## THE LOSS IN WAGES.

What the Ten-Days' Strike in the Coke Regions Shows.

THE MEN ARE OUT \$227,500 CASH.

A Plan to Change the Government of the City of Youngstown.

POWDERLY REPORTED IN GOOD HEALTH

IMPECIAL TELEGRAM TO THE DISPATCH, T GREENSBURG, Feb. 22.—The coke strike at the end of the tenth day showed a loss to the men in wages of \$227,500. This sum is correct, as it was given by one of the largest operators in the region, and is arrived at on the basis of \$1 75 per day for the 13,000 men involved. With one year of prosperous labor behind them, the strikers have not yet come to actual need. When they do the desense fund in the hands of the United

Mine Workers will provide for them. On the side of capital the operators have been heavy losers. The production for ten days would have amounted to 122,400 tons at a cost of \$280,000 in round numbers. As the loss falls on but few operators, on the one mad, while it is divided up among thousands of men on the other, these figures certainly give the men the best of it.

### ANXIOUS FOR A HUSBAND. A Maine Young Woman Describes the Kind She Would Like.

SPECIAL TELEGRAN TO THE DISPATCH. GREENSBURG, Feb. 22.—Some time ago when part of the Frick Coke Company's ovens were closed and some of the men laid off married men were given the preference on account of

having families to provide for. A report was then circulated to the effect "that all single coke workers had agreed to get married by March i." This rumor spread far and wide. It reached New York, and some of the leading papers came out in editorials commenting on papers came out in editorials commenting on it, and saying that the Frick Coke Company had ordered all their unmarried employes to take unto themselves a wife before March I.

This reached the ear of a young seamstress on the Eastern coast of Maine, and a few days ago an officer of the Frick Company, who resides in this place, received a letter from the young woman, saying that she had beard that wives were wanted in this section, and that she was desirous of visiting Western Pennsylvania. She would like if the officer would send her the address of one of the employes, about 25 years of age, who must be 5 feet 6 inches tall, and have light hair and brown eyes. The young woman then gave a very minute description of herself, and ended by requesting the officer to reply as soon as possible. The officer has the letter in his possession yet, but has not sent the desired information.

SENTENCED TO ONE YEAR. A Franklin Tough Who Tried to Kill an Oil

SPECIAL TRLEGRAM TO THE DISPATCH. FRANKLIN, Feb. 22.—Tom Hughes, an all-around thief, was yesterday sentenced to one year in the Western Penitentiary by Judge Taylor, on the charge of attempting to kill an Oil City policeman. Sheriff Ray immediately left for the penitentiary with the prisoner. Hughes is suspected of having had a hand in the several safe blowing scrapes in this vicinity.

It is now believed that the attack on the turnkey at the jail on Thursday evening was made
with the intention of liberating Hughes. This
city is still in a fever of excitement over that

It seems that at 7 o'clock Harry Wood, the turnkey, was in the barn working, when two men crept upon him in the dark and knocked him down with a club, after which he was chloroformed. They then took his keys and started for the jail, Two ladies gave the alarm, and the men fied. ## FLOODS IN THE WEST.

RIVERS HIGHER THAN EVER BEFORE KNOWN IN ARIZONA.

The Salt River Valley Swept By Raging Waters and Much Property Destroyed-Five Indians and Several White People Known to Have Been Lost.

TEMPE, ARIZ., Feb. 22.-Salt river valley has just been visited by the greatest flood on record. The storm is general over the country. It swept over Arizona with a deluge of rain, raising mountain streams to torrents and the rivers far above flood levels. Last Thursday morning Salt river had risen 17 feet above the ordinary level at a point 28 miles above Phonix. At Tempe, on the Southside river, a railroad bridge was swept entirely away, cutting off communication with Phonix. A little south of Phonix, the river left the channel and overflowed a number of farms, cutting out the railroad track. Many farm buildings crumbled away. Frame structures floated off. The northern edge of this flood, which is about 1 mile wide and 3 feet deep, entered the city of Phoenix, flooding out many poor

The Territorial Insane Asylum had a narrow escape, the water being banked off. The electrical works were flooded and the town left in darkness. About 100 adobe houses fell in as soon as the water soaked through, and a large amount of personal property was thus lost. Measures for relief of the needy have been taken. The river began to fall Friday afternoon, and has nearly reached the normal height. The loss is not less than \$125,000, of which one-third falls to the railroad company. About five miles of track were washed away and a bridge destroyed. Five Pima Indians living near Lehi, 20 miles east of Phonix, are the only persons known to have been drowned, though it is believed a white man and family living on an island north of Phoenix

A dispatch from Holbrook says that a disastrous flood is prevailing there. The little Colorado is very high, overflowing its bank in places and changing the channel. The railroad is washed out in several places, causing the track to be moved and trains delayed. All the streams south of here are unfordable. The stages are unable to make their trips and the mails are accumulating here for points south. The Gila river i higher than ever known. At San Carlos the telegraph line is in the river, and communi-cation is cut off from the south. The flood at Globe City destroyed several dwelling houses. William Middleton, an old and much-respected resident of Globe City, was

The Bogus Cherub Named for Marie Jansen and Bessie Sanson, Who COMPARE NOTES AND WANT REVENGE

CINCINNATI, Feb. 22 .- Miss Bessie Sanson, of the Little Puck Company, sat in her room at the Burnet House after the perform-

ance last night, gossiping with Miss Marie "I got such a pretty letter the other day,"

said Miss Sanson, "and it is about a baby being named after me." "How nice," replied Miss Jansen; "and what a strange coincidence! Do you know that I received just such a letter, too, and a baby has been named after me? Let's see

"Here it is," said Miss Sanson; "and I have decided to buy a handsome frock for my little namesake, if the weather would only get so I could go out shopping."

Then she handed over the missive, which
Miss Jansen read very carefully. The letter was postmarked Columbus, February
16, 5:30 P. M., and was as follows:

A Very Interesting Missive. HUDSON, O., Feb. 16, 1891.

MISS SANSON—I beg you to excuse the liberty I take in writing to you. I do so at the request of my wife, who requested me to inform you of an incident which transpired yes-terday. We have a little daughter who has lived in this big world for 16 months without being able to lay claim to any other name than

lived in this big world for 16 months without being able to lay claim to any other name than Pet. We have searched many youlmes of fact, fiction, etc., but failed to come to any agreement and were almost discouraged. But yesterday, when I came home, my wife met me with a smile and informed me that she had found a name for baby. We are both very great admirers of the stage and stage people, my wife being formerly a teacher of painting and music, and a member of an amateur opera club in Cincinnati, where we formerly resided. So when she informed me that she had given our juvenile offspring the name of Bessie Sanson St. John I was not greatly surprised. She was always a very great admirer of yours and enthusiastic over your talent in your chosen profession. I now at her request write to inform you of this fact and request you for her to write a few lines with your signature attached for our baby to read in the years to come, when she is a grown woman, Our children are now both named for stage people. Our boy of 8 is named Edwin Booth St. John. Mr. Booth was playing in Philadelphia on his own birthday when our boy was born. On account of this coincident we named him for Mr. Booth. I was then in the newspaper business, and the cuty papers commenting upon it, it caught Mr. Booth's eye. He called on his namesake, left him an autograph letter and an elegant souvenir locket. He has since been to see him twice, and seemed to take a great interest in him. I am now in the railroad supply business, traveling most of the tim. I will trespass upon your time no longer, remaining respectfully, WALTER B. ST. JOHN.

Marie Jansen's Letter. "Wait until I get my letter," said Miss Jansen, and in a minute or two she returned from her room with the letter she had received. It was not only in the same handwriting as that to Miss Sanson, but the language was exactly identical, even to the little mistakes in punctuation and spelling. The postmark was also the same, showing that the two missives had been dropped into the mail-box at precisely the

"They are both from some horrid swin-dler," commented Miss Sanson in a tone of "Yes," replied Miss Jansen, "and it is just like the work of that Baltimore man who swindled all those Senators and promi-

nent politicians by pretending to name his babies after them."

"And to think that he should pick out un-suspecting young girls like we are," added Miss Sanson, more angry than ever as she considered the heinous scheme from that standpoint. "O, if the newspapers should ary 23, at 2 o'clock P. M. Interment private.

ret hold of itl I should be so mortified."
"And I, too," shuddered Miss Jansen. "Let's send for Mr. Murray," proposed Miss Sanson, "and tell him all about it, so

if the reporters really must have the story they can get correctly all the facts." Manager Murray was at once summoned and given the letters and a statement concerning their receipt.

"I propose to prosecute the base swindler to the limit of the law," said Mr. Murray last night, "and have written to 'Doc' Free-

man, our advance agent, who is now in Columbus, requesting him to exercise all his ingenuity in trying to find this Mr. St. John. 'Doc' is very clever, and I have no doubt we shall soon receive news throwing light on the affair."

## THE MULE MUST GO.

Crude Petroleum to Be Used as Motive Power on Canal Boats. Buffalo, Feb. 22.—The picturesque and plodding mule who has for years laboriously tugged canal boats from Buffalo to Albany will soon pass into history as the king of the towpath. The canal boats running between this city and the east are to be furnished with propellers and with crude oil as fuel. The steam canal boats now running burn an enormous canal boats now running burn an enormous amount of coal, and experiments made to-day show how cheap and effective the oil fuel is.

The experiment was highly successful. The oil was placed on the deck in iron cylinders and fed into the furnace through a small pipe. By the introduction of steam, the oil is converted into gas. Eighty pounds of steam were raised in a short time and the amount of crude oil used was about one-half in proportion to the same quantity of coal. Enough crude oil can be stored in less room than the same amount of coal. The inventor claims that 12 barreis of oil will run a canal steamer to New York easily.

ZEIGLER-On Sunday, February 22, 1891, at 440 P. M., VIRGINIA ZEIGLER, only child of Jacob and Elia Zeigler, aged two years, three months and 20 days. But now alone I sit, Musing of her, and dew with mournful tears Her little robes, that once with woman's pride I wrought, as if there were a need to deck

What God had made so beautiful. I start, Half fancying from her empty crib there comes A restless sound; and breathed the accustomed "Hush ! hush thee, dearest." Then I bend and weep—
As though it were a sin to speak to one

Whose home is with the angels.

## Protect Your Horse.

Horseshoeing being a most important opera-tion, it is necessary that all shoers should understand the construction and diseases of the foot. The want of knowledge and skill of shoeing often generates many diseases, such as corns, quarter and center crack, which are very annoying. Attention given road, track and interfering horses.

I also manufacture a HOOF OINTMENT, guaranteed to keep horses feet in good condition.
