bills to-night, which would result in great saving to counties in the expense of running criminal courts. One of them allows jurors to dispose of costs in all criminal cases except those triable exclusively in the courts of Over and Terminer. In cases of unfounded prosecutions in petty larceny, instead of com-pelling the payment of costs by the county, as at present, the jury or grand jury could compel the prosecutor to pay costs. The other act overrules the Kishbaugh

appropriations, the wear and tear of the plant, the inferiority of the books and their greater cost than better books in the market.

case, decided by the Supreme Court, in which it was held that in criminal prosecu-tions, where a defendant was acquitted or the bill ignored and prosecutor seatenced to pay costs, he can be discharged without payment of costs or any imprisonment. The result of this is that no eriminal will pay costs and the counties are com-pelled to pay the costs. This bill proposes to compel every criminal sentenced to pay costs, and either to do so or go to jail. Many thousands of dollars will be saved to the counties if these bills become laws.

TAXATION OF CHURCH PROPERTY.

The American Secular Union Trying to Create a Sentiment for It.

ISPECIAL TELEGRAM TO THE DISPATCE. HARRISBURG, Feb. 18 .- The American Secular Union is trying to create a sentiment among members of the Legislature in favor of a modification of the Constitution so as to include in the list of taxable subjects church property, from which, it is maintained, a yearly revenue of \$30,000,000 A House Committee Appointed to Look could be obtained by imposing a 2 per cent tax on its full value. The system of ex-empting church property fram taxation in denounced as unjust and oppressive and in utter disregard of the most obvious obliga-tions of morality—a kind of deadheadism of which honorable men should be ashamed. The individual is compelled to contribute

to the support of churches just as much as his own tax is increased in consequence of the exemption of church property from tax-ation, the Secular Union says. It is needless to say that the movement of the body is not making much impression on the legisla-

HABRISBURG, Feb. 18 .- The frequent rebuffs which the advocates of female suffrage have received at the hands of the Legislature have not discouraged them, for they have concluded to make another struggle for the franchise at this session. Mrs. Lu. cretia M. B. Mitchell has written a letter to Senator Thompson, of this county, in which she refers to his ardent advocacy of the cause of women several years ago, and asks him to extend his fatherly care to a bill that the disfranchised women propose to submit to the Legislature.

Mrs. Mitchell expresses the hope that at no distant day this will be a real republic, that is when the fair sex have the power to wield the ballot
