re. More furnaces are about to be put in including Shout's, Dixon's and Coltness', and warrants have averaged slightly and atites rather lower, riematite makers are ping furnaces, with a view to re-ng stocks and lessening the influence runt holders upon the market. Latest ere at 46s, 10d.@46s, 11d. for Scotch; 41s, s. 10% d. for Creveland, and 50% for hema-line West Cumberland Works, at Work-are about stopping, owing to slackness mand. There is no improvement in the

In the demand. There is no improvement in the demand for old iron, and some holders are effering at lower prices. Quotations as low as least it, a b, have been made on flanges. Hock the was firm early in the week, but free selling against liberal shipments from the straits subsequently caused a dowward move-ment, and the market has latterly shown weak-ness, with comparatively little outside specu-lative interest. Merchant copper sold at as high as 2% for promuts early in the week, but decined later to 522 Hz, owing to the falling off in the demand for warrants. Euro-pean spet stocks have decreased 50 tons and the visible supply 1069 tons during the past forting has sold fur-mice material included 300 ions outanamatte at 106 per unit. The the market for the blase the feeling is still builts and the demand is good, although American buring shows less spirit. The probability of a quieter demand from the states in June is already being anticipated by roome makers, however, who are making some concession on prices for that month and later deliveries.

A DIMINISHING DEMAND.

The Coke Market in the Worst Condition

here were no works running, save W. J. ney's and the other shipments comprised stock coke. There are no visible signs of an resumption of operations, and trade get to an even lower ebb. No was sent to Pittsburg and river implies last week, as the demand from the consumers of that district could not be supplied, on account of the general shut-down. Western and Eastern shipments, how-ever, presented a better showing. The stock-houses generally of the consumers are well filled, and they will not need roughenishing for a new works at least. Trade has seldom been in such a predicament. The de-mand has been steadily diminishing antil it is really nothing, and right on its hoels comes a general suspension of work by the employes. This is the tale of woe of an eperator who spoke to THE DISFATCH merespondent to day. "The coke trade has not been so depressed for years. No change has occurren in the conditions since the region has been so depressed for years. No change has occurren in the conditions since the region has been adle. The few furnaces in operation have a large supply on hand, and will not need any fuel for three or four weeks. There is not a single ray of hope for an im-provement. Of course depressions will strike us, but this one has hit us too hand. This premy to be the universal expression among the producing companies. The market has been having a rocky road to travel for some muchts. When every sign of a hoom was dis-played it recoived a set-back by the car furnine, which was followed by a phenomenal falling off in the demand. tupples last week, as the demand from the consumers of that district could not on was followed by a phenomenal falling off mand.

tions were few and far between. Tansactions were rew and far between, lining, the only operator who has a to operate is precluded by having to a Meyer plant because of the far in the His F. T. Hill works are making full ut operators at the Fault plant are con-ductioned. There was a superfluity last week, and not the least sign of a d. Shipments were arain quickly dis-Shipments were again quickly dis-all lines. W. J. Rainey operated each of his four plants. There are, with the most conservative estiemuraces those that are actually idle. The Schoonmaker Company will adel the United works of 300 ovens and re-id the shaft, which was recently destroyed inc. Simplicate last week averaged 200 cars fire. Shinoments last week averaged 200 cars of day, is comparison with 900 cars of the evides week. The degreese was 3,656 cars, llowing was the record of consignments: To outs west of Pittsburg, 1,140 cars; to points at of Pittsburg, 600 cars; total, 1,760 cars. This the proceeding week's record : To points west Pittsburg, 2,256 cars; to Pittsburg and river Pittsburg, 2,256 cars; to Pittsburg and river one, 1,850 cars; to points east of Pittsburg, 200 cars; total, 4,366 cars, Prices are the same, follows : Parinage coke, \$1 %; foundry, \$2,30; calser, \$2,66, Freught rates are as follows: Pittsburg.

NEW YORK STOCKS

Trading Almost Entirely of a Professional Nature-Insignificant Changes at the Close-Silver Firmer-Wheeling and Lake Erie Down.

NEW YORK, Feb. 19.-The stock market to

day presented the same general features as a of the past days of the week, the trading Thos being almost entirely professional in its nature, white, except in the few stocks which were weeks. The Board of Directors of the Exchange yesterday decided to suspend trading in Consignee Mining Company's stock, pending investigation of the non-assessable clause in the certificates, subject to special manipulation, the fluctua-tions were scarcely perceptible. The opening which some claim has been violated. The annual meeting of the Tuna Oil Com-pany will be held next Tuesday. this morning disclosed as pathetic a condition of affairs as ever existed, but the bears saw an opportunity to cover some of their shorts put out in the last few days, and an attack was Eight permits for new structures and addi-

made upon the Villards and New England, under cover of which demonstration there was ions were taken out yesterday, descriptions of William Thomas, frame two-story and attic dwelling, 20x34 feet, on Lytle street, Twenty-

under cover of which demonstration there was considerable buying of both Borlington and Rock Island, as well as of St. Paul. North American fel' the pressure most severely, but yielded only a fraction. With the exception of the Industrials these were the only stocks in which there was any movement of interest, the new Sugar preferred stock dropping 1½ and recovering ½. Silver was firmer, the impression that the speculative clouds which have hung over the market have been removed tending to stiffen the price. The pressure to sell was abated all along the line in the has hour, and a stronger tone was de-veloped, the market closing dull but firm at in-significant changes in all the list, except Wheeling and Lake Erie preferred, which lost 1 per cent and New England, which lost ½. Rairoad bonds were also extremely duil, but again showed a firm tone, and some of the more third ward. Cost, \$2,200. Franz J. Zwenke, frame addition two-story dwelling, 12x17 feet, on South Seventeenth street, Twenty-sixth ward, Cost, \$250. Baitimore and Ohio Railroad Company, frame one-story freight house, 24x100 feet, on property off Water street, Second ward. Cost, Charles Schwann, frame one-story shop, 15x

again showed a firm tone, and some of the more active issues scored gains which, however, in but few instances are of special importance. The sales were \$597,000.

The sales were \$597,000. The following table shows the prices of active stocks on the New York Slock Exchange rester-day. Corrected daily for THE DESTAICH by WHITNEY & STEPHENSON, oldest Pittsburg mem-bers of the New York Stock Exchange, 57 Fourth \$200. No. 6, and to-night is making from six to ten barrels an hour. Greenlee & Forst's No. 1, six acre lot, is producing 16 inches an hour, and No. 1, same farm, is making four inches. Ire-land & Hughes, on the Bryanttarm, are from 10 to 12 feet in the sand, but as yet have no oil. The Kanawha Oil Company, on the Hoffman, expect to hit the sand by Saturday, and have No. 2 Fogel ready for the drill.

Against the Burdick Oil Bill. FRANKLIN-The producers and refiners of

this district have just awakened to the fact that the Burdick bill, now before the Legisla-ture, is a measure in which they are vitally interested. The general opinion, as ascertained from personal interviews with a large number

from personal interviews with a large number of producers and refiners, is that the bill, as it now stands, would work an injury to the refin-ing and producing elements of the State, and they fail to see wherein they would be benefited in the least by its becoming a law. It would be the death blow to the independent refiners, as they would be unable to get the railroads to carry their oil to the seaports as rapidly as they can by the rapid transit lines, which, under the provisions of the bill, would be 8 cents per barrel, and a discrimination of about 20 per cent in favor of the seaboard re-fineries. Many of the small producers profess to see in the passage of the bill the destruction of their business. of their business.

Activity in Ohio in Prospect.

NEWPORT-On the Ohio side of the river. opposite the old Belmont field, there is consid-erable activity and a large amount of new work contemplated as soon as spring opens and the roads become passable. Ackerley & Sammell roads become passable. Arkerley & Sammell are running two sets of tools and are getting ready to commence five new wells. The well at Archie Forks, on the Davis farm, has made an average for the past week of 18 inches a day in a 250-barrel tank. The parties who own this well have another down 1,000 feet near by. The striking of the Archie Forks well has stimulated new work, and in the course of a few months this quarter of the field will present a lively appearance. The Programs of McCurdy Wells The Progress of McCurdy Wells.

MCCURDY-The gauge of Palmer's No. 2 to day is 60 barrels an hour, and the parsonage lot 35 barrels an hour. The church lot well is on top the sand to-night, and will not be drilled on top the sand to-night, and will not be drilled in until some time to-morrow. Gailey & Mel-ion, Scott No. 2, have got the five-inch casing m. The well is 2,200 feet deep and drilling in the Gordon sand. The same company will put the five-inch casing in their Dougherty farm well to-morrow, and are down 2,200 feet with the old Riddle well and fishing for a sand-num.

ing Bid. 18% 43 pump. A Wildcat of the First Order.

EVERGREEN-It is reported that Harry Highlands has a well in the third sand, with 300 or 400 feet of oil in the hole, located on the Thompson farm, about seven miles southwest of Semple station, and about two miles west of J. M. Guffy and Queen's well on Little Run creek. This venture is a wildcat of the first order, and if there is any truth in this report it is also a very important well, and should be closely watched. closely watched.

The Production in Callery Declining CALLERY-The wells at Callery are showing a marked decime. The following are the gauges a marked decline. The following are the gauges for the past 24 hours: The Rahl & Barger is doing 50 barrels a day; Webber & Co., 40; Geoh-ring & Co., on the Deemer, 90; the same partles on the Richardson, 50; Burton & Co., 60, and the Forest Oil Company, Marburger, 59.

Harmony Now a Back Number.

HARMONY-The Harmony field is now considered a back number. The total production is not more than 225 barrels a day. The Hoyis well is doing 60 barrels a day; Sutton No. 2, 100 barrels; Latshaw, 50 barrels, and Niece, 20 barrels.

Jefferson Center Falling Off.

JEFFERSON CENTER-Phillips' gasher has declined to an even 200 barrels a day. It will be shot as soon as the gas becomes more ex-hausted. Hartman's No. 7 is pumping 75 barrels in 24 hours, while his Nos. 8 and 9 will be due in about two weeks. H. Mc.

 MINNEAPOLIS—The fine prospect for wheat in the leading winter wheat States and the low relative prices of wheat in Europe as compared with ours, were the cause of large selling and prices fell to the point fixed for the sale of privileges yesterday. When the carly break came in futures, buyers of spot held off of the market a little to get the benefit of its break in the cost of samples. Then, when there was a slight raily they bought freely, and the competition held, prices rose to May futures, and instead of getting a wider spread between the two, the difference was further narrowed. The closeness of the two would not be cause of complaint with millers, they say, if they could export a part of their patents so as not to crowd the domestic trade with an overproduction. The range was mostly about 1c under May for spot cars. Closing quotations: No. 1 hard, February, 99c; on track, 94/sc; No. 1 Northern, February and March, 92c; May, 94/sc; on track, 93/sc; No. 2 Northern, February, 94/sc. **GRAY'S SPECIFIC MEDICINE**
