#### THE PITTSBURG DISPATCH. MONDAY, FEBRUARY 16, 1891.

Dr. Taimage took for his text at the Brook-lyn Academy: "Faith without works is deed."...James ii: 20. The Roman Catholic Church has been charged with unting too much stress upon good works and not enough upon faith. I charge Protest-antism with patting not enough stress upon good works as connected with salvation. Good works will never save a man, but if a man have not good works be has no real faith and up works will hever save a man, but it a man to not good works be has no real faith and no genuine religion. There are these who depend upon the fact that they are all right inside, while their conduct is wrong outside. Their religion, for the most part, is made up of talk -vigorons talk, fluent talk, boastul talk, persettial talk. They will entertain you by the sour in telling you how good they are. They sume up to such a higher life that they have no automore with ordinary Christians in the plain b to such a higher life that they have no e with ordinary Christians in the plain, ge of their dury. As near as I can tell an craft is mostly sail and very liftle e. Foretopmast staysail, foretopmast in sail, maintepsail, mizzentopsail-ing from flying jib to mizzen spanker, king no userial rowage. Now, the world tired of this, and it wants a religion that religion that is diremnstances of hits.

has got tired of this, and it wants a religion that will work into all the diremistances of life. We do not want a new religion, but the old re-ligion applied in all possible directions. Yonder is a river with steep and rocky banks, and it rough bed. It does nothing but talk about itself all the way from its source in the mount in to the place where it ompiles into the sea. The banks are so steep the cattle cannot come down to drink. It does not tim one ferti-izing rill into the adjoining field. It has not one grist nall or factory on either side. It sulks in wet weather with chilling fors. No one cares when it niver is been among the rocks, and no one cover show it dues into the sea. But yonder is another river, and it mosses its banks with the other river, and it mosses its banks with the m tides, and it rocks with floral fullaby the aim tides, and it rocks with floral fullaby the atter filles asleep on its bassen. It invites heris cattle and flocks of sheep and coveys of birds come there and drink. It has three grist like on one arde and six cotton factories on the her. It is the weath of 200 miles of invariant time. The birds of heaven chanted when it is born in the mountains, and the ocean ship-siz will press in from the sea to had it as it used down to the Atlantic coast. The one ver is a man who lives for thems. Choosing the Site of Jaynalam

### Choosing the Site of Jerusal-m.

o you know how the site of the ancient city etusalem was chosen? There were two rothers who had adjoining farms. The one other had a large family, the other had no family. The brother with a large family said: "There is my brother with no family; he must lonely, and I will try to cheer him up, and I ill take some of the sheaves from my field in the night time and set them over on his farm nd say nothing about it." The other brother and " "My brother has a large family, and it is very difficult for him to support them, and I will bein him along, and I will take some of the heaves from my farm in the night time and set hem over on his farm, and say nothing about In over on his farm, and say nothing about So the work of transference went on night re night, and night after night; but every thing things seemed to be just as they were, though sheaves had been subtracted from h farm, sheaves had also been added, and brothers were perplexed and could not berstand. But one night the brothers hap-red to meet while making this generous helerence, and the spot where they met was accred that it was chosen as the site of the that it was chosen as the site of the that tradition should infounded, it will nevertheless stand as lifni allegory setting forth the idea that indivand generous and loving act , that is the spot fit for some temple

have often spoken to you about faith, but

number of fine ladies who drink too much is increasing. Perhaps you may find her at the reception in most exaited comjany, but she has made too many visits to the wine-room, and now her eye is glassy, and after awhile her check is unnaturally flushed, and then she fails into fits of exeruciating laughter about nothing, and then she offers sickening flatter-ies, telling some homely man how well he looks, and then she is helped into the carriage, and by the time the carriage gets to her home it takes the hushand and coachman to get her up the stairs. The report is, she was taken suddenly ill at a german. Ah! no, She took too much champagne, and mixed liquors, and got drunk. That was all. champagne, : That was all,

### Where Reform Is Needed.

trade

Why Men Fail.

Skinning Animals.

Yea, this practical religion will have to come in and fix up the marriage relation in America. There are members of churches who have too many wives and too many husbands. Society needs to be exporgated and washed and fumigated and Christianized. We have missionary cicties to reform Mulberry street, in New York, and Bedford street, in Philadelphia, and Shoreditch, London, and the Brookiyn docks; but there is need of an organization to reform nuch that is going on in Beacon street, and Rittenhouse square, and West End, and Brook-lyn Heights, and Brooklyn Hill. We want Iyn Heights, and Brooklyn Hill, We want this practical relation not only to take hold of what are called the lower classes, but to take hold of what are called the higher classes. The trouble is that people have an idea tney can do all their religion on Sunday with hymnbook and prayer book and liturgy, and some of them sit in church rolling up their eyes as though they were ready for translation, when their Sabbath is bounded on all sides by an inconsist-ent life, and while you are expecting to come out from under their arms the wings of an angel, there come out from their forehead the horns of a beast. Now you say, "That is a very heautiful

angel, there come out from their forchead the horns of a beast. Now you say, "That is a very beautiful theory, but is it possible to take one's religion into all the avocations and business of life." Yes, and I will give you some specimens. Medi-cal doctors who took their religion into every-day life: Dr. John Abercrombe, of Aberdeen, the greatest Scottish physician of his day, his book on "Diseases of the Brain and Spinal Cord," no more wonderful than his book on "The Philosophy of the Moral Feelings," and often kneeling at the bediside of his patients to commend them to God in prayer. Dr. John Brown, of Edinburgh, immortal as an author, dying under the benediction of the sick of Edinburgh, myself remem-bering him as he sat in his study in Edinburgh talking to me about Christian family phy-sicians in Brooklyn just as good as they were. Lawyers who carned their religion into their profession: The late Lord Cairns, the Queen's aivtiser for many years, the bicket legal au-thority in Great Britain-Lord Cairns, every summer in his vacailoe, preached as an evange-list among the poor of his country. John Ne-

thority in Great Britain-Lord Cairns, every summer in his vacation, preached as an evange-list among the poor of his country. John Mc-Lean, Judge of the Supreme Court of the United States and President of the American Sunday School Union, feeling more satisfaction in the latter office than in the former. And scores of Christian lawyers as eminent in the Church of God as they are eminent at the bar.

Inst among the poor of his country. John Michan, Judge of the Supreme Court of the Lenn, Judge of the Supreme Court of the American.
 Sunday School Union, feeling more satisfaction in the latter office than in the former. And scores of Christian lawyers as eminent in the bar.
 A Eulogy of Arthur Tappan.
 Merchants who took their religion into everyday life: Arthur Tappan, derided in his day because he established that system by which we come to find ont the commercial standing of luusiness men, starting that entire system, derided for it then, himself, as I knew him welf, in moral character A 1. Monday mornings inviting to a room in the top of his storehouse the clerks of his establishment, asking them about their worldly interests and their spuritual interest, establishment, asking them about their succenter A 1. Monday mornings inviting them a few words of good advice, asking them shout their worldly interests, whether they had any especial troubles of their spuritual interest, et and is encouples of their spuritual interest, then giving out a hyme, leading in prayer, giving them a tew words of good advice, asking them what church they attended on the Sabuat. Never, and other merchants just as good as they ware.
 Farmers who take their refigion into their occupation: Why, this minute ther horses and wagous stand around all the meeting houses in the store of a stand standing the stock, as the grazulty season draws here.

I speak to you about works, for "faith out works is dead." I think you will agree cupation: Why, this minute their horses and without works is dead." I think you will agree without works is dead." I think you will agree with me in the statement that the great want of this world is more practical religion. We want practical religion to go into all merchan-thes. It will supervise the labeling of goods, It will not allow a man to say that a thing was made in mo factory when it was made in monther. It will not allow the merchant to say that watch was manufactured in Massechasette. It will not allow the merchant fo say that wine came from Madeira when it came from California. Practical religion will walk allow by the two misrepresentation. It will the tags that make misrepresentation. It will lowing are prices paid by tanners and dealers: No. 1 green salted steers, 60 pounds and over No. 1 green salted cows, all weights..... No. 1 green salted hides, 40 to 50 pounds. No. 1 green salted hides, 25 to 40 pounds. No. 1 green sailed hides, 25 to 40 pounds No. 1 green sailed buils. No. 1 green sailed calfskins No. 1 green sailed veal kips No. 1 green sailed runner kips No. 1 green cows, all weights. No. 1 green cows, all weights. No. 1 green buils. No. 1 green hides, 40 to 60 pounds. No. 1 green hides, 55 to 40 pounds. No. 1 green hides, 55 to 40 pounds. No. 1 green hides, 55 to 40 pounds. No. 1 green calfskins. school with them. Mechanics who took their religion into their occupations: James Brindley, the famous mill-wright; Nathaniel Bowditch, the famous ship chandler; Elihu Burritt, the famous bla smith, and hundreds and thousands of str-

May. July. 4 92% 4 92% 4 85 4 70 5 17% 5 17% 5 12% 5 15 hait of reordary has not been large in results to jobbers of produce, groceries or cereals. The movement has been slow all along the line. The strike in the coke regions, and the fear of a shutdown of our iron industries, has very much curtailed volume of trade. An adjustment of these troubles, which is devoutly to be desired, would, without doubt, be a great impetus to trade.

An attempt which is somewhat novel, and as a matter of course, fails of perfection, has re-cently been made by Bradstreel's to tabulate the causes of failure in business. The princi-pal cause, as given, is lack of capital, and 40

Next on the list is incompetence, and cause. Next on the list is incompetence, and 20 per cent of the failures are attributed to this cause. Personal errors, with 18 per cent, comes next on the list. Reckless credit stands for 4 per cent; undue competition, 2 per cent, and it is a pleasant feature of the arricle that only 4 per cent of the entire amount of failures of the United States for the year 1880 were due to fraud. The total number of failures in the country for the year was 10,673, and 90 per cent of these were of firms having \$5,000 capital and under. The Northwestern Hide and Fur Company, of Minneapolis, in a recent circular, with valuable cuts, have furnished some important sugges-tions to killers of live stock. Carelessness or ignorance, or both combined, in the matter of taking the hide from the bullock entails heavy taking the hide from the bullock entails heavy losses, because it is of the greatest importance to the tanner that the hide should reach him in good shape. Here are some of the suggestions given in the circular, suggustions which are demonstrated by cuts showing the process: In skinning, the knife should run down to the arm-pit, then forward to the point of the brisket (not to the center, as many do). Do not cut the throat cross-wise; stick it the same as you would a hog. Split the hide on the head exactly in the center, take out the horns and tail bone (the tail goes with the hide, but not the bone). stopped all influence of the rumors of his scoped all influence of the rumors of his serious indisposition, and this, together with the tendency among all classes of operators to await the adjourn-ment of Congress before taking any action in a speculative way, intensified the prevailing duliness in the stock market to-day, and the trading was the smallest for any day for a long time. The bank statement was not so bad as expected, and while it showed a falling off of nearly \$1,800,000 in the surplus reserve, this result was accomplished entirely by an ex-pansion of about \$4.000,000 in the loans while money continued to flow into the banks, as proved by the increase in deposits. The traders who expected to make a demonstration against the market were therefore headed off, and nothing was done beyond the usual ordinary transactions.

"CAN I ASSIST YOU, MADAM ? " This is an every-day occurrence ; she is taken with that "all-gone" or faint

third sand. This well was a duster in the 109-foot. The Jefferson Center annex is beginning to attract the attention of the trade and this lo-cality in the inture will bear watching. Mr. Philips has a large scope of territory leased up which extends from Thorn Creek through to Great Belt. The veteran producer has great confidence in this territory and is sanguine that be will yet open up a pool which will rival Thorn Ureek. At present there is a production of 755 harrels a day. Hartman & Son on the Byrerly heirs' farm have seven wells making 500 barrels and T. W. Phillips on the Fisher has two doing 275 barrels a day. One of these is the gusher that came in four weeks ago at a 75 barrel an hour gat, but has now subsided to 250 barrels a day. Mr. Phillips has three wells drilling on the Fisher and one rig up. He also has a 'rig up on the Sweenev farm ioning the Fisher on the west and another on the Mrs. Catharine Barr farm. His No, L on the Barr, two weeks old, is making 50 barrels a day. This well is located 120 rods north of Fisher No. 2, which makes the territory be-tween the Barr and the Fisher walls look like wheat in the mill. His well drilling on the Bartner farm, 50 rods still farther northweat from the Barr and the Fisher walls look like wheat in the mill, will determine whether the pool extends any further in this direction; this is an important venture. Hartman & Sons, on the Barrely pfor 10 and H. On the James Logan, 40 rods sonthwest from Byrerly No. 7, the Associated Producers' Company are build-ing a rig. A SHARON SOCIETY EVENT.

Interesting Entertainment for the Benefit

of the Worthy Poor.

At the Sharon, Pa., Opera House, last

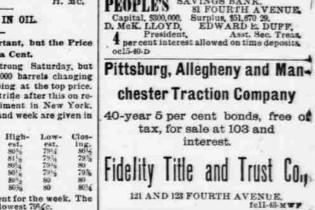

week, the young people of the different churches of that place combined to give a

character party and entertainment for the ben

efit of the deserving poor. Over 1,000 people were present, filling the house to overflowing.

The feature of the entertainment was "Fanny Squeers' Tea Party," from "Nicholas

Nickleby," and a sketch from "Hard Times"

feeling, while calling or shopping. The cause of this feeling is some deshopping. rangement, weakness, or irregularity incident to her sex. It matters little from what cause it may arise; instant relief may always be found by using LYDIA E. PINKHAM'S Compound It is the only Positive Cure and Legiti-mate Remedy for those peculiar weaknesses and aliments of our best female population. Every Druggist sells it as a standard article, or sent by mail,

Prt.

7

For the cure of Kidney Complaints, either sex, the Compound has no rival.

Send stamp for "Guide to Health and Etiquette," a beautiful illustrated book. Mrs. Pinkham f: ely answers letters of inquiry. Enclose stamp for reply.

ef. it will not allow the merchant to say watch was manufactured in Genera, crhand, when it was manufactured in characta. It will not allow the merchant that wine came from Madeira when it from tallformus. Practical religion will likew by the store shelves and tear off all gs that make misrepresentation. It will be the merchant to say that is more by the scote subscrepesentation. It will the merchant to say that is pure a dandelish root and chiccory and discuss go into it. It will not allow ay that is pure sugar, when there are d and ground glass.

### Workings of Practical Religion.

When practical religion gets its full swing in the world, it will go down the streets and it will come to that shoestore and rip off the ficti-tious soles of many a fine looking pair of shoes. and show that it is pasteboard sandwiched beween the sound leather. And this practical eligion will go right into a grocery store, and will pull out the plug of all the adulterated stups, and it will dump into the ash barrel, in ont of the store, the cases bark that is sold or common and the brickdust that is sold for systeme pepper, and it will shake out the russian blues from the test leaves, and it will from the four the test leaves, and it will it from the four plaster of parts and hon-clust and something and it will by chemical combines separate the one quart of Ridgewood water from the few horest drops of cow's milk, and it will throw out the live animalcules from

There has been to much adulteration of arti-To make been so much admitteration of arti-1 food that it is an annazement to me that is a healthy man or woman in America, on only knows what they put into the and into the sugars and into the butter the the apotnecary drug. But chemical wand the microsense have made won. . The Board of Health in analyzed a great amount of what i pure coffee, and found in it not one coffee. In England there is a law tids the putting of alum in bread. The ties examined a packages of bread and

est physician, writing a prescription, eas not know but that it may bring death in-ead of health to his patient, because there my be one of the drugs weakened by a cheaper where the second state of the second state of the second state of a second state of the second state of th tions firston was found to have 41 per cent of restnand alcohol and chloroform. Scanmony is one of the most valuatile medical drugs. It is trey tars, very precious. It is the sap or the gain of a free or a bush in Syrka. The root of the tree is exposed, an inclusion is made into the root and then shells are photed at this inclusion to catch the sap or the gain as it exides. It is very precious, this scanmony. But the peasant mixes it with cheaper material; then it is poken to Aleppo, and the merchant there mixes it with a cheaper material; then it comes on to the wholesale druggist in London or New York, and the mixes it with a cheaper material; then it comes to the retail druggist, and he mixes it with a cheaper material; and by the interest with a cheaper in the starting in the starting the mixes it with a cheaper material; then it is and he mixes it with a cheaper material; then it comes to the retail druggist, and he the poor sick man gets it into his bottle, issues and chalk and sand, and some of but has been called pute scattmony after divisions been found to be no scattmony at

### Coming of the Millennium.

Yes, this practical religion will also go into agriculture, which is proverbially honest, but needs to be rectified, and it will keep the armer from sending to the New York market real that is too young to kill, and when the farmer farms on shares, it will keep the man who does the work from making his half threeourthe, and it will keep the farmer from allding his post and rall fence on his neigh-or's premises, and it will make him shelter his out of the winter storm, and it will keep the edit of the winter storm, and it will keep the edit of the winter storm, and it will keep the edit of the winter storm, and storm and the in the new ground where noised years him. And this practical religion will hover over the house, and over the barn, and over the field, and over the orchard.

were busy trying to execute them. The stock opened rather weak at 10%, but al-more into the learned professions. The invocence and arraigang svil, and expounding the law, and it will keep him from charging for hiers be never wrote, and for pleas he never and, and it will deep him from charging for hiers he never wrote, and for pleas he never and and prome into the physician's life, and he will feel his responsibility at the conservator of the indic health, a profession honored by the tact that Christ himself was a physician. And it will make in him honest, and when he does not understand a case

### MONEY AND STOCKS.

or nothing.

Financial Movements Show That the Swing of Activity Is Upward.

The money market worked easily during the cek, and closed with an abundant supply of

funds for all purposes. While nearly all the banks reported accumulations, none of them were apprehensive of a plethora. The opening of the spring trade will develop new avenues for the employment of capital. The Clearing House report for the day and week is appended:

Week's balances. Previous week's exchanges. Exchanges week of 1800 The short session of the Stock Exchange Saturday was interesting from the fact of the ex-piration of the extended period for subscribing for preferred stock of the Electric Manufactur-ing Jounpany. There was a full attendance of brokers, and those having orders to buy or sell were bury trying to execute them. The stock opened rather was at 1012 but al-

were busy trying to execute them. The stock opened rather weak at 10%, but al-most immediately the shorts made a cash and brought a reaction which carried the price up to 13. The official close was 11% but on the open board 13% was offered. It was stated that Mr. Westinghouse would make a statement on Monday, the nature of which will determine the future of the stock. It is believed it will be fa-vorable.

## OIL IN BUTLER COUNTY.

MARKED DECLINE IN PRODUCTION ALL OVER THAT FIELD.

### But Little New Work, and That of Very Small Consequence-The Callery District About the Most Important of Any in the County.

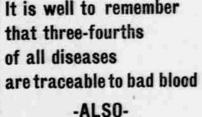

ISPECIAL TELEGRAM TO THE DISPATCH.1 BUTLER, Feb. 15 .- Butler county, like other sections of the oil domain, in the aggregate is declining both in production and new work. The Jefferson Center Annex, however, is the only point that shows an increase, but upon the whole there is a conspicuous absence of interest and activity. The total production of the Butler field is approximately 350,000 barrels a month, which is a marked decline as compared with 30 days ago. The Hundred-foot district is going down, and within the past month has fallen off 20,000 barrels. This decline is mostly in the Little Creek district, where in August and September

the production was 170,000 barrels, is now only 70,000 barrels per month. Some of the big wells struck here four months ago, which started off at 125 barrels an hour, are <text><text><text><text><text><text><text><text><text> now only pumping 100 barrels a day, while the same ratio of decline is noticeable at the

Squeers' Tea Party," from "Nichelas Nickleby," and a sketch from "Hard Times" entitled "School Scenes." The characters were all in good hands. Solos, dnets, etc., were numerous and well rendered. The young peo-ple are going to form a permanent organization, without regard to sectional difference, to find out all deserving objects of charity, to do what they can to help them along. The net proceeds were \$125, and the sum will be disposed of al-most immediately. Aanong those who took part in the evening's entertain-ment were Frank Test, Katy Murchie, Emma Clark, Luzzie Maxwell, Clara Filer, Delna Hartley, Carrie Scott, Edna Hamilton, Mary C. Bundel, Katie Taylor, Alice Bowman, Ada Metcalf, Maud Orchard, Anna McCor-mick, Stella Morrison, Marie Williams, Laura Warrender, Emma Brady, Annie Grace, Tessie Carver, Maggie Jones, Lizzie McDowell, Essie Liddle, Katie Porter, Katie Bundel, Annie Baldwin, Emma McKay, Mary Lee, Ida Rus-sell, E.
