off, both in the number of issues traded in and the aggregate of the sales, which was \$1,129,000. The market exhibited the same lack of vitality that characterized the dealings in shares, and while a heavy tone pre-valed, the changes were insignificant in all but a few cases. Losses are most numerous, how-ever, and Minneapolis and St. Louis accounds lost 4, to 51.
