POOR CROP PROSPECTS HELP GRAIN.

Bank Clearings Still on the Increase, but Not to a Very Phenemenal Extent.

TEPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, Feb. 13 .- The special telegrams to Bradstreet's show that general trade has improved moderately, though not uniformly, during the week. Sales of notions, leather, lumber, iron, coal and clothing have been less active. Leading price changes are an advance in sugar of 1/4 c per pound, and wheat Mc per bushel. Live cattle are also slightly higher. Pig iron production is 22,000 tons weekly less than a month ago, and 28,000 tons less than one year ago, without appearing to stimulate the demand. The strike of coke operatives and miners threatens to still further reduce the production of iron and steel, as well as the output in other industries using that fuel.

General trade at New York is not, on the whole, in excess of that of a year ago. Leading distributors in some of the more important staple lines report sales since January 1 not equal to those in a like portion of 1890. The outlook for spring trade is very generally reported favorable. There "has been no material change during the week at Boston, but at Philadelphia a slight improvement is reported.

The Week's Business Failures.

A satisfactory volume of business is noted at Cincinnati, Kansas City, Memphis and New Orleans. Conservatism continues to be shown at Omaha and Denver, and a decrease in volume of business at Chicago is noted.

Business failures in the United States during this week number 260, against 270 last week and 213 this week last year. The total from January 1 to date is 2,061, against 2,100 last year.

Railway share speculation in Wall street is narrow, and shows weakness on the ex-port of \$1,750,000 in gold to Europe, though the movement is encouraged by the absence of public and foreign buying and the slowness of the heavy interest combined on the bull side to advance prices. Reports of the consolidation of railroad interests are plenti-

ful, but the latter fail to materialize. Money generally throughout the country remains easy at comparatively lower rates, though at Kansas City 8@10 per cent is guoted. Mercantile collections are only fairly prompt. In the territory tributary to Omaha collections are relatively slow.

The Regular Bank Clearing Report. Bank clearings at 56 cities for the week ended February 12 are \$1,060,555,940, an in-crease over this week last year of 9.7 per cent. New York City's clearings, which constitute 59.5 per cent of the grand total, are more than those for the same period last

year by 14.1 per cent, while at 55 other cities the gain is 3.6 per cent. Gross rallway earnings in January are only moderately satisfactory, owing to a quiet trade and reduced grain and overland

cotton movement, the comparison being nec-essarily with January, 1890, when earnings were very heavy. The Northern Pacific and dumping ground in the two cities, and re-

Tin is purchased with caution only at 20.1 cents, and lead is inactive, at 4.35 cents. The demand for wool continues strong, and worsted grades are rusing. The commission merchants are extremely careful about credits. The trade in cotton goods is fair; print cloths stronger. The boot and shoe trade is improved as to volume, though prices are not highly satisfactory. Leather is firm. The gracery trade is fairly active, and in-

is firm. The grocery trade is fairly active, and in-dicates no decrease in the demand for con-sumption. Provisions have been a shade weaker, with a fall of 1% cents in corn, and wheat and oats have declined each a fraction on small sales, but coffee and oil are stronger and cotton unchanged. The low price of cotton tends to make trade dull at the South, farmers holding back for higher prices: but at New Orleans the general trade improves materially. At Nashville it opens very well, though buyers are cautious.

are caution Reports From the Leading Cities.

St. Louis reports a fair volume, but no im-provement, while Kansay City finds better wholesale and quiet rotail trade. At Den-ver and St. Paul, trade is fair; at Minneapo-lis, very active in lumber, with excellent logging prospects; at Omaha, without im-provement, and at Milwaukee and Detroit, and the Cheroland amount fairly and trade quiet. Cleveland reports fairly good trade in most lines, and pig iron alightly better, but 2,000,000 tons of ore are on the docks, half unsold.

Pittsburg notes better demand for mer-chant iron because of the strike, and good trade in bottle glass, but duliness in other branches of the glass business.

At Chicago wool receipts are more than double last year's, and there is some increase double last year's, and there is some increase in lard and cheese, but heavy decrease in corn and dressed beef. Drygoods, elothing and shoe trades considerably exceed last year's. Philadelphia reports improvement in wool and a fair trade in drygoods and clothing. At Boston general trade is good. Throughout the country the money mar-kets are comparatively easy and undis-turbed, though the demand is good and the month bardly adsonate at Clarabled and the

supply hardly adequate at Cleveland, and at Omaha the market is close. That city, Denver and Milwaukee are the only cities at which collections are reported slow; at most places they are fair or good.

The Only Doubtful District Manipulated

Into the Democratic Column MONTGOMERY, ALA., Feb. 13 .- The Senste to-day passed the House bill to redistrict the State into nine Congressional districts the number to which the new apportionment gives the State, based on the last census.

gives the State, based on the last census. The Legislature has divided up black dis-tricts by attaching black counties to white counties, so that a solid Democratic delega-tion is assured. The Fourth district, known as the Black Fourth, which has for the past eight or ten years been the bone of conten-tion and was doubtful, is now safely in the Democratic solume. Democratic column.

THE OKLAHOMA ELECTION.

A Judge Overrules a Technical Objecti

and Orders Votes Counted. OKLAHOMA CITY, O. T., Feb. 13.-Judge Clark, of the United States Circuit Court, has issued a mandamus to the County Commissioners of Oklahoma and Cleveland counties, ordering them to canvass the re-turns of the recent election and publish the

results. The decision is on the application of County Clerk Martin, who applied for an injunction restraining the Commissioners from canvassing the votes on the ground that no legal votes were cast because no act of Congress on the Territorial legislation provided for qualification of voters.

shown. Only one-fifth of the roads reported show decreases as compared with one-third in December. The aggregate gross earnings of 137 roads for January amount to \$35,568,-482 ou a total of 85,908 miles, a gain of 6.2 per cent in earnings and 3.7 per cent in mileses mileage.

Drygoods are only slightly better in de-mand from jobbers and agents. Cotton and woolen dress goods are active and prices are well held. Print cloths have advanced one-sixteenth of a cent. Brown sheetings favor buyers. The auction sale of 70,000 dozen hosiery and gloves resulted in satisfactory prices for the former and unsatisfactory prices for the latter.

Grain, Its Prices and Movements.

Wheat, which deelized, advanced on purchases by millers and exporters, owing to reports of extreme cold in the West and coufidence by many in the alleged shortage of the yield last year East of the Rocky Mountains. Not enough rain had fallen in California to the 13th inst. to insure wheat farmers' good yields. A continuance of the drouth will cause wheat, grapes and other fruit to suffer materially.

Exports of wheat (and flour as wheat), both coasts, this week equal 2,236,684 bush-els, of which 1,497,907 bushels were from the Pacific coast, owing largely to a desire to get rid of as much surplus wheat as possible prior to March 1, when taxes are assessed. Last year the week's exports equaled 1,517,775 bushels, and last week they amounted to 1,366,628 bushels. The total shipped from July 1 to date is 62,833,684 bushels. In 2889-90, for a like period, it was 66,234,418 bushels; in 1888-89 it was 59,989,608 bush-

els, and in 1887-88, 87,458,564 bushels. From Dominion trade centers word is received that there is a more active shipment of spring goods. The Montreal drygoods trade of 1890 is said not to have been generally profitable. There is an active demand at Toronto for wheat for export. The Dominion of Canada reports 38 (ailures this week, against 58 last week, and 40 this week last year. The total number from January to date is 331, against 322 last year.

According to R. G. Dun & Co.

R. G. Dun & Co.'s weekly review says: There is some improvement in business at the East and a more confident feeling, and at Chicago the tone is very hopeful; but at most other Western and nearly all Southern points business shows no increase in volume and is rather hesitating. The pay-ments through all Clearing Houses for January show scarcely any increase over last year, although the yearly and quarterly disbursements on ac-count of previous business were very much larger than a year ago, and the returns for February thus far exhibit substantially the same situation. It must be inferred that new business is, on the whole, somewhat smaller in volume than it was a year ago, notwithstanding the advance of about 10 per cent in the average prices of commodities

In part this is explained by the excep-tional activity toward the close of last year, but in part also by shortness of crops and doubts regarding the monetary future.
